Förhoppningarna om fina konditioner mot Indonesien har väl hittills inte infriats. Däremot loggas en hel del nya LA-stationer till glädje för alla LA-freaks. Ett flertal QSL har inrapporterats denna gång av nedanstående lyckliga innehavare.

Armstein Bue får inleda med kort från LV del CID/Radio Clarin-11700 samt RTV Tunisienne på 11745 med brev och frimärken.

CarlGustav Köhler har en trasig fot som har opererats nyligen och skall opereras igen i början av november. Räknar med mera tid att lyssna under konvalescenttiden. Ett flertal QSL har droppat in som plåster på såren: FEBA Seychelles-15325 med OK QSL-kort, DW Antigua-6040+15105 och DW Rwanda-21600, båda jubileums QSL, AIR Hyderabad-4800 kort från Delhi samt Radio Cobija-4856 brev undertecknat av Néstor Murillo Pardo (Jefe de Prensa) och Alberto Lazarte Chacón, Director. CQK är nu uppe i 150 länder prick.

Jorma Mäntylä har förärats kort, stencil och affisch från Padio Baha'i-4996. Anser att konditionerna varit ganska dåliga.

Ralph Perry rapporterar in fina LA-loggningar. Tyvärr verkar brevbäraren ha glömt bort honom. Inga QSL mottagna.

Christer Brunström ringer in svar från Radio Impacto-6150 med brev och dekal, v/s samma som tidigare..

Leif Blomkvist rapporterar också per telefon. Har fått kort från R Douala-4795 samt från R Abaroa-4719 också med kort. Ny 550 m antenn uppsatt med bra riktning mot Indonesien. QTH gemensamt med CB.

Lars-Eric Svensson anmäler kort från ELBC Liberia, kort från R Tachira-4830, brev och sticker från R Impacto-6150 samt brev och vykort från R Esmeralda, V/s Bertha Diaz Mesa.

Yngve Meijer har börjat lyssna på Indonesien igen. QSL har kommit från Africa No.1 4810 kort, San Miguel-3310 kort, KNLS-11820 stencil mm, R Tachira-4830 kort, Vanuatu 7260 kort samt R Educacao Rural-4755 brev.

Börge Eriksson har av många orsaker varit inaktiv ett längre tag. Förutom mycket arbete på firman även ökat arbete hemma pga sjukdom. Dessutom problem med nedblåst antenn. Några QSL har dock piggat upp tillvaron: ORTB Parakou-5026 kort, R Douala-4795 kort, R Abaroa-4720 kort samt brev från R Tacna-9484 efter f/up. V/s samma s.t.

To begin with, here is Juan Carlos Codinas monitorings nr 9&10 (Aug 26 - Sep 26)

## REPORT FROM PERU PART V

ALL TIMES IN UTC

- 3712.6 R Los Andes, Huamachuco now stabilized here.
- 4501.8 R Esmeralda de Huanta uses this frequency only now. 3284.3 inactive.
- 4568.7 R Educadora Sudacreatina, Acre, Brazil. This is the ID for this station. Now seems to be regular in its day-around transmissions, going until 0145. Their morning transmission are as usual regular at 1100 until 1430 fadeout. Noted Sept 21.
- 4864.1 R Paititi, Guayaramerin, Bolivia finally arrive to its nominal frequency. First noted Sept 21. Sept 26 drifted to 4861.7  
(R Nuevo Mundo notes this station on 4818 Sept 30 at 1027-1100 by Inoue)
- 4907.8 R Cobriza 2000, Pacaycasa, San Pedro de Cachi, Huancavelica now here (nice move!). Note the new spelling of the name! Religious music, modern tones. Good signal but distorted. Still announcing "cuarentainueve veinticinco" (49-25).
- 5020.3 R La Voz de Coquime (tent ID), Bolivia presumed. First noted Sept 11 at 0030, with a broadcast of a catholic mass. Good signal. Sudden cd 0050. Seems to be operating only for broadcasting the mass. Announced that next Sunday they can be tuned at the same time.
- 5070.3 UNID, Brazil noted Sept 22 at 0030. Also noted at mornings.
- 5190.6 R Nuevo Continentes address is: Jiron Amazonas 355, Cajamarca, Cajamarca, Peru. (This says also several other sources, Olle)
- 5707 R San Miguel, San Miguel de Pallaques, Cajamarca first noted Sept 23 at 0045, going until 0250. Good signal, good modulation. Nonstop rustic huayno-music, but sometimes also mexican. Opens at 0000.
- 6271.9 R Guaybamba is active again. Address is: Jiron Guaybamba 513, Guaybamba, Provincia de Rodriguez de Mendoza, Amazonas. Slogan "El alma musical de tu dial, Guaybamba, por supuesto"
- 6361.1 R Moderna, Moyobamba is back on this new frequency. "Esta es Moderna, mas nueva y sugerente". Sept 10 going until 0010, cd with anthem.
- 6674.5 R Pedro Domingo Murillo, Quime, La Paz, Bolivia now with better power, going until 2236.
- 6567.6-6580.4 R La Cumbre, Huamasanchas, is the correct ID for this one. Announcing that in the near future they will broadcast in a regular schedule 1400-1700. I suppose they will continue also at evenings. Sometimes IDs as "R Huamasanchas". This was the reason for "R Huamacumbre"-mistake. Any way, very difficult to ID. Very low power, distorted and always moving. I cant find this place on my map, which is very detailed. I presume it is in Ayacucho department.
- 6975-6979y R Cuatunumi, Santa Cruz, Cajamarca is moving slowly but steadily towards higher frequencies.
- 7073.5 R El Sol de los Andes, Cuatunumi, Santa Cruz, Cajamarca first noted Sept 4. Announcing 7073 kHz. Good modulation, very stable, but very low power. Slogans "La frecuencia musical", "El canal de los grandes exitos musicales", "R El Sol de los Andes, un mensaje de cultura y progreso para todo el pueblo cruceno". Cd with NA 0500, announcing opening next day 2300. Sundays cd 0600. Address: Zarumilla 620, Cuatunumi, Santa Cruz, Cajamarca.
- 9579.1 R Concordia, Arequipa first noted Sept 24 at 1900. Perhaps a lot of time earlier on the air, but just noted today. Amazing signal! Very good style. Progressive station, giving air space to the popular sectors and popular political parties, anti-imperialistic movements etc. Full ID "Transmite Concordia, la mejor alternativa en radio, 1140 kHz Onda Media, 9580 kHz banda internacional de 31 metros, desde Arequipa, para todo el Peru y el extranjero, Concordia, la mejor alternativa en radio". Noted until 0050, mornings opening at 0900.
- 9988 Estacion 2000. Now I can explain why several DXers took P Maldonado as QTH for this one. Address is: Faustino Maldonado 741, Rioja, Dpto de San Martin
