Hej igen kära SWB:are. Detta nummer blir ett mediokert och avslaget nummer. Tipsen är tyvärr inte så många och bidragen få. Några tappra hör alltid av sig tack och lov. Skall villigt erkänna att jag själv inte har kollat banden med någon större idoghet. Även QSL spalten blir en mager sådan.

Christer Brunström har fått kort ifrån VO Broad Masses Eritrea.

Björn Fransson. Förutom svaren lite information: KHBN 9830 gav mig land nr 200! Nyhet: De sänder endast på 9830 kHz, men är igång med EE 2330-0100 och 1200-1430. Off the air-times: 0100-0800 resp 1530-2000. Democratic Voice of Burma 17840 efter diverse detektivarbete via Norska Televerket. Svarade med nytryckt QSL-kort! Adress: P O Box 6720, St Olovs Plass, N-0130 Oslo, Norge Sänder med 500 kW på 17840 kl 1430-1525 UTC daily. Hörs dåligt på Gotland, trots styrkan, beroende på att jag får lite av första hoppet, som televerkskillen skrev. I Burma hörs station med bra fältstyrka. Allt med Björns egna ord.

Därmed får det bli loggen - allt UTC.

Att Dario Monferini

18.10.92

Thanks for nice bulletins. I have some info for you, hope you can use some of it.

### Clandestine stations

New Voice of Ethiopian Patriotism was heard with strong signals on 21785 kHz 18.10.92 from s/on 1530 with short orchestral music into male giving ID including "... Admas Ethiopia Yeager Fikir Dimts" continued giving metre bands. The half hour was talk and talk - also about the "Christopher Columbus" jubilee - all in Amharic, with items separated by very short orchestral music bits. At end of transmission, a Washington DC address was given. Closed at 1559\* after music bit right into Radio Moscow interval signal.

The BBCM says 1st observed 4 Oct.; sch: \*1530-1600\* Sundays & Wednesdays on 21785, 17570 kHz, with ann'd metre bands as 16, 19, 25 and 31. I heard 21785 kHz //11975, 15580 kHz (both very weak under strong international broadcasters) whereas 17570 kHz was completely empty. This new station is run by the Coalition of Ethiopian Democratic Forces which was established in the USA in April 1991. It attacks Ethiopian EPRDF and Eritrean EPLF and claims that the Ethiopian elections in June 1992 were rigged, says BBCM. Addresses announced are 1) Voice of Ethiopian Patriotism, P.O.Box 5077, S-163 05 Spanga, Stockholm, Sweden; 2) Coalition of Ethiopian Democratic Forces, P.O.Box 21307, Washington DC 20009.

Also the Democratic Voice of Burma is audible here, with very weak signal despite it coming from Kvitsoy-Norway because of direction. Heard 17.10 +1500-1523\* with female and male alternating, ID "Democratic Myanmar a-Than", all Burmese programming. Acc to a telephone conversation with Björn Fransson in Sweden, he just received a newly printed QSL-card from this station, via address: P.O.Box 6720, Skt Olavs Plads, N-0123 Oslo, Norway. 17840 kHz again in use, after a while on 17845 kHz, now occupied by strong REE. Fax No.: 47 211 4988.

The Voice of Independent Kashmir audible here +1700-1733\* 17.10 on 4079.9 kHz; also heard 18.10 on same frequency, this day also noted with very weak signals on //5000 kHz.

The Voice of Iraqi Kurdistan heard lately on 4180 kHz, a move from 4175 kHz. 17/10 +1738-1803\*; Kurdish. Fair.

The Voice of Iranian Kurdistan now on 4025 kHz 1635 past 1700; 17.10; gave ID as "Inye aira dangi Kordestani Iran" in Kurdish at 1758.

Iran's Flag of Freedom Radio has moved a bit, now on 15625 kHz (ex 15620) - this day found no parallels (maybe didn't try hard enough, hi). 17.10 1650 in Farsi. Weak/Fair.

V.O.the Mojahed found on 7450 kHz //5073.2 kHz 18/10 0425. Fair. Didn't look for more parallels.

Voice of National Salvation strong in Korean on 4120 kHz 1630 strong //4449.9 & 3481 both very weak. 17.10
