

SHORTWAVE BULLETIN

Issue no. 1809, Oct 26, 2014.

Deadline e-mail next issue: 0800 UTC, Nov 9, 2014.

Så är det dags igen för ännu ett nummer av SWB.

Idag skall klockan vridas tillbaka en timma för de som ännu inte gjort det. Det får väl anses som startskottet på riktig höst och begynnande vinter.

På KV är det inte mycket att hämta för oss som gillar tropikbanden. Det är tämligen tyst på flera frekvenser där annars stabila sändare hörts. Tex stationerna från Sydamerika på 4810, 4835, 4940 och 4985. Frågan är om man har brist på pengar eller det är planerade nerstängningar.

Snart domineras tropikbanden enbart av kinesiska och indiska stationer som verkar ha hur mycket resurser som helst.

Slutligen, stort tack till alla bidrag till detta nummer. Hoppas ni hittar något intressant bland dessa bidrag.

Glöm inte nästa stop-date!

Keep on

=====

QSL, kommentarer, mm.

Rolf Åhman: Årets andra kortvågsQSL har anlänt. Det var **Voice of Indonesia 9526** som svarade med ett trevligt kort på deras sändning på tyska.

Dave Valko: Just created and uploaded a short little video that I thought you guys could appreciate. Its a nice English station identification from Radio Clarin, Dominican Republic, from 1977. Here's the link; <http://youtu.be/exq41Rn2m2I>
Went out on a micro-DXpedition last Friday evening (10 October 2014) and found a few stations on the air. It isn't much, but here's a report. A link for an Abu Dhabi video is included.

Börge Eriksson förstår nu vad mina barnbarn menar när de tycker att jag blivit gammal och gaggig. I mitt förra bidrag var jag det. Jag har fått några spydiga kommentarer om att jag kallade Sveriges USA-ambassadör för Lars Lyrvall. Han heter naturligtvis Björn Lyrvall. Lars är hans far. Det var alltså Björn Lyrvall som var med och startade Stora Tuna DX-klubb tillsammans med Peter Hultkvist där de ibland hamnade i politiskt käbbel på klubbmötena. Rätt skall vara rätt.

I övrigt händer inget som har med DX att göra förutom att jag då och då pratar med min gamle vapendragare Lennart och då blir det ofta gamla DX-minnen. Men jag försöker hålla mig á jour med vad som händer genom att läsa SWB och på nätet en del olika DX-publikationer. DX är kanske en utdöende hobby då varje fotos som visas i DX-skrifterna verkar vara taget på någon pensionärsträff. För det mesta bara gamla gubbar. Men tyvärr är det så. Du, Thomas, skall ha tack för att du orkar hålla på.

Ullmar Qvick (via NORDX): Vår hobby består idag till stor del av minnen från fornstora dar. För min del har alltid Radiotjänst som sen blev Sveriges Radio ingått i basen för mitt radiointresse. Det var där det började, och tidningen Röster i Radio var min lilla DX-bibel de första åren. Och P1 följer mig varje dag!
Nu hittade jag på loppis en minnesbok *Hört och sett. Radio och television 1925-1974* med 336 sidor och många bilder som illustrerar textavsnitten. På Röda Korset hittade jag några dagar senare en annan bok som täcker samma period plus lite till: *Nils-Olof Franzén: Radiominnen*. Boken är utgiven 1991 och jag hittade den i RK:s gratishylla... Min totala kostnad för svensk radiohistoria ligger på 50 kr.

Många intressanta detaljer: Det finns inga som helst inspelningar från den svenska radions första år, för man hade ingen teknik, men skriftliga skildringar finns, inte minst dem som den legendariske Sven Jerring, den förste hallåmannen, har bidragit med.
Tänk att radiomedarbetare (dock inte Jerring) brukade sjunga "Du gamla du fria" vid sändningens slut på kvällen!
Och att det dröjde många år innan man började med spontana ej förberedda diskussioner.... De samtal som fördes gjordes med manuskript. Och politik var strängt förbjudet ämne. Those were the days. Kommer du över de här böckerna har du mycket att hämta. Jag har just börjat.

Ron Howard: Hi Gentlemen, Am shortly off to Shanghai for three weeks, so no reports for a while. Best regards.

Anker Petersen: As mentioned two weeks ago, reception conditions for Latin America still are very poor here in Denmark. I listened from Skovlunde on my AOR AR7030PLUS with 28 metres of longwire at 9 metres altitude. This time I scanned the 90 and 60 mb in the middle of our night at 0000-0125 UTC. Only two stations from all Latin America were audible: R Rebelde on 5025 and R Habana Cuba on 5040 - and only with moderate strength. At the same time I heard 15 Asian stations, many with a strong signal!

Arne Nilsson: To say that activities on SW are low right now is probably an understatement! OK, I normally scan the bands almost every day, but very seldom find anything exciting. And the log this time is ridiculously short, HI. One interesting observation from this morning (25.10), though, was a weak carrier from The Cross 4755,6 and that's a first for this season at this location.

