

# SHORTWAVE BULLETIN

Issue no. 1985, Sept 19, 2021

Deadline e-mail next issue: 0800 UTC, Oct 3, 2021

Here in northern Europe the summer is almost over. Today cold northern winds and only 12-13C.

Yesterday I helped my brother-in-law to take up his boat for winter storage. A lot of work involved to wash the boat outside from algae and dirt. But still a lot of boats in the harbour.

A huge log but no surprises. Ullmar Qvick has the exact words for the present situation on shortwave: interesting stations are few and far between.

It is also very quiet on the SDR front.

I noticed the release of an update for SDRuno, V1.41. It includes the much requested full scheduler facility which allows you to set up numerous recording events for your RSP.

More information here: <https://www.sdrplay.com/try-out-the-new-features-in-sdruno-v1-41-released-today/>

Thanks to all for interesting contributions.

Keep on ....

=====

## QSL, comments, etc.

### GLENN HAUSER LOG ROUNDUPS

Please note and spread the word - for those not on a list where my almost-daily all-band but mainly SW log reports appear -- or for those who are but find this a more convenient archive, weekly merged roundups of all these reports in their original form are posted early every UT Thursday via: <http://www.worldofradio.com/Hauserlogs.html>

The latest ones direct: [https://www.w4uvh.net/ghlogs\\_2021\\_0909\\_0915.txt](https://www.w4uvh.net/ghlogs_2021_0909_0915.txt)  
(73, Glenn Hauser)

**Ullmar Qvick:** Läget är inte särskilt upphetsande beträffande radio. Jag har skrivit en artikel om mitt långa liv (75+ år) med radion för WRTH och till utgivarens belåtenhet.

Listening almost daily, but the interesting stations are few and far between. Also my local electric noise is embarrassing, but I try to listen directly whenever possible, no remote rx and no SDR. At 87 I suppose I am the oldest active DXer in Sweden. Jan-Erik Rääf (soon 93) unfortunately cannot listen any more due to the local noise situation.

QSLs during the past four weeks:

**CNR17 Lingshi** via CRI 13700 kHz after 18 hrs, e-card and e-letter; **R. Akhbar Mufriha** via Woofferton 7300 kHz e-card and letter after 12 days; **Offshore History Radio** via Channel 292 6070 kHz with e.card and letter, 12 days; **CRI Kashi-Saibagh** 13670 kHz with new e-card and letter, 1 day; **Sri Lanka Bc Trincomalee** 11750 kHz after 2½hrs from [victorg.broadcaster@gmail.com](mailto:victorg.broadcaster@gmail.com) with e-card, letter and photos of Victor's hamradio antenna and shack; **RRI Galbeni** 15320 kHz card direct after 4 months; **TRT Ermirler** 9840 kHz with card showing Alanya harbour and seaside resort after 3 weeks. **NHK** via Issoudun 15290 kHz card after 2 months, also **Yamata** 6120 kHz same time, **Pop Shop Radio** via Channel 292 6070 kHz very nice e-letter and then by post card and material from Canada; **GB Radio UK** via Channel 292 6070 kHz e-card, **SM Radio Dessau** via Channel 292 6070 kHz, nice e-letter in German and e-card, **CNR2 Xianyang** 9820 kHz via CRI e-card and e-letter, **Voice of Greece Vathy** 9420 kHz e-card after 22 hrs, **Radio Sylvia Hamburg** via Channel 292 e-card and e-letter in German; **Tumbril-Encore** via Channel 292 6070 kHz and **WRMI** 15770 kHz e-cards and letter; **AWR** via Tashkent 15670 kHz e-card after 3 weeks.

What can be heard in English on SW here in my humble DX abode in the morning?

A check today revealed the following (listed in time order):

15490 kHz 0615 BBC WS via Vatican R very strong  
17540 kHz 0625 CRI Kashi-Saibagh 173 deg weak  
17510 kHz 0630 Ibidem 269 deg good  
15580 kHz 0631 VOA via Botswana 358 deg good  
15350 kHz 0634 CRI Kashi-Saibagh 174 deg fair  
15145 kHz 0636 ibidem 239 deg fair  
11870 kHz 0642 ibidem 239 deg weak  
9870 kHz 0644 Channel 292 ND fair  
7245 kHz 0648 RNZI 325 deg weak  
6070 kHz 0650 Channel 292 ND fair

**Christer Brunström: Voice of Turkey** 13760 nice card featuring a view Alanya, **Radio Romania International** 13750 six different QSL-cards featuring views of buildings in Oradea.

**Anker Petersen:** After 40 days, when my internet connection was cut by local road work, it is now repaired, and I am back with you.

