

# SHORTWAVE BULLETIN

Issue no. 1773, June 9, 2013.

Deadline e-mail next issue:

0900 UTC, June 23, 2013.

Årets DX-Parlament har avhållits i Göteborg. Läs härintill och på markerad länk vad som avhandlades. Det är inte alldeles lätt att hålla DX-tidskrifterna igång.

DSWCI håller sitt AGM nästa helg i Ishøj, söder om Köpenhamn. Eftersom den danska kungliga huvudstaden bara ligger ett rejält stenkast från Ängelholm så har jag tänkt åka ner en stund på lördagen och träffa de danska DX-arna. De flesta har ju varit med länge men är bara kända till namnet. Skall bli intressant att höra hur man bedömer den framtida verksamheten inom DX-ing.

Anker Petersen har också utlovat en demo på sin nyinköpta Bonito.

På vägen ner passar det bra att göra ett stopp i Christianshavn på Cibi e Vini som är en av stadens mest kända vinhandlare. De är specialiserade på italienska viner. Goda viner försvinner som alla vet ganska fort.....

**Glad midsommar!**

**Keep on ....**

=====

## QSL, kommentarer, mm.

**Christer Brunström:** Jag hoppas att du hört att Björn Fransson erhållit stipendiet till Johan Berglunds minne i samband med DX Parlamentet i Göteborg den 1 juni. Bengt Dalhammar fick dessutom en utmärkelse av DX-Vännerna som fyller 50 år nu under 2013.

Nya QSL: **Radio Free Asia Saipan 15410** kort, **Voice of Korea 11545** kort och tidning, **HCJB Weenermoor 3995** kort och brev. Trevligt sommar!

*Jo, jag har noterat det. Här kommer lite mer info från DX-Parlamentet i Göteborg som gick av stapeln 31 Maj till 2 Juni 2013.*

*Många saker var uppe till diskussion och ett mycket välskrivet reportage finns att läsa på denna länk: <http://ndl-dx.se/20130531-0602/index.htm> med text och foto av Claes CON Olsson.*

*Under festmiddagen delades det första stipendiet från Johan Berglunds minnesfond ut. Detta gick, mycket välförtjänt till den mångåriga kämpen och gotlänningen Björn Fransson. Förbundets bronsplakett erhöll Alf Persson, dito i guld tillföll Bengt Dalhammar och SDXF:s avgående ordförande Owe Nordin.*

*SWB önskar alla pristagarna ett jättestort grattis för dessa utmärkelser. Ni har verkligen gjort er förtjänta av denna uppmärksamhet. Det är dessutom trevligt att konstatera att alla är eller har varit medlemmar i SWB.*

*Det är också intressant att läsa i CON's reportage att det inte är alldeles lätt att få den nya DX-Aktuellt (före detta EA), i ett enhetligt utförande. De två första numren har kommit ut och det ena producerades i Sverige och det andra i Norge. Båda redaktionerna har satt sin egen prägel på utgåvorna. Om jag förstår det rätt, så lider man dessutom av samma svårigheter som för de flesta andra DX-publikationer, SWB inräknat, att hitta formen för innehållet. Det är inte heller lätt att mönstra redaktörer för de olika spalterna, de unga aktiva har så mycket annat för sig så man kan fråga sig vad som händer när åldern tar ut sin rätt för de inblandade där ett antal ligger långt över pensionsstrecket. /TN*

**Arne Nilsson:** Stationen på 5014,7 hörs inte alls bra här. Men det gör ingenting annat heller just nu.

Så jag har passat på att få igång min AFEDRI igen. Den har inte varit på sedan några månader, faktiskt.

Jag kör med SDR-Radio v1.5 och plötsligt slutade det fungera. Felet visade sig vara det klassiska: Brandväggen!

Nu funkar det igen och då passade jag på att ladda ner SDR-Radio v2. Den känns ganska trevlig, bättre ljud än med v1.5. Dessutom kan man ställa Gain direkt från programmet vilket gör det mycket smidigare än med den gamla versionen.

Däremot finns ingen scheduler på den så att man kan ställa in tidsbestämda inspelningar! Hoppas ngt kommer så småningom.

Det är däremot väldigt tyst om Studio 1. Blev den inte vad man hoppades på (och betalade för!)? Vad jag vet har inte heller AHK dragit igång den. Jag kan däremot väl tänka mig att betala en slant för SDR-Radio då den är klar. Den passar väldigt bra för AFEDRI och man ska ju också kunna köra Perseus med den. Har du testat?

