

SHORTWAVE BULLETIN

Issue no. 1812, Dec 7, 2014.

Deadline e-mail next issue: 0800 UTC, Dec 21, 2014.

Helt plötsligt blev vi idag hundvakt åt brorsans jaktlabbevalp bara ca 8 månader gammal. Malte och våran lilla cocker Elsa leker outtröttligt och ganska våldsamt, nästan så hårtussarna flyger och far. Vi får väl se i kväll hur trötta de är när Malte skall hämtas.

Trötthet har i varje fall inte drabbat våra radiovänner utanför Sverige. Massor med tips till detta nummer, men som vanligt är det bara några få svenska DX-are som lyssnar av KV-bandet.

Tänk hur många fina stationer som kunnat plockas om vi vridit tillbaka tiden till 50-70 -talet och kunnat använda dagens utrustning.

Hur dåligt väder kan drabba en antennanläggning visas av Christoph Ratzers bilder längre fram. I slutet kan några riktigt fina gamla QSL beskådas som skannats av John Ekwall.

Keep on

=====

QSL, kommentarer, mm.

Anker Petersen: I was unable to sleep around 0400 hours, so I decided to check the 90, 75 and 60 mb's on my AOR AR7030PLUS with 28 metres of longwire. But unfortunately only these stations were audible, besides strong signals from Germany on 3985 and 3995, USA on 4840 and 5015 and Cuba on 5025 and 5040 kHz:

Dave Valko: Loggings for the second half of November below along the Youtube video links of some of the receptions that may be of interest to you.

11 November 2014: Went out on a micro-DXpedition from 1820-2130. Nice very quite conditions. Although, on the whole, it was probably about 'normal'. It seemed Africans were doing better.

Christer Brunström: Radio Tirana 7465 med klassiskt QSL-kort, Radio Mi Amigo International (via Radio 700) 7310 med riktigt snyggt QSL-kort från Spanien där Radio Mi Amigo sänder på tre FM-frekvenser på Costa Blanca.

Robert Wilkner: South Florida.... 2 December 2014... Enjoyable visit by Ken Walters to the shack Friday, last. South Florida remains warm in December, 80s F, with occasional thunderstorms.

Lars Skoglund: Svar har kommit från Radio Nord Revival, Vaxholms Fästning 5770 med kort. OAZ2A Radio Los Andes, Huamachuco 5030 svarade med trevligt brev efter en follow-up. V/s var Carlos De la Cruz Ruiz, Director.

Giampiero Bernardini: I went few days in Tuscany, where my mom lives. Here some tips. Maybe you can find some for SWB.

Stig Adolfsson: Här har inte hörts så mycket. Kraftig ihållande elektron- och röntgenstrålning har medfört dåliga konditioner på KV. Har ännu inte hört en enda PNG på 90 meter. Törs väl knappast hoppas på någon förändring heller med nuvarande solaktivitet. Skönt att det snart är jul så man får trösta sig med skinka, sill m.m. Julhälsningar till alla i SWB !!

Correction: re List of private US SW stations

Lennart Weirell: Här kommer några rader om min lista om Private US Shortwave Stations, dels rättelsen om KSDA, dels en nyhet om KJES.

Regarding the List of Private US Shortwave Stations since 1962 which was presented in SWB 1810 and revised in SWB 1811; our friend Glenn Hauser observed a mistake: KSDA is still active and didn't close down in 2000. This means KSDA should be in **Bold** in the list and the bars in the graph below should be increased by one station from 2001 onwards.

Sorry for mistake and thanks Glenn for informing me.

And a late news: KJES has ceased SW transmissions and is now only streaming on Internet. Info via Glenn's DXLD 14-48.

2368,46	Dec5	1438	Radio Symban (presumed), 1438-1504; nice Greek singing & music (no announcements), cutting through the noise. Not bad for a low powered station (400w?!). Is still a DX challenge as it is not heard every day. Audio at https://app.box.com/s/92dzt3unj575qrrhqf2 (Ron Howard, Asilomar State Beach, CA, USA)

4055	Dec1		[Non] Guatemala, Radio Verdad 1040 to 1050 off the air, Nada!! December 1st (MR)
4055	Dec2	0945	Radio Verdad. Hyper Preacher in English shouting into the mike (Wilkner)
4451,1	Dec3	2340	Radio Santa Ana, Santa Ana de Yacuma, weak Spanish, deep fades (Wilkner)
4500,00	Dec4	0105	Xinjiang PBS, Urumqi Mongolian talk, 0109 ID: "Sinkiang Radio", orchestra music 45344 // 6190 (45333) (AP-DNK)
4699,9	Dec2	0030	Radio San Miguel, Riberalta 0030 to 0040 with fair to poor signal in Spanish, 0910 with om chat with ments of two Bolivian locations possibly.. (Wilkner)
4747	Nov22	2000	R Huanta 2000 noted weakly at 1047 with huaynos. (David Sharp NSW)
4747,59	Nov19	1014	R. Huanta Dos Mil Slurred ID by live M morning DJ at 1014 t/in. Into pleasant soft OA campo song at 1015. CODAR ruined a fairly decent reception. (Dave Valko, Dunlo, PA)
4750	Nov28	1205	Bangladesh Betar End of nx by W, nice ID at 1205:30, then apparent intro by M.

