

SHORTWAVE BULLETIN

Issue no. 1826, June 21, 2015.

Deadline e-mail next issue: 0800 UTC, July 5, 2015.

Så befinner vi oss på dagen för sommasolståndet som infaller 1838 SNT. Sen börjar dagarna igen bli kortare. Tyvärr har vädret här nere hittills varit så kallt och blåsigt att livet på altanen uteblivit.

Även på midsommarafton var det kallt och regnigt så när som på några timmar på em. Men det kalla vädret har en lugnande inverkan, polisen får gå långt tillbaka för att hitta ett så lugnt firande som i år.

Vi gjorde dock så gott vi kunde - var nere i Burg och bunkrade, inte bara för midsommarafton utan även för kommande dagar med fint väder (kan man hoppas på).

Copa America har medfört att några nya stationer dykt upp på 7550 och 12365. Tyvärr har dessa inte varit hörbara här i Europa.

En hel del tips har det ändå blivit och ett och annat guldkorn har vaskats fram.

Tack till alla bidragsgivare.

Keep on

=====

QSL, kommentarer, mm.

Christer Brunström: Hej! Lördagen den 27 juni kl. 12.00 UTC kommer ett nytt specialprogram via Radio Revival Sweden på 7430 och 9405 kHz. Om allt fungerar som det ska blir det också ett inslag om Emisora Nuevo Continente 15-90. Trevlig sommar!

Christoph Ratzer: "Hello all, Today it is one of the most important holidays for us here in Sweden - midsummer." /Thomas Nilsson

Many thanks Thomas to inform about this important date.

All the best wishes from Salzburg with a special picture from my remote station, also to all SWB friends!

Hope you enjoy today's holiday and don't drink too much Ö!.

73 Christoph

(Christoph, thanks for a nice card and greetings! /TN)

Robert Wilkner: A midsummer issue featuring Copa América from Bolivia, Radio Panamericana and Chile, Radio Cooperativa. Warm and dry on the east coast of South Florida, looking for rain while expanding a butterfly garden.w

Russell Scotka Report: I'm not sure what we should be prepared for....the AM broadcast band has been in continual decline for a quarter century. As the WWII and baby boom generations wane the band is doomed.

The digital TV transition went smoothly because a considerable amount of people were getting TV from a cable box. Think about it, how common was it to see a working TV antenna above a house? If you went to where young people congregate and did an informal poll where you asked them about the AM band, they would probably not even know what it was. The more knowledgeable might describe it as just that unused button on the car radio that, when pushed, introduces static and noise into the speakers or maybe that wasteland of conservative talk, ethnic, and brokered programming that bores them to tears.

Even the trucker demographic that you'd think might save the day have been migrating over to satellite radio as the AM stations of today no longer offer programming of any real use to them. The typical casualty when a national media company takes over a station is the loss of local content and news. The FCC just makes a show of looking at station applications anymore since a considerable amount don't really serve their listening audience in any substantive fashion outside of locally oriented advertising and what passes for public service programming that's usually scheduled for early Sunday morning... (via Robert Wilkner)

Dan Olsson: Jag får önska er alla en god fortsättning på midsommaren. Själv har jag fått tagit det lugnt eftersom jag skadade ett par revben i förra veckan när jag ramlade under en orienteringstävling. Ett **QSL** har jag också fått nämligen **R Montferland på 6305** med e-brev och kort. I övrigt på radiofronten kan jag meddela att spelat in en jingel till NDR1 MV på FM. Jingeln är på tyska och det får jag anse vara en bragd eftersom min tyska i stort sätt är "ein bier bitte". Det var allt för denna gång.

Log

(UTC)

2368,47	Jun17	1216	Radio Symban (presumed). Another day of Greek singing/music; semi-regular recently (Ron Howard, Asilomar State Beach, CA, USA)
2380	Jun9	1050	Radio Educadora , Limeira , São Paulo , Brazil 10:50 utc OM Cxs sobre horario de uma manifestação dia 09/06 sinpo 25222 https://www.youtube.com/watch?v=B5B76y-qjTs&feature=youtu.be (Daniel Wyllyans Nova Xavantina MT via HCDX)
2485	Jun16	1115	Aussie M&W chatting, surprised at how well VL8K is coming thru, but no signal at all on 2325 so VL8T is off? Nothing ever on 2310, since VL8A has been stuck on 4835 for a few years, and sounds like same program there tho no attempt to match //. WRTH 2015 page 81 still has VL8A on 2310 at 0830-2130, and on 4835 at 2130-0830 only! (Glenn Hauser, OK)
3289,91	Jun14	0748	V of Guyana, very poor signal but some mx and some cmntry was there June 12 ;0147, poor but better than it has been lately, w/ signal clear enough to determine mx was playing June 14 (XM)
3289,94	Jun20	0915	GBC Voice of Guyana 0915 to 0945 yl introducing pop music from 60s 0914 into "Ode to Billie Joe - Tallahatchie Bridge" https://www.youtube.com/watch?v=WoMF_mSeWJo yl with " not TV or radio all things important... for the first time" on 13 June; 0900 om talking about a "local contest " into rock instrumental " in the sunshine of ..." then sound effects.0915 slow 60 ballad and preacher begins at 0945 (Wilkner)
3310	Jun13	2315	Radio Mosoj Chaski, Cochabamba, Bolivien; SIO 332 (Christoph Ratzer)
3310	Jun17	1010	Radio Mosoj Chaski, Cochabamba 1010 yl with long talk in language, doe Spanish? 1020 om nd yl talk. (Wilkner) <i>Also heard by XM on Jun12 0125</i>
3365	Jun18	1304	NBC Milne Bay. NBC National News in English till 1306; DJ in English playing pop songs; poor. A sad state of affairs here! There is only one SW station now operating from PNG , as Wantok Radio Light (7324.96) was absent after 1400 on both June 17 and 18, with Dave Valko also confirming off the air earlier on the 18th. (Ron Howard, Asilomar State Beach, CA, USA)
3365	Jun16	1022	NBC Milne Bay, 0810, threshold signal, never got above that June 12;1022, weak but steady carrier June 16 (XM)
3365	Jun14	0138	Radio Cultura, presumed, carrier, occasional traces of threshold signal (XM)
4055	Jun19	0957	Radio Verdad 0957 marimba music with soprano vocal over, into chorale at 1010, strong signal (Wilkner) <i>Also heard by XM on Jun20 at 0127</i>
4409,77	Jun10	2358	R. Eco, nice Andean folk mx over ToH. M DJ came on and seemingly took phone call from a M that was barely audible. DJ chatter after 0108 w/clear ment of Bolivia at 0109, then someones name. Ment "programa" at 0111, tarde and noche and ID at 0112:05, then back to lively LA mx. 0115 into another song w/yipping like a Terrier Dog at the beginning (not a Huayno). 0118 diff. M barely audible again. Still going at 0225 w/sev. songs in a row. Ranchera song at 0231, then M came on at 0233. If not for the thunderstorm static crashes, it would've been a decent signal. Here's a link to a YouTube video that you should enjoy. It includes not only this reception but also good receptions from 1991 and 2005. Please check it out at https://youtu.be/iE8I3qnF2_4 (Dave Valko, Dunlo, PA, USA)
4409,78	Jun20	0120	Radio Eco, Reyes presumed in Spanish with weak signal (Wilkner) See recent log by ace DXer Dave Valko !
4699,9	Jun20	0120	Radio San Miguel, Riberalta 0120 to 0145 " mucho en commentaries " "en fútbol?" ... "la mass de ...pero pero por rápido " much better signal than normal, klong pauses between commentary by om 20 June (Wilkner) <i>Also heard by XM same day same time</i>
4747,5	Jun19	1028	Radio Huanta 2000 Huanta Ayacucho om with commentary 1028 to 1033 , marginal signal on 19 June (Wilkner) <i>Also heard by XM Jun20 at1024</i>
4750	Jun15	1235	Bangladesh Betar - HS. A rare day when CNR1 was not too strong; normal Monday only SAARC (The South Asian Association for Regional Cooperation) news bulletin in English; item about "BCIM, Bangladesh-China-India-Myanmar economic agreement," etc. (Ron Howard, Asilomar State Beach, CA, USA)
4750	Jun13	1903	Dunamis SW with African rhythms, quite good signal. TN
4760	Jun13	2257	ELWA with a beautiful version of "Amazing Grace". Sign off at 0002. TN