## Log

(UTC)

3310	Sep16	0120	Radio Mosoj Chaski, Cotapachi, Quechua, comments, Bolivian songs. (Méndez)
3320	Sep4	2116	Pyongyang BC Stn, Pyongyang area. Tks. Occ. uty. QRM. 15241 (CGS)
3480	Sep6	1015	Voice of the People: 3480 // 3910 // 3930 // 4450 // 6520 // 6600, Sep6 at 1015; another week with no change of frequencies. (Ron Howard, Asilomar State Beach, Calif.)
3910	Sep4	2114	Voice Of The People (cland.), Goyang. Kor to KRE, tks. Jammed. // 3930, 4450. (CGS)
3915	Sep8	2238	BBC, Kranji relay. WS in E to SEAs, rpt. from Kenya. 35332 (CGS)
3930	Sep5	2102	Voice Of The People (cland.), Goyang. Kor to KRE, tks. Jammed. 24341 (CGS)
3955	Sep18	1940	R England, via Channel 292, Rohrbach English ID: "Radio England, 1966", old English pop songs. (AP-DNK)
3975	Sep18	1945	Shortwaveradio, Winsen English Amateur Radio Newline (AP-DNK)
3975	Sep9	2104	Shortwave Gold, Winsen. E, tks, pops. 35332 (CGS)
3980	Sep6	1012	Echo of Hope - VOH: anomaly today Sep6; for a long time had been changing frequencies every Monday, but <b>no change today</b> from last week; 3980 // 4885 // 5990 // 6250 // 6348 // 9100, at 1012. On Sept 5 (Sunday) on 9100, at 0732, with the English language lesson of the weekend only reading of "Harry Potter and the Magician's Stone," with wordy explanation in Korean; good reception even this early. (Ron Howard, Asilomar State Beach, Calif.)
3980	Sep12	1820	R.Echo of Hope (cland.), Gyengi-do. Kor to KRE, tks, mx. 35332 (CGS)
3985	Sep18	1950	R Belarus, via Shortwave Service, Kall-Krekel English talk about a western city in Belarus, classical music (AP-DNK)
3985	Sep5	2114	R.Bielorussia via Shortwave Sce., Kall-Krekell. G, nx. 35342 (CGS)
3995	Sep18	1955	HCJB, Weenermoor Low German religious ann, music, 2000 German "Abend Journal" news and talk (AP-DNK)
4010.2	Sep13	-1800*	Kyrgyz Radio, Bishkek, 1748-1800*, Sep13, comments, songs. Extremely weak. (Méndez)
4450	Sep4	2118	Voice Of The People (cland.), Goyang. Kor to KRE, tks. QRM de CODAR + jammer. 23341 (CGS)
4750	Sep12	1822	Bangladesh Betar, Shavar. E, nx, interview. 45343 (CGS)
4765	Sep10	1825	Tajik Radio, Dushanbe, Tajik songs and comments. (Méndez)
4765	Sep23	-0400*	Radio Progreso, Bejecual, tent mx, tk, TX off 0400, 25222 (TB)
4775	Sep12	0124	Radio Tarma, Tarma, Peruvian songs. 25322.
4790	Sep16	2046	WBCQ, Monticello ME. Rlgs. propag. Occ. uty. QRM. Better on 17/9, 2145, rtd. 35332. 25341 (CG)
4820	Sep18	2010	Xizang PBS, Baiding, Tibet Chinese ann, orchestra music // 5935, 6050 and 7240 (QRM 7245 Russian) (AP-DNK)
4885	Sep13	0557	Radio Clube do Pará, Belém, relaying Radio Bandeirantes: "Jornal a Primeira Hora, 58 horas no ar" "Radio Bandeirantes", "3 horas e 1 minutos aqui na Radio Bandeirantes". (Méndez)
4885	Sep17	2142	R.Club do Pará, Belém PA. F/ball px. 45433 (CG)
4890	Sep18	2015	Echo of Hope, via Taereung, South Korea. Korean, songs // 6350 (jammed) (AP-DNK)
4890	Sep15	2131	R.Echo of Hope (cland.), Nowong-gu. Kor to KRE, tks, nx in E at 2140. 35343 (CG)
4940	Sep16	0650	religious station Fueza de Paz, religious comments, id. "Fuerza de Paz, escribanos a <a href="mailto:erzadepaz.com">...@erzadepaz.com</a> ". (Méndez)
4949.8	Sep12	1825	RNA-Canal "A", Mulenvos. Tks. 35332 (CGS)
4960	Sep18	*2028-	VOA, via Pinheira Two English ID's: "This is the Voice of America, Washington DC signing on", "Yankee Doodle", 2030 Hausa talk (AP-DNK)
5020	Sep15	0408	SIBC continuing with an erratic/unknown schedule. 9545 - Checking from 0408+UT; not heard at all. <b>Is this frequency currently active? 5020</b> - Checking randomly 1205 to <b>past 1415 UT</b> ; no ID, but format consistent to be a Wantok FM relay; 99% non-stop pop songs (LuLu - "To Sir, with Love," etc.) and only a few brief spots with announcers; well past their usual closing time of about 1200. My local sunrise was at 1350 UT. (Ron Howard, California)
5020	Sep17	1204	SIBC (5020) again didn't turn off the xmtr; 1159-1204 UT, Evening Devotional, ID and NA; 1204 till past 1415+, non-stop island songs; <b>today clearly not a Wantok FM relay</b> ,

but instead heard with no announcers at all and the songs were not the usual ones in English that Wantok plays. My local sunrise was at 1352 UT. Brief audio attached, from 1358 UT. Thanks very for the interesting comment from Bryan Clark, regarding both SIBC (5020) and Radio Vanuatu (5040 - open carrier/dead air long after 1102+) currently not turning off their xmtrs - "Maybe SIBC and VTBC (5040) are both deliberately leaving their shortwave transmitters on all night at present to maintain reliability? Despite the electricity cost, maybe a tactic to ensure daily transmission continues as would imagine 'powering up' a transmitter in their tropical environments is the riskiest part of the operation. Just my thoughts." Which would seem to make sense. (Ron Howard, California)