Robert Wilkner: Listening tonight as typing to 6134.77 Bolivia, Radio Santa Cruz 2330 to 0004 with excellent music ID 2347 by om and good signal ID on hour by yl 25/26 Oct

John Ekwall: Här kommer lite Afrika-kort. Rätt stört på banden så inga hörigheter att rapportera. Min koaxkabel blev kapas av en lastbil i samband med breddning av gångstig som min koax passerar. Väntar med lagning tills arbetet är klart med asfaltering mm.

Robert Wilkner: Another type of interference :-)

Radio Fabulosa / El Eco de Honduras

Informationen i förra numret om El Eco de Honduras var en aning förbryllande. Hur var R Fabulosa och El Eco de Honduras lierade? Så ställde frågan till JOE om han skannat fel eller hur det nu hänger ihop. /TN

JOE säger: Även jag blev förbryllad över R Fabulosa till jag såg den lilla maskinskrivna texten "El Eco.." Tydligt har det skett ett sammanhängande något år innan eftersom de hade ett riktigt brevhuvud 1963.

Bifogar lite material och även vimpeln som Nils fick.

5995 kHz från 1967

RADIO FABULOSA

APARTADO POSTAL No.
SAN PEDRO SULA, HONDURAS

HRP1. Y HRPX
EL ECO DE HONDURAS.

Stämpel samt vimpel som Nils Olsson fick tillsammans med sin rapport 1967. Snygga grejor! /TN

Brevhuvudet från 1963

Tack JOE för förtydligande information. /TN

2368,470	Oct19	1855	Radio Symban AUS very weak, but audio for the first time this season. Very sporadic audio, though. AN
2485	Oct16	1232	VL8K, ABC with talk, probably news on the hour, with het probably from local source; better on clear // VL8T, 2325. As usual, can't pull even a carrier on 2368+ (Glenn Hauser, OK)

4845,0	Oct10	2235	R. Cultura Ondas Tropicais, Manaus AM. Tks on f/ball, advs. Vy. weak modulation. QRM de CODAR. CGS
4860,00	Oct25	0100	AIR Shimla vernacular talk with CODAR QRM 32232 AP-DNK
4863,36	Oct11	2223	UNID. Tks, no lang. ID. CODAR QRM. CGS
4863,4	Oct20	2345	Unid. 2345 to 2350 at the same time 4865 Brasil in Portuguese under hammering UTE. (Wilkner)
4869,92	Oct12	1500	RRI Wamena yesterday is a special log, poor audio around 1500 - thanks to the tips in the last SWB! 12 Christoph Ratzler
4870	Oct16	1239	poor signal with music, presumed RRI Wamena as usual. 4870 is also a Delhi, India frequency with the Kashmir service, but not starting until *1430, while Wamena runs until 1500v per http://rri.jpj.org (Glenn Hauser, OK)

			<i>It's Thursday (Oct 16), so RRI Wamena (4869.91) had the Kang Guru Indonesia program in English which today started at 1235 with the KGI jingle and during the show played several pop songs. RonHoward</i>
4875	Oct25	2327	Rdif Roraima, Boa Vista RR 2327 to 2332 with Brasilin music and good strong signal (Wilkner & XM)
4875,1	Oct9	2202	R. Dif. ^a de Roraima, Boa Vista RR. Natl. nx magazine A Voz do Brasil. CODAR QRM. CGS
4894,96	Oct9	2139	R. Novo Tempo, Cp.º Grande MS. Songs, advs.. Adj. uty. QRM. CGS
4895,00	Oct25	*0055-	AIR Kurseong Vande Mataram hymn, vernacular talk 25232 AP-DNK
4910,00	Oct25	0105	AIR Jaipur Indian songs 45243 AP-DNK
4910	Oct23	0820	Unid. Carrier at 0820 during insomnia then back to be 23 October (Wilkner)
4915,0	Oct9	2141	R. Daqui, Goiânia GO. Rlgs. propag. CGS
4915,0	Oct10	2150	R. Dif. ^a , Macapá AP. Tks, mx. QRM de R.Daqui, B. CGS
4925,2	Oct10	2154	R. Educação Rural, Tefé AM. Mx,anns., late start of A Voz do Brazil (scheduled 2200-2300). CGS
4950,05	Oct12	1345	AIR Radio Kashmir (tentative). Noted decent strength open carrier below threshold level; 1400 improving and some audio heard; steadily fading up; only news and talking; language sounded correct to be them; 1420*. Calling this tentative based solely on the language heard; no music noted today, but in future if I do hear nice subcontinent music, then I will call this "presumed." Very nice to hear this again, as not heard in a long time. During my almost daily checking here, have heard nothing at all until today, so seems it's Srinagar here. My local sunrise was at 1412 UT (Ron Howard, Asilomar State Beach, CA, E1 & CR-1, dxldyg via DXLD)
4955,0	Oct10	2215	R. Cultural Amauta, Huanta. Cast (p), tks, mx. Better on 1110, 2225. CGS
4955	Oct20	1042	Radio Cultural Amauta, Huanta 1042, threshold (XM)