			Best signal yet this season. (Dave Valko, Dunlo, PA)
4750	Dec1	1235	Bangladesh Betar - HS. RRI Makassar continues to be absent here; usual SAARC (The South Asian Association for Regional Cooperation) news bulletin in English; naturally the lead-off story was the SAARC Summit held last week in Kathmandu; poor with usual CNR1 QRM (Ron Howard, San Francisco at Ocean Beach, CA, USA)
4750	Nov28	1625	Bangladesh Betar, talks and slow songs, fair (Bernardini)
4754,9	Dec1	0916	Radio Imaculada Conceição, Campo Grande, MS 0916 Portuguese om to yl music at 1020 fade out, fair to good signal during band scan. (Wilkner)
4759,998	Dec1	1312	footprint of UNID stn heard at 1312 UT, probably Port Blair outlet? AIR Port Blair, Brookshabad, Andaman & Nicobar Islands. (wb via DXplorer)
4760	Nov11	2100	ELWA 2100 end of pleasant rel. choral song, then W anncr w/EG inspirational rel. tlk mentioning ELWA. Still going at 2106. Not that strong quiet and clear. (Dave Valko, Dunlo, PA)
4760	Nov22	1917	ELWA, tentative at 1917 with occasional talk by man but mostly only carrier. (David Sharp NSW)
4760	Nov28	2220	ELWA, Monrovia, Liberia, English, religious talks & songs, fair (Bernardini)
4760,002	Nov26	0600	R ELWA Liberia. Thanks to a tip of "Per Eriksson", checked 4760 kHz last night, but signal was very weak, and only communication talk each other of two Italian fishermen (?) could be easily heard on this channel. But acc Aoki list ELWA on program schedule start from 0600 UT, program from Liberia could be heard at 0620 UT Nov 26 as tiny signal precise 2 Hertz upper side. After 0645 UT tiny signal fade-out again. Mostly a female voice reader could be heard, small piece of music, but due of very low signal strength, nothing real word content could be traced so far. But I guess, in coming months - til end of February - we will be happy to hear this station more properly 'now and then' here in Europe in our mornings. Procedure: I had to select only the upper sideband flank, due of permanent CODAR wiper signal moving up and down in 4741 to 4759.3 kHz frequency range. Also a CW morse code signal noted short pieces of 20 seconds each on 4762 kHz, - but not real a disturbtion. Maybe our German pensionists and Dixer at Denia Spain and Menorca island will hear more positively on this matter. (wb via DXLD)
4765,00	Nov27	0425	R Progreso, La Habana Cuban songs, 0435 Spanish time ann and talk (AP-DNK)
4765,03	Nov22	1858	Tajikistan, Tajik Radio, 1858, talk by man across top of hour and into local music. Poor. (David Sharp NSW)
4765,060	Dec1	1238	Tajik 1 from Dushanbe Yangi Yul melancholic muslimic central-asiatic song, - nothing of 1st Advent western holiday shopping center "Jingle Bells". 1238 UT on Dec 1st. (wb via DXplorer)
4765,07	Nov27	2330	Tajik R 1, Yangiyul, Dushanbe Tajik long talk by man and woman about Balalajka, at 2336 beautiful Balalajka music and songs, 2340 ID: "In jo Dushanbe" (AP-DNK)
4774,93	Nov27	2320	R Tarma, Tarma Spanish talks, also 1.12 25222 (AP-DNK)
4775	Nov22	2220	R.Congonhas, Congonhas MG, progr. de propag. relig.; 24331, QRM do PRU, em 4774,93. (Carlos Gonçalves)
4780	Nov11	2058	RTV Djibouti 2058-2100 traditional HoA mx. 2100 W anncr, then into the Koran. Good by 2106. So good you could hear the echo easily. (Dave Valko, Dunlo, PA)
4800	Nov23	1707	Hyderabad, cânticos, música de cítara; 33432, QRM da CHN. (Carlos Gonçalves)
4800,0	Dec1	1320	AIR Hyderabad, Andhra Pradesh. When checked at 1320 UT again, both AIR and Chinese Geermu-CHN were on even frequency. The AIR program ahead on remote unit in NSW-Australia. (wb via DXplorer)
4805	Dec2	1000	Brasil, Radio Difusora do Amazonas, Manaus 1000 to 1025 noted with om in Portuguese with usual marginal signal. (Wilkner)
4810	Nov23	1706	Bhopal, cânticos, acordes de cítara, emissão em inglês, texto, mais música; 35433 (Carlos Gonçalves)
4810	Dec2	0917	Radio Logos, Chazuta, Tarapoto 0917 to 0930 with beautiful flauta andina, providing a good strong signal (Wilkner)
4810,009	Dec1	1240	seemingly on threshold signal level from AIR Bhopal, Madhya Pradesh, at 1240 UT Dec 1. Nice Indian singer heard at 1323 UT. wb via DXplorer
4815	Dec7	0120	Radio Difusora, Londrina PR 0120 to 0125 mention of "Jesus" in English at tune in then into music. Strong signal. (Wilkner)
4819,95	Dec6	0220	Kyrgyz R 1, Krasnaya Rechka, Bishkek Kyrgyz talk and song - rarely reported, ex 4795, most times covered by Xizang and AIR Kolkata which both had faded out at this late hour! 35232 // 4010 (45333) (AP-DNK)
4830	Nov28	2344	Mongolian R. 1, music, talks, fair (Bernardini)
4835	Nov16	1028	ABC Alice Springs 1028 found in the clear as WWCR had deadair once again. ABC Local R. promos, 1030 reintro. for the mx pgm, then mx. WWCR still off at 1046. Fair signal. (Dave Valko, Dunlo, PA)