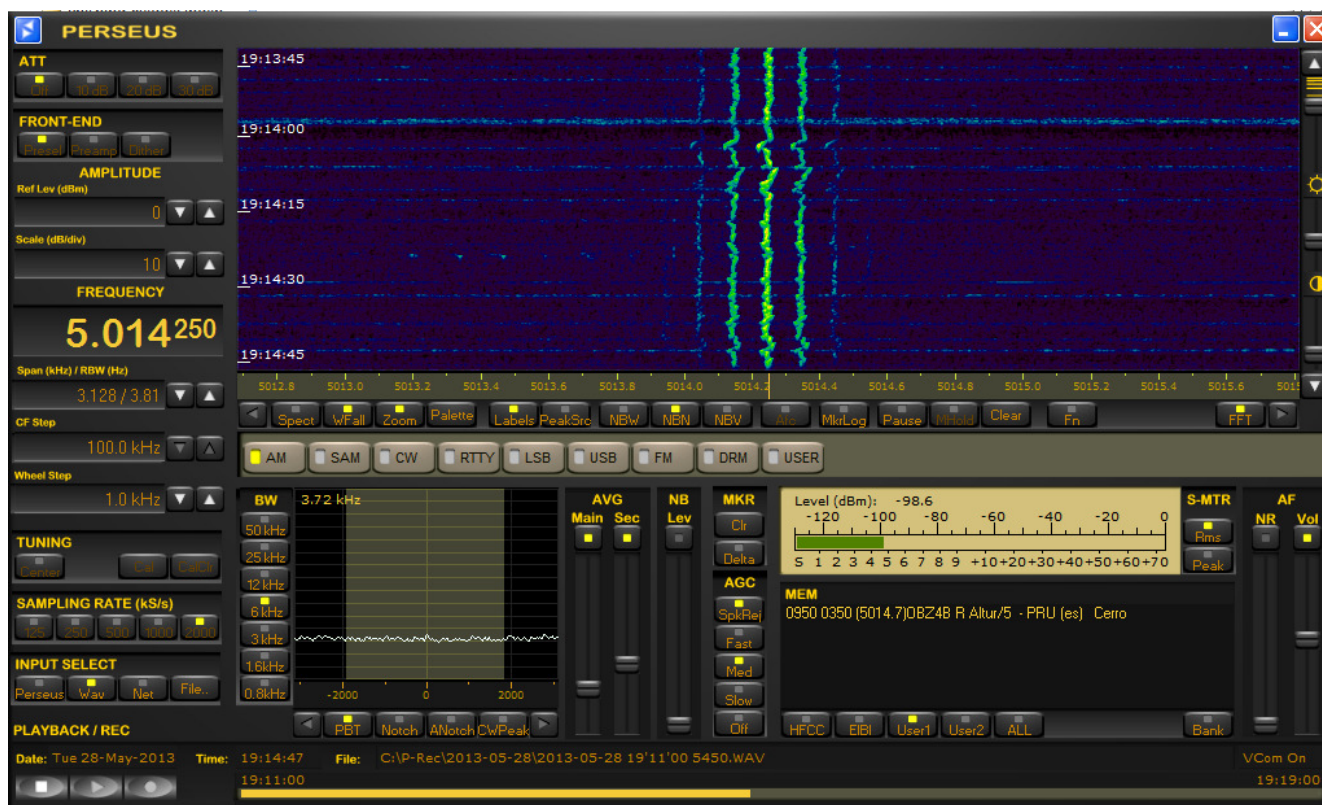

Afedri har ju också kommit med en AFEDRI SDR-Net x2, dvs dubbla mottagare som också kan köras i diversity mode. Pris strax under 400 USD. Det finns mycket kul där ute.... 73, Arne

*Synd att ingen kan få koll på 5014. Det finns ID där men det är förbannat svårt att få fram nåt.*

*Har inte testat någon SDR-Radio variant på länge, blev inte riktigt vän med layouten på programmet. Tycker att Perseus gränssnitt är mycket mer användarvänligt. Jag kanske bär mig dumt åt, men får inngen snits på kurvorna och waterfall lägena så att man kan avläsa på ett bra sätt. Dessutom fattar jag inte de där banden som ligger över och under i displayen. Får nog gå en kurs.*

*Studio 1 har nog inte blivit vad man hoppats på. Förväntningarna var ju höga. Tror att deras gränssnitt är för krångligt. Det skall vara enkelt och intuitivt, vilket jag tycker att Perseus står för. /TN*

**Stig Adolfsson:** Solstörningarna är tidvis väldigt kraftiga och kombinerat med åska så kan nog även den mest inbitne DX-are tappa gnistan. Men skam den som ger sig och bara två tips från Vallentuna.

Skickade denna bild till SA från den 28majoch fick några intressanta kommentarer i retur från honom. Tar mig friheten att plocka in din kommentar om de fortsatta försöken att identifiera stationen på 5014+ som dök upp för första gången i förra numret. /TN

*Tack för bilden. Det ser onekligen lite konstigt ut med parasitsvängningar symmetriskt på bägge sidor om grundfrekvensen. Jag lyssnade igår men det gick inte att få fram begripligt ljud. - När jag först hörde stationen för flera dagar sedan var den mkt svag. Jag funderade då om det kunde vara den återstartade ICDI varför förfrågan gick till USA om frekvens etc. Ännu inget svar därifrån. Jag har vid ett tillfälle hört en fransktalande på 5035 (för 6 månader sedan) men ICDI kommer väl kanske på de gamla frekvenserna eftersom såväl antenner som slutsteg är anpassade. Fast det beror väl även på vad som blev stulet.... /Ha det bra, hälsar Stig A*

**Dan Olsson:** Hej! Så här sent på natten 01.10 SST slänger jag iväg lite tips till dig. Tipsen märkta 25-26 maj är från vår senaste lyssnarnatt i Saxtorp. Mest minnesvärt förutom de skrala kondsen, var att jag vaknade 04.00 SST och inte kunde röra mig. Eter ett besök dagen efter hos sjukgymnasten kunde hon konstatera att jag fått inflammation i korsryggsleden. Vilket innebär att man går som en stel 90-åring och bara kan ligga på rygg i sängen. Kom inte säga att DX-ing kan vara skadligt!

