

SHORTWAVE BULLETIN

Issue no. 1670 June 28, 2009.

Deadline e-mail next issue: 0900 SNT, July 12, 2009.

I takt med att värmen kommer så blir SWB magrare och magrare. Det är väl kanske inte mer än väntat då radiolyssnandet nu är på riktig lågnivå. Kanske all kraft går åt i värmen att planera inför semestern.

Vi skall själva göra en liten tripp på några dagar via ön Sylt och sen köra längs den tyska kusten till en av de större ostfrisiska öarna, Norderney. Hela bältet av de frisiska öarna är relativt okänt för andra än tyskar och holländare. Det verkar som man vill ha dessa pärlor för sig själv. Norderney tar t ex själv emot c:a 400000 besökare per år!

En annan liten tripp som planerats blir till Oslo för att hälsa på grabben som jobbar fram till hösten på Gardemoens flygplats.

Det är bara att hoppas att sommaren kommer att fortsätta på den inslagna vägen – just nu är det 27 gr varmt på söndagsförmiddagen!

Alla tillönskas en skön och välbehövlig semester!

Keep on

=====

Jubileumstidskriften: <http://www.hard-core-dx.com/swb> (html- + pdf-version).

QSL, kommentarer, mm.

Christer Brunström: Monaco Radio bekräftade mina rapporter på **8728 och 13146 kHz** med ett blad med en vacker vy över Medelhavet. **WEWN Birmingham AL 15610** kort.

KBS World 9515 kort och schema. Denna sändning kommer direkt från Korea. Jag vill samtidigt tipsa om lördagsprogrammet kl. 21.00 UTC på 3955 kHz. Mot slutet ingår Kevin O'Donovan's Listening Tips. **Radio Brest 6070 epost** från Larisa Suarez på Radio Station Belarus i Minsk.

Jag har nu slutat arbeta för gott inom skolans värld. Förhoppningsvis blir det nu mer tid över till radiolyssning.

Kurt Norlin: Först kommer några tips. Jag har faktiskt lyssnat lite på sistone då jag nyligen lagat den nerfallna och trasiga Delta-loopen. Några QSL har det inte genererat ännu. Det kanske kommer. Jag kommer troligen att besöka Skåne ännu en gång. Detta då vi har vänner där och min hustru har fyra kusiner och dessutom en barndomsvän nere i Malmö. Vi kanske skulle ses då det skulle vara intressant att diskutera dina erfarenheter av Perseus. Den verkar ha stora fördelar DX-mässigt men inte helt perfekt på mjukvarudelen jämfört med SDR-IQ. Vi får se hur det blir.

Slutligen tillönskar jag dig en riktigt trevlig midsommar!

Så till lite välbehövlig DX-information:

För den som vill ha lite koll på vad som händer på radio- & tv-fronten, så finns det ett antal sidor på nätet som är mer än väl värda att ha koll på. Jag nämner bara några stycken personliga favoriter vilka kollas nästan dagligen:

Guy Atkins, Five Below: Mediumwave and tropical band DX-ing with the Perseus SDR receiver <http://perseus-sdr.blogspot.com/> Blandat mellanvåg, kortvåg och teknik

Bjarne Melde, Arctic DX <http://www.arcticdx.blogspot.com/> Mest mellanvåg, men också mycket teknik. På en annan av Bjarnes sidor, Kongsfjord DX Home <http://www.kongsfjord.no/> finns en hel del från KONG expeditionerna men också alla intressanta artiklar signerade Dallas Lankford – The Dallas Files.

Ken Baird, Ken's TA-DX Corner <http://www.ayrshirehistory.eu/tadx/> Mycket mellanvåg, men också en hel del annat som TV-DX, FM, teknik, mm. Ken har bl a nu i juni sett transatlantisk TV, troligen CKCW MONCTON, NB, 100KW CH A2. Ken skriver nästan dagligen i sin blog, kolla under All DX logs.

I juni-loggen har han ett intressant inlägg om hur lätt det är att ha koll på sin granne när man är radiolyssnare - *IS YOUR HOUSE BUGGED?*

Anders Hultqvist, DX Perseus <http://dxperseus.blogspot.com/> Koncentration på MV. AHK har tagit en välbehövlig paus från lyssnandet, bygger fler antenner för MV och återkommer starkt till hösten.