4835	Nov27		VL8A Alice Springs, NT yl with some news items 27 November (MR)
4835	Dec3	1400	AIR Gangtok (presumed), 1400-1459. Daily I check here to see if I hear anything underneath ABC Alice Springs; for a long time nothing heard until today; nice segments of definite subcontinent music/singing; some announcements heard and the language seemed right to be Gangtok; fortunately ABC Alice Springs was mostly talking, so the music came through fairly clear. Seemed off the air after 1500? (Ron Howard, Asilomar State Beach, CA, USA)
4835,00	Dec4	*0058-	AIR Gangtok, AIR IS, 0100 Hindi ann, "Vande Mataram hymn" (AP-DNK)
4845	Nov20	2325	R.Cultura Ondas Tropicais, Manaus AM, noticiário; 13341, QRM de CODAR. (Carlos Gonçalves)
4850	Nov30	1212	AIR Kohima with one of their rare SW broadcasts; special transmission on the eve of the Hornbill Festival and 50th anniversary celebration of Nagaland Legislative Assembly. To mark these special events, India's Prime Minister Narendra Modi is currently visiting Nagaland. Should be on the air again tomorrow. http://www.hornbillfestival.com/ . Highlights from tune in at 1212, to tune out at 1425: 1212-1258*: Program of typical Christians songs; it should be pointed out that Nagaland is predominantly Christian. Went off the air for some minutes. 1304-1315: Back on with program schedule in English; Hawaii style songs. 1315-1340: Indigenous language (Naga) program; jingle in Hindi for advertisement; started and ended with unique stringed indigenous instrument. 1340-1400: First news in Hindi, followed by same news in English; info about all the dignitaries visiting Nagaland and the special live Web feed from the Hornbill Festival. 1400-1425: Long series of speeches in English; starting with one by the "Honourable Governor of Nagaland"; played National Anthem. Poor reception, but at times semi-readable; many IDs; almost no QRM from Xinjiang PBS, also on 4850. Poor, unedited audio - https://app.box.com/s/5azj4lt3wd2zzlebpcco Dec 3 - Have not heard Kohima's evening broadcast again, not since Nov 30. Seems they only broadcasts the Hornbill Festival for a very limited time this year. A major disappointment to me! Fortunately Gautam Kumar Sharma (Abhayapuri, Assam, India) was able to hear their morning broadcast the next day starting at 0129 on Dec 1. His blog has some nice audio clips, which are much better than my recorded audio. http://www.gkcalling.blogspot.com/ . (Ron Howard, San Francisco at Ocean Beach, CA, USA)
4850	Dec1	1220	AIR Kohima, Nagaland - not -, rather Chinese Xinjiang PBS, XJBS Urumqi, Xinjiang service heard here on even 4850.0 around 1220 UT on Dec 1. Undoubtedly Urumqi, heard in Nagoya Japan remote unit, S=9+5dB in Kazakh language. (wb via DXPlorer)
4850			[Non] AIR Kohima remains silent for their evening broadcast as of Dec. 4. (Ron Howard, Asilomar State Beach, CA, USA)
4860	Nov23	1730	AIR Shimla, inglês, texto, música; 34432, QRM de CODAR. (Carlos Gonçalves)
4860	Dec7	0018	AIR Shimla, Himachal Pradesh, subcontinental music / singer heard well above CODAR wiper signal. (wb, Wolfgang Büschel)
4865,015	Nov28	1035	R. Verdes Florestas Soft PT vcl song at 1035 t/in, 1036 full ID w/freqs by M over mx, then into what sounded like a morning rel. pgm. Just good enough to copy. (Dave Valko, Dunlo, PA)
4869,926	Dec1	1250	RRI Wamena, Propinsi Papua in BI at 1250 UT. S=7 -82dBm signal on remote Nagoya Japan SDR unit. But at 1330 UT seemingly also AIR Delhi Kingsway in Nepali? lang. outdated schedule?, heard on footprint 4870.002 kHz. (wb via DXPlorer)
4880	Nov28	1208	AIR Lucknow Carrier w/tone from at least 1208 to 1213, then AIR IS to 1215 when lady came on w/apparent opening anmnt. Nice to hear Indians on 60m again. (Dave Valko, Dunlo, PA)
4880	Nov23	1705	AIR Lucknow, cânticos; 23331, QRM de CODAR. (Carlos Gonçalves)
4885,03	Nov27	0445	R Clube do Pará, Belém, PA Brazilian pop songs, 0449 Portuguese ID: "Rádio Clube" 35333 (AP-DNK)
4894,995	Dec1	1340	UNID, Mongoliin R Murun? A lot of local Flute music. (wb via DXPlorer)
4895,00	Dec5	2315	Mongoliin R, Murun Mongolian ann, classical folkmusic. 4830 not heard (AP-DNK)
4895	Nov15	1128	AIR Kurseong 1128 IS, then M annr at 1129. (Dave Valko, Dunlo, PA)
4895	Nov28	1642	AIR Kurseong, slow songs, weak (Bernardini)
4905	Nov20	2333	Nova R. Relógio, Rio de Jan.º RJ, , canções; 13341, QRM da CHN e do sinal CODAR. (Carlos Gonçalves)
4910	Nov23	1728	Jaipur, inglês,texto, música; 34333, QRM adj., modulação muito fraca. (Carlos Gonçalves)
4910	Nov28	1648	AIR Jaipur, slow songs, fair (Bernardini)
4910,008	Dec1	1305	UNID. S=7 subcontinent Hindi lang sounded program at 1305 UT, probably AIR

