

SHORTWAVE BULLETIN

Issue no. 2007, July 24, 2022

Deadline e-mail next issue: 1000 UTC, Aug 7, 2022

As you have noticed SWB will be one day late. The reason – we were out of house all day yesterday due to the annual family get together.

My brother in law is operational manager in one of the biggest vegetable producers in Sweden.

He had promised to let the youngsters drive their biggest tractor, a Fendt 1000 Vario with 400 horsepower. It was really something the liked.

Some other activities also and the day ended with a visit to a good restaurant at the coast south of Malmö.

I have checked only one station on SW, the reactivated R Brasil Central on 4985 which was heard with good strength.

We have had good conds towards Peru and especially Bolivia at several occasions this summer. Latin America is always something thrilling.

Latin America on SW is really something we all miss.

Keep on

=====

QSL, comments, etc.

Ron Howard: Etón E1 - Have been retired now for 14 years and for all these years I have almost daily been using my E1 at the beach (bought 15 years ago!). It is still daily bringing in great reception! The most enjoyable radio I have ever owned.

Ronny Forslund: Efter den värmebölja som varit känts det riktigt skönt att det blivit svalare. Här i Stockholmstrakten slogs värmer rekord i torsdags med 34 grader och så här varmt har vi tydligen inte haft det sedan 1700-talet. Men det var något svalare där jag bor då det är alldeles intill Mälarens vatten. Nu hoppas vi bara på fint väder den 31/7 när det är dags för Rolling Stones på Friends Arena. Lustigt att jag såg dem för första gången på samma plats fast det då var Råsundastadion, som nu är rivet.

[WOR] NRC AM Radio Log 43rd Edition Preorders for shipment August 2022

We are happy to announce we have been able, so far, to hold our prices stable with no increase over last year!

The National Radio Club, the World's Oldest and Largest Broadcast Band DX Club is proud to announce the publication of the 43rd edition of the AM Radio Log. The AM Radio Log is a source for information on AM Radio Stations in the United States and Canada. The Log contains 300+ pages of individual station data and cross references and an additional 12 pages of instructions in 8-1/2" x 11" size, 3-hole punched U.S. loose leaf format. This publication fits nicely into a 1" three-ring binder. Reference lists include State/Provinces in frequency order, listings of regional groups of stations in the groups section and a comprehensive list of FM translators that are now simulcasting with AM broadcasters.

Order by snail mail by check or money order in US funds, (Colorado Residents Only please add 8% Sales tax (or your local Colorado sales tax rate, if lower) and the all new \$0.27 retail delivery fee!) to National Radio Club, P.O. Box 473251, Aurora, CO 80047-3251 or order using your Pay Pal account at <http://www.nationalradioclub.org/>

MEMBER USA Price \$30.95 Priority Mail

NON-MEMBER USA Price \$37.95 Priority Mail

MEMBER/NON-MEMBER Canada Price US\$44.60 Global Priority Mail

MEMBER/NON-MEMBER outside US/Canada Price US\$55.75 Global Priority Mail

(Prices subject to changes if USPS raises the postage!)

(WAYNE HEINEN voa WOR)

GLENN HAUSER LOG ROUNDUPS. Please note and spread the word - for those not on a list where my almost-daily all-band but mainly SW log reports appear -- or for those who are but find this a more convenient archive, weekly merged roundups of all these reports in their original form are posted early every Thursday via: <http://www.worldofradio.com/Hauserlogs.html>