4760	Jun15	2125	ELWA Radio, Monrovia, Liberia, SIO 333. Guten Abend A-DXer, ELWA heute mit einem wesentlich stärkeren Signal auf 4760 kHz als die letzten Tage, das weiterhin starke Sommer-QRN verdirbt den Spaß aber sehr. (Christoph Ratzer)
4775	Jun20	0153	Radio Tarma, M in SP talk, very poor (XM)
4810	Jun19	1030	Radio Logos, Chazuta, Tarapoto 1000 beautiful Peruvian Flute music with vocalist, this signal on top of CODAR and the strongest Peru received here, ; 1030 recheck similar music 19 June (Wilkner) <i>Also heard by XM Jun20 at 0128</i>
4824,47	Jun18	00258	LV de la Selva as always very low audio, mx TN
4824,49	Jun19	2320	La Voz de la Selva, Iquitos 2320 to 2325 difficult signal on 18 June; 1020 to 1029 difficult signal in Spanish needing lab and IF notch filter, (Wilkner) <i>Also heard by XM Jun20 at 0152</i>
4825	Jun20	0134	Cancao Nova, presumed, 0134, threshold almost making it to the level of intelligible audio, June 14 ;0152, threshold (XM)
4835	Jun12	1225	VL8A Alice Springs NT. "Grandstand" coverage of the Port Adelaide game; <u>not</u> // RA. (Ron Howard, Asilomar State Beach, CA, USA)
4835	Jun12	0737	Northern Terr. Service, Alice Springs, presumed, somewhat better than hd a few days ago w/ a threshold signal struggling to get to intelligible audio June 9 ;0826, could not get above threshold level due to QRM from WWCR (XM)
4885,025	Jun18	0030	R Clube de Para with extremely strong signal. Football Brazil - Colombia. TN
4910	Jun9	0824	NTS Tennant Creek, best signal of the morning, definite Aussie accents, apparent nx, M interviewing another M, brief amount of mx, and off promptly at 0830 June 12 ;0738, similar situation as 4835 (XM)
4925,2	Jun19	1020	Radio Educação Rural, Tefé, AM 1020 to 1030 in portuguese fading out (Wilkner)
4950	Jun14	-1355*	AIR Radio Kashmir, Srinagar (presumed). Today only able to hear open carrier with no audio (Ron Howard, Asilomar State Beach, CA, USA)
4970	May31	1238	AIR Shillong. Sunday program of C&W songs; "Rocky Mountain High" John Denver, "Jolene" Dolly Parton, etc.; DJ in English; local IDs - "The North Eastern Service of All India Radio" (Ron Howard, Asilomar State Beach, CA, USA)
4985	Jun17	1020	Unid looking forBrasil Radio Brasil Central, Goainia 1020 to 1025 weak carrier with no rty present (Wilkner)
4990	Jun6	1235	PBS Hunan, as of June 6 (1235), have been hearing this since Jan 12 on a daily basis with decent reception, as before that date was not hearing them at all. Whatever they did to improve their signal is holding up very well. (Ron Howard, Asilomar State Beach, CA, USA)
5014,907	Jun10	0005	R Cultura de Cuiabá noted quite often lately but weak. TN
5020,0	Jun13	1910	Most likely SIBC for just a few minutes with weak audio before disappearing. TN
5020,0	Jun7	1212	- Again SIBC with Wantok FM 96.3 programming, on 5020.0, with extended schedule; noted 1212-1340. Reception considerably poorer than heard on the 4th; sounded like mostly religious songs, as it's Sunday; fewer IDs than normally given, which were always very brief ("Wantok FM with the hottest DJs"). (Ron Howard, Asilomar State Beach, CA, USA)
5020.0	Jun12	1136	SIBC. More strangeness here. At 1136 (a time when in the past I always had audio) there was no audio, only an open carrier; OC still on at 1404; never heard any audio today (rare!). June 13, from 1141 to end of normal audio at 1200; transmitter off sometime after that. Why is every day different now? (Ron Howard, Asilomar State Beach, CA, USA)
5020,0	Jun14	1138	SIBC continuing with erratic activity; only heard open carrier (no audio) at 1138 & 1155 (a time when they normally have audio). June 15, with outstanding reception on 5020.0; 1200 usual brief NA; 1201 pop songs via relay of Wantok FM 96.3; at 1203 played long version of National Anthem followed by the only ID heard today; normally they give IDs after every other song, but not today; non-stop pop songs; by 1340 had dropped down to fair. Probably the strongest I have ever heard them on this frequency! Good propagation. June 16, at 1155 with the normal "evening devotional"; ID & NA; after 1203 only open carrier (no audio); still OC by 1245. No daily consistency! (Ron Howard, Asilomar State Beach, CA, USA)
5020,0	Jun17	1129	SIBC. Only open carrier (no audio) at 1129, at a time that normally has audio. Transmitter off shortly after 1200. June 18, normal programs at 1140 (DJ/pop songs/"evening devotional"/ID/NA); with transmitter off at 1203*, so no relay today of Wantok FM (Ron Howard, Asilomar State Beach, CA, USA)
5024,92	Jun10	2300	R Quillabamba can be heard here a short time before R Rebelde gets too strong. TN
5066,335	Jun13	1859	R Candip with decent signal, ann. at 1900. Sign off just a few seconds after 2000. TN
5910	May2	0200	Alcaraván R för sista gången denna säsong. Därefter alltför ljusa nätter på latitud 63. För en religiös stn ovanligt njutbar mx, mest folklor colombiano. Olz
5940	Jun3	0100	Rádio A Voz Missionaria,Camboriú, SC MED samma kommentar som på 5910, mx

