

# SHORTWAVE BULLETIN

Issue no. 1909, Oct 21, 2018.

Deadline e-mail next issue: 0800 UTC, Nov 4, 2018.

Time is passing by very quickly and already time for another SWB. I had no time yesterday to compile this issue. Our daughter and her family were down to attend a 40 year celebration and my wife had promised that we should be baby sitters for the two girls, 1 and 4 years old. At our age that is a demanding task. They don't stay where you put them .....

The log is as usual extensive but it seems that most of the QSL's nowadays come from pirate stations. So here I had to fill in with some lines from the information section.

As usual I have spent all listening time to MW where a few days have offered quite good conditions. If you are interested in the state of art DX, please take a look at the interesting website ArcticDX and the ongoing KONG37 expedition:  
<http://arcticdx.blogspot.com/>

Really excellent DX like Tonga and other pacific stations have already been heard.

Keep on .....

=====

## QSL, kommentarer, mm.

**Christer Brunström: Radio Taiwan International 11990** Special QSL-card fore direct broadcast from Taiwan in German.

**Hermod Pedersen.** Några få tips efter några soliga dagar då jag fick för mig att reparera resterna av en KAZ-loop. Lyssnar som de flesta mest på MV numera, men passade på att kolla en del på KV också. Så några få, enkla logningar:

**Dan Olsson:** Efter lång bortavaro är det dags att redovisa de svar som kommit in det senaste halvåret. Bortvaron beror på två flyttningar och en skilsmässa men nu har jag sedan två veckor tillbaka ett eget boende 10 meter ifrån där jag bodde innan.

### [NORDX] UQ, radion och Albanien

En albansk dokumentär med svensk textning har idag lagts ut på Youtube. Det är den andra av tre albanska filmer som behandlar mitt liv och hur dx-lyssning gav ett intresse för albanska språket och kulturen. En liknande koppling finns ju med Latinamerika i minst tre fall, men Albanien är litet, så min verksamhet har gjort mig till kändis där nere. Visst är radiohobbyn fantastisk! <https://youtu.be/KIgXo8QI8K0>

### OLD TIME RADIO SOUND EFFECTS

YouTube Video of the Month --- Back of the Mike - 1938  
<https://www.youtube.com/watch?v=hZ43UC5tIOY&t=422s>

This is an amazing Short Film on Old Time Radio Sound Effects. We get an insider's view of the 1930s radio studio showing the production of dramatic sound effects. A boy lies on his bed, listening to a radio western, imagining the pictures in his head, but we get a behind-the-scenes look at how the sound effects team created the images and sounds of what the boy heard through his radio. 4750	Oct10	1940	Bangladesh Betar, Shavar NEW All Night Service with non-stop local songs, interrupted every half hour with Bengali ID:"... Bangladesh ..." and 2 min. talk. (AP-DNK)
4760	Oct10	1404	AIR Port Blair (presumed not to be AIR Leh [Kashmir]). Per WRTH Facebook posting by Pradip Kundu (India) - "Improved signal on 4760 kHz. indicates xmtr is being used with full power," which conforms to my observation with today's signal stronger than normally heard; audio above threshold level. Nice! My local sunrise was at 1410 UT (Ron Howard, Asilomar State Beach, CA, USA)

4835	Oct10	1347	AIR Gangtok, 1347-1402. Clearly no Ozy Radio heard here, conforming to info in ADXN-618 that Craig is currently off the air; AIR audio hovering at threshold level, but slowly improving; subcontinent music/singing. With Ozy off the air, now is an good time to try for Gangtok, which is normally buried under the Australian. My local sunrise was at 1410 UT (Ron Howard, Asilomar State Beach, CA, USA)