Lite QSL har kommit in sen sist: **5843 Over 60 degrees** e-brev o kort, **6240 R Poema** e-brev o kort, **6300 R Norton** e-brev o kort, **6300 R Tower** e-brev o kort, **6400 R Morningstar** e-brev kort och foto på sändaren, **15550 WJHR Milton, FL 2** brev, kort, foto och religiös info. De svarade på brevrapporten men ej på mailrapporten. Har råkat ut för samma sak på en annan station och jag undrar om vissa stationer har små filter för inkommande rapporter eller är det mer exklusivt att få en brevrapport idag?

*Krya på dig, felet var att du hoppade i bingen istället gå ut en sväng i arla morgonstund och njuta av lugnet ..... /TN*

**Anker Petersen:** We are very busy preparing the 57th Annual General Meeting of the DSWCI next weekend, so only a few tips this time, all heard in Skovlunde on my AOR AR7030PLUS with 28 metres of longwire.

**Martien Groot:** Only a small contribution for upcoming SWB. Am very interested in what you have been hearing on 6105 these past two weeks. Maurits van Driessche from Belgium reports to latest DXLD about hearing Cancao Nova on 6105.040 but admits he hasn't actually heard any definite ID.... Also believe I could hear some kind of het on 6020 at 2233 last night, wonder what's hetting VOV-4 there?

*Re the 6105+ item, see comments below in the log. Maybe it is China you have on 6020? See Ron Howards's comment there. /TN*

## Log

(UTC)

2368,48	Jun8	1228	Radio Symban. For a June reception was surprising decent with EZL ballads/singing (clearly non-Greek) cutting through the summertime QRN; YL & OM DJs, but too weak to make out anything about the language used. Poor, but still enjoyable to hear this low powered station! Some music heard today posted at <a href="https://www.box.com/s/uqdm9q5fktlwvhg9pvi3">https://www.box.com/s/uqdm9q5fktlwvhg9pvi3</a> (Ron Howard, Asilomar State Beach, CA)
3204,96	Jun6	1234	NBC Sandaun with segment in Tok Pisin/Pidgin about local Sandaun Boxing Club; list of boxers and weight ("kilograms"); local IDs; 1301 usual PNG birdcall and "News Roundup"; almost fair. Audio posted at <a href="https://www.box.com/s/wyabf7qqhue0yamzut6y">https://www.box.com/s/wyabf7qqhue0yamzut6y</a> (Ron Howard, Asilomar State Beach, CA, USA)
3246,00	May30	0130	UNID Greek Pirate Greek song about Mariachi 34333 2nd Harmonic of 1623.00 (45333) AP-DNK
3310	May23	2306	R. Mosoj Chaski, Cochabamba, quíchua, texto, presumivelmente, propag. relig.; 25332. Carlos Gonçalves
3320	May24	2316	Radio Sonder Grense, S.Africa, conversation, good (Bernardini)
3329,5	Jun6	0955	Ondas del Huallaga, Huánuco 0955 to 1020 en espanol, marginal signal. 6 June and each day this week (Wilkner)
3355	May23	2305	R. Educadora 6 de Agosto, Xapuri AC, texto; 25331. Carlos Gonçalves
3375	Jun7	0958	Brasil, R Municipal, peaking around 0958 to 1010, male with Portuguese talk, best in quite awhile but faded quickly. June 7 (XM)
3385	Jun8	-1201*	NBC East New Britain, 1201:11*, June 8. Fairly consistent with their sudden cut off time; remains the most commercial of all the NBC stations, running frequent advertisements (Ron Howard, Asilomar State Beach, CA)
3398	May25	2133	sinal proveniente de sul/sudeste, 2133-..., 25/5, texto, impossível a identificação da língua; 15331. Há anos, o Zimbabué utilizou uma freq. vizinha, 3396. Carlos Gonçalves
4451,1	May29	0055	JBA carrier on this WOOB off-frequency, following tip from Bob Wilkner, FL, i.e. ``Radio Santa Ana, Santa Ana de Yacuma, 2355 to 0025 fair to sometimes good``. Really too early here in Enid, sunset not until 0141. BTW, it's ``del Yacuma``, must be named for the understood river (masculine) rather than the province (feminine) in Beni Dept. The name Yacuma also Googles to an Ecologde in Tena, Ecuador (Glenn Hauser,OK)
4699,9	May25	2205	R. San Miguel, Riberalta, castelhano, texto; 25331. Carlos Gonçalves
4699,94	May25	2350	Radio San Miguel, Bolivia, songs, weak (Bernardini)
4747,06	May25	2331	Radio Huanta 2000, Peru, long talks & folk songs, fair (Bernardini)
4754,9	May24	2135	R. Imaculada Conceição, Cp.º Grande MS, progr. de propag. relig.; 25331. Carlos Gonçalves
4755,44	Jun6	0950	Pohnpei Maicronesia The Cross Radio, presumed 0950 to 1030 with audio improving. 6 June (Wilkner)
4774,895	May26	0002	Radio Tarma, Peru, really nice songs, id: "Radio Tarma Internacional" fair/good (Bernardini)
4774,99	May15	-0055*	Radio Difusora de Congonhas, an old friend station, reactivated, program of PP ballads with religious anmts and comments, etc. At 0049 started the day's shutdown sequence, contact info anmts including internet ( "w-w-w . . ." . ) At 0051, went into "Oracion Final" followed by a hymn accompanied by piano and then abruptly pulled the plug at 0055*. Good signal and only light QRM, main problem the incessant static crashes from summer t-storms. (Perry, Illinois)
4781,5	Jun6	1105	Radio Oriental, Napo 1105 to 1110 with om and yl into music bridge during band scan, 6 June (Wilkner)
4781,67	Jun3	*2257-	R Oriental with sign on. Weak audio despite fair signal. TN