The latest ones direct: https://www.w4uvh.net/ghlogs_2022_0704_0720.txt

Previous issue: https://www.w4uvh.net/ghlogs_2022_0630_0705.txt

2310	Jul12	0930	Shortwave Australia - Bendigo, VIC. A strong signal is being observed on both frequencies, but, of course, 2310 kHz is best heard at night. The station is located about 10km north of Bendigo, a regional city in Victoria. Really a new station in AM with a good signal at 0930 with a replay of an old show celebrating the Melbourne MW station 3KZ. July 12. See my recent post for more information about this station. https://medxr.blogspot.com/2022/07/new-station-short-wave-australia.html WOR (Wagner - AUS)
2349.39	Jul12	1150	KCBS. Pyongyang. Korean orchestral music with choir. 1200, time pips, then possible news reports and a replay of a speech. Weak signal // 3250 where it was much stronger. (Wagner - AUS)
2368.44	Jul15	1905	R. Symban - Hurlston Park, NSW. Endless Greek music with no anncts, fair signal. Their website has been "parked", but the Facebook page appears active under the moniker "Symban World Radio". (Wagner - AUS)
3205	Jul11	1135	KCBS Pyongyang DRM (p.), on 3205 // 6140. (Ron Howard, Asilomar State Beach, Calif.)
3250	Jul11	1130	KCBS Pyongyang, on 3250 // 3959 (always off frequency). (Ron Howard, Asilomar State Beach, Calif.)
3310	Jul22	0005	Radio Mosoj Chasqui, Cotapachi, Quechua, comments, Bolivian songs. (Méndez)
3325	Jul11	1112	VOI, broadcasting from Palangkaraya, start of the usual patriotic song "Bagimu Negeri," following the news in Chinese; 1212, start of the usual patriotic song "Bagimu Negeri," following the news in Japanese; 1306, start of the usual patriotic song "Bagimu Negeri," following the news in English (not readable). (Ron Howard, Asilomar State Beach, Calif.)
3480	Jul11	1125	VOP: 3480 // 3910 // 3930 // 4450 // 6520 // 6600. As usual, it has been a long time now with no changes! (Ron Howard, Asilomar State Beach, Calif.)
3915	Jul22	2320	BBC, via Kranji English conversation about the climate // 6195 Kranji (AP-DNK) + (CGS)
3945	Jul11	1220	Echo of Unification, 3945 // 5905, both fair. (Ron Howard, Asilomar State Beach, Calif.)
3955	Jul22	2330	Channel 292, Rohrbach English hymns (AP-DNK)
3955	Jul7	2025	R Korea Int., via Woofferton German talk about South Korea, musical interlude (AP-DNK)
3975	Jul9	2221	Shortwave Gold, Winsen. E, tks, pops. 3 (CGS)
3985	Jul11	1122	Echo of Hope - VOH: 3985 // 4890 // 5995 // 6255 // 6350 // 9105; the EBS TV audio feed for the English language lesson "Wang cho bo yeong-eo," which is always aired only on weekdays; intro and exit theme song is the "Party Will Come Alive" by Wizardz Of Oz (with Ruben Martinez); the usual intro with announcer saying "English trainer" and gives his name ("Mayu"), then the woman announcer says her name ("Mini"); "Is there a Wi-Fi here? Can you please provide me with the password?", "You can use it for free. There is no password"; later at 1241, with the EBS news headlines and news stories in English and Korean. These frequencies should be good through July 17 (Sun.) (Ron Howard, Asilomar State Beach, Calif.)
3995	Jul22	2335	HCJB, Weenermoor. Russian (or Ukrainian?) religious talk (New schedule). (AP-DNK) + (CGS)
4765	Jul22	2340	Tajik R 1, Yangiyul Tajik songs (AP-DNK) + (Méndez)
4775	Jul22	0008	Radio Tarma, Tarma, religious comments, sermon. (Méndez) + (AP-DNK)
4810	Jul18	0954	R. Logos, Peru, San Martin; pop religious music selections. Fair, good signal strength enough to block STANAG on 4810kHz, fady, deteriorating over the listening (LOB-B).
4820	Jul22	2350	Xizang PBS, Baiding, Tibet Chinese discussion with musical interludes // 5935, 6050 and 7245 (CWQRM) (AP-DNK)