5025	Sep13	0850	R.Rebelde, Bauta. Songs, tks. F/out. 0930 25331 (CGS)
5040	Sep16	-1741*	AIR, Jeypore, comments. Very weak. (Méndez)
5055	Sep6	-1002*	Radio 4KZ, with xmtr off at 1001:45* UT, via a timer (Sept 3, with xmtr off at 1002:00*). (Ron Howard, Asilomar State Beach, Calif.)
5055	Sep10	0903	R. 4KZ Austrália (T); male and female talks. Very weak (LOB).
5825	Sep8	2343	R. Triunfal Evangélica, Chile; religious music, male spanish ID "Radio Triunfal Evangélica, Talagante, Chile". Poor but sometimes readable (LOB).
5915	Sep11	1840	Zambia NBC, Radio 1, Lusaka, Vernacular, comments. 13221.
5915	Sep10	1120	Myanmar Radio. CRI starts QRM here at *1200 and strong adjacent QRM at *1130, from 5910 (CRI), but otherwise clear reception. (Ron Howard, California)
5920	Sep6	*0753-	Voice of Freedom, 5920, N. Korea pulsating jamming here from VOF's starting at *0753 till jamming ends sometime about 1100; this jamming is definitely directed against VOF, as it has been following VOF moving back and forth recently between 5920 & 6045. (Ron Howard, Asilomar State Beach, Calif.)
5930	Sep8	1902	World Music Radio, Bramming, pop and Latin American songs, id. "WMR, World Music Radio". (Méndez)
5939.2	Sep15	2137	R.Voz Missionária, Camboriú SC. Rlgs. propag., listeners' mail. // 9665.914 rtd. 35343 35332 (CG)
5980	Sep8	*2051-	Radio OZ-Viola, Hillerod, interval signal and id. "You are listening to Radio OZ-Viola from Finland...", at 2300 program "Midnight Jazz". (Méndez)
5980	Sep4	1648	R.NZPacific, Rangitaiki. E, mx, nx, wx, H.Shakleton expedition story. Improving. 35343 (CGS)
5985	Sep17	1249	Myanmar Radio. The Friday edition of "Say It In English"; about "when, where, what, which"; "When does the train from Manchester arrive?", "Arrives at 7:00, on platform 9," "The train is late," "Tom" was on the train and this week's misadventure is that he left his suitcase on the train when he got off; mostly readable, but at *1259, New Zealand started on 5980 with a very strong signal, causing QRM for Myanmar. First time I heard this same show was back on Sept 4, 2017. (Ron Howard, California)
5995	Sep11	1845	Radio Mali, Bamako, English weakly program "English Magazine", news about Mali, at 1903 African songs and vernacular comments. (Méndez)
6015	Sep9	0344	Zanzibar Broadcasting Corporation, Dole, Swahili, comments. (Méndez)
6020	Sep12	0601	Radio Delta International, Elburg, pop and rock songs, id. "You are listening to Radio Delta International...". (Méndez)
6030	Sep5	0724	RHC. Unusual to hear their humbuzz xmtr here; used to jam; somewhat blocking Calgary, with fairly readable reception. (Ron Howard, Asilomar State Beach, Calif.)
6030	Sep7	0631	reactivated CFVP Calgary received direct vs residual Cuban jamming; ad with a .ca link, back to comedy routines with audience laughter, not fully readable but glad to get anything > from this 100-watter. Wonder if something have been beefed up lately (Glenn Hauser, OK, WOR)
-----			
Hi Glenn - Recently, here on the Calif. coast, I have also noted many nights with unusually good, readable reception. Sept 5 was the first time I heard the humbuzz xmtr, instead of the usual jamming. Brief audio attached. (Ron Howard via WOR)			
6030	Sep8	0625	comedy from CFVP again audible vs remnant Cuban pulse jamming. Now being reported elsewhere deep into America; Ron Howard has been hearing it well on the California beach haven (Glenn Hauser, OK, WOR)
6030	Sep15	1811	Radio Oromiya, Addis Ababa, Vernacular comments, East African songs. (Méndez)
6050	Sep16	0602	ELWA Radio, Monrovia (presumed), religious songs and comments in English. Very weak. (Méndez)
6065	Sep13	1740	Voice of Hope Africa, Lusaka, English, DX program "Wavescan", at 1759 id. "This is Voice of Hope", religious comments. (Méndez)
6070	Sep15	0655	CFRX, Toronto, English, news, comments. QRM from Channel 292 with Overcomer Ministry on the same frequency. (Méndez)
6070	Sep4	2120	Channel 292, Rohrdorf. G, tks, pops. 3955 not //. 35332 (CGS)

