REPORT FROM PERU part XIII(May 2-May 15)

All times in UTC

- 4730.1 R Mamay, Yucaja, La Paz, Bolivia heard again, but this time at evenings. Heard 0215 until 0300cd. Played old boleros with Pedro Infante, the late famous artist. However, now the ID sounds to me as R Huamay. This noted also earlier, so wait for confirmation (see below!). Good power, only slightly less than near-by north bolivians Abaroa and Riberalta.
- 4916.1 R Central, Bellavista, Huallaga, Peru address is: Calle Progreso 369, Bellavista, Huallaga, Peru. This heard May 10, asking listeners to write to this address, giving reception reports. I don't know the future of R Continente, Juanjui, but I'm sure they must find a new frequency, because R Central has one of the most powerful signals in the 60 m band.
- 5120.4 R Mundo, Cuzco, Cuzco, Peru is the QTH of this station.
- 5256 UNID, Peru. This is the third of this unid, totally distorted stns heard at the same time. Noted May 13, 2200-0125cd. This has at least better modulation than the other ones. All the same style, rustic huaynos all around, so the three must be in Cajamarca, that usually hind this kind of stns. Later heard with messages to some town in dept La Libertad, so must be there, or in a nearer dept. Probably only on the air on this Mothers Day.
- 5343 UNID, Peru first heard with amazing signal May 2 at 0015. At the second check gone totally. Was a USB reduced carrier signal, maybe transmitter fault, or a SSB-stn converted to comercial use. Surely wasn't a utility station.
- 5568 R Cogor, Cogor, Cajamarca, Peru first noted May 13 at 2200. Totally distorted, only listenable in AM. Drifting upwards all the time. Gave frequency as 5670 kc. Cd 0342 with national anthem. Heard again May 15 varying from 5577 upwards.
- 6677.5 R Pedro Domingo Murillo, Quime, La Paz, Bolivia again heard! As usual extremely poor in this local afternoon. Good style, commercials and IDs are echo-styled. ID heard at 2002: "Desde el corazon de la America morena, vibra en el espacio, CP197, Radiodifusora Pedro Domingo Murillo, Sociedad de Responsabilidad Limitada, Quime, La Paz, Bolivia". For its call sign, must be a SW-operation, because MW in WRTH is listed as CP198.
- 7399.2 R Carlos V (Quinto), Provincia de Cornelio de Saavedra, Bolivia closes at 0303, announcing that they broadcast from the capital of this province. But they also announced Betanzos, Potosi (see below). Said they would be back at 1000 next day.
- 7411H R Lux, Colombia heard with clear ID "3705 kHz, banda internacional de los 78 metros, transmitiendo desde.. Guachicala??.". Wait for more on this, because in the Narino dept. there is a place named Guachucal. Interestingly, near this city are Samaniego (6350) and Ipiales (5750.6), so this seems to be an area of rare unofficial? stns. Cd at 0205, announcing to be back at 1500 next day.

JCC

BOLIVIA JCC was surprised about the info on Peru in SWI 24, he didn't believe parts of it. Here is some contradictory information again, made by Rogildo Fontenelle Aragao (RFA) in Cochabamba:

4420 CP182, R Reyes

4458 0.25 n4340 R Capitan Victor Ustariz, LV de Tropico, Villa Tunari, Depto de Cochabamba. DG: Oskar Ustariz Arandia

4730 CP229 R Guanay, Guanay, Larecaya, Depto La Paz. Px: irr. ID "LV del Minero Aurifero"

7345v R Carlos V, Betanzos, Potosi. Px: 1000-1300, 2230-0230, Sun 1100-1530

RFA/WRTH-LANL

WRTH-LANL

BRASIL Delete 6155, 9610, 15370 R Tamoio says CRM.

Delete 9665 R Nacional, Brasilia (Still announcing this though! /ed)

9665 R Marumby, Florianopolis ex 9675

940 1/0.25 and 2350 1 kW R Fundacao Verde, Florestas, Cruzeiro do Sul, Acre CP

ARM via OA

EQUATORIAL GUINEA HGV says that the stn on 7998 is "R Africa". QSL via New Mexico/USA tells that they use 7150, 7998, 9550 and 15110 with 50 kW. Mo-Fr 21-2115.

On 7998 R Equatorial, Bata earlier reported! Want more on this/Ed!