4835	Jul17	1308	"Shortwave Australia," 1308+. Much better reception today than yesterday; same type of music as yesterday ("dream time program with relaxing electronic music"); today able to hear an occasional announcer with assume IDs, but completely unreadable. (Ron Howard, California)
4885.07	Jul17	0448	Radio Clube do Pará, Belém, Brazilian songs, id. "Radio Clube do Pará..., emissora da Rede Amazonia de Comunicaçao, Belém, Pará, Amazonia, Brasil", "Clube da Madrugada". (Méndez) + (CGS) + (AP-DNK)
4900	Jul11	1030	4900 // 4940, Voice of Strait, recently in July, heard 1030-1100, with relay of CNR1 (// 6125); airing the National Newspapers/National News Network program in Chinese (name thanks to Amano & Kanto).
4905	Jul23	0000	Xizang PBS, Baiding, Tibet Tibetan talk with music behind // 4920 and 7385 (AP-DNK)
4940	Jul19	0451	Unknown relaying Fuerza de Paz, religious and Latin American songs, "Llaneras", religious comments. (Méndez)
4955	Jul22	0006	Radio Cultural Amauta, Huanta, comment. (Méndez)
4949.7	Jul19	0443	Radio Nacional de Angola, Mulenvos, unreadable comments, extremely weak, best on LSB. Checked July 21, 22, 23 and 24, early morning and evening, no audio, no carrier, seems to be out of the air again. (Méndez) + (AP-DNK 4949,77)
4952.4	Jul22	0007	Radio Cultural Amauta, Huanta, comments. (Méndez)
4985	Jul23	0005	R Brasil Central, Goiânia, ann, Brazilian songs - reactivated frequency // 11815 (AP-DNK) + (Méndez) + (TN exact frequency 4985,016)
5020	Jul17	1130	SIBC, 1130+. The usual format of music, evening devotional (Bible text and prayer in English), ID and NA; 1202, immediately into non-stop variety of music (Cat Stevens - "Morning Has Broken," etc.); still heard at 1342; well above normal reception. (Ron Howard, California)
5025	Jul11	0903	R.Rebelde, Bauta. Tks. Deteriorating vy. fast. F/out 0908. 1 (CGS)
5045	Jul17	1240	Bay Islands Radio/Island FM, 1240+. Rare reception here with definite audio; the problem with a day like today with outstanding propagation is that BBR (China) on 5050 is also much stronger than usual, causing significant QRM on 5045; many hard rock songs (Foreigner - "Hot Blooded," etc.); DJ heard but it was difficult to make out what was said. (Ron Howard, California)
5915	Jul24	2003	Zambia NBC, Radio 1, Lusaka, Vernacular, comments. Very weak. (Méndez)
5915	Jul24	1155	Myanmar Radio, random monitoring from 1155 till 1400* UT. Seemed to be a portion from 1200+ that perhaps was religious (Christian); sounded like possible preaching in vernacular and some songs that sounded like hymns. Reception above the norm; closing down with the usual brief selection of indigenous instrumental music. An excellent day for Myanmar reception! (Ron Howard, Asilomar State Beach, Calif.)
5920	Jul11	*1300-	Shiokaze/Sea Breeze: 5920 // 6040, from Yamata (Japan). Continues to be free from N. Korea jamming! Strong 6040 causing QRM for Yunnan Radio International (China) on 6035, in Vietnamese. (Ron Howard, Asilomar State Beach, Calif.)
5920	Jul19	0502	HCJB Germany, Weenermoor, German, religious songs and comments. (Méndez)
5930	Jul21	2005	World Music Radio, Braming, music, Latin American and pop songs, id. "World Music Radio. // 25800. (Méndez) + (AP-DNK)
5955	Jul22	0425	Sunlite Radio, Westdorpe, pop songs, id. "Sunlite". (Méndez)
5970	Jul23	0915	R 208, Hvidovre Danish ann, Swedish and Danish pop songs // 1440 MW Ishøj (AP-DNK)
5985	Jul24	1130	5985 & 9730. The normal Myanmar Radio sequence is for 5985 kHz. to start about 1130, give or take about 10-15 minutes. Then Myanmar Radio on 9730 (in // with 5985), closes down any-time between 1130 to 1200. But that did not happen today (July 24), which is a very rare event! 5985 never came on the air 1130+, but instead 9730 was heard still broadcasting past 1435+, with strong QRM from CRI, in English, from 1200 to 1400. 1401 UT: Clear reception; a strange drama in vernacular; some chanting(?), woman crying, with dogs barking/howling. My unedited audio at https://bit.ly/3J9KI71 . (Ron Howard, Asilomar State Beach, Calif.)
6010	Jul15	2015	Radio Fana, Addis Ababa, Vernacular comments, East African songs. (Méndez)
6030	Jul21	1835	Radio Oromiya, Addis Ababa, Vernacular, comments, East African songs. (Méndez)
6045	Jul11	1130	Voice of Freedom: 6045; poor due to N. Korea super jamming, along with pulsating noise jamming. Super jamming was also noted on 6135, against no known station. (Ron Howard, Asilomar State Beach, Calif.)
6050	Jul24	-0500*	HCJB, Pichinha, heard the last minutes of the program, when closed Algeria on the same frequency. Spanish, comments, National Anthem and closing at 0500. (Méndez)
6050	Jul21	1934	ELWA Radio, Monrovia, English, religious comments, male, female "Radio stations around the world broadcasting our program", "The Lord Jesus Christ". 24422
6055	Jul3	1135	OZ-Viola, Hillerød, via groundwave Danish/English ann, Jazz (AP-DNK)
6070	Jul18	0503	CFRX, Toronto, English, news, comments. QRM from Channel 292 with non stop songs in English. (Méndez)