4784,99	May26	0010	Radio Caiari, Porto Velho, Brazil, songs, talks, weak (Bernardini)
4785	May24	2155	R. Caiari, Pt.º Velho RO, , recitação do terço, texto, pelas 2200, música, e não a retransmissão de A Voz do Brasil, 2200-2300; 25331. Carlos Gonçalves
4805	May24	2133	R. Dif.ª do Amazonas, Manaus AM, texto; 24431, QRM adj. da CHN, em 4800. Carlos Gonçalves
4810	Jun7	1010	Radio Logos, Chazuta, Tarapoto 1010 to 1030 battling through the CODAR, June 7 (XM)
4815	May25	2203	R. Dif.ª, Londrina PR, texto, música; 34432, QRM adj. da CHN, em 4820. Carlos Gonçalves
4835	May26	1848	VL8A, Alice Springs, Territ.º do Norte, texto, entrevistas; 35332. Carlos Gonçalves
4835	May26	0035	Ondas del Suroriente, Quillabamba, Peru, id, frequencias, songs, weak (Bernardini)
4835	May24	2139	ABC Alice Springs, Australia, talks, good (Bernardini)
4835	May25	1930	VL8A Alice Springs med Bonnie Taylor. DO
4845,2	May25	2201	R.Cultura Ondas Tropicais, Manaus AM, relato de jogo de futebol; 34432, áudio c/ qualidade de "linha telefónica", baixo, QRM adj. de CODAR. Carlos Gonçalves
4876,84	May25	0005	Radiodifusora Roraima, Brazil, talks & songs, fair (Bernardini)
4876,85	May24	2139	R. Roraima, Boa Vista RR, canções; 24331; QRM de CODAR. Em 25/5, pelas 2200, on sinal foi melhor, 44433, e houve um desvio na freq., p/ 4876,95. Carlos Gonçalves
4890,027	May24	-2201*	Radio 76, pirate, oldies like "Message in the bottle", id also in many languages, also in Italian, and s.off at 2201 fair/good (Bernardini)
4903,8v	Jun1	1930	OID med modern musik. Drev uppåt i frekvens. Abrupt cd 1938. Ej // med 6165. För några år sedan huserade italienska pirater runt 4,9 MHz men de pratade mest med varann. Uppfattade ej något prat. 2 SA
4905	May24	2140	Nova R Relógio, Rio de Jan.º RJ, texto, entrevistas; 24331, QRM da CHN. Carlos Gonçalves
4914,996	May24	2134	Radio Difusora do Macapá, Brazil, songs & talks, fair (Bernardini)
4915	May24	2144	R. Dif.ª, Macapá AP, canções, retransmissão de A Voz do Brasil, às 2200; 43432, QRM da R.Daqui, B. Carlos Gonçalves
4915	May24	2145	R. Daqui, Goiânia GO, texto, retransmissão de A Voz do Brasil, às 2200; 43421, QRM da R.Dif.ª, B. Carlos Gonçalves
4915t	May30	2320	Radiodifusora Macapá, Macapá, AP 2320 pop rock music and tune in 'Oh Oh Oh' repeated in song, into Brasil pops 2340 new song 2355 quick mention of "Macapá" by om, then into alto range female vocal, No ID on hour 30 May (Wilkner)
4925,2	May24	2147	R. Educação Rural, Tefé AM, noticiário regional, ainda no ar pelas 2200, e não houve retransmissão de Voz do Brasil, às 2200; 25321. Carlos Gonçalves
4925,22	May25	2345	Radio Educacao, Tefé, Brazil, talks, fair (Bernardini)
4925,22	May30	0150	R Educação Rural, Tefé, AM Portuguese talk - late broadcast 25232 AP-DNK
4939,97	May26	0045	Radio San Antonio, Atalaya, Peru, talks, id & same songs, weak (Bernardini)
4949,75	May25	2338	Radio Nacional Angola, nice songs, fair (Bernardini)
4949,8	May24	2150	RNA-Canal "A", Mulenvos, canções e música; 35321. Carlos Gonçalves
4954,99	May25	0011	Radio Cultural Amauta, Huanta, Perù, music, talks, poor/weak (Bernardini)
4965	May24	2153	R.Alvorada, Parintins AM, ID e anúncio da freq., propag. relig., A Voz do Brasil, às 2200; 34332. Carlos Gonçalves
4976	May26	1842	R. Uganda, Kampala, dialecto local, texto, canções afric., noticiário em inglês, às 1900; 35332. Carlos Gonçalves
4976	May25	1810	UBC Radio med härlig afromusik. DO
4984,145	Jun4	0027	Voz Cristiana (tent.) noted with SS and religious px. Back after long absence. Even better signal on June 8 at the same time. TN
4985	May23	2135	R. Brasil Central, Goiânia GO, progr. Desportos em Cima da Hora, Id e anúncio das freqs.; 35332. Carlos Gonçalves
4985,00	May30	0100	R Brasil Central, Goiânia, GO Portuguese talk 35232 AP-DNK
5014,81	Jun6	-1902*	The tent. R Madagasikara - Nationale Malagasy back with a decent signal again. For a few days they have had heavy problems with spurious signals, see picture above. This day the signal was back to normal standard. It seems almost impossible to pull out a proper ID from this one. Lingo, FF and too much static is the reason ... -80 dbm on the S-meter. Unstable carrier and drifting upwards from day to day. On June 8 heard on 5014,72 but with weak audio and sign off 1901.TN
5019,90	Jun6	-1200*	SIBC. Usual "Evening devotional" in English before ID, but tx suddenly off before ID was completed. Now with a timer, as so many stations use? <a href="https://www.box.com/s/qk591lz12q8znmjmsw44z">https://www.box.com/s/qk591lz12q8znmjmsw44z</a> audio of above average reception (Ron Howard, Asilomar State Beach, CA, USA)
5025	May23	2134	R. Aparecida, Aparecida SP, canções infos. horárias; 35332. Melhor desempenho em 25/5, pelas 2210, durante o progr. DX. Carlos Gonçalves
5039,18	Jun4	1010	R. Libertad, 1010, very strong with huaynos, excited talk by a man and woman over the