4955	Oct22	2350	Radio Cultural Amauta, Huanta 2350 to 2355 locutor en español strong signal (Wilkner)
4958,0	Oct20	2226	UNID. A very mysterious signal here with faint music. At next check of my recordings at 2256 the signal was gone. Only noted this day. TN
4965,0	Oct9	2142	R. Alvorada, Parintins AM. Songs.CGS
4975,0	Oct11	2225	R. Iguatemi, Osasco SP. Mx, tks. CGS
4985,5		2348	Radio Voz Cristiana, Huancayo 2348 to 2356 om preacher in Spanish, in usb 1.3 k filer to avoid RTTY below; 2328 noted with weak signal but no RTTY on 4985 (Wilkner & XM)
4990,0	Oct10	2217	R. Apintie (p), Paramaribo. Tks. CGS
5005	Oct12	2231	Radio Bata mit schöner afrikanischer Musik, tolles Signal, S9+10. Michael Haun via A-DX
5005,0	Oct11	2229	RNGE, Bata. Vn, Afr. pops. Reactivated. CGS
5010,00	Oct25	0110	AIR Thiruvananthapuram Malayalam conversation with short interludes of Indian music 35333 AP-DNK
5010,52	Oct25	1835	R Madigasakara hrd 10/25 above nominal freq from 1835 tune from Perseus site in Brisbane. Nice high-life music with oncl man ancr in vernacular. SINPO 35333 with under-modulated audio. Still going at 1920 past nominal 1900* but signal starting to fade as gray line passed Brisbane. Bruce Churchill via DXplorer
5011,5	Oct13	1825	R.TV Madagasikara (p), Ambohidrano. Tks, songs. Vy. weak modulation. Carrier + USB tx. CGS
5015,00	Oct25	0115	Brother Stair, via WMRI, Okeechobee English religious talk, weak signal. AP-DNK
5024,9	Oct24	2326	R Quillabamba heavily disturbed by RHC on 5025. TN
5035,0	Oct9	2143	R. Aparecida, Aparecida SP. Mx px Cantinho Sertanejo. // 6135, 9630, 11854.95. CGS
5035,0	Oct13	2146	R. Educação Rural, Coari AM. Tks, songs, anns, more mx. QRM de R.Aparecida, B. CGS
5050	Oct19	-1601*	Beibu Bei Radio signed off with NA. Transmitter off at 1601:35 Strong. TN
5050	Oct16	1358	Beibu Bay Radio (Nanning) 1358-1404 16/17 Oct. W DJ chatting in VT + VT hip-hop/pop songs, pips @ TOH, TC/ID in EG ("The time is 10 PM, Beibu Bay Radio") & CH/VT, ending with station jingle w/ "FM 96.3 Beibu Bay Radio" tag..heard w/ // programming on 9820 on the 16th, altho Aoki shows CH there 1330-1500--listing goof or were my ears deceiving me? (Dan Sheedy, Encinitas/Moonlight Beach, CA)
5580,2	Oct24	2330	Radio San José, San José de Chiquitos 2330 with weak signal on 24 October; 2340 noted with Spanish on 21 Oct. (Wilkner)
5795	Oct18	0207	YHWH (religious pirate) 0207+ 18 Oct. Usual "Yahweh'll get ya." programming but with a much better signal here than when they're on 31M. (Dan Sheedy, Encinitas/Moonlight Beach, CA)
5830	Oct14	1520	BBC (Nakhon Sawan) 1520 14 Oct. Odd time? Aoki has BBC EG sked 13-15 Tues/Sat. only & noted as jammed, but in the clear this morning. (Dan Sheedy, Encinitas/Moonlight Beach, CA)
5939,7	Oct9	2225	R.Voz Missionária, Camboriú SC. Natl. nx magazine A Voz do Brasil. CGS
5939,75	Oct10	2320	Voz Missionaria, Camboriù, Brazil, religious songs & talks, fair (Bernardini)
5910+	Oct20	0558	Tropical vocal music past 0600, automated 1:03 ``una y tres minutos`` TC at 0603, but no ID, back to music. It's surely Alcaraván Radio, HJDH, reactivated after missing a week or more? Explanation: ``5910, Alcaraván R, Puerto Lleras, the last weeks I was not able to receive this station, at sunrise here in Spain. Rafael Rodríguez from the station let me know that the transmitter of Alcaraván Radio suffered a breakdown and is on air in reduced time, but they are working to repair it (Manuel Méndez, Spain, DSWCI DX Window Oct 15 via WORLD OF RADIO 1743, DXLD)`` -----
			Slightly on the hi side compared to MW 910 kHz carriers on the FRG-7. And Wolfgang Büschel had measured it on ``5910.063, at 0616 UT Oct 12, into northern Alberta Canada receiver site. Fluttery signal, hops few Hertz up and down``. Altho there is some signal now around 6010, it's much weaker and can't be sure if it's sibling HJDH The Voice of Thy Conscience. (Glenn Hauser, OK)
5970,0	Oct9	2220	R. Itatiaia, Belo Horizonte MG. Tks on f/ball, not A Voz do Brasil relay. CGS
5980,0	Oct9	2222	R .Chaski, Cuzco. Cast, mx, rlg. propag. Adj. QRM. CGS
5985,21	Oct14	1309	Myanmar Radio. Sounded like live sports coverage from Yangon of AFC U-19 Championship (soccer) game; sounds of the fans in the background; fair-poor. (Ron Howard, Asilomar State Beach, CA, USA)
5985,25	Oct10	2340	Padauk Myay Radio, Burma, slow songs, weak (Bernardini)
5999,58	Oct24	0059	R Nacional da Brasilia beck here. Long and impressive ID mentioning onda corta. Strong signal. No sign of R Guaíba at this time. TN
6000,0	Oct13	2203	R. Guaíba, Pt.º Alegre RS. Natl. nx magazine A Voz do Brasil. QRM de CHN. CGS