De Radioaktiva <http://deradioaktiva.blogspot.com/> Koncentrationen ligger på transatlanterna på MV under vintern.

Är det fler sidor som är av intresse, glömda ovan, så tar jag tacksamt emot sådana tips.

2379.96			Radio Educadora de Limeira "possibly the one" with carrier 0950 to 1010 22 June,..... 0920 21 June [Wilkner]
2485			VL8K Katherine NT seems the best received of the three in Florida during 10 to 20 June. [Wilkner & Cedar Key]
3250			Radio Luz y Vida , San Luis 1110 om and yl in English Spanish translation of the Gospel. 15 June [Wilkner]
3255			Radio Educadora 6 de Agosto , Xapuri seemingly, with Portuguese threshold signal 0900 to 1000 on 20, 21, 22 June. [Wilkner]
3275			Unid. Papua New Guinea [?] 1110 to 1130 on 15 June [Wilkner]
3279.79			La Voz del Napo Tena 0948 to 1005 with excellent signal, yl with interesting percussion orientated music. Ecuador is almost directly south of our QTH and produces some surprising signals. Good synchro locks on this emisora and 3320, less good on 4814.9. June 22 [Wilkner]
3345			Tentative Papua New Guinea , Radio Northern 1030 music on 15 June, per John Herkimer tip. 0830 on 12 June. [Wilkner]
3390			Bolivia seems long gone with the last good log by Dave Valko. [Wilkner]
4451.2			Radio Santa Ana continues to produce a weak signal to 1138 to 1150 sign off. Off 2348 on 23 June [Wilkner]
4716.65			Radio Yura , Yura producing weak signal at 2345 [Wilkner]
4746.08			Radio Huanta 2000 Huanta Ayacucho noted at 2330 [Wilkner]
4781.73			Radio Tacana , Tumupasa 2320 to 2330 with poor signal, 15 June, thanks Lúcio Otávio Bobrowiec log and tip. Same 16 June at 2320. Not observed since 22 June. [Wilkner]
4783.08			Unid signal at 1020 to 1035 on 16 June may have been Radio Tacana with wandering transmitter? [Wilkner]
4796.4			Radio Lipez , Uyuni 1000 22, 24 June. [Wilkner]
4800			XERTA 1126 VERY quick full ID by om in between music "XERTA Radio Transcontinental" 24 June [Wilkner]
4825			Radio Canção Nova [?] 0924 per tip by Dan Sheedy. 21 June [Wilkner]
4826.45			Radio Sicuani , Sicuani was there, in lsb with steady signal [Wilkner]
4828			ZBC Zimbabwe 2320 to 2330 on 22 June with music fading in and out, 3396 Z. with some audio but unable to determine any parallel.
4835.42			Radio Marañon Jaen 1020 with rooster crowing, modern music, one almost hip hop , " conocer..programa de alagria ...telephone 9-0-7-...." Strongest Peru on 60 meters 24 June. [Wilkner]
4857.50			Radio La Hora Cusco with pgm of music, good signal at 2310 to 2330. 22 June [Wilkner]
4865			Brasil 1017 very strong with om religious while looking in vain for Bolivia Radio Logos. 24. On June 23 had weaker signal with possible Spanish at 2340, yl but too weak for any determination. [Wilkner]
5004	27.6	2156	Radio Bata tycktes stänga vid denna tid efter att ha spelat salsamusik. 3 CB
5039.19			Radio Libertad Junin 1030 - 1045 om in between music selections, reliable signal but not ever heard 2300 to 0200. 24 June [Wilkner]
5580.25			Radio San Jose . San Jose de Chiquitos noted with fair signal 2340 to 2350 on 23 June; also 21 June [Cedar Key & Wilkner]
6040	27.6	1500	Oblastnoye Radio är det nya namnet som används för regionalsändningen från Hrodna. Denna kväll ett musikprogram. 2-3 CB
6070	22.6	1500	Radio Brest med regionalsändning fram till 1600. Gick ovanligt bra. 2-4 CB
6104.77			Mérida XEQM 1200 to 1330 with yl and om between music ; Local station from here, 25 June [Wilkner]
6173.8			Radio Tawantinsuyo , Cusco seems silent or overwhelmed by co channel stations [Wilkner]
7125	27.6	2005	Radio Conakry med nyheter på franska. 2 CB
7145	27.6	1800	Radio Hargeisa med somalisk musik. 3 CB
7165	27.6	1730	Radio Éthiopie med nyheter på franska. Denna gång fanns också Eritrea på samma frekvens. 2 CB
7530	13.6	1500	Free North Korea Radio öppnade sina sändningar. KN
9930	13.6	1459	KHBN Palau stängde här efter id. Svag! KN
11560	4.6	1331	North Korea Reform Radio med orapporterbart program. KN
15345	25.6	2130	RAE med enbart non-stop musik pga en teknikerstrejk. 3 CB
15650	4.6	1510	Miraya FM hyfsat här. KN
15790	4.6	1655	BBC Darfur Salaam med arabiska. KN

