

SHORTWAVE BULLETIN

Issue no. 1910, Nov 4, 2018.

Deadline e-mail next issue: 0800 UTC, Nov 18, 2018.

The past weekend was spent in Stockholm. Our oldest granddaughter, Maja, celebrated her 4 year birthday.

The distance from here to Stockholm is about 550 km and it takes about 6 hours to drive by car.

As it was Halloween a lot of traffic especially around the bigger cities.

Thus it was not possible to compile SWB yesterday.

Most of the contributions is for the log and to fill the pages I had to check eBay for some nice old stuff.

The last days and especially Oct 31 have been extremely good for North America on mediumwave. Also here i southern Sweden I managed to log a bunch of stations from central and western NA.

Also KBRW on 680 was heard here as well as all the way down to northern Italy. MW is amazing - the band is changing from day to day.

Keep on

=====

QSL, kommentarer, mm.

No QSL's or comments for this issue, so had to check eBay.om and found some old QSL's and penants.

Hope some of you remember when snail mail still was used and now and then some supprises landed in the postbox.

BRAZIL. Test **3375, R. Municipal** (Tentativa de reativar). Bom dia, Senhor Anisio Gregori. Eu constato aqui que o transmissor de 3375 Ondas Tropicais está no ar. Eu recebo a portadora, mas o áudio parece está desligado, não está com áudio o transmissor. Eu vou ficar fazendo monitoramentos para ajudar vocês toda manhã aqui na floresta, para vocês conseguir arrumar o áudio. Parabéns ao Senhor por reativar 3375 Ondas Tropicais; é muito importante para nós moradores da região dos Estados da Amazônia Legal.

Para quem desejar ajudar envie mensagens e pedido de amizade a Rádio Municipal

Eqsl Rádio Municipal 3375 KHZ 90 Metros --- Também sou o gerente agora oficial de eqsl da Rádio Municipal. Boa hora para vocês olhar 3375. O DX MAIS DIFÍCIL DOS ÚLTIMOS TEMPOS 90 METROS SINAL BAIXO A LONGA DISTÂNCIA.

Informes para danielnx18@gmail.com informes com mp3 ou vídeo. Também olho a confirmação de CARRIER. Será colocado Carrier no informe caso não tem recepção e somente a portadora em sua região. Os informes serão repassados a Rádio Municipal (Daniel Wyllyans, Oct 24, Hard-Core-DX mailing list via DXLD)

New Power today Rádio Municipal: "3.5 KW" (Jose Pereira Técnico Rádio Municipal 3375). Ainda hoje vai soltar agora com 3.500 Watts com 100% de modulação! Vamos ficar atentos. 73 (Daniel Wyllyans, Oct 24, Hard-Core-DX mailing list via WORLD OF RADIO 1954, DXLD)

Thanks. What hours is it operating? 73, (Mauno Ritola, Finland, ibid.)

Então nessa fase de testes está assim de 04 da Manhã as 09 da Manhã (07-12 UT) e 19 da Noite às 11 da Noite hora de Brasília (22-02 UT). Não sei se isso vai ficar oficialmente nesse horário. Mas vamos aguardar os próximos capítulos. 73. (Wyllyans, ibid.)

Thanks. Nothing heard at 0820 via Brazilian remote receivers (Mauno, ibid.)

I am hearing a het on about 3375.07 kHz this morning from 0915 tune-in. (Hard to determine the precise frequency because it's covered by TV raster noise.) Switching the antenna directions indicates it's strongest from the south, consistent with Radio Municipal. It wasn't there two days ago (Art Delibert, North Bethesda, MD, USA, 10/25/18, NRD-545 receiver, SAL-12 antenna, HCDX via DXLD)

--- A Rádio Municipal em Ondas Tropicais de 3375 kHz está reativada oficialmente e operando com 3.5 KW para todo o estado de Amazonas e região. A frequência é muito ouvida por pessoas da região ribeirinha. Muito Obrigado ao Anisio Gregori pelas fotos e por seu excelente trabalho como gerente da Rádio Municipal para a comunidade Amazonense e região vizinhas dos Estados da Amazônia Legal. Agradecemos a Deus e a Prefeitura de São Gabriel da Cachoeira - Amazonas. A very weak carrier signal is visible on the waterfall of CA3PBR SDR site (Santiago, Chile). No audio, though. The signal might be Rádio Educadora (ZYG792), too. Who knows? 73, (Matti Ponkamo, Naantali, Finland, ibid.)

3375 kHz, Rádio Municipal - São Gabriel da Cachoeira - Amazonas / Brasil. Locutora comentários, depois música. Desde a Reativação, o melhor sinal que consegui foi esse durante uma tempestade aqui com estraios atmosféricos. Então quem conseguir ouvir um sinal no exterior com áudio considere-se um campeão! Re: [WOR] Monitoring Indonesia website no longer available

Hi Glenn,

Sorry to report that as of Nov 4, Atsunori Ishida's website (former <http://rri.jpn.org/>) is no longer available. Since mid-December last year, he has been inactive. A great loss! Had been a wonderful resource for the history of what Indonesian stations were currently being heard and also for reporting on the date last heard, along with some interesting audio clips. His site had been a boon to us interested in SW stations in that country, even though there are pitifully few of them on the air today.

Believe currently that RRI Ternate (3344.86 kHz.) is the most regularly heard (seems daily), while Pro 1 RRI Nabire (7289.92 kHz.) is indeed often heard, but certainly not daily.

Then there is also the Voice of Indonesia, now heard via RRI Palangkaraya (3325 kHz.), with their various segments in different languages, but at times with erratic broadcasting. Nov 3, at 1116 & 1150 and Nov 4, at 1206 & 1219, noted VOI definitely off the air at these times.

It should be noted that Alan Davies, still maintains his website - <https://www.asiawaves.net/> , but the emphasis is on AM & FM stations.

HISTORIAS DE RADIO DE DANIEL CAMPORINI, NUEVOS SEGMENTOS SONOROS

RADIO FREE DIXIE

Como ya todos conocemos, en mayor o menor medida, la disputa política entre Estados Unidos y Cuba lleva ya un largo camino recorrido, especialmente durante los años de la guerra fría. Luego del triunfo de la Revolución cubana que llevó al movimiento 26 de julio al poder, se inició una guerra en las ondas de radio que se ha prolongado a lo largo de varias décadas, con transmisiones blancas, grises y negras...

LA VOZ DE LOS ANDES

La emisora HCJB fue inaugurada en 1931, por la iniciativa de Clarence Jones y Reuben Larson, quien era misionero en Ecuador desde hacía ya varios años y ya había tenido alguna experiencia en transmisiones radiales evangélicas en la ciudad de Chicago en los Estados Unidos. En 1928 recorrieron varios países, Colombia, Cuba, Panamá, entre ellos, en donde les negaron la posibilidad de instalar una emisora. De inmediato se pusieron en la tarea de obtener el permiso de las autoridades ecuatorianas, lo que obtienen el 15 de agosto de 1930, pero la emisora no estaría lista para salir al aire hasta diciembre de 1931.