6080 Sep11 2105 R.Marumby, Curitiba PR. Rlgs. propag., px anns., songs. QRM de CHN. Inaudible on // 9515. 34342 (CGS)

6090 Sep5 1736 Voice Of Amhara State, Geja Jawe. Vn, tks, tradit. songs. 35343 (CGS)

6090 Sep13 1806 Voice of Amhara State, Addis Ababa, Vernacular, comments, East African songs. (Méndez)

6110 Sep15 1832 Radio Fana, Addis Ababa, East African songs, Vernacular, comments. 34433.

6115 Sep12 1813 Radio Congo, Brazzaville, French, news, at 1826 African songs and comments.. On Sept 13, checked 1801-1830 and no audio, no carrier, seems to be our of the air. (Méndez)

6115 Sep12 1811 R.NZPacific, Rangitaiki. E, tks. A word or two audible here & there only. DRM tx. SINPO rates the carrier. 35433 (CGS)

6145 Sep14 0050 S9+20/30, RHC English is here on alternate frequency to 6165! // 6000, but I doubt it will last. Something`s always wrong? at RHC. Good news for WBCQ Area 61, now in the clear on 6159.951 --- see U S A. (Glenn Hauser, OK, WOR)

6145 Sep14 0617 next check, S9+30, still here not 6165, during wide-ranging N America weather info from Chief Meteorologist, typically around :15 into one of the English hours. 6000 is off but 6100, 6060 humbuzzy and even 5040 are still on in English (Glenn Hauser, OK, WOR)

6150 Sep15 0705 Europa 24, Datteln, Brazilian song "Lambada", pop songs in English, German, comments, id. in English, "This is Europa 24". (Méndez)

6159.951 Sep14 0052 Area 61 via WBCQ is in the clear thanks to RHC on 6145 instead of 6165, but don`t count on it to last. Cowboy song finishes, then lament for someone who has died, a member of the Grand Ole Opry; 0053 classic Camel cigarette ad in full, which would be illegal today but OK as an historical relic? Trouble is, Camels still exist, I think. Credit to G.O.O. on AFRS, NBC and WSM, NBC Monitor; Yes, G.O.O. from 13 Sept 1958y is on this week`s Area 61 sked: <http://zappahead.net/#2021-0913-area61> BTW, as a non-zappahead, I now know that Larry Will`s `cosmikdebris` handle derives from a Frank Zappa song: <https://www.youtube.com/watch?v=Dp6LT2MdaPI> --- and into WBCQ The Planet ID, a few more minutes of music fill before another ID and 0100, Hal Turner touting reaching 70 countries on SW via WRMI & WBCQ, is that all? in addition to his pipsqueak AM outlet in Utah, 13-watt KYAH 540 in Delta. Well, it will be on night power if legal from 0145 in September, from 0100 UT in October. I bet Hal never mentions KYAH coverage, power, which at best is 1 kW days (Glenn Hauser, OK, WOR)

6160 Sep10 2109 Shortwave Gold (?), Winsen. Tks. Heavy QRM de US stn w/ rlg. propag. \*\*\* wrong details on previous file \*\*\* 22331 (CGS)

-----

On Sat, Sep 18 Glenn Hauser wrote: *That's for 6160 on 10 Sept, and it should not be considered as "Shortwave Gold" for sure - most likely, it was not. For some reason, I inserted the details on the interfering station (Bro. Stair stuff), the very same source of QRM indicated in my 16 SEP obs. of an unidentified airing a prgr. In Korean.* (Glenn Hauser)

-----

Hi Carlos, since March 24, have daily been hearing the following: KOREA NORTH. Pyongyang BS, 3320 // 6160 kHz. (Ron Howard, California)

6160 Sep16 2103 UnID. Kor, tks. Meas. 6160.978. QRM de US stn. on 6160.031. 22341 (CG)

6185 Sep15 0640 Radio Educación, Ciudad de México, classical music, songs, id. "Radio Educación, 1060 AM, y para todo el mundo, nuestra Señal Internacional en onda corta, Radio Educación, la emisora cultural de México". (Méndez)

6600 Sep15 2135 Voice Of The People (cland.), Goyang. Kor to KRE, tks. Jammed. A bit better on // 6520. 23341 (CG)

6754U Sep14 0040 CHR is back, at least on night frequency; still nothing earlier in Sept 13 daytime chex on 15034-USB. Recent aviation weather for Keflavík succeeds; but the other infostream, terminal forecasts, gets ``No Report Received``, from Shannon, Prestwick, Keflavík!, Lajes. ``Trenton Military`` timecheck at 0042 claims it`s only 0040 zulu, typical. Then Shearwater av wx succeeds (Glenn Hauser, OK, WOR)

6754U Sep15 0147 CHR is inaudible again; despite high storm noise level should still be detectable if on. (Glenn Hauser, OK, WOR)