4915	Nov26	2350	Jaipur, Rajasthan, noted in Nagoya Japan. (wb via DXPlorer) Radiodifusora Macapá, Macapá, AP 2350 to 0005 Pop music covers in Portuguese then ID "Radio Dif Macapá...KiloHertz" 26/27 Nov. (Wilkner)
4920,0	Dec1	1345	Even frequency of AIR Chennai, Tamil Nadu, best AIR signal downunder in NSW-Australia remote SDR unit at 1345 UT. wb via DXPlorer
4939,957	Dec1	1350	odd frequency lower side, at 1350 UT heard Chinese program of Voice of the Strait, Fuzhou, Fujian. S=9 strength downunder in NSW-Australia remote unit. (wb via DXPlorer)
4940	Nov29	1529	Voice of Strait with "Focus on China". Address given to write to "Focus on China"; ID "This is the Voice of Taiwan Strait News Radio"; good reception (Ron Howard, San Francisco at Ocean Beach, CA, USA)
4949,74	Nov28		R.Nacional, Angola, talks, better modulation than usual, fair (Bernardini)
4949,84	Nov22	1811	RNdA, noted at 1811 with strong carrier but almost no audio. (David Sharp NSW)
4950,008	Dec1	1355	UNID. a stn string visible at 1355 UT, probably like AIR subcontinent singer music, of ? R Kashmir, Srinagar, Jammu? Maybe back on air after flood? (wb via DXPlorer)
4960,00	Nov27	0455	VOA, Pinheira English: This is "Today in History", editorial about Thanksgiving Day, 0500 ID: "This is the VOA. The following program is in Hausa", Hausa news 45344 (AP-DNK)
4965	Nov19	0903	R. Alvorada Just missed getting an ID recorded at 0903 t/in. A lot of tlk by M DJ w/an occas. song. Rooster crowing SFX. Many "Bom Dias". Long ad/promo block at 0929-0935 w/full ID and freqs by M at 0934:50 at the end. Rooster SFX again w/live M DJ, then into a song. Not bad for this and modulation seemed a little higher today. (Dave Valko, Dunlo, PA)
4970,017	Dec1	1352	UNID stn program, singer at 1352 UT Dec 1st. Acc DBS list of dswci, could be of AIR Shillong, Mawgrong, Meghalaya? (wb via DXPlorer)
4975,96	Nov11	2020	UBC R. 2020:05 "UBC Radio" ID by M and tlk over mx. 2034 end of "I Will Always Love You" by Dolly Parton, and into another Pop song. 2038 into another C&W song. Nice signal w/very quiet conditions. 2041 M DJ between songs w/TC, ID, ment of upcoming nx, etc. Back to C&W mx at 2046. Nice "This is UBC Radio" canned ID by W between songs at 2050:45. 2054:30 live M DJ nice ID, gave his name, and pgm name, etc. 2100 into "UBC News Hour". Off at 2104. Modulation rather low. Incredible S9+10 by 2050, the strongest signal on the band. Despite the C&W mx, it was very enjoyable listening. http://youtu.be/yyI79Syh-0w (Dave Valko, Dunlo, PA)
4976	Nov28	1655	UBC, Uganda, conversation in English, fair/good (Bernardini)
4985,5	Dec6	2325	R Voz Cristiana just above a strong UTE signal. Only USB useful for audio. TN
4990	Dec2	0940	Unid. 0940 to 1000 carrier and very weak audio noted 2 December and other mornings, same time. May prove to be Suriname, Radio Apintie, Paramaribo ...if still on the air (Wilkner)
5000	Nov20	2259	BPM 2250 time ticks in between WWVs time ticks, 2259 repeating CW IDs. 5010 CNR1 doing well at the same time. (Dave Valko, Dunlo, PA)

5010,007	Dec1	1357	UNID. A heavy B U Z Z Y audio signal noted at 1357 UT, probably Hindi service of AIR Thiruvananthapuram, Muttathura, Kerala. Visible are some ±five 100 Hertz peaks either sideband... (wb via DXPlorer)
5011,6		1850	R.TV Madagasikara, Ambohidrano, texto, mas foi inviável verificar se seria em francês ou em malgaxe; 15341. (Carlos Gonçalves)
5020,0	Dec4	1200	JBA carrier continues in 5025 Cuba splash. I suppose SIBC is again leaving its carrier on past ``sign-off`` even if no modulation; far too weak to tell the difference here (Glenn Hauser, OK)
5020	Nov29	*1900-	Solomon Islands med någon form av referat. Sign on 1900 och fade out A1925. Svag. SA
5040	Nov28	1213	AIR Jeypore Quite audible at 1213 w/subcont. mx then M annr. One of many Indians hrd this morning. (Dave Valko, Dunlo, PA)
5040,00	Nov28	28.11	AIR Jeypore Vernacular talk, Indian songs, 1730 English news // 5010. Also heard at 0042 30.11 Indian songs under R Habana Cuba 32432 (AP-DNK)
5040	Dec4	1330	AIR Jeypore, as of Dec 4, has been doing very well this past week when checking about 1330. Nice to have them back with such a good signal. (Ron Howard, Asilomar State Beach, CA, USA)
5040	Dec3	1439	AIR (Jeypore) (tent.) 1439-1500+ 3, 4, 5 Dec. Probably these guys w/ Bollywood movie tunes, chants (& an almost festival-style broadcast on 4 Dec.) , Hindi chat..tnx Bruce Churchill's info on their apparent reactivation. (Dan Sheedy, Moonlight Beach, CA PL606 'barefoot')
5040,002	Dec1	1210	AIR Jeypore, Odisha heard in seemingly Hindi language, on nearly even frequency on Dec 1st at 1210 UT on remote SDR unit in Sydney downunder, S=7-8 signal, and much