			dock MPB. Ny för mig. Idar flitigt trots religiöst format. Sista stn för säsongen . Därefter har bonden jag lejt, plöjt av alla mina 6 koaxkablars! Maj månads starkaste LA i 49-mb. Olz
5952	May24	-0330*	R Pio XII, Siglo XX, en av många bolivianer som ideligen puffar för "El dia de la madre y los derechos de la mujer" Infaller 27 maj där. Datum tyx variera i LA. Stark signal, MEN RÄTT SÅ MULLRIGT LJUD, blandat språk, px mest quechua, men cd helt på SS. Olz
5952,4	Jun16	0119	much better signal than Fides from co-Catholic R. Pio Doce, presumed on signature split-frequency. (I am in too big a hurry to harvest bumper crop of apricots to take time to measure all the frequencies in this session). (Glenn Hauser, OK)
5952,44	Jun20	1000	Pio XII, Siglo Veinte noted during band scan, good signal on 19 June; 0100 to 0120 seemingly commentary on the America Cup by om June 20 (Wilkner) <i>Also heard by XM June 20</i>
5952, 49	Jun13	2310	Radio Pio XII, Llallagua, Bolivien, SIO 343 Christoph Ratzer
5975	Jun17	1400	Voice of Vietnam-1. The spurs of 5975 that I have been hearing on both 5967.0 & 5983.0 are so strong now that I am hearing the secondary spurs on 5959.0 & 5991.0. Amazing! June 17 at 1400 with National Anthem; // 7210 // 9635.75 (Ron Howard, Asilomar State Beach, CA, USA)
5980	May29	0200	Radio Chaski, Urubamba en premiär hos mig. Överraskade m px på SS! Namnet gjorde att jag väntade mig quechua. Detta datum säsongens bästa i 49-mb, som de senaste månaderna varit betydligt mer givande än 60-mb. Olz
5985	Jun7	1335	Pulsating noise jamming, even though Shiokaze, the intended victim, is now up on 6020. Jamming is blocking Myanmar on 5985.0 (Ron Howard, Asilomar State Beach, CA, USA)
5999,99	Jun18	0030	UNID, must be R Guaíba here after CRI sign off at 2400. Sounds like PP but too weak to be certain. TN
6000	Jun10	-2357*	R Habana Cuba weak here with nx before sign off. Two signals remain, one on 5999,989 probably R Guaíba, and the other on 6000,005 probably China, but both very weak. TN
6010,0	Jun13	2147	R Inconfidencia very low at this time. When checked again at 0027 they were on the usual split 6010,053.. TN
6015	Jun7	1216	KBS Hanminjok Bangsong 1. Recently the N. Korea white noise jamming has been intermittent; heard with no jamming; daily news in Korean with each item ending with "KBS News"; strong signal/good reception when no white noise present. (Ron Howard, Asilomar State Beach, CA, USA)
6015	Jun8	0338	ZBC Radio. Above average reception; long monologue; 0350 brief chant and into ME/Islamic type music/singing till 0359 with usual drums till pips (5+1); news. Audio at https://app.box.com/s/dzp6jblnc2njyz2e3zkd54pf1pl8fg9j (Ron Howard, Asilomar State Beach, CA, USA)
6024,97	Jun21	0025	Red Patria Nueva regular guest on this offset. Decent signal, a little muffled audio. TN
6025	Jun2	0120	Red Patria Nueva tune from C. Germany Perseus site w/ SA beverage. Strong QRM from CRI on 6020 that made readability quite difficult. SINPO 32432. When CRI was in speech mode, readability improved, however when CRI was playing music, very difficult to copy Bolivia here. Program appeared to be a male ancr talking to callers with periodic music, like a request program. (Bruce Churchill via DXplorer)
6034,96	Jun16	1221	BBS (presumed). Indigenous music; noted 1314*; normal QRM from PBS Yunnan (China); clearly two stations here till 1314 (Ron Howard, Asilomar State Beach, CA, USA)
6039,98	Jun13	0005	RB2 with Com a Mãe Aparecida, Strong. Normally always noted on the high side of 6040 like on Jun 18 when found on normal offset, <u>6040,43</u> with very strong signal. TN
6040.4A	Jun16	0107	Music and Brazuguese announcement, way off frequency, i.e. RB2, as made it // 9725 while nothing but Cairo audible on 11935.0 (Glenn Hauser, OK)
6070	Jun20	0905	CFRX Toronto commercial "for the ... of 50 collars ...for details of this CBC weekend .." Into news of murders in South Carolina (Wilkner)
6105,3	Jun20	0014	Very poor signal with some audio, presumably the Chile/Bolivia SBG on R. Panamericana that Bob Wilkner in SFL tipped us about at 2330. Also checked 12365-USB in case CBV was on again with relay but nothing heard there (Glenn Hauser, OK)
6105,3	Jun19	2330	Radio Panamericana, La Paz 2330 with poor signal, mostly a carrier beginning coverage of Copa América between Chile and Bolivia, by 0100 signal had vastly improved with 12,365u in as well. Lost signal at 0145* 19/20 June (Wilkner) <i>Also heard by XM on June 20 at 0036</i>
6105,35	Jun13	0005	R Panamericana with fooball, stong. The same game was also heard on R Fides and Red Patria Nueva. TN
6119,995	Jun18	0030	Super Radio Deus e Amor atuggling with an equally strong China on 6120,006 TN