6085	Jul21	*0700-	Radio Mi Amigo International, *time signals, "It's nine O'clock in Central Europe", id. "You are tune to Radio Mi Amigo International broadcasting every day on shortwave, 6085 kHz", "We are bringing back the golden era of Offshore AM free radio", pop songs in English, oldies, comments. (Méndez)
6130	Jul18	0550	Radio Jong Europa, pop songs in English, id. "Radio Europa", "Radio Jong Europa". (Méndez)
6140	Jul23	1817	Radio Onda, Borculo, Brazilian songs, id. "Radio Onda", songs in French, Latin American songs. (Méndez)
6160	Jul11	1220	Pyongyang BS, on 6160 (good) continues broadcasting here (formerly on 6400) and // 3320 (poor-fair). (Ron Howard, Asilomar State Beach, Calif.)
6160	Jul21	2015	Shortwave Radio de, English, program "Amateur Radio News Line", at 2023 music, pop songs, oldies "Radio Ga Ga" by Queens, id. "This is Shortwave Radio broadcasting from Germany to Europe...". (Méndez)
6180	Jul21	2041	Radio Nacional da Amazonia, Brasilia, Brazilian songs, comments. // 11780. (Méndez)
6185	Jul16	1946	Radio Piepzender, Zwolle, pop songs in Dutch and English, oldies, Dutch, comments, id. In English, "Radio Piepzender, our email address radioqsl@hotmail.com . (Méndez)
6185	Jul22	0440	Radio Educación, Ciudad de México, "Noticias educativas y culturales de México", "Radio Educación". (Méndez)
6250	Jul9	2034	R.Echo Of Hope (cland.), Hwaseong. Kor to KRE, tks, nx in E at 2044. 2 (CGS)
6255	Jul17	2055	R.Echo Of Hope (cland.), Hwaseong. Kor to KRE, western light mx, nx (p) at 2100. 3 (CGS)
6340.2	Jul21	2101	Sound Of Hope R Int'l, unk. site. Mand to CHN, tks. Adj. uty. QRM. 2 (CG)
6355.1	Jul19	2113	R.Echo Of Hope (cland.), Hwaseong. Kor to KRE, tks. 1 (CG)
7110	Jul21	-1801*	Radio Ethiopia, Geja Dera, Vernacular comments. (Méndez)
7245	Jul11	1013	R.NZPacific, Rangitaiki. Tks. R 1 (CGS)
7260	Jul15	0520	Radio Vanuatu, Port Vila, clearly heard after Vatican Radio closed on the same frequency at 0520, Island songs, id. by male "Radio Vanuatu", female, Bislama, English, comments, at 0601 hour interval signal and news, songs. (Méndez)
7715	Jul24	*1859-	Free Radio Service Holland, interval signal, English, id. "The Free Radio Service Holland...", pop songs and comments in English and Dutch. // 5800 and 6185. (Méndez)
7810	Jul19	2111	Sound Of Hope R Int'l, unk. site. Mand to CHN, tks. 2 (CG)
9120	Jul19	2109	Sound Of Hope R Int'l., unk. site. Mand to CHN, tks. 2 (CG)
9330	Jul17	0555	WBCQ with World's Last Chance Radio back on the air after being silent for some days. 3 (CB)
9440	Jul14	2115	Radio Cairo in English. Strong signal but extremely poor audio quality. (CB)
9550.1	Jul20	2124	R.Boa Vontade, Pt.º Alegre RS. Tks. // 11895.317 equally vy. poor. 1 (CG) + (Méndez)
9664.5	Jul19	2107	R.Voz Missionária, Camboriú SC. Rlgs. propag., mx background. // 5938.465 rtd. 2117. 3. (CG) + (Méndez)
9664.888	Jul19	0643	RVM S4/S7 with hymn, almost back to nominal 9665 after many months drifting upward to 9667 and jumping lately almost to 9675; so they are finally trying to normalize. What next? (Glenn Hauser, OK, WOR)
9835	Jul11	1053	Sarawak FM, from Kajang (on the west coast of the Malaysia peninsula). Usual three minute Islamic call-to-prayer for the sunset prayer (Maghrib) Call-to-prayer times for Kuching (July 11): Fajr 05:26 AM (2126) - the dawn prayer Dhuhr 12:48 PM (0448) - early afternoon prayer Asr 16:13 PM (0813) - late afternoon prayer Maghrib 18:53 PM (1053) - the sunset prayer Isha'a 20:08 PM (1208) - the night prayer https://www.muslimpro.com/en/Prayer-times-Kuching-Malaysia-1735634 . Later at 1320, the station's slogan in English: "This station is now the ultimate power in the universe." (Ron Howard, Asilomar State Beach, Calif.) + (Méndez) + (CGS)
11620	Jul17	1501	Voice of Martyrs Korea, Maldives service I hadn't checked in some weeks after exhausting speculation about its secret site. Sermon in English, 1503 refers to ``next slide`` but nothing to see! And not yet switched to Dhivehi if ever. S5/S7 signal which is still a lot better than it should be if focused on Maldives, from best guess Taiwan; or from anywhere to the other side of the world (Glenn Hauser, OK, WOR)
11665	Jul18	1109	Wai FM (p) via RTM, Kajang. Tks, mx. 1 (CGS)
11780	Jul24	2015	Radio Nacional da Amazonia, soccer, "Campeonato Brasileiro", live matches. (Méndez)
11815.1	Jul9	1507	R.Brasil Central, Goiânia. Tks, mx. R 1 (CGS)
11895.3	Jul21	2103	R.Boa Vontade, Pt.º Alegre. Tks. Adj. QRM. 1 (CG) + (Méndez)
15190	Jul21	2000	Radio Inconfidencia, Belo Horizonte, id. "...Rede Inconfidencia de Radio, Belo Horizonte, Minas Gerias, Brasil" "Agora pela Inconfidencia A Hora do Fazendeiro, o programa mais antigo do radio brasileiro, apresentacao Tina Goncalvez". (Méndez) + (CG)