7140 Sep8 1638 Voice of Broad Masses, Asmara, East African songs, Vernacular, comments. (Méndez)

7245 Sep5 1037 R.NZPacific. E/different azimuth, Media Watch, etc. Deteriorating. 25432 (CGS)

7600	Aug23	2059	Afghanistan International TV tent mx look (= IS), next day I herd ID Afghan Int., language close to Farsi, o=5. (TB)
8113	Sep8	2236	VMW Marine Weather Station. Wx warnings. 25331 (CGS)
8176	Sep7	2146	VMC Marine Weather Station. Wx warnings cf. // 12365. 15331 (CGS)
8785U	Sep6	1003	Itoman Marine Radio. Thanks again to Glenn for pointing out this one back in 2014; still being heard with a good signal; in Japanese, assume giving the haul information of each Okinawan fishery ship. Well heard more or less on a daily basis. Thanks also to Takahito Akabayashi (Tokyo, Japan) for his original info about this station (callsign JFE) and their mailing address: Fishery Radio Communications Center of Okinawa Prefecture, Nishizaki 1-4-11, Itoman City, Okinawa, 901-0305 Japan. Website (in Japanese) – (Ron Howard, Asilomar State Beach, Calif.)
9100	Sep7	1105	Echo of Hope - VOH. Extremely rare to hear live sports coverage via a "clandestine"; assume was the South Korea vs Lebanon, football (soccer) coverage of the second round of the Asian qualifiers for the 2022 World Cup; as usual, good reception. Match started at about 1100 UT. My audio posted at <a href="http://bit.ly/38IXKXQ">http://bit.ly/38IXKXQ</a> . (Ron Howard, Asilomar State Beach, Calif.)
9100	Sep8	2104	R.Echo of Hope (cland.), Hwaseong. Kor to KRE, tks. Adj. uty. QRM. 33441 (CGS)
9105	Sep14	2106	R.Echo of Hope (cland.), Hwaseong. Kor to KRE, nx. 35342 (CG)
9180.1	Sep10	2102	Sound Of Hope R Int'l, unk. site. Mand to CHN, tks. 15341 (CGS)
9265	Sep8	2020	WINB, Red Lion, religious, program in Spanish, "Una mirada al libro", at 2028 id. "This is WINB, Red Lion, Pennsylvania" and program in English. (Méndez)
9280.2	Sep9	2118	Sound Of Hope R Int'l (p), unk. site. Tks. 15331 (CGS)
9300	Sep9	2116	Sound Of Hope R Int'l, unk. site. Mand to CHN, tks. 25341 (CGS)
9330	Sep13	0248	WBCQ-6 SuperStition reactivated with new PA tube: first see discussion under WOR monitoring. 9330 is carrying Area 51 instead of 6160-. S9+40/50 into TN SDR, rock music. 0300 WBCQ ID but ``Debauchery`` show runs over, wrapping up, DJ says he is turning 60, refers to current events; finally 0305 singing ID and into WOR. Recheck at 0603, now it's USA Radio News, down to only S8-S9 direct, 0606 into rock music with no ID. I suspect it's now relaying WBCQ's FM or AM station in Monticello, as USA R Nx is not normally heard on WBCQ-SW itself; but still not handed back to World's Last Chance flat-earth nonsense. Next check 1425, VG with American-accented gospel huxter, maybe WLCR but I await that exaggerated British accent to be surer (Glenn Hauser, OK, WOR)
9550	Sep8	2010	Radio Boa Vontade, Porto Alegre, religious comments. (Méndez)
9635	Sep13	0912	R.Voice Of Vietnam, Son Tay. Vietn, tks. Deteriorating. QRM de MLI. 34432 (CGS)
9635	Sep13	1124	R.Mali, Kati. Vn, tks on health. 45444 (CGS)
9665.9	Sep15	0738	Voz Missionaria, Camboriú, religious songs and comments. (Méndez)
9665.9	Sep6	2031	R.Voz Missionária, Camboriú SC. Songs in rlg. propag. px. 45444 (CGS)
9730	Sep10	1132	Myanmar Radio. Decent reception before the strong QRM on frequency from KNLS (Chinese) at *1200, which goes off at 1159*; then MR in the clear for about a minute, until *1200 start of CRI (English) on frequency; MR cut off at 1210*; MR noted // 5985; closing times for 9730 are not very consistent. ## Station news

**GUINEA [and non].** 9650, Sept 5 at 2256, no signal from RTG into UTwente: hastening to check only SW frequency following news of coup, but has been inactive or sporadic for months. There is a JBA carrier, probably VOK in Japanese as scheduled, but more QRDRM from 9655 covering 9650-9660, which would be CNR1 as scheduled 2157-0100 via Urumqi, East Turkistan, land of imperialist ChiCom genocide against Uighurs and other Moslems. Another 9650 check next day Sept 6 at 2225: nothing.

Domestic Broadcasting Survey of April 2021 showed 9650 had been heard as recently as March, sked 0600-2400. In Communication of the British DX Club, Lionel Clyne in Kent had reported it July 14 at 1944. It seems my last log of it was January 23 at 0742. May I point out that major broadcasters would not give a QRM break to a small country with only one possible SW frequency; altho Cuba did move off 9650 for some reason (Glenn Hauser, OK, WOR)

**NORTH AMERICA.** Unsolicited but very welcome eQSL received UT Sept 7 from MRI: ``Hello Glenn. It was amazing how many liked the classical music mix. We will do it again. See attached QSL for your great report in WOR 2102.

🎵🎵🎵🎵 [Mix.Radio.International@protonmail.com](mailto:Mix.Radio.International@protonmail.com) Sent from ProtonMail for iOS`` And here it is:

### PAPUA NEW GUINEA - "NBC is focused," but not for SW

Hi Glenn, A more detailed news story from July about "NBC is focused," but only for new medium wave transmitters. No mention of SW. <https://thepngbulletin.com/news/nbc-is-focused/>

Today (Sept 10), checked 3260 (NBC Madang), 3325 (NBC Bougainville) and 7325 (Wantok Radio Light) and heard no signal at all at 0952 UT. Almost daily I check 90m and 3905 for new PNG activity, but so far nothing.