6003	Oct21	2005	Echo of Hope, North Korea, Korean, long talks, weak/fair (Bernardini)
6010,04	Oct10	2205	R.Inconfidência, Belo Horizonte MG. Natl. nx magazine A Voz do Brasil. QRM de CHN. CGS
6010,05	Oct10	2345	Radio Inconfidencia, Brazil, talks, weak/fair USB to avoid China, slowly drifting (Bernardini)
6010,19	Oct19	0645	La Voz de tu Conciencia CLM, very good signal at this time. REL just before TOTH and mucic prior to that. AN
6030	Oct13	1338	Calgary - CFVP relaying CKMX (AM 1060). Oct 13 at 1338 heard comedy in English which I assume was Calgary; heard due to absence of CNR1, but on Oct 14, still no CNR1, not even a hint of Calgary from 1331 to 1505. Completely different propagation! (Ron Howard, Asilomar State Beach, CA, USA)
6030			CNR1, both 6030 and 7345 off the air on Oct 13 & 14. Very nice! (Ron Howard, Asilomar State Beach, CA, USA)
6030	Oct14	1445	Radio Oromiya, 1445-1505. With CNR1 now silent here, is possible to again hear them with monologue in vernacular and nice HOA singing; TOH sounded like news. https://app.box.com/s/tnbubu3wo2oftibhu3bg contains audio of TOH and some HOA music. Via long path (Ron Howard, Asilomar State Beach, CA, USA)
6030	Oct14	1331	AIR, 1331-1347. Strong hum, which is explained by Mauno Ritola, who today reported - "at 1300 AIR with low modulation and a lot of hum due to ±50 Hz spurs." Reception only possible due to CNR1 being off the air; subcontinent music (Ron Howard, Asilomar State Beach, CA, USA)
6034,95	Oct14	-1240*	BBS, 1216-1240*. Jim Young (Calif.) yesterday also noted cut off at 1240*; reception greatly improved with the absence of CNR1 on 6030 (Ron Howard, Asilomar State Beach, CA, USA)
6034,955	Oct19	0030	BBS Thimphu programm auf klarem Kanal 6034.955 kHz sehr schön mit S=8-9 Signal oder im peak bei -73dBm hier in Stuttgart zu hören, 0030 UTC am 19. Okt. Bis 0029 UTC erklang typische SoAS Himalaya music, danach nur eintöniges Gespräch von zwei Männern, möglicherweise in der Programmsprache Dzongkha. (73 wb via A-DX) ----- I haven't checked very carefully, but a few spot chcks reveal off the air again on 6035 0000-1300 slot. Heard with readable signal here in Finland between 1130-1215* on 6034.95 kHz and confirmed // with http://www.bbs.bt/news/radio-wan.html 73, Mauno Ritola Also checked today here in South Sweden but no signal at all at 1200. Too early here. /TN
6034,96	Oct20	-1315*	Bhutan B.S. 1242-1315* 33443 Vernacular, Bhutan music and talk, 1315 sign off, //Confirming the parallel Streaming, [Ko.Hashimoto, JAPAN via DXLD]
6035	Oct13	1156	BBS 6035 hrd from 1156 tune and as noted by Ron Howard, significant QRM from a pulse jammer on 6030 (QRM most noticeable after 1210, but seemed to fade in and out) - at 1200.5 and 1202.5 hrd short indigenous inst music and a man ancr from 1201 to 1217. Another short inst music piece 1217 to 1217.5 fol by same ancr as at 1201. More music at 1221-22 fol by different man ancr. At 1223.5 a male vocal w/ orchestral accomp to 1231. Flute inst at 1231 fol by what seemed to be an interview between studio ancr and a male remote caller to 1239.5 w/ more flute inst music. More orch music and female vocalist until off in mid-song. As Ron noted, decent sig strength this morning from the Perseus site NE of Edmonton with a SINPO of 33333. Improved to near S4 after 1220 until s/off. Pgm suddenly off in mid-song at 1241 but carrier appeared to stay on (however this might have been CNR-1 carrier as I did not see the spectrum display at s/off). Bruce Churchill via DXPlorer
6055	Oct14	1506	Radio Rwanda. Nice signal via long path; sounded like Kinyarwanda; news; ads; pop songs. Decent audio at https://app.box.com/s/9cdc9uf3v6xemaofzd0 (Ron Howard, Asilomar State Beach, CA, USA)
6070	Oct10	2250	Super R. Deus è Amor, Rio de Janeiro, Brazil, Voz do Brazil, fair (Bernardini)
6070	Oct10	2338	Radio Habana, Cuba, nice songs, talks in SS, fair (Bernardini)
6070	Oct24	0505	CFRX 0505, 0607, 24 Oct. Nice to have them back! JBA @ tune-in w/ news, slightly better by 0600+ w/ "News-Talk 1010" slogan, weather/traffic reports. (Dan Sheedy, Encinitas/Moonlight Beach, CA)
6070	Oct24	0947	CFRX Toronto 0947 to 1010 "how quickly this happened ... then we were on it..." description of the attack . Strong signal 24 Oct. (Wilkner)
6080	Oct21	2010	VOA, Mopeng Hill, Botswana, nice songs, good, over Minsk (Bernardini)
6089,89	Oct21	2213	FRCN, Kaduna, Nigeria, Vn, songs, talks, fair (Bernardini)
6089,93	Oct11	2211	R. Nigeria, Kaduna. Vn, Koranic propag. Co-ch. QRM. CGS
6094,997	Oct26	0900	At 0900-0930 UT came across of a funny song / music, from the 30s. In Japanese language of course. Really amusing jolly programm. S=9+20dB -54dBm. Talk in between by female + male announcer. All very amusing and traditional easy listening program. KBS early appearance? E ngineer in duty error ?Not in \ \ KBS 7275 kHz,

