

SHORTWAVE BULLETIN

Nummer: 1349, 27 april 1997. Deadline nästa nr: 9 maj 1997 (fax & email 11 maj 0800).

Kors i takel! Detta nummer kommer en aning försenat i din brevlåda. Maken till krångel och strul får man leta efter. Hårddisk-krasch på den ena datorn kombinerat med programkonflikter på den andra, så där blev det att börja om från början så att säga.

Ingen skada skedd hoppas jag. På internet fick jag dock ut bullen sent om sidor på rätt datum.

Konventet ligger illa till datutekniskt i år, så eder redaktör kan inte komma tyvärr. Det blir första gången som det händer. Inget att göra åt. Familjekonventet i samband med långhelgen måste gå före för en gångs skull.

QSL

Ove Fransson: Time flies. Inte så mycket att bjuda på, men skam vore det om man, dvs jag, inte ändå ropade ett litet hurra för mitt 195:e land, Georgien. Hoppas du tar med mitt PNG-QSL oxo, det som inte nådde dig i tid till förra numret. Alltså: QSL: V o Hope, Georgien-7520, k info. Det här får bli en riktig blåsnabbis: R West New Britain - 3235, personligt brev, min första lokalpapuan. V/s Ruben Bale, Provincial Program Manager

Christer Brunström: Radio For Peace Internacional -7385 brev och broschyrer; AIR Jaipur -4910 kort; The Voice of Hope Georgien -7520 stort kort.

Kenneth Olofsson: Radio Andes -4777 med en stencil. V/s Francisco Quisbert Salinas.

TDP SW-97, the "Transmitter Documentation Project".

We would like to introduce to you a publication about all the shortwave radio broadcast transmitters installed all over the world, named the TDP SW-97, the "Transmitter Documentation Project". This booklet is in fact a database about shortwave transmitters with their locations, geographical coordinates, number and power of transmitters, name of the transmitter manufacturer, type number, year of installation and year out of use. In addition, a wealth of statistical information is provided and some articles on transmitter manufacturers are also included. TDP is in its 4th edition now and is read year after year by DXers, radio stations, transmitter manufacturers and consulting engineers.

Not convinced yet? Be sure to have a look at the TDP homepage, which you can find at <http://www.ping.bc/tdp>. Here you can find press releases, references, reviews, links to other related web-sites, ordering information, a.s.o.

By the way, TDP SW-97 can be ordered in Sweden. Your orders can be sent to Olle Alm, Tjädervägen 6A, SE-871 65 Härnösand. For prices and methods of payment, look at the link "Ordering Information" on the TDP homepage. Try it out! You will be surprised about the wealth of information concentrated on 80 pages for such an interesting price! 73s Ludo Maes

BOLIVIA 4630.8 R 11 de Octubre, slightly down on their previous fq, Apr 19, 1029, Rosary.

BOLIVIA 4854.9 (t) R Centenario La Nueva, Apr 14, 2349, with Luis Palau, heard only for a few minutes when RTTY was silent.

BRAZIL 11704.9 Caught part of canned ID at s/off, Apr 19, 2159, after a 30-min. prgr called "Resposta franca" containing suggestions on how to tackle problems of living together in marriage, "... a sua R Transmundial pela Nova Visao, de Santa Maria, Rio Grande do Sul, uma emissora da Fundacao Brasileira da Comunicacao". Call signs given as ZYE857 5965, and ZYE858 11705, which is different from what the WRTH says. During the Q and A prgr, short references to "RTM" were noted as well as in-between ID's saying "Esta e a sua R Transmundial" and "R Transmundial, a radio que esta com a palavra". Fair signal.

BRAZIL 11724.8 Canned ID Apr 18, 2130, "as ondas curtas da R Novas de Paz, ultrapassando barreiras e chegando ate voce", followed by "Cruzada misionaria" prgr. Fq's mentioned in ID were 11725 [not so in WRTH], 6080 and 9515 kHz. Sudden s/off 2200 after TC for "7 horas". Fair signal.

BRAZIL 11965.1 R Record, Apr 19, 2110, "Sabado esportivo". Poor-to-fair.

PERU May 11 is Mother's Day ("dia universal de la madre") in Peru, which is an excellent occasion to look for Peruvians on extended sked. Certain Peruvians have been heard gearing up for the event, by reading names of moms that can expect to be greeted on the air.

PERU 4004.9 R La V del Campesino is gone.

PERU 4419.3 R Bambamarca "Frecuencia Lider" has sent me a very kind letter, inviting me to come and visit during their anniversary celebration next July. The envelope also contained five photographs and a very nice pennant, all in exchange for a letter and a subsequent live interview on the phone for the stn's midday newscast (their studio phone number, effective Feb 1 this year and ann'd on the air, is +51 74 713249). Carlos A. Peralta says they will put yet another signal on SW, on approx. 4300, in a few weeks time. The stn will be called Estacion Norte. The new R San Juan, on 4420, has not been bothering too much, he said.

PERU 4830.6 R Lircay once more in the clear during R Tachira outage, Apr 19, 2230-2320.

PERU 6797.8 R Ondas del Rio Mayo has been using a 1 kW Petrick tx for about a week only. The tx was recently brought back from Lima, said mgr Edilberto Peralta Lozada when I called him on the stn's brand new phone, +51 94 560006. He was happy to learn that they are getting out a lot better now than before. In canned ann'cts, the stn says they are on MW 1490, call sign OBX9N, and 94.5 FM stereo. SW is not mentioned, though. [Just for the record, the cordillera next to Nueva Cajamarca is called Mamanhuasi, not Huamanhuasi, Peralta explained]. In principle, Peralta will QSL, "but some letters are lost in the mail, you know", he said.

CHILE. Status of inactives: 9630, R. Agricultura, no budget for SW, but interested; old 10 kw SW xmtr was modified for MW and sold. 9750, R. Minería, xmtr and antenna sold for scrap. R. Portales [9570, JB] still has xmtr, but antenna taken down in 1990; no plans for SW, financial difficulties. R. Universidad de Concepcion [6135, JB], financial problems, SW xmtr needs some tubes, antenna okay; on FM only now. (Asenjo-Chile in Cumbre, via WWDXC TopNx)