4885	Oct19	0457	Radio Clube do Pará, Belém, id. "Radio Clube, Clube da Madrugada". (Méndez)
4895	Oct17	0835	Mongolian Radio. Heard definite carrier (never any audio) thru last check of 1036, but gone by 1044. Hiroyuki Komatsubara reported much better details today, via his "Now On The Radio" website: -0828- 4895kHz UNID carrier, no modulation ??, (4830kHz No signal) 7260kHz MONGOLIA -0837- Thanks to kiwiSDR in Irkutsk/RUSSIA !! 4895kHz Maybe this is MONGOLIA station, but not // with 7260kHz. Radio 1 relay ?? Language ?? -0845- That kiwiSRD has become not found... -0858- backed.. This is Mongolian language. Pips at -0900- : <a href="http://radio.chobi.net/bbs/img/8504.mp3">http://radio.chobi.net/bbs/img/8504.mp3</a> -0925- 4895kHz MONGOLIA, Youtube : <a href="https://youtu.be/HPtbU8ezhHI">https://youtu.be/HPtbU8ezhHI</a> -1022- 164kHz, 4895kHz MONGOLIA, They may be parallel.

-1043- 164kHz // 209kHz // 227kHz MONGOLIA Radio 1 4895kHz No signal (MONGOLIA), off the air (s/off ?) around -1044-

Similar format on Oct 15, as I heard a carrier (unable to detect any audio) 0904+, on 4895; still on at 1044, but gone by 1058. So would seem 4895 has its own schedule, different from 7260 and probably a relay of Radio 1 and not // 7260, which is Radio 3 (Ron Howard, Asilomar State Beach, CA, USA)

4900	Oct17	0947	Voice of Strait noted with just a carrier (no audio at all), till they started different programming (not IS) about 0953. So today 4940 had a late start with actual IS/ID and at 0955 not // to 4900. A one day anomaly or something new? Will be interesting to hear what happens here in the future. My audio at <a href="http://goo.gl/3pKSNb">http://goo.gl/3pKSNb</a> (Ron Howard, Asilomar State Beach, CA, USA)
4905	Oct14	0347	Radio Relogio, Sao Gonçalo, Rio de Janeiro, religious comments and songs. Very weak. (Méndez)
4910	Oct13	1729	AIR, Jaipur, Hindi songs, at 1730 English, news. (Méndez)
4925	Oct3	2211	R.Educação Rural, Tefé AM. Natl. nx magazine <i>A Voz do Brasil</i> . 25341 (CGS)
4940	Oct21	0944	Voice of Strait. The weekend only edition of "Focus On China," with the audio feed from a CCTV9 documentary ("Along the Silk Road"); 0955 into Chinese. Seems China has reorganized some of the former CCTV sites. Now am unable to access the CCTV9 documentaries that I could just a few weeks ago. Now am directed to China Global Television Network, or CGTN, which is China's new international media organization - <a href="https://www.cgtn.com/">https://www.cgtn.com/</a> . (Ron Howard, Asilomar State Beach, CA, USA)
4950	Oct20	1720	AIR, Kashmir, Hindi songs. (Méndez)
4955	Oct3	2214	R.Cultural Amauta, Huanta. Songs. Usually a lot better. 15331 (CGS)
4960	Oct9	0430	VOA, via Pinheira, EE: NX "This is VOA Africa...". (MGi)
4970	Oct18	1708	AIR, Shillong, Hindi comments. Very weak, barely audible. (Méndez)
4985	Oct20	0457	Radio Brasil Central, Goiania, Very weak. Interference from teletype stations. (Méndez)
5005	Oct14	1035	Radio Nepal, checking at 1035 and 1046, on Oct 14. Definite carrier heard. The bad news, at least as far as I'm concerned, is that this is already broadcasting in DRM mode. My Oct 10, improved reception of their carrier was perhaps due to it already being in DRM? The following very helpful info is from WRTH Facebook: Bishwa Shrestha (Oct 11) According to Radio Nepal's website, 12 sets of DRM transmitters have already been purchased. Alexander Zink & Sharad Sadhu apparently came to give hands-on training about DRM just a few days ago. From what it looks like analog 5005 kHz as we know it is going to be a history. <a href="http://radionepal.gov.np/news-details/19273/2018-09-26">http://radionepal.gov.np/news-details/19273/2018-09-26</a> . Sanjay Sutradhar (Oct 14) Improved carrier on 5005kHz of course Radio Nepal taking to DRM came quite a while back. (Ron Howard, Asilomar State Beach, CA, Etón E1, antenna: 100' long wire, WOR iog via DXLD)
5005	Oct14	*0501-	Radio Nacional de Guinea Ecuatorial, Bata, Spanish, Afropop and African songs. (Méndez)
5010	Oct18	1715	AIR, Thiruvananthapuram, Hindi songs. (Méndez)
5020	Oct14	0645	SIBC, Honiara, carrier and some pop sons in English detected. Extremely weak, barely audible and only on LSB. (Méndez)
5025	Oct4	0920	R.Rebelde, Bauta. Morning px <i>Haciendo Radio</i> . F/out. 1000 35432 (CGS)