6120	Jun14	0310	Super Rádio Deus é Amor (presumed). Sounded very much like the unique preaching of the late David Miranda. Do they still play his old IPDA programs? (Ron Howard, Asilomar State Beach, CA, USA)
6134,85	Jun10	0004	R. Santa Cruz, Santa Cruz booming into Perseus site in C. Germany on a SA beverage from 0004 tune. Freq ID's by both male and YL ancrs, female vocal at 0009.5. Time, news bulletin by man and time at 0013-15. Another female vocal at 0015-20. ID, QTH and time by man 0020 fol by male ancr with news or talk concerning Peru, President Morales mentioned often as well. Male vocal at 0025. Live and recorded com'ls and "Radio Santa Cruz" ID jingles 0036.5-41.5. SINPO 45444 - armchair lvl with a noticeable but not obnoxious xmtr hum. This site has a propagation tunnel into Bolivia! (Bruce Churchill via DXPlorer)
6135-	Jun16	0106	``Santa Cruz --- está donde el pueblo vive y trabaja`` slogan from R. Santa Cruz; fairly good. (Glenn Hauser, OK)
6135	Jun20	0037	R Santa Cruz, 0037+, live futbol, Copa America, Bolivia vs. Chile, definitely not // 6105, good (XM)
6135	Jun6	1326	Voice of Freedom (clandestine). Heard without any white noise jamming, but QRM from utility; program in Korean with EZL songs. On June 5 at 1250, heard their often played instrumental theme music - "We Shall Overcome." BTW - June 6 was Memorial Day in Korea (Ron Howard, Asilomar State Beach, CA, USA)
6155	Jun20	0112	R Fides, 0112, poor signal, some audible mx at times (XM)
6155+	Jun16	0119	Very poor signal and some modulation seems Spanish but maybe not, and somewhat distorted from presumed R. Fides, always on hi side. (Glenn Hauser, OK)
6155,15	May26	2308	R. Fides with nice signal on 5/26 and 5/27 into Perseus site in C. Germany on SA beverage from 2308 and 2326 (best signal) tune respectively. Nice signal, but not as good as R. Santa Cruz (see below). SINPO 34433 with some adj channel splash. Also hrd here at home but with much weaker signal - SINPO 25332 but here CRI was not a problem. Lots of talking and vague ID info - however I was able to correlate the program theme music with that hrd on the Internet live audio feed for R. Fides. Transmitter had some noticeable distortion (hrd from C. Germany only). (Bruce Churchill via DXPlorer)
6159,953	Jun7	-2158*	I'm quite certain that this carrier often seen here is from <u>Radio Boa Vontade</u> . I followed R Boa Vontade on 9350,035 until their sign off and both carriers were switched off at the same time, exactly at 2158:35. Also checked on June 9 switch off at the same time on both frequencies. TN
6173,87	Jun13	0001	R Tawantinsuyo with strong signal and mx. TN
6173,9	Jun19	1010	presumed Perú, Radio Tawantinsuyo, Cusco 1010 to 1020 with fair signal, deep fades on espanol (Wilkner)
6180	Jun19	1020	Radio Nacional da Amazônia Brasilia, DF Portuguese weak // 11815 (MDR)
6230			SOH, Sound of Hope found missing; starting the week of June 9. Nice! Now Australia VMW is in the clear again. (Ron Howard, Asilomar State Beach, CA, USA)
6230	Jun14	1136	SOH, Sound of Hope. After leaving here for about a week, has returned again; // 6730; June 15 at 1141 & 1338; June 16 at 1132; so far not heard jammed by CNR1 programs (Ron Howard, Asilomar State Beach, CA, USA)
6235	Jun19	2125	Technicalman spelade China in your hand med T'Pau. DO
6270	Jun20	2035	R Panda med Wilson Pickett. Stängde 20.55. Ny för mig. DO
6290	Jun20	1805	Misti R spelade argentinsk tangomusik.
6300	Jun20	1800	R Mazda med Bad Moon Rising. DO
6305	Jun20	2100	Top R med Id innan sign off. Blev störd av en Securitasvakt som stod och ringde på dörren. Visade sig att larmet ej fungerade till huset. Detta kan väl kallas för lokal QRM. DO
6343	Jun12	2140	Henk FM Guns n Roses och Bingoplayer i programmet. DO
6380	Jun19	2150	Anthony R spelade Ace of Base och Billy Idol. DO
6980	Jun19	2320	Baltic Sea R spelade countrymusik efter ID. sänder i LSB. DO
7260	Jun12	0750	R Vanuatu, presumed as nothing was coming in from Asia, 0816 carrier only (XM)
7324,96	Jun7	1257	Wantok Radio Light. Recently have found this daily one or two minute opening for WRL reception when CRI turns off the transmitter between programs; poor, with religious songs (Ron Howard, Asilomar State Beach, CA, USA)
7549,99	Jun15	2333	When I saw the interesting tip of RCW below I checked 7550. Two very weak carriers were noted, the weakest on 7549,99 and the other on 7549,84. But unfortunately no audio could be heard from any of them. On June 18 a carrier without audio on 7499,81 was noted again but nothing on 7549,99. TN
7550	Jun15	2300	Hola: Rcw da aviso que transmitirá hoy, a las 23 UTC el partido Chile vs México (Copa América). En su página de Facebook sale lo siguiente: « RCW Radio Compañía Worldwide Esta es RCW desde San Francisco en # Chile. Amigos: Hoy hemos hecho un esfuerzo por poner en servicio nuestro pequeño centro emisor con antena secundaria

para llevar al aire el # partido de nuestro país Vs la selección de # México. Desde ya los invitamos a esta retransmisión por Ondas Cortas en 7.550 KHz. y por Listen2Myradio a partir de las 20:00 Hora Chilena Continental (23:00 UTC). Atentamente sus amigos de RCW. <http://rcwradio.listen2myradio.com/>
https://m.facebook.com/story.php?story_fbid=1015091631842559&id=578178758867184&_mn_=9&refid=17(Atte, Claudio Galaz.)

7550	Jun15	2300	Also pirate/unofficial 7550 RCW (Radio Compañía Worldwide), San Francisco, Chile announces a broadcast this late evening w/soccer Chile vs Mexico for America Cup from 2300. (Info via Claudio Galaz, Chile in Condiglist yg, Jun 15 via Horacio Nigro, Uruguay). ----- Thanks for the tip. All I have at 0110 UTC is a weak carrier on 7549.8 kHz. Any idea what the power of the Chilean pirate is? (George Maroti Mount Kisco, NY via DXplorer)
8828u	Jun17	1245	Hong Kong - Cape d'Aguilar VOLMET with weather conditions (Wilkner)
9275	Jun12	1221	StarStar Broadcasting Station - V13. RE: XingXing Schedule. Thanks to Sei-ichi Hasegawa for informing me of their second frequency. 9275-AM at 1221 on June 12. 9725-AM at 1208 on June 10 & 13. Thanks also to my co-monitor John Wilkins, for his assistance (Ron Howard, Asilomar State Beach, CA, USA)
9550,029	Jun9	2136	R Boa Vontade // web stream. Switch off at 2159 just as on 6159,95. TN
9580	Jun13	1141	// 12065 // 12085, RA with "Grandstand" sports coverage of North Melbourne vs Sydney Swans and // 4835 (ABC) (Ron Howard, Asilomar State Beach, CA, USA)
9725AM	May29	*1200-	StarStar Broadcasting Station - V13. Signed on with normal one minute of flute music; assume intro consisted of station name, program number, the recipient number, date of the message and number of characters; assume ID was for the fourth program - "XingXing guangbo diantai 4"; fair; believed to be operated by Taiwanese Intelligence agency. Also at *1300. Wonder what their daily schedule is? June 2 (Tue.), 3 (Wed.) and 7 (Sun.) off the air, so clearly not on every day. On the air June 5 (Fri.) & 6 (Sat.). Needs more monitoring to determine daily schedule. Thanks very much to John Wilkins for the alert that XingXing is not broadcasting daily (Ron Howard, Asilomar State Beach, CA, USA)
9820	May31	1320	Beibu Bay Radio (BBR), // 5050. "Are you ready? Hi everyone. This is Beibu Bay Radio, the Voice of Guangxi, China"; segment in Chinese and English; "The joint campaign involves five parks, including Beijing Botanical Garden, the Temple of Heaven and Taoranting, as well as the famous Fragrant Hill, Beijing's most renowned forest park, combining natural landscape with imperial architecture. These are already famous sites among tourists, but in this year's campaign, the use of new media is a new focus. We hope there will be many more people who will access our tourism service, especially online and on mobile phones. Appreciating flowers blossoming is another annual tradition in Beijing tourism. The famous business hub Beijing International Flower Port joins the campaign this year, which coincides with the opening of Beijing Rose Festival, an event that highlights China rose, a species cultivated in China and that blooms in May." Today's show was scripted in English from http://www.china.org.cn/video/2015-05/25/content_35655411.htm . (Ron Howard, Asilomar State Beach, CA, USA)
9835	Jun14	1251	Sarawak FM, with National Anthem (instrumental version, not the often heard choral NA); special live coverage; "Your Royal Highness, excellencies, distinguished guests, ladies and gentlemen. Good evening and welcome to the closing night and prize presentation ceremony"; announcement of results of the event given in Malay, Arabic and English (not in French this year), till 1319; fair to good. https://app.box.com/s/us8bqf2s97hox4q67nx4xjmsnzj9ebme contains my audio of just the English. (Ron Howard, Asilomar State Beach, CA, USA)
9925	Jun4	-1930*	// 15190, R. Pilipinas, 1739-1930*. Their long standing schedule is *1730-1930*; in Filipino with news and economic news; chatting about Bruce Jenner; frequent IDs; poor to almost fair. (Ron Howard, Asilomar State Beach, CA, USA)
11520	Jun9	0740	EWTN, relig pgm in EG, listed as beamed to Africa, as would be expected very strong signal (XM)
11540	Jun13	1320	Checked this outlet this afternoon June 13: Tuned-in around 1320 UT on 11539.978 kHz and signal wandered down on warm-up to 11539.969 Khz around 1327 UT, checked the recording around 1333 UT see attached .ogg format file. Signal in Nagoya Japan remote post S=9+20dB or -54 dBm strength. I would say this is Korean language, one of these veiled radio programs from likely Tashkent Uzbekistan towards the Korea countries. (wb)
11540	Jun16	-1310*	found silent at 1303, June 15. June 16, from 1306 to suddenly off at 1310*. Pop songs