top of songs, CODAR QRM. (4/6 David Sharp via DXLD)

*[non] During several weeks lately I have tried to catch this station here in Engelholm between 2200 -0200z. But no trace at this time span. Maybe they only carry morning service as monitored several times in the States around 1000z with good strength /TN*

5765u	Jun6	1000	Guam AFN Barrigada 1000 to 1005 News Items in English, 6 June (Wilkner)
5890	May30	0229	I notice that WWCR-4 is transmitting double audio! Main program is apparently `Truth House` with Fulcher, as interrupted for program ID talkover, back to double audio, including buzz. Fulcher is as scheduled at 02-03 UT weeknights, no BS until 0300. At 0443 next check, Brother Scare is on, bothered by crosstalk at somewhat lower level. Is no one paying attention at the station? I check the other three WWCR frequencies, 3215, 4840 and 5935, and the crosstalk on 5890 from another talkshow in English does not match any of them. Maybe it`s from the fifth transmitter at 1300 WWCR Ave., WNQM 1300, or something totally extraneous chosen by the wacky computer and/or satellite receiver. Next check at 1204 UT after the switch to 9980: *still* double audio from BS, and SRN `news` at equal level except BS shouts louder. Must have been that way all night! 1205 ad for vitamin/herbal supplement; 1207 Jack and Roberta start a medical advice show. Definitely not coming out this way from Walterboro as BS is solo on 9370 WWRB. Before next hourtop I hope to catch an ID for WNQM or something on the crosstalk. At 1259 talkshow with 1-855-79XX number keeps going a few seconds past 1300, and there may have been an ID including the letters `BZ`, but too much QRM from BS. SRN News starts late. Next check 1329, the crosstalk is finally removed from 9980 leaving BS only; this no doubt correlates with someone arriving to work at WWCR and finally noticing the problem (Glenn Hauser, OK)
5930	May30	0120	R Rossii, Monchegorsk Russian talk by man and woman, ID: "Radio Rossii", ccordeon music, talk continued and more accordeon 45333 // 6160 Arkhangelsk. AP-DNK
5938,002	June1	2300	Unid on 5938.002 khz at 2300utc Sat 1 jun . Weak audio. (Maurits Van Driessche, Belgium via DXLD)  Does not work out to be an exact harmonic from MWBC. Split frequency also makes it unlikely to be a leapfrog on SW, yet being so close to 5938.000 implies it`s intentional. That leaves one more good alternative: a sum or difference product between a regular SW frequency and a 9-kHz-plan MW frequency somewhere in Europe, both from same site (Glenn Hauser, OK)  <i>No trace at all here of any station on this frequency despite checking several days. /TN</i>
5939,86	May24	2310	Voz Missionaria, Cambiorù, Brazil, Bible Isaia talks, fair //9665 (Bernardini)
5940	Jun7	0940	Voz Missionaria, 0940 very strong at tune in, still decent after 1000, Brazilian music, first time heard in awhile June 7 (XM)
5950	May24	1724	Voz da Revolução do Tigrê, Geja Jawe (ou Geja Dera?), dialecto local, texto, entrevistas; 45333. Inviável a recepção em // 1359 Mekelle, pela hora. Carlos Gonçalves
5952,4	May24	2109	R. Pío XII, Siglo XX, quíchua, texto, acordes índios; 45333. Carlos Gonçalves
5952,5	May25	2220	R Pio XII talade om en musikskola för barn. DO
5970	May25	2205	R. Itatiaia, Belo Horizonte MG, música, notícias futebolísticas, anúncios comerciais; 34422, QRM adjacente. Carlos Gonçalves
5980	June 6	0055	While waiting for R. Chaski to cut off, I fiddle the clix on the DX-398 fine tuning with BFO to estimate the frequency offset, since Chuck Bolland reported it June 3 on 5980.138, which seemed too far off. After comparing to WWV 5000.000, I put this at maybe 5980.04, no more than that; it`s definitely slightly on the hi side compared to Cuba 5990. Cuts off at 0101:52.5*, which is 5.5 seconds later than yesterday (Glenn Hauser, OK)
5980.00	Jun 9	0100	R Chaski, Urubamba, Spanish preaching, usual sounder to 0102:07 carrier off, fq is clear. (Martien Groot, Schoorl, Netherlands)
5985,7	May27	2312	Padauk Myay Radio, Myanmar, usual slow songs, fair/good (Bernardini)
5989.98	Jun 8	2216	Qinghai PBS, Xining, non-stop indigenous songs, on air well before scheduled s/on time, //CNR-11 on 6010 &7360, but appeared to carry their own programming at 2244 recheck, i.e. quiet orchestral music then 2250 Ode to the Motherland. Weak but freq is clear until co/channel CRI appears. (Martien Groot, Schoorl, Netherlands)
5995	May23	2201	R.Mali, Kati, progr. em dialecto local, texto; 55433, modulação em nível aceitável... mas, em 25/5, pelas 2215, a "música" foi outra, um áudio incrivelmente débil, roçando a impercepção, o que, aliás, não é de estranhar - tais variações passaram a ser uma "tradição" nesta emissora. Carlos Gonçalves
6005	May26	0630	R Belarus med program på tyska där de hälsade till lyssnare. DO
6010,006	Jun8	0256	A week carrier noted here but no chance to get any audio due to the stronger Inconfidencia and LV de tu Cinciencia a bit higher up. Look out for the reactivated XEOI. TN

