

# SHORTWAVE BULLETIN

Issue no. 1861, Oct 23, 2015.

Deadline e-mail next issue: 0800 UTC, Nov 8, 2016.

On Thursday I got the sad news that our old member Björn Fransson passed away in the suites of cancer.. He has been a member in SWB and ARC as long as I can remember. He was a very active Clandestine DX-er and also editor since many years in Eter-Aktuellt (later DX-Aktuellt).

We all remember his ending of articles - *"73 from Björn Fransson, DX-ing on the island of Gotland, Sweden"* - RIP, Björn.

Also note deadline for next issue. Tuesday Nov 8. We are going up to Stockholm already on Friday Nov 4 and are not back until late on Monday Nov 7. Our grandchild will be 2 years old and we have to celebrate that.

Thanks a lot for all contributions. The log is as always full of stations. So it is just to start fiddling with the knobs ....

Keep on ....

## QSL, kommentarer, mm.

### Minnesord över Björn Fransson

**John Ekwall.** Björn Fransson BF "Beff" var en av mina första bekanskskaper inom DX. Jag träffade honom i Åstorp 1967-1968 i samband med ett DX-läger på Klåverödsåsen. Därefter blev det mer sporadiska kontakter i Hofors och vid DX-Parlament.

Beff var en synnerligen produktiv man, framförallt genom sin spalt "Mest för novisen" i Eter-Aktuellt som han författade under åtskilliga år. I samband med studier i Stockholm passade jag på att hälsa på familjen i Fransson i Visby några gånger i början av 70-talet. Det blev ytterligare ett par visiter till Gotland på 90-talet.

Björn var en passionerad lyssnare och idog rapportskrivare, som visar sig i en imponerande samling av verifikationer. Rätt tidigt blev det Afrika som lockade honom men även hemliga "clandestine" stationer som han lade ner mycket tid på. Första stationen inom det området var brevet från Radio Swan från. På 80-talet blev det lyssning av hobby-pirater som poppade upp – först på KV men senare på MV. Ett bra radioläge medförde fina hörigheter både på MV och KV. Björn och broder Ove sporrade varandra under sin uppväxt i Klintehamn, så det blev en hel del NA-QSL i samlingen. Eftersom Beff var så aktiv på banden blev han även medlem i SWB och bidrog flitigt.

I samband med en återförening av Krök på Karön för några år sedan, fick Björn träffa sin hockey-bockey kompis Nils Olsson (Brasilien) från tiden i Åstorp. Det var mycket nostalgi och gamla gubbar på den träffen i min sommarstuga på Karön.

Bara för några veckor sedan fick jag beskedet att Björn blev allt sämre av sin sjukdom, så jag åkte över till Gotland och fick umgås med honom under några dagar.

Nu är Björn borta och lämnar efter sig en massa trevliga minnen hos många men framförallt ett stort tomrum.

**Christer Brunström.** Vi är säkert många som, liksom jag, upptäckte radiohobbyn på 1960-talet. Alltsedan dess har namnet Björn Fransson och signaturen Beff beledsagat oss. Få människor har haft lika stor betydelse för DX-hobbyn i Sverige som just Björn. Han har på väldigt många sätt varit verksam inom den organiserade DX-hobbyn i vårt land; först i DX-Alliansen och sedan i Sveriges DX-Förbund. Men organisatörerna och de oförtrutna arbetarna röner sällan någon större uppmärksamhet. Hemma på Gotland var han drivande i Murgrönan, den lokala DX-klubben.

Om föreningsarbetet skedda i det fördolda var Beffs skrivelser desto mer synliga. Vi kommer säkert alla ihåg hans långa serie texter som behandlade radio i Afrika för att inte tala om alla de välinformerade krönikor han skrev om politisk propagandaradio av olika slag. På senare tid producerade han många texter med tillbakablickar på ett långt liv där radiohobbyn spelade en stor roll.

När sjukdomen hindrade Beff från att skriva i DX-Aktuellt förlorade tidningen en av sina mest uppskattade medarbetare.

Själv träffade jag Beff på många ARC-konvent och DX-Parlament. Vi var båda intresserade av frimärken med radio som motiv. Inom detta område hade Björn en omfattande samling som han behöll ända till slutet.

Men Beff hade många andra strängar på sin lyra. Han sysslade med sport. Jag vill minnas att det var orientering. Ibland kom det kort eller brev från honom och inte sällan på

miljövänligt papper. Beff var nämligen mycket engagerad i miljöpolitik.

Vi i SWB har nu förlorat en medlem och vän som kanske inte var speciellt aktiv på banden under senare tid men som dessförinnan varit på ständig jakt efter nya hörigheter. Han var på många sätt en typisk stations- och landjägare och hans signatur figurerade ofta här i SWB.