(almost sounded like Middle Eastern music?). No Korean monologue today or yesterday. My audio <https://app.box.com/s/egqinjew4cdmi12b6h1aie4cdi3rfeau> Thanks to the feedback from Sei-ichi Hasegawa, that a Japanese DXer has determined that the recent Korean that was heard here was in fact not clandestine in nature, but rather a learning course for primary school students. To sum up the situation here as I see it - Ever since this UNID first appeared here last month, they have been broadcasting nothing but **random** filler programming. Testing the transmitter/antenna? So we have yet to know who this is. Found silent June 17; 1257-1306, +1332 + 1341. June 18, nothing at 1302 + 1317 (Ron Howard, Asilomar State Beach, CA, USA) (Ron Howard, Asilomar State Beach, CA, USA)

11665	Jun15	1330	Limbang FM via Wai FM Via RTM. Their Monday show (also on Thursdays) with DJ playing pop songs; in vernacular; frequent IDs for "Limbang FM"; very good reception (Ron Howard, Asilomar State Beach, CA, USA)
11700	Jun9	0744	R France Intl, Issoudon, cmntry in FR, listed as beamed for W Africa, good signal (XM)
11710,75	Jun3	0302	RAE. A daily feature at this time is the playing of choral National Anthem before going into their English segment (Ron Howard, Asilomar State Beach, CA, USA)
11780	Jun17	0532	11710 & 11745 & 11815, crackling spurs from 11780.1v are still polluting the 25m band, and no one cares; except me who can only try to shame them by repetitious reporting, as EBC have already been notified about the problem several times in last months (Glenn Hauser, OK)
11780	Jun9	0748	Chinese Nat. Rad, Pg 8, 0748, Mongolian service, fair (XM)
11855+	Jun18	0208	fair signal in Brazuguese about Jesus, making LAH with much weaker on-frequency signal; seems // 9630v and there is also a LAH on 6135 either with Bolivia or something else. The 25 and 49m frequencies of R. Aparecida had been reported off the air as of June 11 by Cassiano Alves Macedo, Editor do Programa Encontro DX, in the radioescutas yg which I just quoted on WORLD OF RADIO 1778; but now they are apparently back (Glenn Hauser, OK)
11894,91	Jun10	2055	R Boa Vontade // web stream, rel px. TN
12365U	Jun15	2344	On SW? Tnx to a tip from Patrick Robic, Austria via Wolfgang Büschel, Copa América football games concerning Chile were likely to activate a utility transmitter on 12365. There it is on 12365-USB, June 15 at 2344, very poor signal but exaggerated enthusiasm as in a silly ballgame. Is this from Portales network like a sesquiyear ago as in DXLD 14-08? That transmission was believed to be from the Diego Portales network via coastal station CBV Valparaíso. Word spread quickly on the DXLD yg and HCDX, with several others hearing it; including Arnaldo Slaen in Argentina who says this year the station relayed is Cooperativa, and the game is also on reactivated Chilean pirate RCW, 7550, unchecked here where never heard. Vs. México, same live game surely the one on Televisa net-5, ch 5, also visible here, q.v. Back to 12365-USB here, at 0058 UT June 16, ``gooooaaaal``; 0122 final check still going, also mentioned ``goal``, but too short, maybe only in passing. The ``winter-headstart`` effect I mention under BOLIVIA once was helpful getting S American MW into N America too; IIRC long ago in mid-summer, R. Cooperativa was making it to NM/CO pre-sunrise on 760; if only frequencies were not all clogged today. Only a few Chileans are 50 kW or more now: 660, 760, 1060, 1180, 1380 (Glenn Hauser, OK)
12365U	Jun16	-0135*	Thanks to the tips here in dxldyg, went to the beach to catch the live coverage. On 12365-USB, tuned in at 0127 till off at 0135*; seemed to be ID before closing down. Many mentions of "Mexico" and heard "Copa América"; hard copy due to what sounded like the sports fans in the background. Maybe others can pick out better details from my audio? https://app.box.com/s/3dhxwtne36k7f2ezpqmqst8rrb6ba2c contains my audio. (Ron Howard, California via DXLD)
12365U	Jun16	0018	On remote SDR unit in KY-USA noted a tiny signal, reported mentioned "GOAL, GOAL, GOAL" many times at 0018 UT, in USBmode, visible on screen on 12365.500 to 12368.200 kHz frequency range. Signal not strong at S=5-6 level, but greyline now on its path from Chile: greyline between Nicaragua and Panama at 0025 UT. Audio signal increased from 0030 UT onwards. Similar signal also heard on remote unit of VE6JY in Edmonton Alberta Canada. (wb df5sx)
12365U	Jun15	2100	Check this frequency Patrick sent this tip, tonight soccer game Ecuador vv Bolivia 21.00 UT and Chile vv Mexico 23.30 UT Copa America football soccer match competition. Da bei Fussballgrossereignissen der juengeren Vergangenheit die Spiele der chilenischen Nationalmannschaft immer ueber einen unbekanntem Utility-Sender auf 12365 kHz USB uebetragen wurden, loht es sich vielleicht, die Frequenz in den naechsten Tagen zu beobachten. Weitere Termine der chilenischen Vorrundenspiele: 15.6. / 19.6. jeweils um 23.30 UT. (Patrick Robic-AUT, A-DX June 12) (wb)
12365U	Jun15	2100	Checked this frequency on Jun 15 at 2100. The only station audible here is VMC Au-