(RonHoward, California via WOR)

## Other radio news

### Theodorakis gone to heaven today.

Off topic but very interesting. DO yo know him?

He was the most important Greek music composer and director since tje 70s whos was internationally known from the music played in the movie Zorba the Greek Serpico and Z melodized Neruda's and Lorca's poems among many other greek and international poets , and made the anthems for Afganistan and Palestine as heard in the news these days The 'honeymoon song' of Beatles and 'life goes on' from Shirley bassy are a few songs with international versions. A living legend in Greece

More info on this page: [https://en.wikipedia.org/wiki/Mikis\\_Theodorakis](https://en.wikipedia.org/wiki/Mikis_Theodorakis)

And here: <https://www.arionradio.com/post/86416/10-ksena-tragoydia-poy-eginan-diaskeyes-apo-ellhnika-video>

He was also political activist, left winged but the after Junta dissolution he was turned a bit rightwards as he got more rational. In the news today he was buried after 7 days of his death.

I will be glad to hear your stories related to him.

(Zacharias Liangas)

### NOT JUST LISTENING ed. Sheldon Harvey:

Video: The History of Single Sideband. <https://www.youtube.com/watch?v=BBRntPJTr5Y>

Single sideband modulation revolutionized electronic communication, but where did the idea come from? Antique Wireless Association Curator Emeritus Ed Gable, K2MP, tells the surprising story of single sideband, its origins, the developers, companies and the hardware that brought it to the forefront of wireless communication. This presentation is the first of the AWA's monthly "AWA Shares" series. – 47 minutes.

([WOR] CIDX Messenger items, September)

### [WOR] Ireland's Longwave Radio RTÉ 252 Is Back on the Air

Thanks to reader Paul Bailey I've recently been alerted that Ireland's long-running longwave (LW) radio station [RTÉ 252](#) is back on the air, after [a period of maintenance](#) beginning in June of this year. The service rebroadcasts public broadcaster [RTÉ Radio 1](#), reaching longer distances than the mediumwave AM band – no longer in use by RTÉ – and the FM band.

As Bailey explained in [a 2016 guest post](#), RTÉ 252 was founded when the broadcaster acquired the transmitter site from a commercial radio operation that lasted from 1989 to 2002. Able to reach distances of up to 1200 miles with fidelity roughly equivalent to conventional AM radio – with superior quality and reliability than shortwave – RTÉ 252 is able to serve a significant Irish diaspora in the UK. Though the same programming is available globally online, that still makes it inaccessible to many motorists and listeners with limited or no internet service.

Situated below the conventional AM band at 30 – 300 KHz, LW was never officially used for broadcasting in the Americas, though it's had a long history in Europe, Asia and Africa. However, the long wavelengths mean that the transmission towers need to be very tall and situated on a large parcel of land in order to broadcast efficiently, using hundreds of kilowatts of power. Currently RTÉ broadcasts with 150 kilowatts in the daytime – a fraction of the 500 kw it's licensed for – which is still 3x what the most powerful clear channel AM stations may use in the US.

All of that means a LW station is relatively expensive to operate and maintain, which is why RTÉ proposed shutting down the 252 operation back in 2014. Outcry from listeners across Ireland and the UK caused the broadcaster to [cancel the shutdown in 2019](#), ultimately deciding to conduct maintenance this year to keep the service going into the future. <https://www.radiosurvivor.com/2021/09/irelands-longwave-radio-rte-252-is-back-on-the-air/>  
(Mike Terry via WOR)

### **[WOR] Netherlands licensed SW stations**

Best transmitter list for The Netherlands is: <<https://radio-tv-nederland.nl/>>

They have a shortwave page: <<https://radio-tv-nederland.nl/am/kg.html>>

Only legal transmitters, that are those with permission of Agentschap Telecom.

On 6115 it is Radio Europe Netherlands from Alphen aan den Rijn. (halfway between Amsterdam and Rotterdam)  
regards, (Rink, via Hard-Core-DX mailing list)

### **[WOR] CRI loses interest in broadcasting to W Europe**

Google translation from French edited and improved by Glenn Hauser:

China Radio International no longer focuses its shortwave broadcasts on Western Europe. European broadcasts have just ended. It must be said that China had already indicated its intention to refocus its activities on other continents, including Africa.

A few years ago, this was the case for medium wave broadcasts: When shutting down its relay via BCE's transmitters in Marnach {Luxembourg}, China made it clear that it did not want to replace the transmitter, despite the offers that had been made.

Its facilities in Shtermen, south of Radio Tirana's broadcasting center in Cerrik, Albania, continued to operate until the end of the contract. The only investments made consisted in the modernization of its relay in Africa: Bamako thus hosts the main shortwave transmitter allowing CRI to broadcast its programs throughout the African continent.

Largely involved economically in the region, China also wants to control, by all means, its image through media influence.

A presence via shortwave, but also vis FM and by the creation of offices and production centers in different countries. Large-scale training courses are organized to train African journalists in China.