5050	Nov23	2249	lot of thunderstorm 'scratches' noise too, disturbed reception today. (wb via DXPlorer)
5050,0	Dec1	1410	Beibu Bay R (p), Nanning, música, progr. em mandarim, texto. (Carlos Gonçalves)
5050	Dec2	1254	Even frequency outlet in undoubtedly Vietnamese language, heard in downunder Australia on remote SDR unit. Beibu Bay R, Nanning, Guangxi. (wb via DXPlorer)
5066,326	Nov11	1955	found AIR Aizawl back on the air mixing with BBR; 1254 + 1318-1322; gone by 1332 (clearly only BBR there); 1412-1419 to find them back again (Ron Howard, Asilomar State Beach, CA, USA)
5066,35	Nov22	1803	R. Candip. Shocked to find Afro Hi-life mx coming through easily at 1955!! Finally M anner briefly at 2005, but right back to mx. 2013 into what sounded like a Top 40 remake (can't recall title). 2016:40 M DJ briefly, then canned anmnt by W in FR, brief drum IS, and off at 2017:42. A BOG pointed in the right direction and quiet conditions certainly helps. http://youtu.be/v-lhPkDKGU0 (Dave Valko, Dunlo, PA)
5910-	Nov30	0607	Democratic Congo, Tele-Candip, 1803, about the best ever with talk by a French man, hi life. In the clear with no UTE. (David Sharp NSW)
5910-	Dec1	0634	HJDH is active again, song in the style of ``Guantanamo``, soon ID not as Alcaraván Radio but as La Voz de tu Conciencia; fair signal, slightly on the lo side and no QRM at this hour. The other HJDH is also on air, 6010v, at 0609 playing different less secular music, instrumental version of ``Amen, amen, amen``, with het presumed Brasil; at 0613 it too IDs, by OM as LV de tu Conciencia. Back to 5910 at 0614: another LV de tu C ID, by YL. Strange; mixed up their automation? Or is the Alcaraván Radio programming from 1530 no longer to be shortwaved? (Glenn Hauser, OK)
5910	Dec2	0935	Ballad, YL ID as La Voz de tu Conciencia, like last night, rather than Alcaraván Radio, tropical music; while the other HJDH, 6010v, is also on with different music, het (Glenn Hauser, OK)
5910,03	Nov30	1045	Colombia Radio Alcaraván, Puerto Lleras 0935 non stop music, strong signal, still there at recheck 0955 (Wilkner)
5915	Nov21	1844	R. Alcaravan Found back on the air at 1045. ID anmnt at 1102. Good. http://youtu.be/m7YSY0IvI5w (Dave Valko, Dunlo, PA)
5915	Dec4	0419	ZNBC-Radio 1, Lusaka, dialecto local, texto; 34342, QRM adj. oriundo de 5910. (Carlos Gonçalves)
5939,76	Nov21	2349	R. One/ZNBC. Nice promo in English for "GOtv, entertaining Zambia"; decent signal and fairly readable. Audio at https://app.box.com/s/z9q2a8ge2alu9j2enw11 and GOtv website http://zambia.gotvafrica.com/Home/?gclid=CLekiafZq8ICFU-TfgodSSYAYA (Ron Howard, Asilomar State Beach, CA, USA)
5950	Nov21	1531	Voz Missionaria Nice short ID at 2349:20. Very disturbed conditions making it weaker than usual and sounding watery and choppy. (Dave Valko, Dunlo, PA)
5950	Nov24	1432	Voz da Revolução do Tigrê, Geja Jawe, tigrínia (p), canções do Corno de África; 35332. (Carlos Gonçalves)
5952,2	Nov28	2355	R.NZi, Rangitaiki, inglês, entrevista, noticiário das 1500, canções; 25432, mas em ascensão. (Carlos Gonçalves)
5952,43	Nov28	1013	Pio XII, Siglo Veinte 2355 to 0000 strong signal after most of the month silent. Checked last night same time and was silent so today may be first day? (Wilkner)
5952,43	Dec4	-0228*	R. Pio Doce 1013 morning nx pgm by M host w/ments of Potosi. Remote rpter soundbites. 1015 ad break starting w/quick ID by M. Phone ringing and whistle SFX during ads. Ment of Potosi. Back to nx at 1019 and almost immediately into soundbits. Best hrd in quite a while. Fairly good signal at start but fading by 1020. QRM from 5955 CRI. (Dave Valko, Dunlo, PA)
5952,44	Dec7	0116	Radio Pio Doce. Off with the unique and easy to ID distinctive whistling "Colonel Bogey March" (commonly known as the River Kwai March), along with ID; followed by chimes; almost fair (Ron Howard, Asilomar State Beach, CA, USA)
5952,49	Dec6	2230	Pio XII, Siglo Veinte 0116 with yl chat to 0127 with music. Signal is strong with distortion and some flutter (Wilkner)
5952,49	Nov30	0045	Fantastic signal from Pio XII at this time. Never heard Pio XII so strong! Christoph Ratzer. <i>Indeed, also very good here at 2315 with mx. /TN</i>
5952,52A	Nov28	0211	R Pio XII, Siglo XX Spanish drama play 35343 (AP-DNK)
5965,00	Nov29	1600	R. Pio XII, from Siglo XX, poor signal but better than the weak carriers on 5950 & 5955, M&W discussion including Spanish words such as ``alabanza``, ``jueves 27``, but mostly incomprehensible, probably Quechua altho it also emits in Aymara. Haven't heard this one in quite a while since it was common in our summer (Glenn Hauser, OK)
			Radio Klasik. RTM now running the 100 kW transmitter, instead of the 50 kW older, off frequency one (5964.7); singing "Radio Klasik" jingle; singing National Anthem (which was // 9835 and 11665); another singing RK ID and into music show. Earlier of course CRI totally dominated 5965 with a very big signal, but now that RK and CRI are so close in frequency, the usual het of 5964.7 is no longer heard. Thanks to both Dave