stralia with weather forecasts for Australia. "End of transmission from VMC" heard at 2107. See more info on http://www.bom.gov.au/marine/voice_services.shtml TN
 12365U Jun16 0145 Tried tuning around 0145 from various sites in Europe and Canada - nothing hrd except from C. Germany site but what I hrd there was the Australian wx station VMC in Charleville at S2. Perhaps the game should have been over by then as they only play 90 minutes in regulation plus two 15-min halves of overtime. By 0130 the game should have been over. Other links of interest (courtesy of Radio Cooperativa - www.cooperativa.cl)
 Group Play Schedule:
http://copamerica2015.cooperativa.cl/temas/site/edic/base/port/copaamerica2015_fixturre.html
 Finals Play:
http://copamerica2015.cooperativa.cl/temas/site/edic/base/port/copaamerica2015_fase_final.html
 Since the tournament is in Chile, should be lost of opportunities to hear Cooperativa... (Bruce Churchill via DXPlorer)

 Chile's next game is against Bolivia on June 19th at 2330 UTC. Here is a link for info on the Copa America. <http://www.sbnation.com/soccer/2015/6/11/8765193/2015-copa-america-schedule-bracket-format-results> Unless they lose to Bolivia, Chile will make the next round (and even then they could make the next round). Check that link next Monday for the next round games. (Don Moore via DXPlorer)
 12365U Jun16 0127 Station relayed is Cooperativa (presumed). Thanks to the tips in dxldyg, went to the beach to catch the live coverage of the Chile vs Mexico match on June 16, tuned in at 0127 till off at 0135*; seemed to be ID before closing down. Many mentions of "Mexico" and heard "Copa América"; hard copy due to what sounded like the sports fans in the background. Maybe others can pick out better details from my audio? <https://app.box.com/s/3dhxwtne36k7f2ezpqmqsq8rrb6ba2c> contains audio. (Ron Howard, Asilomar State Beach, CA, USA)
 12365U Jun16 -1217* VMC. Weather forecast, gail warnings, etc.; fair (Ron Howard, Asilomar State Beach, CA, USA)
 12365U Jun15 2355 Radio Cooperativa, feeder, Copa América, tourament, Chile vs. Mexico, animated ancr, crowd noise, unfortunately a poor signal here but at least in June 15; 0042, live futbol, Copa América, Chile v. Bolivia, very weak signal June 20 (XM)
 12365U Jun19 Trying for this. Very threshold signal. Not even strong enough to // to the webstream or tell if it is futbol commentary. May try around halftime (about 0025) when their will be ads. Here's the webstream: <http://www.cooperativa.cl/radioenvivo> If you want to follow what's going on in the game (in English) here's a good minute-by-minute feed. [Chile vs Bolivia Copa America 2015 LIVE](#) Chile will play again on June 24 at 2330, Their opponent won't be known until the first round completes on Sunday, (Don Moore via DXPlorer)
 12365U Jun19 2345 Radio Cooperativa 2345 to 0133 deep fades, seemingly with the America Cup, mostly threshold level here 19/20 June (Wilkner)
 12365U Jun20 0124 Retuned Perseus site in Edmonton at 0124 June 20 and here Cooperativa 12365U was up to a solid S2 until the broadcast terminated at 0128. As Bob Wilkner noted, R. Panamericana made a somewhat rare appearance on 6105.36 into C. Germany with an armchair S4 lvl and noticeable QSB with coverage of the futbol match from 0018 tune with many ads and "Panamericana" ID's during halftime. On this station the Chile-Bolivia match second half coverage restarted at 0041. Tnx also to Bob for the tip on this one. (Bruce Churchill via DXPlorer)
 15190 Jun5 -0300* R. Africa Network via WRMI, 0149 & 0253-0300*. Brother Stair with fair-good reception; IDs for the "Radio Africa Network." From 0300 to 0500 have only heard faint open carrier which assume might be Brazil. Have never heard R, Pilipinas here from 3-5 (Ron Howard, Asilomar State Beach, CA, USA)
 15245 Jun6 -1757* Vo Assenna June 6 1750 HOA mx, ID, speech to 1757* (Paszkievicz-WI)
 15510 Jun6 1800 IBRA June 6 1800 short mx bits, talk in listed Beja (Paszkievicz-WI)
 15630 Jun6 1805 ERT June 6 1805 NX IN Greek (Paszkievicz-WI)
 15640 Jun5 *0200- // 17820, R. Pilipinas. Anthem; long "PBS" song; usual opening message with salute to overseas Filipino workers and to listeners of R. Pilipinas; into "From the presidential palace Manila, Dateline Malacañang"; 0238 - "This is the PBS News"; President Aquino visiting Japan and addresses some 1,000 Japanese businessmen at the Philippine Investment Forum; almost fair; scheduled 0330*, which in the past I have observed; did not hear scheduled 12010 frequency (Ron Howard, Asilomar State Beach, CA USA)
 15640 Jun14 0226 R. Pilipinas, // 17820. Weekend programs very different from weekdays; in English

with round table discussion about tourism, places to visit and how wonderful the Filipino people are; 0242 program of reading of poems (Ron Howard, Asilomar State Beach, CA, USA)

15720 Jun14 0325 RNZI. Action drama "Undercover Mumbai," following the activities of Alia Khan, a woman police inspector; good. Rather entertaining (Ron Howard, Asilomar State Beach, CA, USA)

NOTA: Para un mejor escucha de las grabaciones que adjunto, sugiero escuchar con los audífonos.

Muchos 218's, PFA

(Many thanks for another good report! /TN)

Station news

CHILE. 7550. RCW 15/6 23 UT. Transmisión del partido Chile V/S México, mediante la retransmisión de R. Cooperativa. Luego del final del partido a las 0128 UT (16/6), música en español hasta las 0323. SINPO: 35343. Según mensaje entregado vía el correo: RCWRADIO [at] GMAIL [dot] COM, la emisora entrega la información de que se probó una antena de ¼ de onda.

12365-USB. R. COOPERATIVA [FEEDER]. 15/6 2333 UT. Partido Chile y México para la copa América. (Claudio Galaz Toledo, Chile via Lista ConDig)

CHILE [and non]. 12365-USB, June 20 at 2139, figuring this would be a likely time for another Copa América game (if the tournament isn't over), so strain to hear CBV relaying one here --- yes, JBA talk at near-imagination level. I was surprised to read that others were not hearing this as well as I was last week. No signal from 15345v LRA Argentina which ought to be on now; off, or degraded propagation?

BUT: There happens to be another utility talker on 12365-USB, Aussie marine weather from VMC, Charleville, Queensland, more likely the trace I heard, and CBV is likely to QRM it when really on.

