Redaktör: Lars Bygdén, Täfteåvägen 23, 910 36 SÄVAR tel 090/501 96

Mitt i semesterns intensivaste stunder, stekhet och en härligt klar sommarsol sammanställs den tredje bulletinen från Sävar-redaktionen. Tiden är knapp så vi kör direkt m några QSL-anmälningar:

HANS GUSTAVSSON har bland högvis med FM-QSL hittat R Timbira-4975 med brev (v/s João Ferreira, Internacional Correspondent) R Sana'a-4853 med QSL-stencil nr 3 på samma rpt nu oxo 2 vykort samt överraskningen R Municipal de Cangallo-5050.3 med brev och certifikat (v/s T.Felipe León Sayardo, Dir) i ett rekat kuvert. Grattis!

NILS JAKOBSSON har inhandlat en beg Icom IC-R70 och vill därför sälja sin SPR-4 m mod bandbredd och kalibrator, helt genomgången i dec -83. Ett audiofilter medföljer också. Prisdé 3000:-. Ring NJ tel 08/7518746 om någon är intresserad. QSL som kommit: KFBS - 15125 kort o schema, CRE-4656 2-sid brev, vimpel, 2 dekaler, mynt o frim v/s som tid. samt R Djibouti-4780 med kort.

FREDRIK DOUREN har fått R Buea-3970 med kort samt R Pakistan, Rawalpindi-5006 m stencil.

CARL-GUSTAV KÖHLER har varit inaktiv ett tag p g a sjukhusvistelse men QSL har kommit ändå R Moçambique -4862 det snygga kortet + frimärken, La Voix de la Révolution-3300 kort (mkt efterlängtad), R Oman-9735 QSL-folder och R Andahuaylas-4840 med långt brev från Ing. Fernando Cruz Rondinel i Nasca som var mkt förvånad över att få en rapport adresserad till sig och undrar hur CGK kände till honom. (Se SWI nr.20).

KENNETH OLOFSSON slutligen har också fått R Andahuaylas-4840 med brev.

THORD KNUTSSON meddelar nytt tel.nr efter flyttningen 036/129427.

Ed:Stefan Bursell, Finspångsvägen 181, S-602 10 Norrköping tel.011/112172

As Lars already told you, it seems to be a long way for the postman to Sävar, that's why SWI was delayed one week. Conditions not so special right now, unfortunately. The only one that is interesting is 8900v R Continente, always heard the last week. But for me it is satellites for the moment. I've bought a 4m parabolic, mounted tomorrow, and then I can see for example USA, Argentina, Brasil a.o. But now the info: UTC

REPORT FROM PERU part XV (June 7-June 25)

- 3183.1 R Inca del Peru,?, Peru. I've heard a carrier here for many months, but just today I identified it, June 24 at 1010. Several times heard "Transmitiendo para todo el Norte Peruano". Very enthusiastic announcer and huaynos. I suppose that this could be R Universal, San Marcos, Cajamarca, with another name, but wait to confirm it. R Universal noted on 3182.9 last year.
- 3389.8 R Cutervo, Cutervo, Cajamarca, Peru back on the air June 22, after only been active May 12 during all this year. Heard 0200-0405cd, announcing to be back at 1500.
- 3436.8 R Educadora 6 de Agosto, Xapuri, Brasil now here, noted June 13 at 0100.
- 3720.5 R Los Andes, Huamachuco, Peru noted here June 10 at 2200 (I miss them on 5030/ed)
- 3956.6 R Huamachuco, Huamachuco, La Libertad, Peru. Found it here, distorting, but with far better signal than its competitor in this frequency range, R Jaen. Heard 2225.
- 3884.9 R Libertad, Reyes, Beni, Bolivia reactivated! Heard here after more than 6 months, after trying daily, June 15 at first check 0020.
- 4254.5 R El Sol de los Andes, Peru not heard for more than 2 months.
- 4271.1 R Difusora Gonzanama, Ecuador not heard for more than 2 months.
- 5160.4 UNID, Ecuador or Peru, first noted June 9 with poor signal. Has all the traces of being a harmonic. Heard 2330-0100cd.
- 5339.9 R San Miguel, Cajamarca, Peru. Heard June 8 from first check at 2345. Good signal. This is the same stn IDing before as LV del Nororiente, with former QTH in Jaen, and later IDing as R Continental, QTH in Andabamba, Cajamarca. Now ID is R San Miguel. This is not the former stn noted on 5707, announcing 5710, now inactive! This new name confirms my suspicions that the owner uses mobile equipment.
- 5405v R Tongod, Tongod, Cajamarca, Peru. First noted on 5191.5 June 7 at 0000. This is the stn earlier reported as Cogor, 3 weeks ago. Tongod is located at the southeast of Santa Cruz city. Later noted on 5481.5, 5533.1, 5516.7 and now varying 5404.8 to 5410.7 Announcing "en los 5670 kilocyclos de tu radio, Tongod" d at 0323, said to be back next day, but where will they be?
- 5560.5 R Pucara, Pucara, Jaen, Cajamarca, Peru again here, noted June 23 0030-0330cd.
- 5585.2 R San Francisco, Bambamarca, Cajamarca, Peru noted June 12 2130-2240cd. As usual with this stns, prgrm consists mainly in "Mensajes musicales" with crude huaynos.
- 5903-5910 R Panamericana, La Paz, Bolivia is the correct ID for the stn first noted June 24 on 5909.3 with ID as R Emisoras Bolivia, Oruro. Today, June 25, heard until 0030. News prgrm began at 0000, there I heard the ID, so anyway, its a possibility that it is another stn in network with Panamericana. Wait for confirmation.
- 6137.4 R Colonial, Nuevo Cajamarca, Peru reactivated June 13. Heard very late at 0120.
- 6340.1 R La Voz del Caine, Cochabamba, Bolivia. First heard here with pops at 0140, June 25. Very low power signal. ID at closing 0200.
- 6365.4 R Libertad, Peru (Still unknown QTH). First heard June 25 at 0300 with huaynos. ID sounding as "Libertad, la radio". Checking 5039.8 and 4910.7 I found that this is the third SW peruvian with this name. This is not the unstable one 6364-6374 reported several weeks ago, and not Estacion Preferencial.
- 6428.3 R Espinar, Espinar,?, Peru first heard June 23 at 0105, with very faint signal. At 0200 full ID, with frequency mentioned, but I could also make out "49 metros", so not a harmonic. Gone at 0308. Rechecking my tapes I found that they could be R Totoral, Bolivia, but wait for this! Very stable frequency though, R Totoral weren't that stable. Said to be back 2200 next day.
- 6491.5 R Jaen, Jaen, Cajamarca, Peru now here, after being stable around 3934-38 for some time. Noted June 23 at 0115. Still announcing 5005 kHz. Heard until 0300cd.
- 6574.6 R RJ1-La Voz de la Juventud, Guachanama, Loja, Ecuador seems to be stable here now.
- 8900v R Continente, Juanjui, San Martin, Peru. After several tries heard June 25. First heard by Reinstein, as reported by GH. This is ex. 4916.3. Cd at 0300. Next day heard on 8901.7