15475.98 Jul20 1444 RCUSB, it's a Wednesday, July 20, so time to check for LRA36 which was absent a week ago. Tuned in at 1444 via Argentine SDR, already on with song, S7/S9; shortly YL greeting for the 12th program of the 2022 series `Esperanza Audaz`, a ``día muy especial``; staff names; blows a kiss to all listeners, including via the 50-station RNA network. 1450 temp is 7, winds 51 kph; sunrise at 09:57 local, sunset missed. Multiple-platform contact info. 1500 ``su compañía`` ID, song. After 1500 I'm mainly attentive to Afghanistan documentary on PBS World, about the anti-Soviet Jihad years; but let it run without trying to understand much of the content. 1504, This Week in History starting with 18 July 1918 birth of Nelson Mandela. 1516 song about Esperanza; 1519 chat; 1522 contact info again; 1527 long lofi telco interview. At 1533 I see that all four RXs at this remote are on it, besides me, Gary Pence, `San Antonio` but really Dallas; and someones in Florence, Italy and Dayton, Oregon. 1550 song. 1554 greeting with reverb, seems sent by a listener. 1601 song, talk, 1613 ID, song; 1629 still chat, 1641 song, 1643 ID with staff names and off at 1644*. So I had it for exactly two hours.

Gary Pence reports at 1510: ``LRA 36: Hi Glenn, I got on just before you to already hear LRA36 song in progress at 1440z, I just don't know when they started. I wasn't able to use KFS SE [antenna] this morning so I switched over to KPH Point Reyes omni antenna just to hear a trace.`` And at 1615: ``LRA 36 stuff --- Glenn, I finally got a seat at KFS SE SDR and was very underwhelmed at the lack of signal; it was just traces, nothing sustainable. Sounds like they have pretty serious power regulation issues going on there. Remember in the movie Apollo 13 where the portable cassette deck with very low batteries was tumbling in that cold capsule? That's just how their audio sounds...`` (Glenn Hauser, OK, WOR)

15700 Jul21 1550 World Music Radio, Randers, pop songs, id. "WMR". (Méndez)

15720 Jul17 2107 R.NZPacific, Rangitaiki. E, interview. 2 (CGS)

25800 Jul21 1720 World Music Radio, Marslet, Latin American songs, pop songs in English. //15700. (Méndez)

Station news

ALGERIA. [bdxc-news] Algerian Radio testing new SW transmitters

Algerian Radio has started testing from their new SW sites at Ouargla and/or Bechar, where installation of new 300 kW Ampegon transmitters has been underway for several years to cover the Sahel region. TDA facebook page reported yesterday (21 July) that technicians at Berkaoui (near Ouargla) are preparing for the launch of the new SW centre there.

Radio Algiers heard since tune-in at 1600 UTC today on 15340 kHz with low audio modulation, also noted since 2045 tune-in in parallel on 15100 kHz with a much stronger signal and better audio. Programming mosting in Arabic, with some French. Currently (at 2110 UTC) 15100 and 15340 are in parallel with the web feed of Radio Algerie Chaîne 1 in Arabic.