			which had rather hard rock music played. Oh yes, KBS 6155 Kimjae is N O T on air, seemingly but on 6095 kHz instead ? scheduled 6155 0800-1000 44,45 KIM 100 0 Jpn KOR KBS At 0953 "Happy Birthday to you ..." 73 wb via DXPlorer

11770-		*2059-	V of Nigeria. 9690-, Oct 16 at 2048, distorted talk modulation in presumed Hausa from V of Nigeria, 2057 a bit of drumming not so distorted before cutoff at 2057.4*. It had been fair-good signal strength, certainly the best out of Africa on the band at this time. I then tune up to 11770-, expecting it to come on there and it does by *2059, but very poor level, can't tell language but presumably Arabic as in Thorsten Hallmann's AfricaList. http://www.muenster.org/uwz/ms-alt/africalist/africalist.pdf Thorsten Hallmann replies: ``Oh, in the current version this transmission is actually given as Hausa. And I believe it's always Hausa at that hour - maybe in older editions Arabic was mentioned, which was the first guess of Wolfgang Büschel and myself when we first heard the transmission`` (Glenn Hauser, OK)
11780	Oct21	2038	R. Nacional Amazonia, Brasilia, Brazil, reports, fair/good (Bernardini)
11855	Oct15	0620	Rádio Aparecida med religiöst. 2-3 CB
15144	Oct18	0105	RSO 0057-0105, 0112, 0132 18 Oct. Thanks to Ivo Ivanov's info on the HCDX site for the ID..heard as unID w/ qira'ut across TOH, 0112 audio gone & carrier gone by 0132 recheck..supposed to be on 9500 00-02(Dan Sheedy, Encinitas/Moonlight Beach, CA)
15345,14	Oct21	1954	REE, Argentina, interview in Italian, fair (Bernardini)
15476	Oct21	1944	LRA36 R Nacional Arcangel San Gabriel, Antartica, talks, poor (Bernardini)

Other radio news

DX clubs in Latin America flourished notably in the 70s - La Galena del Sur.

I am publishing some stories and scans of DX-bulletins from my archive.

Check my latest entries at my blog at <http://lagalenadelsur.wordpress.com> (in Spanish). Work is in progress.