Per schedule <http://www.ca2015.com/en/schedule#fndtn-fullcalendar> June 20 starting at 2130 UT was Argentina vs Jamaica at Viña del Mar. But hardly essential listening for Chileans or Pascuans.

For Sunday June 21:

1900 UT, Colombia vs Perú at Temuco

2130 UT, Brasil vs Venezuela at Santiago

Next match is not until Wed June 24 at 2330 UT involving Chile, when a 12365 relay will surely be required (Glenn Hauser, OK, DXLD)

ECUADOR. Emisoras Jesus del Gran Poder video. Put together another video of an old station, Emisoras Jesus del Gran Poder. Many of you probably heard this one. This isn't very long one but the signal is strong and clear with the complete opening station identification. Here's the link. Enjoy. <https://youtu.be/Dxosu1i6OH4> (73, Dave Valko, Dunlo, PA, USA)

GREECE. Voice of Greece returns to shortwave

Gradually come the information for the resumption of individual radio stations of ERT as coordinators working intensively to prepare the new transmissions. Resuming the short wave program "The Voice of Greece", also known as ERA 5 aimed at expatriates is also on its way. The program of Greece's Voice will include newscasts every hour to broadcast the first program while there will also be two programs specifically aimed at expatriates, but the exact times have not been announced.

The Voice of Greece programs will be broadcast via shortwave from facilities in Avlis, which the previous government's Finance Ministry had tried to sell as scrap. The facilities remained intact thanks to the former employees, so no technical problems remain. The programs continued to be broadcast thanks to former ERT employees from Athens and Thessaloniki. Continuing Greece Voice for the last two years was being observed and followed by lovers of shortwave broadcasting enthusiasts. The frequencies of the Voice of Greece to Europe will probably be the same, 9420 and 7475 KHz. Source in Greek: <http://www.radiofono.gr/node/17844> Christos Rigas Chicago, Illinois (Paokara66 via DXLD)

MICRONESIA. May 12 - After three days without hearing **PMA-The Cross Radio**, on 4755.54, I sent off an inquiry to Sylvia. Her reply has just come in (May 12 at 2236 UT).

"Hello Ron,

We have had no power at the radio station for 3 days, hence the loss of communication over the air.

Storm/typhoon Dolphin slammed into us on Sunday. The radio building and the tower are all fine. Just waiting for the down power lines to be fixed and we will be on the air again. Will let you know when we are on the air again.

We lost part of our church roof, it seems we had the full fury of the storm with gusts 70-100 at around 3am. It sucked the roof right off.

At this point, we do not know when we can use the church. It all depends on the roof.

Thank you for your prayers. We need sunshine today to repair and keep the water out!

Sylvia Kalau, Pacific Mission Aviation, POB 517, Pohnpei, FM 96941, 691-320-2496, kalau@pmapacific.org "

Email received June 11, at 0425UT, from Sylvia at PMA-The Cross Radio:

"Hi Ron,

We do have power, but haven't had the time to address the short wave problem after the typhoon. Will let you know

when we are up and running again. For now we are broadcasting FM only.
Thanks for your concern, Sylvia Kalau
(Ron Howard)

NIGERIA (non) New transmission to Nigeria MANARA RADIO has started from June 12: 0730-0825 on 15440 UNID transmitter site to WeAf Hausa, Jose Miguel Romero added: 1600-1655 on 17765 UNID transmitter site to WeAf Hausa.

More videos will be added: <http://swldxbulgaria.blogspot.com/2015/06/manara-radio-new-broadcast-to-nigeria.html>
(Ivo Ivanov via DXLD)

Artikel zum Start der Station: <http://scannewsnigeria.com/news/organisation-launches-multi-media-channels-for-outreach/>

(73, Patrick Robic via A-DX)

ZANZIBAR. No, 11735 is not on air for several weeks at least, but I tried to nail down if they are on 6015 also in the evening - with limited success so far. In fact, after s/off Xinjiang at 1800 there is another signal. Eibi lists Korea KBS on that channel, but that should be outdated, it was marked as "?" in Sender&Frequenzen 2009, later inactive and unlisted in latest editions.

Today, at 2000, I heard a time signal, ending with a high-pitched one. Then continued with music. I was in thoughts at the moment (off-topic) so I didn't look at the clock right in time, but I think it was a few seconds late. Not much more to make out of that, modulation seems to be somewhat dull. That would roughly fit...

(73, Thorsten Hallmann via DXLD)

Other radio news

REMINDER!

We will remind you of the **Grimeton Radio/SAQ** transmission on VLF frequency **17.2 kHz**, CW, with the Alexanderson 200 kW alternator on "ALEXANDERSON DAY", Sunday, June 28th, at 09:00 UTC and 12:00 UTC (11:00 and 14:00 SVT). We will start tuning up some 30 minutes before the message.

There will be activity on amateur radio frequencies during the day with the call SK6SAQ.

Frequencies:

- 7,035 CW or 14,035 CW
- 3,755 SSB
- 145,700/145,100 VHF FM repeater (R-4/RV-56)

QSL to SK6SAQ via SM bureau.

QSL-reports on SAQ transmissions are kindly received: - E-mail to: info@alexander.n.se - or via: SM bureau - or direct by mail to: Alexander - Grimeton Veteranradios Vaenner, Radiostationen Grimeton 72, SE-432 98 GRIMETON, SWEDEN

The radio station will be open to visitors from 08:00 to 14:00 UTC (10:00 to 16:00 SVT).

Welcome!

Svenskspråkiga radioutsändningar som gått till historien

När jag började DX-a 1957 sände en hel del utländska radiostationer på svenska. Under årens gång kom nya till medan andra försvann. Nu finns det väl ingen "riktig" svensksändare kvar på kortvågsbanden. Mitt DX-intresse började svalna på 1970-talet men jag har ändå sporadiskt följt med vad som hänt på området. Nu har jag fått för mig att försöka kartlägga svensksändarna. Jag har börjat så smått med hjälp av eget arkiv och Sveriges DX-förbunds kompendium, som sammantals av Stig Granfeldt 2006. Jag hoppas de som har uppgifter om svensksändarna vill hjälpa mig att få listan så komplett som möjligt. På <http://www.surfnet.fi/~tosso/dx/svenska.htm> kan ni se vad jag hittills plitlat ner. Där finns också min e-postadress.

(73, Tosso, Torsten Söderström via NORDX)

Bonito RadioCom 6

RadioCom 6 is a software suite featuring encoding and decoding of various digital and analog signals from a radio. It is also capable to control radios (CAT) and significantly improves sound and audio quality. RadioCom6 is the successor of the successful RadioCom5. All functions of the predecessor were improved and many new features added. It is able to control several radios and significantly improve sound quality. Radio-

Com6 transmits and receives data (SSTV, PSK31, RTTY, Weather fax, Synop, Navtex, CW and more) and from the Internet www.meteoserver.net (world wide satellite pictures) in one program. Two Radios can be connected simultaneously to 1 sound card only. You can run and operate several decoders at the same time. The Digital Sound-Processor (DSP) of the sound card is used. That is why the quality is better than anything compatible. The moment RadioCom starts, some of the foremost changes are in plain view: it is distinctive and eye-catching. Colors are subtler and the overall looks are just magnificent, never seen before.