(Glenn Hauser via WOR)

### **Re: [nordx] RADIO HISTORIA: Rudradion i Gävle Gävle Rundradio SMXF**

<https://www.youtube.com/watch?v=f8GAzPPFeXw>

Den 12 juli 1921 sändes det första rundradioprogrammet i Sverige från [Boden Radio](#). Stationen i Bodens fästning hade då redan existerat under några år och använts för helt andra ändamål. Stationen var placerad i en betongbunker som hade invigts av kung Gustaf V under ett besök i Boden.

Det var radiokommissarie Axel Jenner som skulle tala i pionjärsändningen men något gick fel varför hans förmodligen mycket välvalda ord inte kom ut i eterhavet. Han blev då aningen upprörd och utropade "jävlar anamma!"  
Exakt i det ögonblicket hade teknikern fått ordning på sändningen varför just detta kraftuttryck kom att inleda den svenska rundradiohistorien.

Johan Bjerke tipsar om att det på Youtube finns en fin [dokumentärfilm](#) om mediehistoria i Norrbotten, från när Radio Boden började sina rundradiosändningar till första kabel-tv-sändningarna i Kiruna. Filmen är gjord av Anders Björhammar.

Radiotjänst, föregångaren till dagens Sveriges Radio, gick ut i etern för första gången den 1 januari 1925 med legendariske Sven Jerring bakom mikrofonen.

(Christer Brunström)

### **Following in the footsteps of the Voice of Russia.**

Transmitting medium wave center Wachenbrunn (Wachenbrunn), east Germany, Thuringia.

Stood in the 50s. twentieth century. Until 1993, the broadcasts were carried out with a power of 250 kW, later the power was reduced to 20 kW. There were also several low-power transmitters.

Since 1988, the radio center began broadcasting "Moscow Radio", later "Voice of Russia" at a frequency of 1323 kHz.

For this, a directional antenna was used, consisting of four mast frame masts with a height of 125.1 meters, isolated from the ground with a triangular cross-section. These masts, locally referred to as the Russian Quartet, were located 800 meters from other parts of the facility to avoid unwanted interference. Used power: 1000 kW.

in 2002-2003 the transmission equipment for the Voice of Russia has been modernized. The transmitter efficiency reached 84%.

There is information that the transmitter has become a transistor, which is surprising with a very decent radiation power. The broadcasts of the German radio company (MDR) were discontinued on June 30, 2011. On July 14, the "German" site of the center was demolished, the work of the "Voice of Russia" continued as usual.

In December 2012, the management of the Russian foreign broadcaster announced its intentions to stop using the radio center for financial reasons. The Voice of Russia fell silent from Wachenbrunn on December 31, 2012 at 23.00. On September 19, 2013, the equipment was demolished. The history of the radio center has come to an end. By the way, this was not the only reduction in the broadcasts of the radio company. A year and a half later, the oldest broadcaster in Russia was liquidated.

Antenna dismantling video: <https://www.youtube.com/watch?v=YLEM2abBue8>

### **[NORDX] Schweiz kommer att lämna de analoga radiovägarna...** 15 September 2021 - Belgium

In an unprecedented collaboration, maRadio.be, Digitale Radio Vlaanderen and the Vanden Boore retail stores have joined forces to help listeners switch from analogue to digital radio. Belgian listeners have until 30 September to visit their nearest store to recycle their old radio and receive a discount on the purchase of a new DAB+ device. Says maRadio.be: "broadcasting on DAB+ is greener, consumes less electricity, requires fewer antennas and generates much less electromagnetic radiation than FM".

### **Radio broadcast of Stalin's funeral has been found.**

A stunning find of the live broadcast of Stalin's funeral, which was broadcast by Yuri Levitan!

This radio recording was made and printed on a 33-turn 2-sided LP and probably purchased for the US Radio Liberty archive!

How the disc got into the hands of collectors is unclear, its fate is unknown. It is important that this is an on-air, unedited, chronologically accurate recording of a live broadcast from Red Square, including a military parade and its full sound and musical accompaniment in its compositional sequence - a cannon salute and comments of what is happening by Yuri Levitan. 40 minutes of personal presence at the funeral ceremony from the end of the rally!

<http://staroeradio.ru/read/p3.php?id=3229> - Funeral of I.V. Stalin - Live broadcast on March 9, 1953 from Red Square, announcer Y. Levitan. Thanks to collector Andrey Arntgolts. Yuri Metelkin

# DX nostalgia by RFK

One sort of nostalgia may be things that never happened – but could have. There are a few countries I never got verified although I could pick up the signal of their radio stations quite easily. One such country was South Vietnam which was a regular in the 41 m.b. Somehow it seemed like I would never get the three programme details needed to send a report. Yes, that's what all DX magazines told us: you MUST have three clear details. So if I had just two details I never sent the report but hoped for better luck next time. One way would of course have been to send a tape recording but somehow that never happened with VTVN. In 1975 South Vietnam – or The State of Vietnam – ceased to exist.

One DX-er who did get this country verified was Wolfgang Bueschel of Stuttgart and below we can see his QSL card from VTVN.

Ullmar Quick UQ received this QSL card from the Iraq broadcasting Station in 1951 and the card was scanned by John Ekwall JOE.