The schedule so far does not reflect HFCC registrations. The registered schedule also includes the relays via Issoudun (France).

<http://hfcc.org/data/schedbybrc.php?seas=A22&broadc=TDA>

<<http://hfcc.org/data/schedbybrc.php?seas=A22&broadc=TDA>>

(73s, Dave Kenny via WOR)

(thanks also to Wolfgang Bueschel and various reports on WOR.iog. Glenn Hauser)

Telediffusion d'Algerie is on unregistered 7200 kHz, July 25: till 0500 on 7200 BEC 300 kW / 131 deg to EaAf Arabic, instead of 7205 Parallel freq 7430 ORG 300 kW / 210 deg to WeAf Arabic - IS NOT ON AIR!

(73! Ivo Ivanov via WOR)

JAPAN: HFD Radio Station JG2XA currently off the air. 5006, HFD Radio Station JG2XA. July 11, from 1217+ UT. Have not checked on this frequency or // 8006 recently, but today both clearly off the air. These low powered stations (the last I knew they were 60W) are carrying out a HF-Doppler (HFD) project.

- - - - In about one hour, a quick reply to my email to the professor regarding the absence of 5006 & 8006 kHz.

"Hi Ron,

Thanks for your message. As you wrote, we have been silent since 17:24 JST [0824 UT - Ron] on July 11. This is because we need to replace the air-conditioning system in the operation room. Hopefully the system will be back in a few days. Thanks!

(Ron Howard, California)

NIGERIA. {Re: Nigeria missing from 7255- and other frequencies}

In 2012, Turgi Switzerland company Ampegon / Schifferstadt Germany antenna firm, erected THREE x 300 kW SW TXs and 3 dipole curtains amongst a huge ALLISS like rotatable antenna in Abuja. It is remarkable, even after 6 months in 2013 year there were failures on the units due to the incompetence of the local operating technicians, and the third unit was used as a spare parts supplier ... To preserve the whole, TXs can be used at a slightly reduced 250 kW output level.
(wb, df5sx July 18, 2022)(BC-DX 19 July)

As for VON not targeting N America, when on, the 7255- sig would be big at 0600 tho not in English, suspect near full power and aimed USward across W Africa - (Glenn Hauser)

USA. WMLK.

Hello Wolfgang,

I was in the USA in June and put WMLK into operation.

Currently they only broadcast on 9275kHz in AM (daily except Saturdays, 1300...1800 local time). They are testing something with various settings (DCC, power, etc). In the next few months, the 15150kHz will also be put into operation. The antenna doesn't allow it at the moment.

More work will probably be done in October (when all the material is there). There should then be a DRM upgrade and a few remaining works to be carried out. WMLK is very interested in reception reports. They would also like to send QSL cards again. This has probably already been done in the past, but they no longer have any cards.

News about the audio archive from dxsignal.ru

The editors of the Radio Heritage Foundation site liked it, and I allowed them to upload the archive there to the site. It is a non-commercial project known, among other things, from the Pacific-Asian Log and many historical materials about radio in the US, Australia, New Zealand and Oceania.