5040	Oct20	1724	AIR, Jeypore, Hindi songs. (Méndez)
5055	Oct17	0914	Radio 4KZ. Fairly early reception here with Dionne Warwick - "Walk On By" (Ron Howard, Asilomar State Beach, CA, USA)
5840	Oct3	2209	World Music R, Karup. Diff. kinds of mx. 25342 (CGS)
5860	Oct13	2150	Radio Parda, med ett id. (HeP)
5875	Oct15	1145	Radio Thailand. Chimes IS and ID; another day with English program, but not as strong as yesterday; so is not an anomaly (Ron Howard, Asilomar State Beach, CA, Etón E1, antenna: 100' long wire, WOR iog via DXLD)

6030	Oct12	1927	Radio Oromya, Ethiopia, HoA style songs, Vn, good (Bernardini)
6035	Oct21	-1122*	BBS, 1039 till off close to 1122. 1039-1100, pop songs (nice "Stairway To Heaven" by Led Zeppelin, etc.); 1101-1107, news in English (unreadable); 1109, back to pop songs (Aretha Franklin - "Respect," etc.); no PBS Yunnan here during this time period (note later reception under CHINA). Very nice to find BBS in the clear today, but have to wonder what the Yunnan schedule will be? (Ron Howard, Asilomar State Beach, CA, USA)
6035	Oct21	1209	PBS Yunnan, relay of FM99. In Chinese; usual FM format; BBS/Bhutan not on the air at this time today (BBS off about 1122); Yunnan not on the air here earlier (0955 and 1129+), so don't know just when Yunnan started. Clearly Yunnan has not established a firm schedule yet. (Ron Howard, Asilomar State Beach, CA, USA)
6045	Oct13	-1405*	Voice of Freedom, 1405* (a few seconds before 1406), Oct 13. Ending with the very distinctive song "Aleumdaun Nala" ("Beautiful Country"); YouTube song - <a href="https://www.youtube.com/watch?v=CBsPN8HXK5c">https://www.youtube.com/watch?v=CBsPN8HXK5c</a> . Still on this frequency, so they must be about to move again, probably to 5920 (Ron Howard, Asilomar State Beach, CA, Etón E1, antenna: 100' long wire, WOR iog via DXLD)
6050	Oct19	0629	ELWA Radio, Monrovia, English, religious comments. (Méndez)