The Swedish Broadcasting Corporation, in the 1940s known as Radiotjänst, issued a magazine called "Röster i Radio" (Voices on the radio) and it also included programme schedules of foreign radio stations. In the programme "Världen i högtalaren" (The World in your loudspeaker) many tips about foreign stations were given and I am sure this programme inspired many DX-ers. Soon Radiotjänst launched a new magazine aimed at SW listeners, named after the programme. This issue from March 1949 shows "The Father of Swedish DX-ing", Arne Skoog, in front of his receiver. Arne had started the wellknown DX programme "Sweden Calling DX-ers" the year before and in this issue he had an article about SCDX.

The magazine "Världen i högtalaren" also included an extensive shortwave table, compiled by Arne Skoog. Below an example from the 49 metre band.

The Himalayan Commercial Broadcasting System was a project by a Zurich based company which intended to set up a commercial station on shortwave, broadcasting from Nepal. The station was planned to be launched in 1963 or 1964 but nothing materialized. This form was sent out to prospective advertisers. From the collection of Lars Rydén LR.

**HIMALAYAN COMMERCIAL RADIO BROADCASTING  
SYSTEM, COMMENCING 1963/64**

Dear Sir,

Subject to our final confirmation and acceptance of your Rates and Programme timings, we will be interested in using the **HIMALAYAN COMMERCIAL RADIO BROADCASTING SYSTEM, A FOREIGN AND OVERSEAS SERVICE**, beamed from the **Kingdom of Nepal** to India, Pakistan, Burma, Ceylon, Thailand, Malaya, Singapore, Hongkong, Laos, Vietnam, Cambodia, Japan and the Philippine Islands.

We will be principally interested in acquiring Radio «Time» in the following language broadcasts:

<input type="checkbox"/> <b>English</b>	(India, Pakistan, Ceylon, Burma, Singapore, Hongkong, Japan, the Philippines)
<input type="checkbox"/> <b>French</b>	(Thailand, Malaya, Laos, Vietnam, Cambodia)
<input type="checkbox"/> <b>Nepali / Newari</b>	(Nepal)
<input type="checkbox"/> <b>Hindi</b>	(India)
<input type="checkbox"/> <b>Urdu</b>	(India, Pakistan)
<input type="checkbox"/> <b>Bengali</b>	(India)
<input type="checkbox"/> <b>Tamil</b>	(India, Ceylon 1965/66)
<input type="checkbox"/> <b>Telegu</b>	(India)
<input type="checkbox"/> <b>Thai</b>	(Thailand 1965/66)
<input type="checkbox"/> <b>Cantonese/ Chinese</b>	(Burma, Vietnam, Malaya, Singapore, Indonesia, the Philippines, Thailand, Hongkong, Borneo 1965/66)
<input type="checkbox"/> <b>Spanish</b>	(the Philippines)
<input type="checkbox"/> <b>Japanese</b>	(Japan)
<input type="checkbox"/> <b>Gujrati</b>	(India, Pakistan)
<input type="checkbox"/> <b>Punjabi</b>	(India, Pakistan)
<input type="checkbox"/> <b>Singhalese</b>	(Ceylon 1965/66)
<input type="checkbox"/> <b>Burmese</b>	(Burma 1965/66)

It may be possible for us to pay for the radio «time» in the following currency/ies:

<input type="checkbox"/> <b>US Dollars</b>	<input type="checkbox"/> <b>Swiss Francs</b>	<input type="checkbox"/> <b>Italian Lire</b>	<input type="checkbox"/> <b>Indian Rupees</b>
<input type="checkbox"/> <b>West German Marks</b>	<input type="checkbox"/> <b>UK Sterling</b>	<input type="checkbox"/> <b>Japanese Yen</b>	<input type="checkbox"/> <b>Pakistan Rupees</b>
	<input type="checkbox"/> <b>French Francs</b>	<input type="checkbox"/> <b>Nepal Rupees</b>	<input type="checkbox"/> <b>Singapore or Hongkong Dollars</b>

We estimate that in the year 1964/65 our advertising budget for commercial radio advertising for the territories to be serviced by the Himalayan Broadcasting System may be the equivalent of **US Dollars**

<input type="checkbox"/> <b>10,000.<sup>00</sup></b>	<input type="checkbox"/> <b>20,000.<sup>00</sup></b>	<input type="checkbox"/> <b>40,000.<sup>00</sup></b>	<input type="checkbox"/> <b>60,000.<sup>00</sup></b>	<input type="checkbox"/> <b>100,000.<sup>00</sup></b>
--	--	--	--	---

and above

The above figures «roughly» represent 10% of our current annual budget for advertising and publicity through newspapers, journals and other Media

This information, we trust, will assist you in compiling the proposed Commercial Radio Broadcasting Survey Report.

We remain,

Yours faithfully,

**Note:** As Nepali and Indian Rupees are freely convertible it is possible for advertisers based in India to pay for the advertisements in Indian Rupees. It is expected that very shortly parallel payment arrangements will be possible between Pakistan and Nepal.

Finally a letter which Kanwar Sandhu received from Radio Tanzania Zanzibar for a reception report on 11734 kHz. Despite the moderate power of 1 kW the station has been a common catch also for Swedish DX-ers, often with a good signal.

Your contributions are always welcome – please mail me at info @ rock.x.se.