<https://www.radioheritage.com/dmitry-mezin-collection-true-sound-audio-archive/>

Moreover, they posted not only the English, but also the Russian version, so respect from me.

(Dmitry Mezin, Kazan, Russia / Radio reception - Telegram)

3940 - Will there be more broadcasts?

Dear radio listeners!

Now more than ever your support is needed. No matter what frequency and what program you listen to: Five Corners Radio, Rock Panorama or Free Wave Bay, I want to say that the 3940 kHz radio frequency you love so much needs your support.

And now we are not talking about financial assistance (although this issue has always been relevant), we are talking about something else. After the resumption of broadcasting after a technical break, namely on June 3, 2022, reception reports are coming from European countries, but there are no confirmations from Russia, although we know for sure that there are a certain number of listeners there. I would ask all Russian speakers who are interested in continuing the operation of the station at a frequency of 3940 kHz to register on our website in the "Radio listeners" group. We will try to organize the mailing of letters to your mail, in which we will indicate the frequency and time of the broadcast and an approximate program (if you wish, you can unsubscribe from this mailing list). Now you just need to find out how many listeners the frequency has in principle, and whether the efforts are worth your attention.

If you are interested in the fate of the project, please let us know as soon as possible. We will be very happy to receive your letters, which, I hope, will be broadcast, or we will publish them directly in the group, so that the author of the idea and project will receive inspiration from you and feel that he is not trying in vain.

Now everything depends on you and these are not just words, because we all asked to continue broadcasting and not stop at least for a while!

To the most active, we plan to send cards of our club and, possibly, some other souvenirs. However, we warn you that shipping is paid by the addressee. We hope to meet again on the air.

Your radio "Bay of Free Waves", "Radio Five Corners" and others at a frequency of 3940!

(Vadim Komarov, <https://6783432.wixsite.com/website/post/3940-will-there-be-air-and-further>)

(RUS-DX #1194)

Russian President Vladimir Putin signed a law on a mirror response to discrimination against Russian media abroad.

The corresponding document was published on Thursday, July 14, on the official Internet portal of legal information. It is noted that the law gives the Prosecutor General and his deputies the right to ban a foreign media outlet in Russia if hostile decisions were made against the domestic press abroad, for example, restrictions were imposed on its work. Also, in the event of harassment of Russian media in any country, a journalist from this state may be deprived of accreditation in Russia. In addition, the Prosecutor General and his deputies will be able to revoke the license of the mass media and invalidate its registration. Such a measure is provided for in cases where the media disseminates false socially significant messages that are presented as reliable, as well as materials that discredit the Russian army or express clear disrespect for society, the state, state symbols and the Constitution of Russia. It is noted that journalists will be responsible for the reproduction of these publications. On June 30, it was reported that the law on a mirror response to discrimination against Russian media was adopted in the third reading by the State Duma. The fact that the State Duma developed a bill on a mirror response to the actions of countries that oppress or ban the Russian media became known in April. One of the authors of the initiative, deputy Vasily Piskarev, said that restrictions on Russian media from foreign states should receive a "quick and symmetrical response."

Marine Shortwave receiver IMR54

The radio was one of just 200 made by Birmingham-based manufacturer Eddystone Radio Company for the International Marconi Company in 1952. Manufactured between **1952** and **195x** in Great Britain.

The model was used on the Queen Mary luxury liner during voyages in the 1950s as well as on Cunard liners and other passenger and cargo ships in the 1950s and 60s.

RX-range: 15 kHz - 31 MHz in 10 bands
Selectivity: Wide, Intermediate, Narrow and Very narrow settings.
Double conversion superheterodyne. 110/465 kHz
Dimensions (w×h×d) 747 × 385 × 451 mm
Weight: 61 kg

More info at: https://nvhrbiblio.nl/schema/Eddystone_700.pdf

The Queen Mary radio room at Los Angeles Harbour, Club Station W6RO Aboard the Queen Mary

The Nate Brightman Wireless Room

Established in 1979, W6RO was the first permanent amateur radio station to be installed aboard a museum ship. This was the vision of founding manager Nate Brightman, K6OSC/SK, who went on to serve as station manager for 34 years until his recent retirement and passing.

The Wireless Room is generally staffed every day from 9:00am to 5:00p.m. local time, volunteer availability permitting. We currently have some vacancies available, and local hams are invited to inquire about joining us as regular crew members.