			Valko and Dan Sheedy for the frequency alert after their monitoring yesterday (Ron Howard, San Francisco at Ocean Beach, CA, USA)
5985,22	Dec3	1535	Myanmar Radio. "VOA Special English, words and their stories"; nose and ear expressions ("hard nose," "nose to the grindstone," "no skin off my nose," "right under your nose," etc.); poor-fair; heard during the English segment that started at 1530. Nice to find they still have this VOA program on Wednesdays! http://learningenglish.voanews.com/content/words-and-their-stories-nose-and-ear-expressions/1516907.html contains a transcript of today's program (Ron Howard, Asilomar State Beach, CA, USA)
5985,26	Dec5	2350	Myanma R, Yegu, Yangon Bamar ann, folkmusic, man and woman talking. (AP-DNK)
5985,265v	Nov28		Padauk Myay R. (pres), Myanmar, talks, better USB (Bernardini)
5985,269	Dec1	1415	Myanmar R from Rangoon, in sounding Burmese language, heard at 1415 UT Dec 1st. Before CRI Beijing starts 1600-1757 UT powerhouse in Swahili to East Africa... (wb via DXPlorer)
5985,3	Nov27	1315	Vocal pop music, very poor, but no doubt Myanmar Radio, 25 kW roughly N/S from Yangon per Aoki; no longer just a het upon Shiokaze at 1330-1430, which has moved to 5910. Are the Myanmarianese still alternating transmitters, sometimes on 5985.0 even? (Glenn Hauser, OK)
6010,11	Dec6	0250	La Voz de tu Conciencia, Lomalinda Spanish talk, hymns 25332 (AP-DNK)
6015	Nov13	0247	ZBC R. Came on the air at exactly 0247:43 w/apparent press feature abt Ebola by W in Swahili already in progress. Ments of Ebola, New York, Liberia, etc. Discussion w/reporter too. Ended at 0256, and into Afro Pop mx. 0257:41 usual slow time ticks, W annrc w/ment of ZBC, and ending w/ment of Koran. 0259 intro by M then Koran until 0304 followed by M in preaching style. 6020 CRI (Albania) OC came on late at 0310 and then blasted out ZBC R. right as the M ended at 0313:30. Good signal. (Dave Valko, Dunlo, PA)
6024,95	Dec6	2325	Red Patria Nueva only in LSB with mx, Disturbed by CNR which was quite strong on 6025,0. TN
6030	Dec1	1040	Unid Canada, Calgary some weak English mixing with dominant Spanish—Cuba. (MR)
6030	Dec4	1320	Calgary - CFVP relaying CKMX (AM 1060). Series of local ads. Recently has been especially good, with steady signal. Audio at https://app.box.com/s/ss7rccmirbkjxuby0i13 (Ron Howard, Asilomar State Beach, CA, USA)
6030	Nov11	1932	R. Oromiya Nice signal at 1932 w/slightly distorted HoA mx. 1937 M DJ came in, and back to HoA mx at 1940. Would have stayed with this to sign off but wanted to check the 60mb. (Dave Valko, Dunlo, PA)
6030	Dec1	1449	R. Oromiya (presumed). Fairly good signal; nice HOA music/singing; ToH news in vernacular. My local San Francisco sunrise at 1506 UT. Audio (edited) - https://app.box.com/s/iv00lvjk35mzxq108e76 (Ron Howard, San Francisco at Ocean Beach, CA, USA)
6030	Dec3	1438	R. Oromiya (tent.) 1438-1525 fade 3, 4, 5 Dec. Thanks to Ron Howard's tip, what seems to be Oromiya has been sneaking in the past few days w/ phone Q&A, dance pop/Whitney Houston: "I Will Always Love You"/HOA songs + some heavy percussion hip-hop, poss. news headlines @ TOH, :05 back to music/chat. Tends to get clobbered by AACi from CNR1 jammer on 6025 after 1500. (Dan Sheedy, Moonlight Beach, CA PL606 'barefoot')
6034,96	Nov24	1213	BBS (presumed). Sign off time varies a great deal; Nov 23 heard the usual brief indigenous music at 1213; at 1216 segment of repetitive indigenous singing; not sure when BBS went off the air; had been listening to unique Bhutan singing one minute and then the next I realized, about 1232, that the music was no long via BBS, but was PBS Yunnan by itself; poor. BBS, Nov 24, much better reception above weaker PBS Yunnan; program of EZL pop songs; at 1156 seemed to be ending program announcement in English (clearly hear "tomorrow"); certainly off at 1156*, leaving PBS Yunnan in the clear and with usual ID in English at ToH ("This is the Voice of Shangri-La, brought to you by Yunnan Radio") (Ron Howard, San Francisco at Ocean Beach, CA, USA)
6050	Dec1	2155	R. Nigeria, Ibadan?? Found w/African-accented EG rel. tlk pgm at 2155. 2200 promo for "Revelation Chapel International" services at "...Airport highway", followed by live M DJ "You've just listened to the 'Hour of Revelation'. Join us next Monday at 9:30 for the next broadcast. The ?? is next". Then into pgm "The Heathen Broadcast" to 2227. 2227-2230 what sounded like PSAs w/African-accented EG. Phone # given once. HCJBs OC was coming up strong after 2225, but could still tell there was a nxcast w/M annrc to at least 2241 w/ments of Zambia and Liberia. Fairly strong at t/in.