6010,1	May24	2110	R. Inconfidência, Belo Horizonte MG, A Voz do Brasil, 1. <sup>a</sup> parte; 33431. Carlos Gonçalves
6010,1	May27	2240	Radio Inconfidencia, Belo Horizonte, Voz do Brasil, fair, some QRM, better in USB, ids after 2300, unusual propagation tonight (Bernardini)
6010,107	June8	0026	R Inconfidencia quite stable here lately. Often good signal. TN
6001,211	June8	0030	LV de tu Conciencia is the strongest one here at this time. TN
6020	Jun8	1149	CNR8 back on the air June 8 at 1149 in Korean after being absent for not too many days; now totally blocking Vietnam (VOV4); fair. (Ron Howard, Asilomar State Beach, CA)
6030	May25	1955	R Oromiya spelade Big Big world med Emilia annars inhemska tongångar. DO
6055	May26	1732	R. Rwanda, Kigali, ruandês, texto; 44433. Carlos Gonçalves
6089.85	Jun 8	2300	FRCN Kaduna, Qur'an recitation, LSB to get away from Melissa Scott on Caribbean Beacon, het to 2302:16 carrier off. (Martien Groot, Schoorl, Netherlands)

6089.95	Jun 6	0050	R Bandeirantes, Sao Paulo, Port in the clear at tune-in but blocked by Carib Beacon suddenly appearing 0051. (Martien Groot, Schoorl, Netherlands)
6104,79 - ,76 v	June3	0956	Radio Cultura Filadelfia, Foz do Iguacu, rarely heard station noted several mornings this week, appears to be nominal *0945. Very short reception window, as signal tends to peak before 1000 and then totally fade out by 1005-1010. First hrd 6/3 at 0956 when tuning by, signal strong enough to stop me in my tracks -- nice ZY sertanejo mx w/accordion and strummed acoustic guitar. Canned ID PP anmt including fqys by OM and two time tones at the hour, then into PP religious inspirational pgm w/OM talking over musical bridges. Faded into the mud soon thereafter. Noted next day *0943 on 6/4, with technician seeming to just throw the xmtr switch and joining programming in midstream, with enthusiastic PP preacher and, again, sertanejo mx to ToH. At 0958 began sequence of multiple IDs in both formats as "Radio Cultura Filadelfia" and "Radio Filadelfia". An inspirational morning religious show daily at 1000. On 6/5, only an open carrier noted signing on at *0946 but couldn't raise sufficient audio this morning. Also found webstream running in parallel, with only a few seconds lag behind the SW fqy. Big thanks to DXers Carlos Goncalves and Dave Valko for their assistance in pulling that initial ID from my recording of the 6/3 reception. (Perry, Illinois) <i>Congrats! /TN</i>
6104,7	May24	2112	R. Filadélfia, Foz do Iguacu PR, A Voz do Brasil, 1. <sup>a</sup> parte; 44433, QRM adjacente. Carlos Gonçalves
6105	Jun7	0944	Radio Filadélfia, Foz do Iguacu, PR, 0944 to 1006, sign on at 0944, little more than carrier and weak threshold until around 0955, than getting stronger, with Brazilian music and some ancmts in Portuguese by male, peaking about 0959, then fairly rapid fade with even the carrier seemingly gone by 1006. First time ever for this one in here, and first new Brazilian in quite awhile June 7 (XM) <i>Congrats! /TN</i>
6105,04		2226	Radio Cancao Nova, Brazil on 6105.040khz at 2226utc. With news from Brazil by male and female. Fair reception, <u>no ID heard</u> . Maurits Van Driessche, Belgium, via Hard-Core-DX mailing list. <i>Radio Cancao Nova has not been heard here for a long time, at least not here in Engelholm. It is always ID for R Cultura Filadelfia here or on 6104,7! TN</i>
6105.06	Jun 6	2231	R Cultura Filadelfia, A Voz do Brasil (?) with Port male & female alternating, all talk except for occasional brief musical bridges to sudden 2303:51 carrier off. Hets RTI & accomp CNR jammer on 6105.00. Presumed the one here the basis of TN's report in SWB 1772 unless of course anyone has definite proof that Cancao Nova is active here again? (Martien Groot, Schoorl, Netherlands)
6105,063	Jun6	2200	R Cultura Filadelfia with lots of ID's "Radio Cultura Filadelfia, Foz de Iguacu". Strong. Are also using only R Filadelfia as ID. Abrupt sign off at 2303. Back here again after a short stay on ~6104,7. There is also another weak carrier on 6105,006 at this time span. The frequency seems to be a little unstable, on May 16 noted on 6104,69 and on May 18 on 6105,075. TN
6105,374	Jun7	2147	R Panamericana (tent) with SS talk. Several short 1-2 minute interruptions in the transmission during the following 20 minutes of listening. TN
6105,48	Jun6	1103	Radio Panamericana, La Paz, presumed 1103 to 1112 with 1.2k filter in usb with weak signal om ments en espanol, 6 June (Wilkner)
6110	May24	1729	R. Fana (=R. Estandarte), Geja Jawe (ou Geja dera?), progr. em língua oromo (segundo listas), texto, música; 45333. Carlos Gonçalves
6115	June8	-1827*	R Congo (tent) quite good signal and sign off at this time. No final ID heard but talk about Congo. TN