Also, visiting hams may be permitted to operate the station for a brief period (generally no more than an hour, at the discretion of the Control Operator on duty) and earn our Guest Operator certificate. Inquiries may be directed to Jim Snow, W6BIG: jimrsnow@usa.com

For QSL information regarding W6RO, please see our page on QRZ.com: <https://www.qrz.com/db/w6ro>

Ultra-long-range radio communication and the Civil War.

How the encryption business was born in Soviet Russia.

At the end of 1918, in Melkovodnaya Bay on Russky Island, the Americans began to build a secret facility called the Radio Station of Continuous Oscillations. American engineers claimed that it could connect Vladivostok with any part of the planet. Over 100 hectares were allocated for the new facility. To begin with, a pier was built, and then a narrow-gauge railway 400 m long from the pier to the main building of the radio station was built. 11 wooden masts 30 m high on concrete bases were installed on the antenna field. The power of the station was 200 kW ...

Russia has added five more states to the list of unfriendly countries.

The Government of the Russian Federation has added five more states to the list of unfriendly countries. It included Greece, Denmark, Slovenia, Slovakia and Croatia.

Since the beginning of the special military operation in Ukraine, political pressure from Western countries and the United States on Russia has increased even more. In this regard, the government of the Russian Federation created a list of unfriendly countries, which included 48 states, including the countries of the European Union (EU).

This list includes such countries as Australia, Albania, Andorra, Great Britain, Iceland, Canada, Liechtenstein, Micronesia, Monaco, New Zealand, Norway, Republic of Korea, San Marino, North Macedonia, Singapore, USA, Taiwan (China), Ukraine, Montenegro, Switzerland, Japan.

Among the EU countries, such states as Austria, Belgium, Bulgaria, Hungary, Germany, Greece, Denmark, Ireland, Spain, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Finland, France, Croatia, Czech Republic, Sweden and Estonia.

DX nostalgia by RFK

Time surely flies and it's already time for a new edition of the SWB as well as some more DX nostalgia. After a short heatwave where Stockholm hit the record so far of +34 degrees Celsius we are now back to a somewhat cooler weather which is actually quite nice. At the same time the heat has been plaguing Southern Europe and the UK, resulting in the death of more than 1,500 people.

Another cause of death for many is of course Vlad's simply insane operation in Ukraine. Surely everything is not black and white and Amnesty International in its report about the situation in Ukraine for 2021 for example stated that: Impunity for torture remained endemic. Gender-based violence remained widespread. Homophobic attacks by groups advocating discrimination and violence continued. The crackdown on dissent and human rights defenders in occupied Crimea continued. Violations of international humanitarian law by both sides in eastern Ukraine remained uninvestigated. And so on. But one fact still remains: it was Vlad who decided to invade Ukraine and the sooner he gets out the better. Without Vlad there would be no war.

Yes, DX nostalgia.... The contacts with the stations may to a great extent have become easier and faster over the years but many of us remember with a nostalgic smile on our face the days when the QSLs used to arrive by post and often in thick envelopes bearing nice exotic stamps. It surely was like Christmas every time you opened a letter to scrutinize its contents. Many radio stations had their own pennants and the walls in each and every radio shack were filled with these nice colourful objects from all over the world. Here is a selection of station pennants from the vast collection of wellknown Swedish DX-er Lars Rydén LR who started his listening hobby in 1950 and he is still listening today.

How many of you remember this station? Ecuadorian station Ondas Cañaris came on the air in 1957 and could be heard just outside the 60 metre band on 5250 kHz. The station is actually still active on MW 1530 kHz but today has left SW for FM. The late Olle Alm Oa received this pennant in 1964.

Olle Alm also received this pennant from HJCF La Voz de Bogota as the station celebrated its 30th Anniversary.

Yet another pennant from the collection of Olle Alm: Radio Bucaramanga of Colombia. The station used to be heard regularly with good strength on their 60 m.b. frequency of 4845 kHz for many years.

Finally another pennant from Olle's collection: Radio Eco of Iquitos, Peru. Contributions for this column are always welcome, like scans of old QSL cards, letters, photos, station memorabilia and so on. Please mail me at [info @ rock.x.se](mailto:info@rock.x.se). Take care, stay safe and keep on listening to the radio.