Jag träffade Björn för sista gången på DX-Parlamentet i Stockholm i våras. Det är svårt att föreställa sig att han nu, bara några månader senare, är borta.

**Lennart Weirell:** Några QSL att rapportera, **R Casanova – 6230** e-mail 1 d, **R Marabu – 6305** k inf 7 m och en gammal bekant **R Prag – 9885** k folder ballong 2 v, för specialsändningen i samband med deras 80-års jubileum.

*(Tack för bifogat QSL - lite skillnad i stil från det jag har i samlingen från 70-talet. /TN)*

**Dan Olsson:** Veckan har ju präglats för mig att min gode vän Björn (Beff) Fransson avled innan i veckan. Vi hade ju samma intresse inte bara DX-ing utan även orienteringen.

Genom åren har det blivit åtskilliga samtal både via mail och telefon. Dessutom hade jag nöjet att besöka honom två gånger på Gotland.

Dessvärre är denna kontakt bruten nu.

Tipsen kommer den gång ifrån hösten första lyssnarläger i Saxtorp q5-16 oktober samt lyssnande via MKVK nya SDR Kiwi som är en kul grej att lyssna på. Den står hemma ho Per Eriksson i Hököpinge.

**QSL** har kommit ifrån: **6320 R Oleg** med e-brev, **6975 Blue Dragon AM** med e-brev och kort

**Anker Petersen.** After a very successfull last Annual General Meeting of DSWCI in Kalundborg, where we met 39 DX-friends representing 14 nations, I now got time to make more DX-ing.

Our recent DSWCI Annual General Meeting confirmed, that the exchange of tips is the most essential part in our worldwide hobby of DX-ing!

**Bernard Malet:** Please do not die stupid with reading material on RADIORAMA. Perhaps route for those who want the good for me because it is important in being aware.

3320	Oct13	1902	SAUK/R.Sonder Grense, Meyerton, africânder, teatro radiofónico; (Carlos Gonçalves)
3325	Oct12	-1156*	NBC Bougainville. Before going off, mixing with RRI Palangkaraya (which was later

3325	Oct13	1114	not on the air at 1339, so RRI went off very early today) (Ron Howard, Calif., USA) Pro 1 RRI Palangkaraya. Tuning by, noted that they were playing the patriotic song "Bagimu Negeri" (For You Our Country) and local ID; this song was composed by Indonesian musician and composer Koesbini, in 1942; much stronger than NBC Bougainville; <a href="http://goo.gl/XTawQP">http://goo.gl/XTawQP</a> has a studio quality rendition of "Bagimu Negeri" (Ron Howard, Calif., USA)
3325			[non logs]. Pro 1 RRI Palangkaraya, Oct 22 noted off the air at 1203 and subsequent checking. RRI Wamena also silent today on 4869.89, at 1332, leaving the frequency clear for AIR (Delhi- Kingsway) on 4870.57, which has been off frequency since I first noticed it on Sept 4 (Ron Howard, Calif., USA)
3345.00	Oct20	0300	Channel Africa, Meyerton English ann, African song. (AP-DNK)
3905	Oct22	1510	R Relmus spelade Raiders in the sky. (DO)

4009.8			[Non] Radio Birinchi via Kyrgyz. After a long time of being off frequency, I noted on Sept 19 that they were on exact frequency (confirmed by Wolfy) and subsequently heard as such, but on Oct 19 & 20 they are now back to again being off frequency. What happened? (Ron Howard, Calif., USA)
4029	Oct16	2130	Laser Hot Hits_G, inglês, música pop', leitura de relatórios de recepção. Em 09/10, emittia em 4015. (Carlos Gonçalves)
4055	Oct11		as I am about to post this report, no time to turn on the radio, but just received from TGAV this notice dated 0407 UT Oct 11. It should normally be on air until about 0610*: ``We ask your pardon to all our listeners of Radio Truth short wave at 4055 kHz. Our signal is irregular right now due to the fact that it is raining, and there is nobody working at Mount Horeb, and we can't do anything to avoid it. There is nobody at Mount Horeb. Every time it rains, our link antenna fails, and there is nobody to correct the situation there. We have not found a person to work there. The situation will be corrected by itself when it stops raining. Our Internet system and Transworld Radio Truth are functioning normally. Dr. Édgar Amílcar Madrid, Manager and Director`` (Glenn Hauser, OK)
4055	Oct11	0613	R. Truth is still on with music, train bell SFX, not yet NA. Seems OK now, after notice a couple hours earlier that transmissions were irregular due to rain disrupting their studio-transmitter link antenna. Also at 1112, sermon alternating English and Spanish every few words, huge reverb (Glenn Hauser, OK)
4055	Oct16	0455	Radio Verdad, Chiquimula, religious program English, Spanish, religious songs. (Méndez) + (Giroletti)
4557	Oct16	2010	Voice of the People via Goyang South Korea, local program in Korean (Mauro Giroletti)
4750.00	Oct10	*2025-	Voice of China, Hailar Chinese ID: "Zhongyang Renmin Guangbo Diantai, Zhongguo zhi Sheng", music. // 4800 (AP-DNK)
4760	Oct12	1457	TWR (presumed), 1457-1529. Often I check here for AIR Port Blair during my mornings, but today was a first for me, hearing Africa via long path; no trace of AIR at all; certainly sounded like an African vernacular language; some religious songs; series of ads; seemed to be religious programs; my local sunrise was at 1413 UT. Positive was not India. My weak audio of preaching at <a href="http://goo.gl/Oecbc4">http://goo.gl/Oecbc4</a> (Ron Howard, Calif., USA)
4760	Oct21	1507	----- AIR Port Blair is currently off air on 4760 & 7390. (Jose Jacob, VU2JOS, via DXLD) TWR. Mostly fair via long path; contact info in English (email, etc.) and also website to download today's program, with a Johannesburg address given; 1509 into program in African language. AIR Port Blair continues to be off the air here (thanks to Jose Jacob [India] for first reporting their absence back on Oct 12) (Ron Howard, Calif., USA)