## Station news

**BOLIVIA. 6025 Radio Patria Nueva**, La Paz, 1020-1040, June 01, Spanish/Aymara transmisión. Reactivated!!!!!!  
 Conection with other station's of Red Patria Nueva "La Voz del Estado Plurinacional de Bolivia", Local shorts news in aymara; short andean music, conection with Radio Soberania, Chipiriri, Villa Tunari, Cochabamba, BOL, announcements in aymara!, 24442. Best reception in LSB mode. (Arnaldo Slaen, Argentina via DXPlorer)

**CHINA [non-logs]. 6020, CNR8** as of June 6 still off the air; a chance to now hear Vietnam (VOV4).

**9410, CNR5** as of June 6 still off the air; a chance to now hear Taiwan (Ron Howard, Asilomar State Beach, CA, USA)

**DIEGO GARCIA. 4319-USB, AFN**. For the past year I had been hearing this always with music programs ("Gravity", "Joe Radio", etc.), but May 31 heard them with a TV audio feed similar to that used by AFN Guam; went to check if they were //, but AFN Guam was off the air today on both frequencies that they alternately use; frequent military PSAs, etc.; heard from 1347 to 1402 with poor reception, but minus the usual strong QRM (Ron Howard, Asilomar State Beach, CA, USA)

**MALAYSIA. 5964.7, Klasik Nasional via RTM**, June 6 still running 50 kW tx.

**9835 – Sarawak FM via RTM** - Glenn recently commented: "BTW, I see that India is also on 9835 at 1330-1740; should be quite a collision". Glenn, had good reception on both June 5 and 6, with no hint of any AIR at 1330; excellent signal strength; many IDs: "Sarawak FM, Radio Malaysia Sarawak". MP3 audio posted at <https://www.box.com/s/9ydoz5go717djascq81a> (Ron Howard, Asilomar State Beach, CA, USA)

E-mail from Zulkifli Ab Rahim (Technical Network Section, Radio TV Malaysia at Kajang)([zulrahim@rtm.gov.my](mailto:zulrahim@rtm.gov.my)) informing me what we have already been observing recently:

"Yes, we are back to using the old 50 kw transmitter."

So they are in fact back on 5964.7 kHz. (ex-5965.00), as noted again on June 5.

An attachment to the email was a nice QSL card for my Klasik Nasional reception, signed by Othman Bin Md. Said (Deputy Director, Technical Network Section, Dept. of Broadcasting [RTM]).

QSL card (note the nice stamps, as it is being mailed to me) at: <https://www.box.com/s/e7xs1hj26b5mwdie8gjk> .

Angkasapuri building of RTM (front of QSL card) at: <https://www.box.com/s/anmmg3ypnukg8hgqjq7y> .

Very pleased to have this one!

Ron Howard (Calif., USA)

**MEXICO [and non]. 6010**, June 3 at 1207, the only signal audible here is very weak English, no doubt CRI as scheduled this hour only, 150 kW, 95 degrees from Beijing site.

Julián Santiago Díez de Bonilla, DF, had notified us June 2 at 1359 UT: "Nuevamente se encuentra al aire y con buena señal XEOI Radio Mil onda corta en los 6010 kHz con la programación de XEOY Radio Mil onda media 1000 kHz" --- maybe it's too late already today, almost an hour after Enid sunrise; but México DF sunrise was 1158 UT, close to earliest of the year, so if really on the air, the signal should still be propagating at least westward if not northward. DF SR will later only 5 minutes in a month, 15 minutes in a bimonth, per gaisma.com. As for CCI potential, Aoki also shows a ND 20 kW R. Rossii transmitter in Blagoveshchensk/Yakutsk on the air from 1700 until 1300 (Glenn Hauser, OK, DX LISTENING DIGEST)

**MEXICO [and non]. 6010+**, June 5 at 0055, het pileup, must be at least three weak signals, the strongest slightly on the hi side, i.e. Brasil, Colombia, and reactivated XEOI. Earlier I told Julián Santiago that I was not hearing XEOI in the 11-12 UT period when it should be audible since reactivation June 2, and he replied June 4:

"Hi Glenn: it is going to be on the air from 17:00 to 22:00 hours -Central time - 2200 to 0300 UT. 73, Julián". So they've

picked times when they will confront all this QRM, second only to 05-07 UT when blocked by Cuba. Need to seek Mil anyway at earlier, later times during this block (Glenn Hauser, OK, DX LISTENING DIGEST)

**MEXICO [and non]. 6010+**, June 7 at 1220, weak CRI English has a weaker het on the hi side, suspected XEOI on irregular schedule.