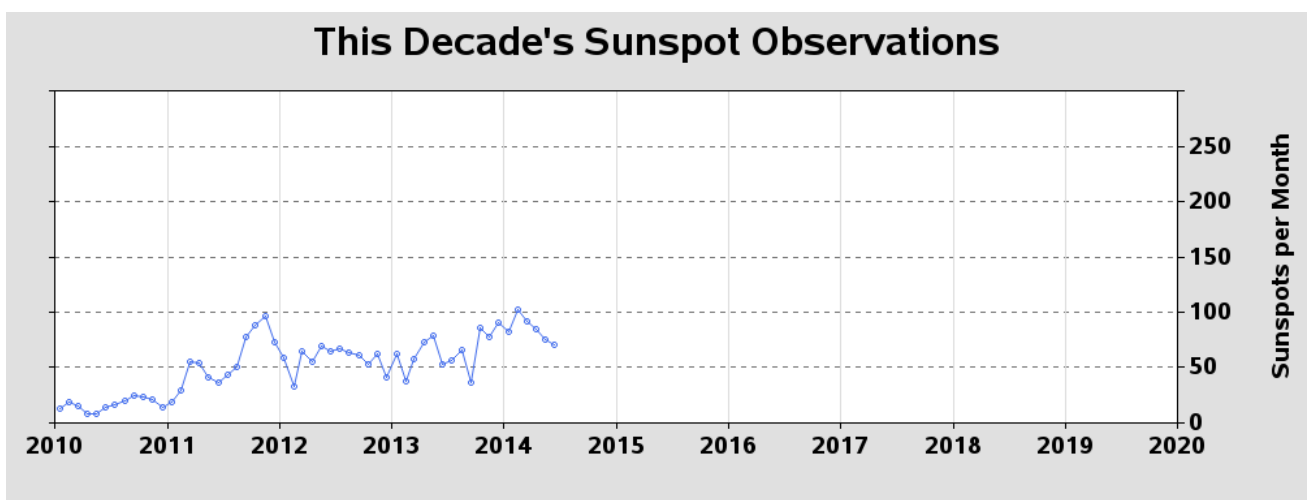

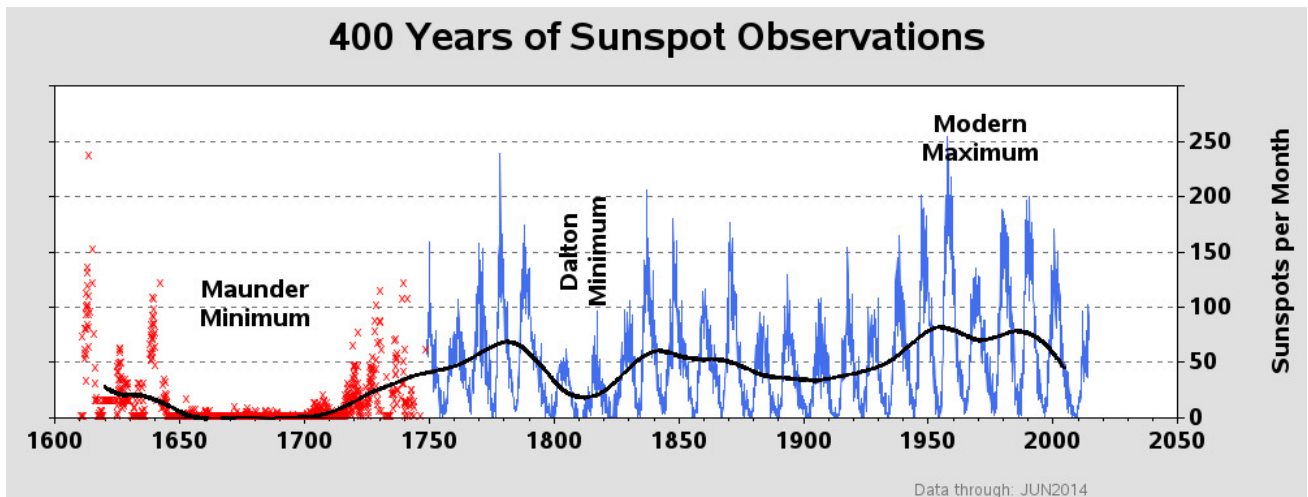

(Horacio Nigro via DXPlorer)

StationList V2.1.3.1 released

- added Channel-Logger (only for Perseus and SRCP enabled radios)
- automatically monitor and log user defined channels
- if RDS-PI is detected it will be logged in a table
- the signal level of the first 4 channels are also plotted in a chart

Example results (made by Herman Wijnants) http://zeiterfassung.3sdesign.de/station_list.htm#channel_logger

Einige Wimpel der DDR-Lokalsener, Wimpel von Fernsehen und Rundfunk der DDR

In der Objekt- bzw. Realiensammlung (Sachzeugen) des DRA Babelsberg sind eine Reihe von Wimpeln nachgewiesen, die als Werbemittel, als Souvenir oder zum Zweck der Repräsentation im Auftrag des Fernsehens und Rundfunks der DDR hergestellt wurden. Diese Wimpel haben in der Regel eine dreieckige Form und sind meist aus Textil oder ähnlichem Gewebe gefertigt, häufig bedruckt oder bestickt. Eine Auswahl davon wird hier vorgestellt.

The Secret Machine Behind Soviet Numbers Stations by Paul Riisman on October 20, 2014 in History, International.

I recently learned of a series of YouTube videos that show a German machine that is alleged to be the voice behind Soviet cold war numbers stations. The videos, uploaded four years ago, show something that looks like a piece of electronic lab equipment that emits a sampled or synthesized voice rattling off a programmed sequence of numbers. According to the accompanying description, the voice comes from swappable program chips, and the machines are owned by a German spy-gadget collector.....

Old radio hunters mark history

Forget vinyl. If you're looking for unadulterated sounds from old-school technology, listen to a man who goes by the name Didi Radio talk about his collection.

"I think their designs are very artistic. Their sounds are also more natural, because they're analog receivers and use tubes. Their resonance is far better than transistor and digital radios," Didi Radio, whose real name is Didi Widiyanto, said.