6070	Oct14	1800	Channel 292, Germany, ids, EE, songs, good (Bernardini)
6080	Oct20	0648	Radio Marumby, Curitiba, religious comments and songs. Very weak, best on LSB. (Méndez)
6090	Oct13	1735	Voice of Amhara State, Addis Ababa, Vernacular, comments. (Méndez)
6090	Oct14	1745	Amhara State Radio, Ethiopia, Vn, talks, HoA mx, good (Bernardini)
6100	Oct14	1610	Radio Afghanistan, Kabul, Urdu, reports, fair (Bernardini)
6115	Oct13	0510	Radio Congo (presumed). Siting here listening to "RN2, Radio Nikkei" (Japan), waiting to hear if Congo comes on. Yes, at *0538, suddenly was hearing another station underneath Japan; sounded to be French, but unable to be positive. Pleased to find them still active! (Ron Howard, Asilomar State Beach, CA, Etón E1, antenna: 100' long wire, WOR iog via DXLD)
6115	Oct20	1735	Radio Congo, Brazzaville, African songs, French, id. "Radio Congo", comments. (Méndez)
6130			Lao National Radio (tentative), 0952-1000, Oct 12. The language heard, from what I could make of it, certainly sounded right to be LNR; YL & OM chatting (interview?) (via phone?); after 1000, always very much bothered by adjacent QRM, but pre-1000 was in the clear. My audio at <a href="http://goo.gl/GFgwYZ">http://goo.gl/GFgwYZ</a> Regarding my Oct 12 reception and audio clip - thanks very much to Ralph Perry for providing the following comments. Greatly appreciate his feedback. "CONGRATULATIONS! I am 99% positive you had LNR. Great to know this old friend is still available on SW. I listened to your audio and that sounded to me about as Laotian as it gets -- Laotian is extremely similar to spoken Thai, similar tonality and essentially the same language (Laos being the Country Bumpkin relative of Thailand), which I was able to speak reasonably well, a decade ago and still have enough fluency to play golf or order a meal, hi. What you recorded sounds exactly right to me." (Ron Howard, Asilomar State Beach, CA)
6130	Oct12	1950	TWR, Manzini, Swaziland, talks, Vn, good (Bernardini)
6135.1	Oct20	0645	Radio Aparecida, Aparecida, religious program "Com a Mae Aparecida". (Méndez)

6280	Oct17	1150	Sound of Hope. From 1150 to 1200, mixing badly with slightly stronger jamming of CNR1 programming, which ended just after their ToH time pips, leaving SOH in clear, with ID in Chinese at 1200 (Ron Howard, Asilomar State Beach, CA, USA)
7176	Oct12	1211	UNID, ., G, political speeches, perhaps from the Bundestag, Germany's security situation, migrants LSB. (TB)
7205	Oct14	0437	Sudan Radio, Al Aitahab, Arabic songs. (Méndez)
7210	Oct21		[non-log] PBS Yunnan, on Oct 21, checking for their sign on IS at 0955+, but clearly no Yunnan, just the normal mixing of Sound of Hope (Taiwan), which was slightly stronger than VOV1 (Vietnam); checked again 1223 and still no Yunnan, just SOH & VOV1 again mixing (Ron Howard, Asilomar State Beach, CA, USA)
7255	Oct21	0635	Voice of Nigeria, Ikoduru, African songs, Hausa, comments. (Méndez)
7290	Oct19	*1759-	Radio City via IRRS, Saftica, tuning music, "This is IRRS short wave signing on", "Radio City, the station of the cars", "Radio Ciudad, la voz de los autos", pop songs and comments in English. (Méndez)

9410	Oct10	1203	-USB+carrier, Fu Hsing BS. This was a post-BBC sign off reception; not surprised to find this erratic station on the air today, as it's National Day of the Republic of China (Double Ten) national holiday; in Chinese with songs; problem with a different weaker secondary, over modulated, audio underneath. Taiwan's other frequency (9774) remains silent.(Ron Howard, Asilomar State Beach, CA, USA)