## 12 October 2016: Micro-DXpedition

- 7530 Stream of Praise (via Tashkent) Just caught end of tlk by M, then soft vocal song by W to 2117, then long tlk by W until the plug was pulled at 2130. Lang. sound like CH. Weak. (12 Oct.) (Dave Valko, Dunlo, PA, USA)
- 7585 North Korea Reform R. (via Uzbekistan), tent. Already a carrier here at 2025. Way too weak for audio. Getting tlk by M anncr after 2114 to at least 2127, then some USB traffic started on the freq. There may have been some mx bridges too, but it was hard to tell. Just too weak. (12 Oct.) (Dave Valko, Dunlo, PA, USA)
- 12015 V.O. Korea Carrier w/400 hz tone at 1927, IS start at 1930 totally wiping out what I assume was co-channel Iran. (12 Oct.) (Dave Valko, Dunlo, PA, USA)
- 12120 R. Pilipinas/V.O the Philippines Tlk by M in lang. at 1854, //15190 Disappointed that both were quite weak with the antenna at 355°. After moving and changing antenna direction to 45°, both were a little better. M and W pgm hosts at 1911. Came back at 1927 and found M anncr again, then M w/usual canned ID/info anmnt at 1928 followed by choral NA and off. Usually get the RTTY here, so it was nice to hear them on clear and readable on this rare occurrence. (12 Oct.) (Dave Valko, Dunlo, PA, USA)
- 15220 VOA, Greenville (pgm to Haiti) OC from at least 1954. 1959 "Yankee Doodle" and EG IDs including the last mentioning upcoming pgm in Creole. 2000 fanfare, M in Creole w/ID and ment of Haiti, and into feature by diff. M at 2002. Good signal. (12 Oct.) (Dave Valko, Dunlo, PA, USA)

Disappointed with 6090 Amhara State R. and 6110 R. Fana. Both were much weaker than expected in the 2000-2100 period. 6090 was clear though. No sign of Kaduna. (12 Oct.)

Checking 7120 Hargeisa on the Perseus in Qatar at 1755, could barely hear the audio, just like I experienced the other night. Also noted 7146 and 7185 V.O. the Broad Masses of Eritrea perfectly clear without any jamming unlike the other night. (13 Oct.)

(Dave Valko, Dunlo, PA, USA)

## Station news

**MYANMAR.** New program schedule. Starting in Feb 2014, through April 2016, I had enjoyed hearing the Radio Australia language lessons on 9730 (Myanmar Radio), on Monday and Wednesday. During April, I was no longer hearing this unique show.

Oct 17 (Monday), finally found their new schedule for the **R. Australia produced "English for Business,"** on 5985, from 1215 to 1235; "Lesson 16, A Presentation"; full transcript of today's show at <http://goo.gl/RhAa0H>; believe their schedule for this program will be sometime during the 1200-1300 UT segment, on Monday and Wednesday. In the past the exact timing of these programs usually varied somewhat.

It will be recalled that back in Nov 2013, ABC signed an agreement with Myanmar to share programming (full 2013 story at <http://goo.gl/VVSOI8>).