He made his comments at the recent Layang Swara (Sound Messenger) exhibition, which displayed 60 vintage radios, some dating to the 1930s, at the Soedjatmoko Cultural Center in Surakarta, Central Java.

The radios came from the private collections of members of the Audio Radio Preservers of Yogyakarta (Padmaditya) in Yogyakarta and Magelang, Central Java.

Although decades old, the receivers — mostly tube radios made by Philips, Erres, Blaupunkt, Robin and Telefunken — are well maintained and still working.

“We collect the radios for their historic value. In their times, these sets were so important for the dissemination of information. They were also a luxury,” said Didi Sumarsidi, another Padmaditya member. “In the 1960s, we had to crowd the subdistrict office to listen to the radio.”

Padmaditya was founded in 2011 by collectors who would hunt for old radios at antique shops and flea markets.

After meeting to exchange information and spare parts in different cities and villages, the collectors decided to form a community.

“Originally there were only 11 people. We continued to promote the love of old radios from then on. Today there are over a hundred Padmaditya members from Yogyakarta, as well as other cities such as Solo, Semarang, Surabaya and Jakarta,” Didi said.

Like Didi Radio, Edi Sunaryo says he was lured by the distinctive designs and analog sound. “The analog system gives the impression of a genuine human voice.”

Edi says his zeal for collecting came rather late, only two years ago.

“I’ve been going around flea markets and antique stores in Yogyakarta, Solo and even Surabaya, sometimes alone and more often along with other members. As long as the products are well-designed and their prices reasonable, I take them,” Edi said.

Edi, who says he has eight radios in his collection, doesn’t care whether they work or not. Attractive shapes and complete spare parts are more important.

“Not a problem if the radios don’t work because some community members are skilled in repairing tube receivers,” Edi said. “Many friends have had their damaged radios fixed up. If they’re irreparable they can still be modified.”

Among his several radios showcased at the exhibition was a Bence, made in Surabaya in 1956 — and reportedly the first to be produced in Indonesia. The radio is pyramidal and made with a wooden frame.

There was also a Philips radio dating to the mid-1950s working in the short wave (SW), medium wave (MW) and frequency modulation (FM) bands.

“This radio is rare because when it was produced, the FM waveband wasn’t yet known in Indonesia,” Edi, who also teaches at the Indonesian Arts Institute (ISI) of Yogyakarta, said.

Edi said he was lucky he could buy the radios from an owner and not a third party. “A radio worth Rp 200,000 (US\$16.3) from its owner could cost Rp 1 million from a dealer.”

Didi Sumarsidi, a former physician for the Indonesian Military (TNI), said he once took home 40 old radios – much to the dismay of his wife, who thought the pieces were scrap metal.

When he was assigned to Bima, West Nusa Tenggara, he returned with two old radio sets, each weighing 12 kilograms. “They were Siemens multiband radios made in Germany.”

Didi says he has two prized pieces in his collection of 175 radios: a Philips radio with a dial in the shape of a compass and a Philips Bi-Ampli, both of which he bought for Rp 200,000 and are still working.

The value of the radios for sale at the exhibition ranged from Rp 200,000 to Rp 12 million, Didi said. However, collectors are selective, only selling to fellow hobbyists and usually only because they already have more than one radio of a specific type.

The oldest radio at the show resembled a cathedral. It was a Dutch-made Philips product of the 1930s. Somebody once offered to buy it for Rp 20 million but its owner wouldn’t give it up. Actually, the radio was bought for Rp 300,000, said Didi, a collector since 1970.

Viewers could marvel at a Philips Aida made in 1946 in Eindhoven, Holland, with city names still printed on the wavelength dial with traditional (tempo doeloe) spellings, such as Batavia for Jakarta, Soerabaia for Surabaya and Bandoeng for Bandung.

Transistor radios of the 1960s, such as Ralin-brand radios, were on show, still operating in the SW and MW bands.

Radio expert Iwan Ganjar also displayed some manual gramophones of the 1920s. Using no electricity, the old record players operate by winding a crankshaft.

“This exhibition constitutes a way for us to document historic articles,” Didi said. “With the changing times, the objects that once marked the nation’s history should not just be forgotten.”

DX Report on Peruvian SW stations 23 October, 2014 aboard the MS Zaandam

As we were preparing to leave Lima, Peru, I was able to set up a relatively decent radio setup aboard our cruise ship, the Holland America's MS Zaandam. Over the last few weeks, I located a private area, electrically quiet, and almost ideal for reception. It's located on the aft end, 6th deck with a convenient flag pole to secure my 75 feet of random wire which I brought along on the cruise, as well as my trusty Eton e100 tiny portable receiver. I coupled the wire to the receiver initially by wrapping a few strands of the Teflon coated wire to the collapsed whip, but later found that directly connecting via an alligator clip did not overload the receiver. I connected the receiver via a patch cord to record a few of the stations heard using Total Recorder Pro on my little MSI Wind notebook. What I have yet to try is the SDR-IQ which I also brought along. The main issue is the total lack of any electrical outlets, so the session lasted about 2 hours, the duration of the battery life of the little notebook. Here's the setup at the aft end of the ship:

Much more preferable than standing on the Promenade holding the receiver in my outstretched hand, and garnering a lot of puzzled looks (I was decoding VOA Radiogram). Interestingly, most people asked whether I had an "internet signal". Understandable, I suppose, since the cost of internet aboard can be up to \$0.75 a minute! Ouch!!!

