Eftersom det blir plats över skall jag nämna lite om en reds vedermödor. Ni kanske märkte att det var dålig marginal i förra numret. Hade tänkt att köra fotostaten med cirka 7 % förminskning, tyvärr så hade färgframmatningen pajat så jag fick ta till den andra utan dessa finesser. Min skrivmaskin lämnade oxå in efter sista bullen, ramla i golvet efter slarv. Denna 75 kronors Olympia gör bra ifrån sig eller hur! Kanske skulle det inte skada med turbo på den som skriver dessa rader.

Hej på Er, och på återseende hoppas jag!!!!!

Anyway, it will be interesting reading for you, when I'm ready with my check. Not at least for some SWBers." ALL TIMES IN UTC
