Recaktör: John Ekwall, Box 6014, 60000 :ORRKÖPING tfn 011/151451 eller 108000 Trots en ganska sval kväll ser det ljust ut för midsomarfirancet, jag menar alltsă vädermässict. Kondsen ska vi inte tala om - ni ser själva på logoens omfattning. Innan vi övergå̀r till det allmänna innehållet i detta nummer vill jag tacka nina föregàngare för gott arbete trots att ni har sluppit att skriva flera sidor med tips. Bilagor till cetta numer är SKI samt till en del referat från vårkonventet. pă grund av en lapsus från red skrivs detta numer redan på tisciacskvällen eftersor det inte är năgon postutdelning (fre) på midsomarafton. Detta necför också att numret kommer att stencileras.

# SHORTWAVE INFO 

Let me begin with something about our latest exchange bulletins: RNM Radio Nuevo Mundo consists of about 20 members,all japanese, all enthusisiastic and hardworking DXers.The bulletin is dedicated to the pursuit of Latin American DX.RNM was founded in 1978, aimed mainly at exchanging tips and information on LA stations by LAA enthusiasts.
Unfortunately,foreign members are not accepted at this time,however copies of their bulletin can be obtained by contributing useful tips on LA stations. RNM is wide open to those who are willing to contribute to their club. (The same idea that we have in SWB).
RNM has produced two highly informative publications simply titled "LA DXing".
The other bulletin is FINE TUNING.This bulletin seems to concentrate on members tips. It consists of around 5 pages with tips, ended with some info. Editor is Dan Ferguson. The club has most of the members in USA, but has also members in Gt. Britain, Australia, and also one member in Honduras. Several of them are very well-known DXers. To both clubs: A great welcome, and lets hope that both parts will have use of this exchange!