11665	Oct11	1311	"Wai FM" and "Wai FM Limbang," via Kajang. In vernacular playing pop songs; several singing "Wai FM" IDs; 1315-1400, the segment IDing as "Wai FM Limbang" (there is also a Monday edition of this at the same time); pop songs and segment with a long dialogue in vernacular; almost fair. So for the vast majority of the time this is "Wai FM" and not "Wai FM Limbang." Sorry, I should have followed up earlier regarding my item about Sept 16 being "Malaysia Day." This was the first year that I can recall that RTM didn't broadcast, via SW, the Prime Minister's address to the nation 1300+. Disappointed! The RTM SW service has been in a steady decline for many years now. Was not that long ago I could enjoy Radio Klasik (5965), Asik FM & Suara Islam/Voice of Islam (6050), Traxx FM (7295) or Voice of Malaysia (6174.4, 6175.0 and 15295), but they are all gone now. So they have put their emphasis now on their online presences, as evidenced by the RTM audio streaming at <a href="https://myklik.rtm.gov.my/radio/Wai_FM?t=regional">https://myklik.rtm.gov.my/radio/Wai_FM?t=regional</a> (Ron Howard, Asilomar State Beach, CA, USA)

## Station news

**GERMANY, Hamburger LokalRadio** has changed its 9485 kHz Sunday frequency for its English program 1000-1100, and now this program is on air on 7265 kHz, like the Dutch program 09-1000 and the Spanish program, 1100-1200.

Now on air 1005-1013, 14-10, with poor signal, program "Media Network Plus". The 9485 kHz is active now on Saturdays 1100-1500 UTC.

## SWEDEN. Radio Nord Revival this weekend

List friends,

Radio Nord Revival, the tribute station to the former Swedish offshore station in the 1960's, is scheduled to be on air the upcoming weekend. Transmissions will be made from Kastellet in Waxholm (in Stockholm alchipelago) on October 26th and 27th.

Licensed frequencies are 5995 and 6035 kHz, and they will alternative between these two. Power 500 Watts.

Also on FM 91,8 MHz for local audience with 60 Watts of power.

**THAILAND.** English broadcasts from HSK9 have been caught at unscheduled times/frequencies: by Alan Roe at 0120 on 15590, supposed to be an hour in Thai between Englishes to North America; by Ron Howard at 1145 on 5875. (Are these still being heard?)

I check the HFCC B-18 sked as of Oct 14 and do not find any such changes, but some other ones for the alleged complete English:

7475 at 1900-2000 & 2030-2045 to Europe (ex-9390)  
9940 at 1230-1300 & 1400-1430 to SE Asia/Australia (ex-9390)  
13745 at 0000-0100 & 0230-0300 to North America (ex-15590 as usual)  
17640 at 0530-0600 to Europe (no change)

I don't find any plain old SW schedule at <http://www.hsk9.org> and hardly anything in English (Glenn Hauser, Oct 20, DX LISTENING DIGEST)

### Rundfunk auf Spitzbergen

OM Gunhart berichtet mit Foto auf unserer A-DX Facebookseite <http://a-dx.at/facebook>

Der einzige auf Spitzbergen verbliebene Rundfunksender befindet in Longyearbyen, dem Verwaltungszentrum der Inselgruppe. Mit lediglich 1 kW strahlt hier der norwegische Rundfunk sein Regionalprogramm NRK Troms auf 1485 kHz aus. <https://radio.nrk.no/serie/distriktsprogram-troms/> Er war in knapp 60 km Entfernung, am Nordenskjöld-Gletscher (unweit der aufgegebenen russischen Bergbausiedlung Pyramiden) noch gut zu empfangen. Karte mit dem Verbreitungsgebiet: <https://radio.no/dekning/>

Anders als es das WRTH 2018 verzeichnet, gibt es auf Spitzbergen keine weiteren Sender - weder auf UKW noch DAB+. Auch die russischen Bergbauesiedlungen auf der Inselgruppe betreiben keinen Sender (mehr). Rundfunkprogramme empfangen sie heute ausschließlich über das Internet.