6050	Dec6	2156	ELWA. The UNID I noted on 1 December turned out to indeed be ELWA. Found it // 4760 at 2154 w/end of EG rel. pgm. 2156 nice simple EG echo ID by M (a little too heavy on the echo), then into "Oh Holy Night", and continuing w/more mx. Fairly good signal. Thanks to John Herkimer for suggesting this might be ELWA at the first reception. A video can be found at http://youtu.be/b1LTKjBt-QQ (Dave Valko, Dunlo, PA)

			Yes correct, heard here in southern Germany, some chimes and bells on both 6050 and 4760 reported as ELWA, at 2345-2347 UT Dec 6th. Lhasa Baiding Chinese is on top on 6050 kHz, but 4760 channel is clear the whole evening. (wb, Wolfgang Büschel)
6050	Dec6	2346	ELWA. Also heard here in southern Sweden // 4760with "Silent Night". A bit stronger signal on 6050 but disturbed by Lhasa on the same frequency. TN
6050	Dec4	-1508*	Salam FM (via RTM-Kajang) 1504-1508* 4 Dec. A rare day they stayed on past 1500..ML commentary on Qur'an, Salam FM jingles, a bit of recitation & off mid-chat. (Dan Sheedy, Moonlight Beach, CA PL606 'barefoot')
6050,027	Nov29	1110	Asyik FM?? Nothing but an OC on HCJB from 1110 this morning, so it was easy to hear the het on this freq. A little mx noted weakly towards 1200. Presumably Asyik FM on this freq. (Dave Valko, Dunlo, PA)
6055	Nov20	2056	R. Rwanda 2056:50 Promo/ID by M mentioning "...East Africa Connection ?? Radio Rwanda", then live W DJ w/rapid tlk w/ments of Rwanda, broadcast, Tanzania, ending with "...East Africa Connection ?? Bye bye and goodnight", and she was even singing, then back to mx. Fairly good. (Dave Valko, Dunlo, PA)
6055	Nov29	1501	Radio Rwanda, Nov 29. Live sports coverage as usual on the weekend; non-stop noisy, rowdy fans in the background; via long path; this preempts weekday news program; fair. Audio - https://app.box.com/s/5896re7g2g2ae8nm9j4y (Ron Howard, San Francisco at Ocean Beach, CA, USA)
6055	Nov27	1342	R. Nikkei 1 is totally in English as usual on Thursdays around now; axually a lesson with a clearly enunciated conversation, M&W discussing communities, child care. Good signal and even better on // 9595, at 1355 about the Yamagata Festival. Thankfully, this is a good propagation day and the local noise level is lowered as my RF neighbors must be away for some reason. So along with Shiokaze, we are getting more English now from Japan than via NHK (Glenn Hauser, OK)
6060	Nov23	1430	Sichuan PBS-2. Recently noticed that they give the recorded English ID not only at ToH, but also at BoH; "Nationality Channel. This is the People's Radio Station. SW 6060, 7225, FM 88.1" (Ron Howard, San Francisco at Ocean Beach, CA, USA)

6135	Nov11	1843	V.O. Islamic Rep. of Iran Tlk by M anncr at 1843 t/in 1845 fanfare and a few mx bridges mixed w/M anncr, then cont. tlk. Long remote rpt soundbite by M in FR. Then realized this was Iran, not Yemen. As long as Iran is here at this time, Yemen will be impossible. Too much pulsing UTE QRM from just below. (Dave Valko, Dunlo, PA)
6135	Nov27	1344	Poor signal with songs, then Korean talk by M&W over Juche jamming noise, so presumed V. of Freedom clandestine from the SOUTH; also an intriguing fast but slight SAH: would that be Madagascar or Yemen? Ron Howard says VOF has English lessons (presented in Chinese, why?) M-F at 1300, Sat/Sun at 1350 (Glenn Hauser, OK)

7120	Nov26	0332	At check, no signal from R. Hargeisa, as had been regular here around sign-on. It was off for a week or more, but Wolfgang Büschel has been hearing it again irregularly in the 13-14 UT period, as has Terry Krueger in FL (Glenn Hauser, OK)
7120	Nov22	-1401*	Radio Hargeysa. 1400-1401:31*. Presumably the one, as seasonally heard fairly consistently here every year since this one came on the air, though rarely with much audio coming through. Pulls the plug typically +/- a few seconds to a minute or so variable after 1400. Assuming they come back at 1500 as listed in some sources, propagation has never allowed it to be detected here by then. Not sure what path this one is taking to make it here. USB often needed if pigster activity is too close. (Terry L Krueger, Clearwater FL via DXLD)
			----- Hargeysa 7120 was usually a daily guest, heard easily here in Europe in past 2-3 years. Could be the working hours are much limited now ? But was not on air at least in the past let's say on Nov 15 to 18, when the 7130v station appeared. I never came across anymore of both, despite I didn't monitored these channels specially. And the short time lived appeared 'clandestine opposite' program of 51mins duration length from London anti-Bahrain TV station in Arabic according Tarek, on air from Friday/Saturday Nov 14/15 onwards, wandered mostly downwards on 7130.6 to 7130.22 kHz channel, latter disappeared also some 3-4 days before now. (wb via DXLD)
7200	Dec3	2230	Btw. Sudan's single tx seemingly repaired, now back, and reported by Thorsten Hallmann on Dec 3rd, 4th, 5th. Recording of 5th and 6th sent to Tarek at Cairo, - for help to identify. WRTH 2015 reported sign-off 21 UT, but heard the whole evening

after 2230 UT this Saturday, checked again of 7200 channel.
Schedule 1630-1930 UT on 9505.000 even frequency, suffered by TWR Manzini Swaziland powerhouse 9500v til 1902 UT s-off, so best window is 1902 til 1931 UT slot, then Omdurman TX move to 7200.000 or 7199.9995 precise, instead. Low modulation level especially the spoken parts. (wb, Wolfgang Büschel)

