Noen gjengangertips er strøket. JPP har Mauritius som ? på 4855, men er den aktiv nå? Overraskende mange skriver for hånd. Hyggelig men kan være utydelig.

HK: har lyttet på Darios innsp. av LV Cana på 5068, og er temmelig sikker på at det ikke er samme som 1500. FK: Grønland slutter på kortbølge 900101. R. Horizonte, La Paz 6005.1 hørt av Gabriel Ivan Barreira. KO hørt R. San Jose Bolivia 1490. Takk for nå, mere tips er velkomment