I had downloaded the A14 SW frequency schedule earlier, and noted the large number of Peruvian SW stations listed. Unfortunately, very few stations are still using SW in Peru, at least in the time frame of 20:55 to past 23:00 UTC that I monitored. One more interesting photo is included below, taken while on a tour of Lima. Well worth the visit, as this is a truly fascinating and lovely city of almost 9 million people. The antenna itself had no obvious markings, so it may very well be abandoned. The building at the base was likewise abandoned in appearance. I'd welcome suggestions on what type of antenna this represents. Lima did list a number of SW stations, but not a single one I could find was on the air.

As you might see, there were lots of insulators on the guy wires, as well as that interesting vertical component. I suspected that this might have been an old SW transmitting antenna? Now on to the report: I checked every frequency on SW for Peru, and also for Bolivia. Frequency was only readable down to 1 kHz on the Eton. I often tuned 1 kHz above or below to improve reception.

- 6174 Radio Tawantisuyo, Cusco. Good ID heard at 20:55. Rapidly improving in strength to very good reception at 22:00. All in Spanish.
- 4985.5 Listed as Radio Voz Cristiana, but not sure about this. Fair to good at 21:07 Programming did not sound religious.
- 4955 Radio Cultural Amauta, Huanta. Nice ID heard at 21:18. Very good at 22:16.
- 4775 Radio Tarma, Tacna. Very good at 21:22, and continued at great levels when rechecked at 22:50 and 23:10. Lots of local ads.
- 5025 Radio Quillabamba, Cusco. Not heard before 21:00, but very good signal at 21:38. ID at 21:44, mentioning Onda Corta.
- 4747 Radio Huanta 2000, Huanta. Not on the air before 22:00 but at very good level at 22:15 and again at 23:09.
- 5980 Radio Chaski, Peru at good level at 22:40 UTC. Nothing heard earlier.
- Now, I also heard a number of other interesting stations. On the Eton, one has to be careful with images in the receiver, and perhaps some of these listed below might represent these.
- 3370 unid at 22:00 with Koran chants fair level. Later, at 22:51, there was a powerful Spanish station on this frequency.
- 3340 Likely Radio Misiones Internacional, Honduras. Fair/poor level at 22:10.

3390 tent Radio Em Camargo, Bolivia at fair level at 22:50.

A number of Brazilians started to fade in later in my session: 3370, 4805, 4815, 4865, 4885 to name a few.

3325 Spanish heard at 23:07 unid.

So, very few Latin American stations left on SW, but Brazil, if that is an interest, still seems to have many stations remaining on the tropical bands. I'm hoping to monitor a bit more, especially as we round the Cape. I have heard LRA 36 several days ago, at poor to good level, with deep fades. I expect reception will continue to improve over the next week or two, as we approach Antarctica.

(73, Walt Salmaniw, normally of Victoria, BC.)

Walt, Tnx for an interesting report, and look forward to more from your cruise / expedition.

What A14 schedule are you referring to which has all the Peruvians listed but not to be heard? Aoki, I suppose, where they refuse to delete outdated info, and/or other databases blindly copying Aoki.

I think your 3370 must be an image, and 3340 Honduras has been off the air for years. Hope you can recheck that one. I guess you don't have a second receiver along for quick check of //s?

(73, Glenn Hauser via DXLD)

Thanks Walt, very interesting to be able to take part of travel stories from DX-ers visiting the world. We are looking forward to next story from the very deep south. /TN

DESDE LA CIUDAD DE HUANCAYO

From <http://www.radiovozcristianaperu.com/>

Denna gång kommer ett antal trevliga QSL från den tid då Frankrike fortfarande hade sina kolonier i Afrika. Man ser att rationaliseringen gått långt - alla kort har i princip samma utförande. Kommer inte ihåg om rapporter skulle gå till ett ställe eller till resp station. Det fanns något som hette société *de radiodiffusion de la France d'outre-mer* som var en övergripande organsiastion för alla kolonierna. Någon som minns bättre? /TN

Här kommer listan över frekvenser och år då resp. station svarade.

- 4843 kHz R Congo, Brazzaville från 1962
- 4777 kHz R Gabon från 1964
- 4972 kHz R Yaoundé från 1962
- 4870 kHz R Dahomey från 1961
- 4940 kHz R Cote de Ivoire från 1960
- 4815 kHz R Ouagadougou från 1960
- 4850 kHz R Mauretanie från 1961
- 5035 kHz R Bangui från 1967
- 4835 kHz R Mali från 1964