## Pirate radio memories

Many of you will recall the heyday of landbased MW pirate radio in UK which was in the 1970s. Well, I stumbled upon some interesting tales recounted by Ray at the Radio Workshop in Sussex. Ray's a natural raconteur and takes you back in time via his Youtube workshop chats:

BBC to release classical music archive

The BBC is set to make many recordings from its archives available to the public, for on-demand online listening.

Tony Hall, Director General of the BBC, is expected to make the announcement, when he launches 'Our Classical Century', a season of programmes spanning both radio and television channels which will explore the past hundred years of classical music-making by the corporation.

With all that sits in the BBC's vaults, the announcement is an enticing prospect for classical audiences. Not only is the corporation home to a number of prestigious performance groups - including world-leading ensembles such as the BBC Symphony and BBC Philharmonic orchestras, as well as choirs such as the BBC Singers - but it also produces the Proms, one of the world's longest and most wide-ranging concert annual music festivals, and major competitions including the BBC Young Musician and Cardiff Singer of the World. All of this makes the BBC archives among the world's richest repository of classical performances.

Full details are yet to be revealed, though it's understood that recordings will be introduced into the public domain for limited broadcast and on-demand listening over time, on platforms including BBC iPlayer and a soon to be launched audio app BBC Sounds (Source? via Oct MW News via DXLD)

## Blockerade USA-stationer

Kollade gamla Ekon, och fann att du undrade kring WTIC blockering. Så jag kollade och det stämmer, de vill skydda sig från "online attacks". Du kanske redan löst det, men om inte så är det lätt fixat. Dra igång en VPN klient och ställ in servern på USA. Sen funkar det, alla (ja, de flesta) tror du kommer från USA. Webbläsare som Opera har inbyggd VPN, men det finns en massa andra varianter också.

Vad gäller VPN finns det massor med lösningar. De flesta kräver dock installering av programtillägg. De flesta kostar pengar, vissa som Tinnelbear är gratis.

Googla och ni ska finna.

En första VPN-start kan vara det här på PC För Alla:

<https://pcforall.se/2.1054/1.678233/allt-om-vpn>

Det enklaste sättet att få VPN är med webbläsaren Opera.

Så hämta denna norska webbläsare, som är både snabb, bäst och fylld med en massa inbyggda finesser som reklamblockerare och gratis VPN.

Finns för alla plattformar.

Operas VPN slår man till-från efter behov och sinnesstämning (se bild).

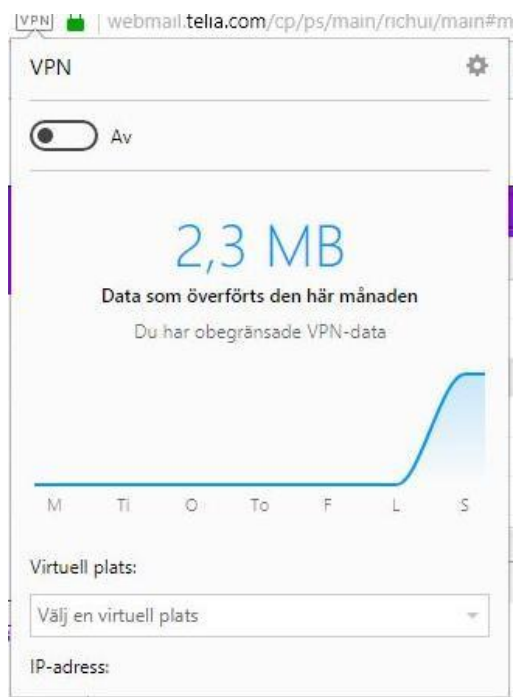

När du slår på den kan du också välja vilken del av världen du vill låtsas vara i. Fungerar ofta, som kring WTIC, men inte för typ Netflix, som verkar ha effektivare geoblockering kring sitt zonindelade material.

(Hermod Pedersen)

**Win10 har en inbyggd VPN. Läs här hur du konfigurerar den**