Julián Santiago says it may be on beyond 22-03 UT; back on May 30, Ivo Ivanov (and/or Georgi Bancov?) heard it at 09 UT for this clip with an ID about 2 minutes in (via a remote receiver somewhere in USA, UT-7 zone?)

<http://www.youtube.com/watch?v=Ry2jm10YfSI>

(Glenn Hauser, OK, DX LISTENING DIGEST)

## Other radio news

### Fjärrlyssning via SXDF:s SDR-mottagare

Alf Persson från SDXF åkte runt förra året och pratade med de olika DX-klubbarna om framtidsfrågor. Jag hade förmånen att träffa honom tillsammans med MKVK folket nere i Saxtorp.

Ett av de önskemål som medlemmarna i SDXF hållit långt framme var att kunna koppla upp sig mot en avancerad lyssnaranläggning med bra antenner istället för att lägga pengar på expeditioner till norra Sverige.

Tack vare donationen från Johan Berglund är detta nu på gång att realiseras.

Som kan läsas i parlamentsrapporten så har SDXF fått hjälp av Lennart Deimert att sätta dessa planer i verket.

Två styck SDR-IQ samt tillhörande datorer har införskaffats.

Anläggningen var tänkt att placeras i gamla långvågsstationen i Motala, där Motala Sändaramatörer har sin klubblokal.

Tyvärr visar det sig att området har för mycket störningar och andra bättre alternativ undersöks.

Man kan redan nu logga in via Internet. Programmet SDR-Radio ver 1.5 måste installeras och via detta sker sedan inloggning via programmets remote funktion.

I nästa nummer av DX-Aktuellt kommer en artikel signerad Alf Persson som beskriver i detalj hur installation och inloggning sker.

Alf påpekar också att man är jätteintresserade att få feedback på denna nya tjänst.

*Stort tack till Alf Persson för denna information som presenterades på DX-parlamentet. /TN*

### **Precis när jag skulle pdf-a bullen så kom riktigt het info från Lennart Deimert som står för det tekniska:**

Alldeles nyss fick jag veta att du ev. kommer att skriva om SDXF:s försök med en fjärrmottagare. Tyvärr har jag haft den nere några dagar nu. Men den kommer igång under kvällen.

Det är ännu ej klart med det nya lyssnar-QTHt. Så än så länge står den hemma hos mig. Tyvärr är det mycket störningar dagtid. Så lyssna helst nattetid.

Bästa sommarhälsningar

(Lennart Deimert)

*Skall bli intressant att följa den fortsatta utvecklingen av detta projekt. De flesta av oss har väldigt dåliga mottagningsförhållanden och jättemycket störningar på hemmaplan. Hoppas att SDXF hittar ett lyssnar QTH som är verkligen motsvarar förväntningarna och där man kan sätta upp några riktigt långa antenner. Det finns ju fina program för omkoppling av antennparken på distans. /TN*

### **Introducing the Shortwave Audio Archive**

Excellent project to archive shortwave, 80 recordings already.

<http://swling.com/blog/2013/06/introducing-the-shortwave-radio-audio-archive/>

(Mike Barraclough via DXLD)

### **Latest Offering from Winradio WR-G35DDC 'EXCALIBUR Ultra' - Preliminary Information**

Take a look at the latest offering from Winradio! It can record the whole 0 to 32MHz bandwidth in one go.

<http://www.winradio.com/home/g35ddci.htm>

(73s, Tracey Gardner via SDR-Radio-com)

-----  
That looks good Tracey, I already have 3 other Winradios here, but frankly I have more fun playing with the \$10 dongles than with the \$5000 G39DDCe Excelsior 😊

( Regards, Mike Simpson, Penrith, NSW, Australia, <http://www.rstools.info> via SDR-Radio-com)

-----  
According to the press release the Winradio WR-G35DDCi will be available after the Ham Radio show, at a recommended sales price of Euro 4,197.50, plus any applicable local sales taxes.

(73s Tracey via SDR-Radio-com)

-----  
To record the full spectrum would require a top end PC, at least i7, and your next limitation will be storage bottlenecks followed by the storage capacity. A lot of ram will be needed to. Minimum spec is OK, but if you want to run anything else, or not have to strip down the OS to play with this 'toy/tool' you need to run a very good PC almost as expensive as the Winradio itself. I have an i5 gaming laptop with 8Gb ram and a proper top end GPU, that stutters if I run my G31DDC at the same time as some data mode decoders. I loose frame rate if I try to make a screen-grab video at the same time.

Nice hardware, but you need even more top-end hardware to run it.

(Dennis Smith, M1DLG via SDR-Radio-com)

-----  
Hi Dennis, The G31DDC issues you are experiencing are all due to the software, I can run an Ettus N210 at 10MHz bandwidth without any issues on an i7 – 930 (second generation, 2.8GHz) and CPU is between 4% and 8%.

Supporting the new WR-G35DDCi would be a challenge but also very doable. Streaming IQ data to disk at 120 MB/s is not a big issue with SSD, one company I know just bought a special petabyte array using SSD.

(Simon GD4ELI/HB9DR via SDR-Radio-com)