RadioCom 6 supports the following SDR's:

Bonito	RadioJet 1102S, MeteoJet 1204S
WiNRADiO G3:	G303i / e, 313i / e, 305i / e, 315i / e and G31DDC Excalibur
Microtelecom:	Perseus
RF-Space:	SDR_IQ & SDR 14
PM	PM-SDR
Elecraft	K3
SAT-Schneider	DTR-1
Elektor	Elektor
CG-Antenna	CG-SDR
ALL with I&Q outlet	12kHz, 96kHz and 192kHz
OV Lennestadt	FiFi SDR (coming soon in Version 6.5)

Read all about here: http://www.bonito.net/infos/en_ham_rc60.htm

NB! Before buying the software please read those comments: <http://www.eham.net/reviews/detail/4610>

Help record the 2015 BBC Antarctic Midwinter Broadcast on June 21

The SWLing Post, Posted on June 10, 2015 by Thomas

Every year, the BBC broadcasts a special program to the scientists and support staff in the British Antarctic Survey Team <http://www.antarctica.ac.uk/>

The BBC plays music requests and sends special messages to the small team of 40+ located at various Antarctic research stations. Each year, the thirty minute show is guaranteed to be quirky, nostalgic, and certainly a DX-worthy catch!

Regular SWLing Post readers know that I'm a huge fan of the Antarctic Midwinter Broadcast (and without fail, it falls on my birthday each year!):

<http://swling.com/blog/2014/06/shortwave-radio-recordings-bbc-to-the-2014-british-antarctic-survey/>

Hit the record button!

This year, I'm calling on all SWLing Post readers and shortwave radio listeners to make a short recording (say, 30-60 seconds) of the show and share it here at the Post.

The recording can be audio-only, or even a video taken from any recording device or smart phone. It would be helpful to have a description and/or photo of your listening environment and location, if possible.

If you submit your recording to me, I will post it here on the SWLing Post—and insure that the BBC World Service receives the post, too. The recordings will be arranged by geographic location.

Are you in?

If you're interested in participating, mark your calendars for June 21st! I'll post updates and frequencies about the Antarctic Midwinter Broadcast here on the SWLing Post.

Please follow the tag: Antarctic Midwinter Broadcast <http://swling.com/blog/tag/antarctic-midwinter-broadcast/> ... and get ready for some cool solstice fun!

(Mike Terry via DXLD)

Broadcasting in Russian

18th edition of the popular "Broadcasting in Russian" Handbook, edited by the St. Petersburg DX Club, has been released. The Handbook features all (or almost all) radio stations that transmit programs in the Russian language on short and medium waves at present, both from Russia and abroad. Station listings include frequency and programme schedules, transmitter location and power, target areas, postal addresses, phone/fax numbers, Web sites, social network pages, e-mail addresses as well as QSL policy info. The schedules are generally valid until March 28, 2015 (i.e. the end of A15 broadcasting season).

The Handbook is distributed as a hard copy only. Volume is 56 pages of A5 size. Please address your purchase requests to: Alexander Beryozkin, P.O.Box 463, St. Petersburg, 190000, Russia or by e-mail: dxspb@nrec.spb.ru.

The price is 7 EUR or 8 USD (including delivery by registered mail).

Your comments and suggestions regarding the Handbook contents are always welcome!

(Alexander Beryozkin, Sankt-Petersburg, Russia)

DX-Extra!

Just posted on the Hobart Radio International Facebook group: Welcome to the DX Extra! It's a show about the shortwave hobby featuring news, reviews, pirate radio and anything in-between. We are the extra thing you need to digest your shortwave news.

In show 30 this fortnight we cover news on the HFCC Conference in Brisbane, the exciting news of ERT reinstated on shortwave, the history of Swissinfo uncovered, the 2015 BBC Midwinter Antarctica Broadcast, check out our usual pirate logs and from the audio archives: Channel Africa.

To read the transcript, LISTEN OR DOWNLOAD the podcast simply head to: hriradio.org

Join us on Facebook at: [facebook.com/dxextra](https://www.facebook.com/dxextra) Over 653 likes!

Join us on Twitter @hobartradiointl

Hear us on the radio:

FM: World FM New Zealand 88.2FM Thursdays at 4h30UTC

SW: Channel 292 6070kHz Saturdays at 16h00UTC

WRMI Radio Miami International 9955kHz Sundays 3h30-4h00UTC

WBCQ Area 51 5110kHz Monday 3h30UTC (Sunday 8.30PM US PT)

Also via Premier Radio, Cupid Radio, Radio Spaceshuttle World Service and Focus International over the weekends. (Mike Terry via DXLD)

DIEXISMO. UN TERMINO MAL DEFINIDO

Dear Glenn, From my beginnings in this hobby and in fact coming from Spanish language sources (Espacio DXista) and several DX publications I've seen that many of them define the term DX using the explanation that D comes from Distance and X from unknown. This false!!!

I've insisted that this is absolutely fake and it is an arbitrary invention. DX is just - and stands for - Distance. No more than that. It's not an abbreviation for anything and in fact it's an acronym.

Some individuals think that defending the true origin is for erudite or scholar discussion. But I do keep defending the true meaning, trying to destroy this false definition.

It seems that this invented explanation came from a text included in the Radio Nederland course "Casi todo en Diexismo". I think that the original texts were prepared by the late Jim Vastenhoude. But I've also read that the definition was written by the famous and remembered Arthur Cushen. I absolutely cannot believe that Cushen wrote this.

I want to ask you about an opinion on this, and also if you can confirm that this definition has ever been used in the English spoken DX literature/world. I hope you could give some light in this issue.73 (Horacio Nigro, Montevideo, Uruguay, June 13, DXLD)

Horacio, I agree with your point about the derivation of DX, and also think that the mis-definition unfortunately got propagated by RN's DX guys. I think I may have occasionally seen that misunderstanding expressed also in English, but could not cite references.

There is also a mathematical correlation where x of course means unknown in equations, and even in algebra, calculus ``dx`` terminology is used. Maybe that had some effect in making our DX misunderstood.73, (Glenn to Horacio, via DXLD)

He hecho una entrada en mi blog, es la segunda, respecto al tema...

<https://lagalenadelsur.wordpress.com/2015/06/15/sobre-la-definicion-de-dx-una-vez-mas/>

¿Una sutileza? ... así lo ven algunos... nunca entenderán, y se refregarán en su ignorancia, en el rasero, en nunca aprender un poco más de las cosas de la vida. Otros dicen que es una discusión para eruditos. ¡Cuán lejos están del espíritu que forjó nuestra carrera como DXistas y/o radioaficionados!. 73 HAN (Nigro, DXLD)

QSL's from Costa Rica

John Ekwall continues to scan a lot of nice QSL's, this time from Costa Rica. Enjoy.

JOE, thanks for those nice QSL's. /TN