Based on some of my recent observations, Myanmar Radio, on 5985, also has the following: VOA's Special English on Wednesday, during a portion of 1530-1600. NHK's "Friends Around the World" on Thursday and Friday, during a

portion of 1530-1600. NHK also produces a radio drama in the Burmese language for Myanmar Radio, but am not sure of the schedule on 5985. Appreciate any corrections or additions. (Ron Howard, Calif., USA)

Thank you, Jerry. Good to see that some of this music is being preserved.

I have wondered what ever happened to some of the great record collections in Latin America. For example Radio Popular in Cuenca. I visited them in 1985 and 1997 and they had an amazing library of LPs going back decades. But the station closed down a few years ago after the widow of the founder died. The kids had moved to Los Angeles.

### Antenna Fire Puts SAQ Alexanderson Alternator Station Off the Air

(Further to an earlier report). ARRL, October 18, 2016

An early October fire in the SAQ Alexanderson alternator long-wave antenna is under investigation by the Grimeton World Heritage Foundation, which owns and manages the station in Grimeton, Sweden. The fire, attributed to arcing, was quickly extinguished, and no injuries occurred. The Foundation said that determining the extent of damage and completing repairs could take a while.

"There is a risk that the incident will affect the planned transmissions with the long-wave transmitter SAQ for some time to come," a Foundation announcement said. The fire will keep SAQ off the air for a scheduled UN Day transmission on October 24. SAQ, which operates on 17.2 kHz, also typically schedules transmissions on Christmas Eve and other occasions.

Dating from the 1900s, the Alexanderson alternator — essentially an ac generator run at extremely high speed — can put out 200 kW but typically is operated at less than one-half that power level. Once providing reliable transatlantic communication, it is now a museum piece and only put on the air on special occasions. It was built in the 1920s.

### St. Helena operation postponed again!

Southgate, October 18, 2016

Bill, G0VDE, reports that the opening of St. Helena airport still has 'continuing serious problems' and 'it is still not possible to land sensible sized aircraft like 737 there'.

He states, "The planned flights (in May/June and October by Atlantic Star) have been cancelled. The Comair flights from South Africa have likewise not started. All in all, it is a total mess and the UK government is being accused of building a £250 Million white elephant of an unusable airfield, all due to the strong winds and wind shear!

I have had to cancel, re-book and cancel my accommodation - if you read the ZD7 'newsletters' (the St. Helena Sentinel and the St Helena Independent) you will see it has been a very sorry story - hotels were encouraged to prepare extra rooms for the coming 'tourist boom' and one has even reportedly gone out of business, because they spent a lot to prepare and have now got no means of recovering their losses!"

Bill states, "So I am afraid I am not going this October either (having had to cancel my May/June trip). I am keeping somewhat up-to-date about the events on my website <sthelenadx.com> - but there is no planned date for the full airport opening so I don't have any certain future date.

"You may know the boat (the RMS St. Helena) was due to retire at the end of July, but it has been kept in operation for about another year as it is obviously the only way of accessing the island. I am looking at the possibility of traveling by the boat, but the problem there is two fold - the cost is at least double the planned cost of flying, and I would have to travel for two weeks and only be able to stay for one week...

It is just possible I will take this option, but I am still waiting as I could theoretically fly at quite short notice, should proper flights begin.

We therefore have sorry situation and a continuing delay - I will try to keep everyone posted. Maybe the only silver lining is that ZD7 will get rarer and any future visit would be popular!" <http://www.southgatearc.org/>

## StationList-M (Android app) updated

StationList-M the Android app that uses MWLIST / MW-Offset / FMLIST data offline has recently been updated. Its GUI now responds much faster.

Since no online connection is required, you can use StationList-M even at remote places like onboard of airplanes or when internet is not available or too slow. <http://zeiterfassung.3sdesign.de/stationlist-m.htm>

Note: FM data is currently only available for Europe / Asia / N.Africa

I just discovered a problem when your QTH has negative location values (west or south). These got converted to positive values, resulting in a wrong position. This is now fixed in V1.0.8

## Radio Habana Cuba Announces 2017 Pocket Calendar.

**Radio Havana Cuba's 2017 pocket calendar** is available already. It shows the fourth and last portrait of Fidel Castro, which was made for his 70th birthday in 1996, by Oswaldo Guayasamín, Painter of Iberoamerica.

The image entitled "Fidel with hands" carries the signature and a phrase from the historic leader of the Cuban Revolution, whose 90th birthday was celebrated last August 13th.

That small work of art was edited by the Spanish Association of Culture and International Cooperation in Madrid, and the Guayasamin Foundation based in Quito, Ecuador.

Requests must be sent to Radio Havana Cuba, P. O. Box 6240, Havana, Cuba or through the e-mail [radiohc@enet.cu](mailto:radiohc@enet.cu). Don't forget to indicate your updated address.