Stationsnyheter

LAOS. 7145, LNR (presumed), 1335-1355, June 26. In English; must have signed off at 1400, as not there at 1403; poor. Almost certain it was Laos, as I have heard them here in the past. Today had above average reception conditions for Laos (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DX LISTENING DIGEST)

Email from Mauno Ritola (June 27):

"Hi Ron, You are right! I can hear French now at 1310 via a remote rx and also have a faint carrier here at my QTH." Later he confirmed sign-off was at 1400. So while there still was no positive ID, it certainly seems to be them. Laos on 7145 had been off-the-air for a while, so both of us are glad to hear their reactivation! (Ron Howard, Asilomar Beach, CA, June 27, dxldyg via DX LISTENING DIGEST)

TAIWAN. 9774, Fu Hsing BS (tentative), 1245-1300*, June 16. Thanks to a tip from Dan Sheedy (So. Calif.), I heard this station that is not often reported. Mostly talking in Chinese; played one EZL song in English; weak with adjacent QRM. Results of Dan's monitoring: *0800-0820 and *1100-1115, June 13; 0950-1000*, June 8; 0832-1000*, June 7; with Chinese programming. On 13th & 15th Dan had positive 9774 // 9410. Between both of our logs, am fairly sure it's them. Schedule: 0400-0600, 0800-1000 and 1100-1300 (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DX LISTENING DIGEST)

Övriga radionyheter

Taiwan radio fun facts!

In some ways the advantages of living in a place that is not recognized by the UN and has only a small hand full of diplomatic relations, 23 to be exact. Can be a good thing. Here in Taipei and the rest of Taiwan there is less than 10mins an hour about MJ. The same as with radio.

Some interesting facts about Taiwan, ROC (Republic Of China) radio & television.

Taiwan's population is 23 million people. But yet we have:

1. Seven 24 hour news channels.
2. 200 radio stations.
3. Taipei has 86 satellite trucks for live feeds.
4. 89 pirate stations a few are LP, but the majority are HP.
5. 187 local channels on cable.
6. Both the AM and FM bands are packed.
7. 2 free off air sex channels (co owned by Japanese companies)
8. A number of shops where you can buy both AM and FM transmitters.
9. 1 local english station, 1 local japanese station, 1 local korean station
10. 2 fishing radio stations

It's very annoying to listen to radio here.

At Central Broadcasting where I work on one of the domestic channels in Chinese. Two floors up is very interesting. They flood has Falun Dafa Radio, Chinese International Radio (broadcast only to China on AM), Freedom Radio (broadcast only to China on AM) and one which seems to change names every few months. With in the building we call this floor in Chinese "ghost floor", because these are not official Taiwan stations. Or you could say we see them, hear them, but high level officials won't admit to them.

A few years ago there was one interesting station that has since left the airwaves after only 3 years on air. It was called China National Radio, yes just like China's China National Radio. The station was set up in 1990s to broadcast to China on AM. The staff was made up of Chinese born in China, but who had since got US passports. The idea of the station was to broadcast to China from Taiwan, but make people in China there were listening to CNR. Chinese with US passports were hired, because they had mainland accents. You could say a Chinese version of Radio Marti. It was short lived because the jamming from China was so strong that there was now way to pick it up outside Taiwan so it was axed.

Do you want to open a radio station here it's easy. 1 you just need the money, 1 you can start broadcasting without a license. The Ministry Of Communications only take action if you interfere with with signals from large stations and airport, police, military transmission. Last year Taiwan's largest newspaper Apple Daily discovered that pirate stations were generating more revenue than commercial licensed ones.
