Nr 1066
Next nr
890214

Editor 1066-1068: Jerry Johansson, Orrstigen 19, 144 00 Rönninge, tel 0753/53078

Nu tyx det vara hög tid att börja kolla upp de högre frekvenserna igen eftersom antalet solfläckar stiger dramatiskt. Speciellt 25 mb verkar gå bra just nu. I februari är det dax för karnevalen i Rio och då kan det ju vara trevligt att lyssna på lite härlig samba musik från t ex Guaiba-11785 och Gaucha-11945.

Mest inrapporterade QSL till detta nr är BBC Indian Ocean Relay Station, som har svarat med stencil direkt från Seychellerna, v/s Peter J. Loveday, Senior Transmitter Manager. Adressen är: Grand Anse, Mahé, Seychelles. Om det finns utrymme på slutet tar jag med en förminskad kopia av stencilen.

Olle Alm blir först att inrapportera BBC Seychellerna-11750 med stencil samt Radio New Ireland-3905 brev. Tack för kopian (JJ)

Torre Ekblom tillhör också dom lyckliga som fått BBC Seychellerna-17885.

Björn Fransson- har fått IRRS Milano-3943 brev, v/s Anna S. Boschetti, Radio Valera-4840 stort QSL-kort, dekal efter 2 m, v/s José Silinio Perez, director, Radio Centenario La Nueva-4855, brev, dekaler, info efter 2 mån, V/s Pedro Salces Ruiz, director samt La Voz de los Caras-4795 långt brev efter lår o. 3 mån på f/up v/s Ing Marcelo Nevárez Faggioni.

Harry Högberg- har synpunkter på rapporteringsplikten i SWB. Han anser att det måste vara en skyldighet att bidra, men menar att då intresseområdena varierar starkt blir det en fördel för den allround-intresserade eftersom något gått att rapportera hela tiden. Den som liksom HAH har LA som favoritområde har haft/har problem med att höra stationer som är värda att tipsa i SWB denna vinter, speciellt då medlemmarna uppmanas att själva göra strykningar. Dessutom kan en station vara bra i ett nr och strykas i ett annat. Han menar att den verkliga aktiviteten (antal timmar vid mottagaren) kan vara långt högre än vad bidragsmängden visar. Det finns säkert många synpunkter på detta med rapportering, men något påtagligt måste man ju ha att gå på när man fastställer vilka som får fortsätta att vara med. (JJ). Även HAH har fått BBC Seychellerna-11750.

Per Erik Tell får många QSL. Svar har inkommit från R Tezulutlan-4835 kort, lapp och stencil. Land nr 150. Vidare har kommit Voice of the Mediterranean-11925 kort, Radio Ulan Bator-12015 kort, vimpel, RRI Surakarta-4932 kort, Radio San Miguel-3310 brev, standar, IRRS-3945 datautskrift (tråkig), Radio UAE Abu Dhabi-6170 folder, dekal o. trevligt brev.

Dan Olsson har lyckats få svar från La Voz del Cinaruco-4865 kort brev och vimpeln.

Ivar Stormo rapporterar svar från Radio Murmansk-5930 med brev, v/s Д.В.Передерий som nämner att de fått brev från en viss Олле Альму. Dessutom har även BBC Seychellerna-11750 svarat.

Info

AUSTRALIA The ABC Brandon transmitters are about 6 months from completion./R Australia

BHUTAN According to the BBC Monitoring Sce Bhutan is still on 6035 kHz where it was heard in English at the beginning of January /BD
Intends to use its new 50 kW transmitter in March or April. /SCDX

NEW ZEALAND The government of New Zealand has announced that an upgraded Radio New Zealand International is to be on the air in 1990 to coincide with New Zealand's 150 years celebrations and the Commonwealth Games in Auckland. The service will initially broadcast 11 hours a day in English and Pacific languages using 100 kW transmitters which will replace the current 7,5 kW transmitters. The transmitters are to be located in central North Island southeast of Taupo. / SCDX and Radio Australia/Communicator.

TONGA Radio Rhema will start MW- and FM transmissions in June. Shortwave transmissions from Radio Rhema is yet a long time goal. / Radio Australia

GUAM KSDA is now on 13720 kHz. Can be heard in different languages between 2200-0200 and 1000-1700 hrs. In English between 1000 and 1100 hrs./BD

Hello again ! Last number was inhibited due to lack of info, but now I have it.
So lets go right ahead:

ALL TIMES IN UTC

- BOLIVIA 4699.7 R Riberalta heard here in late October announcing 4775 kHz says JA. Has also been reported on 4899 Nov 5th by DC.
4901.5 R San Ignacio, San Ignacio de Moxos heard Nov 11th by JA. PAMPAS via TK
- BRASIL The new state of Tocantins has been established. The new state earlier formed the northern part of the state of Goias. The capital city is to be elected between Gurupi, Porto Nacional and Araguaina.
11830 R Anhanguera is now here x11735.
15215 R Timbira do Maranhao is inactive on this frequency.
5980 and 15165 Ceara R Clube is inactive on these frequencies.
6105 R Cancao Nova is on the air according to a letter from Padre Jonas, Director.
3265 Radio e Televisão Sentinela da Amazonia, 68.250 Obidos, PA is a new CP with a power of 1 kW.
6160 R Rio Mar is now here //9695
CRM via TK
- COLOMBIA La Voz del Cinaruco celebrated its 20th anniversary 1988 with a big card and a big standar. Informing frequencies as 1050 with 10 kW, and 4865 with 5 kW (not 1 kW) according to QSL, this from Zet. ZJ
4945.4 R Reloj, Neiva can no longer be heard with its MW program on this frequency. CARACOL, Cadena Basica, has replaced the MW px, and the same program can be heard on 4755 and 6150.2 says HK. DISTANCE-R 17
6760 R Patria Libre, unknown QTH heard with political leftwing news. DISTANCE-R 16
This reported in PAMPAS-DX
- BOLIVIA 4799.5 R Rumbø Caravaca, San Ignacio is a new station noted 0000-0030 in South America says Glenn Hauser via PLAYDX.
4856.7 R El Condon, Uyuni heard in LA with px in aymara. PAMPAS-DX
DISTANCE-R 16
- HONDURAS 4755 Sani R now belongs to AVANCE Asociacion de Promocion y Desarrollo Socioeconomico with address Apartado Postal 2040, Tegucigalpa, D.C. according to QSL. Reg. office: San Pedro Sula, but reply came from Tegucigalpa. ZJ
- MEXICO 6010.4v R Mil noted Dec 29 2313-0043. Nice surprise to find this reactivated. Poor to fair signal, terrible QRM from 3 hets. Gradually became stronger and dominating the others by 0030. ID at 0033 "R Mil, XEOB(?) y XEOI, onda larga y corta. Transmitiendo desde la... estudio en... Mexico. En... de MRM, Mexico R Mil". UTC-6 timechecks says Allen. NU 991
- PERU 4881.7 OAZSH R Nuevo Mundo, Pucallpa, "La Radio uno", is new here with 1 kW. Listed on 1300 kHz. 24 h schedule on SW. RNM
5618.2 R Ilucan is only active Sundays. via DISTANCE-R 17
4418 R Frec. Lider, v/s Valentin Peralta Diaz, gerente-propietario, though businesscard is that of Carlos Antonio Peralta R., administrador. Address is Jorge Chavez 416, Bambamarca. Power is 850 watts. Began 880228, Lazarus.
5283 R Onda Popular, v/s Carlos Enrique Minchan Rios, administrador. Address in letter is Jiron A. Guillermo Urrelo 644, Cajamarca, which seems to be v/s home. Power is 250 watts says Lazarus. NU 989

PERU

3450.2 R Oyon. According to a letter from Mr. Aurelio Liberato Alfonso the stn is in the first stage of testing (in Peru the licenses are given in two laps: 1st - the installation and testing stage, 2nd - is the definite license for a period of 10 years, renewable). The equipment is peruvian-made, with an ERP of 1000 watts. Studios are located at Avenida Huanuco 144, Oyon, Provincia de Oyon, Departamento de Lima. Mr Alfonso is the owner and manager. He has previously been the owner of R Los Andes in Tayacaja, Province and R Esmeralda in Huanta Province. The licenses of those stns have been cancelled by the government, as Mr Alfonso didnt have a "carnet" of the party then in power at that time (Accion Popular). JA via PAMPAS

4300.7 R Grau, Huancabamba heard on Nov. 11th says JA. The station has been announced as Jiron Grau 403, Huancabamba. PAMPAS

4485.1 R La Voz de Celendin, Celendin heard here by JA. PAMPAS

5146.8 R Estrella, Huanuco heard here testing late October and beginning of November. Frequency was announced as 5175 kHz. All according to JA. PAMPAS

5700.1 R Frecuencia San Ignacio heard here in late October. Frequency was varying between 5699.9 and 5700.1. Heard by JA. PAMPAS

5284.9 R Comercial Cosmos, Bambamarca heard here announcing the frequency as 6690 according to JA. PAMPAS PAMPAS via TK

4800 R Onda Azul, Puno heard here in late November. Thus active again after the attack. ADXL ADXL via TK

VENEZUELA R Nacional de Venezuela will start international programs on Dec 4th, 1988 in six languages, Italian, Portuguese, German, English, Arabic and French. The transmissions will be directed towards Europe, Canada, northern Africa and the USA. THE RADIO NEWS via TK

SWEDEN Jack Kotschæk, the man behind Radio Nord is dead. R Nord was the pirate ship that stole most of the audience from monopoly R Sweden in 1961. The government introduced a law that stopped him, but he had already given us music-radio on the monopoly R Sweden. They started that to try and compete with Jack Kotschæk. EXPRESSEN 881210 via THE

INTERNATIONAL VACUUM The satellite ASTRA has started to test over Europe. On Feb 1st Filmnet will begin, Feb 5th Sky Channel, Sky News, Sky Movies and Eurosport will begin. Soon to follow is TV3, MTV, Lifestyle/Screensport a.o. The satellites total capacity is 16 channels, each of 45 watts. SB

Dear Mr Alm

Thank you for your reception report dated 12th December 1988. I can confirm your record of our transmission, which was as shown in your letter.

This station is the latest addition to the BBC's group of relay's around the world. It started transmission on the 25th September 1988, the service area is from Ethiopia in the north, to Mozambique in Southern Africa.

You may be interested in some technical details about the station.

- Transmitters - 2 Marconi 250Kw with fully Automatic tuning and remote control.
- Programme Feed - Via Intelsat X from London, 10 metre dish and earth station on site.
- Antennas - 6 Marconi wide band arrays each covering 4 Short Wave broadcast bands.
- Feeders - Kabel Metal 9 inch coax.

Best wishes.