7200,104		1420	And at 1420 UT also on odd frequency Rangoon outlet on 7200.104 kHz. But nothing 'seen' today on usual spurious peak string outlets of ± 14.8 kHz. (wb via DXPlorer)
7254,94	Nov11	1918	V.O. Nigeria 1918+ Eg nx pgm w/W host and many remote report soundbites. Ments of Nigeria. Good signal, but like everyday, Hams were just blasting them. (Dave Valko, Dunlo, PA)
7265	Dec1	1212	UNID. Found the signal came on at 1212:58 and then mx about 5 seconds later which sounded subcont. W anncr at 1215 w/what could have been a ment of Pakistan but that's very very uncertain. More mx and tlk but not strong enough to get a clue. Definitely sounds Asian. India or Pakistan perhaps?? Not HLR as nothing was there on the Twente web rx. And not CNR2 as it signed on at 1230. http://youtu.be/jJg7kB-tKKM (Dave Valko, Dunlo, PA)
7269,987	Nov26	0837	Across Alaska and Pacific ocean west coast noted odd frequency signal from Mongolian sce at PBS Nei Menggu of Hohhot #839{acc Aoki list} tx station. At 0837 UT on Nov 26. Firedrake music from China mainland heard again today, on 7415 kHz at 16-19 UT on Nov 26 against US RFA Tinian Mandarin program co-channel. (wb, wwdxc BC-DX TopNews Nov 26)
7275	Nov14	1111	Xinjiang PBS 1111-1132+ phone-in talk pgm w/M host in Uyghur. Mostly serious-sounding but a lot of laughing at 1117. //9560. Both freq kind of weak with 7275 QRMed often by Hams and 9560 clear. Audio sounded a bit distorted (Dave Valko, Dunlo, PA)

CHINA 7269.987 Across Alaska and Pacific ocean west coast noted odd frequency signal from Mongolian sce at PBS Nei Menggu of Hohhot #839{acc Aoki list} tx station. At 0837 UT on Nov 26. Firedrake music from China mainland heard again today, on 7415 kHz at 16-19 UT on Nov 26 against US RFA Tinian Mandarin program co-channel. (wb, wwdxc BC-DX TopNews Nov 26)

CHINA: Voice of Jinling now heard daily on 6200, great signal!

Been monitoring this one for about a month now, and Voice of Jinling has been putting a strong signal into ECNA daily, featuring its infamous "double-sign-on" fake-out. Nominally *1245 but noted as early as *1230 and as late as *1250. PBS Xizang is on the fqy before Jinling, with a weaker, but fair, signal.

Jinling takes the air abruptly, cutting right into an ongoing transmission, but only stays on the air for no more than a half minute. By //ing with the Jinling webstream (<http://www.vojs.cn/>), was able to determine they are picking audio from FM 99.7 "Jiangsu Automobile Radio" drivetime show in CC.

After this half-minute "false start", without fail their signal leaves the air for a short period, revealing PBS Xizang again, but for no more than a half minute.

And then, finally, Jinling comes back on the air again and is then there to stay. Clearly, this s/on style is their audio engineer's process, whereby he turns on the xmtr, makes sure it is okay, turns it off and then turns it back on for good. Initial program heard is hosted by a YL giving either small news items or drivetime chat, with short musical bridges.

Typically a big, beefy signal, one of the best in the band at this time, and holds up well past TOH to around 1330 fade lately here in the center of the continent.

This is being heard widely throughout N America, from the East Coast (by my radio pals Dave Valko and John Herkimer) through to the West Coast (by the likes of Asian DX Ace Ronnie Howard).

Reminder: This is easy to QSL via the good offices of China QSL manager Jonathan Short: 2883752 (at) 163 dot com This station is **not** a central govt "People's Broadcasting Station" (PBS) operation, but rather a more local outfit -- owner of "Voice of Jinling" is "**Jiangsu Broadcasting Corporation**".

CHINA: Re: - Beibu Bay Radio with segments in English

Nov 24 - Yes indeed, it seems to be a daily feature. Today 1319-1324 with what actually sounds like a **language lesson**. In English, with summary of winners of this years "Hollywood Film Award" show (Nov 14), followed in Chinese talking about some of the English vocabulary used. So their format is to have a reading in English about some current event and then they discuss its meaning in Chinese.

BBR still has a lot of segments now with ads in Chinese, during their scheduled Vietnamese portion. (Ron Howard)

Eisregen in Österreich

Über den Eisregen in Österreich wurde in zahlreichen Medien berichtet, leider war auch meine Empfangsstation davon betroffen.

Sowohl die 78m lange Windom, die 250 mt Beverage Antenne und die Delta Loop Antenne wurden durch das Eis zerstört. Die Stahlitze der Windom war beispielsweise über die gesamte Länge mit einer 8 cm starken Eisschicht überzogen, selbst ein Aircell 7 ist abgerissen (die Stecker mit Schrumpfschlauch haben perfekt gehalten...). Mein Bauer meinte er habe so etwas in den vergangenen 50 Jahren nicht erlebt.

Bilder auf unserer A-DX Facebookseite und in meinem Blog <http://remotedx.wordpress.com>

eindrucksvolle Bilder! Da kann wohl kein Material mit umgehen ;-(

Ja, da kann man nichts machen. Aber außer etwas Material und Arbeit ist ja nichts passiert, man darf nicht unzufrieden sein. Kabel Kusch freut sich sicher!

Das mit den Sollbruchstellen ist so eine Sache. An meinem Standort - der ja absichtlich extrem frei gelegen ist - treten oft starke Stürme auf, da geht dann das wieder nach hinten los... Grundsätzlich ist ja alles solide aufgebaut, aber wenn man sieht wie der für die Beverage verwendete (doppelte!) BW-Draht an mindestens 8 Stellen einfach wie ein dünner Bindfaden abgerissen ist, dann braucht man auch nicht mehr darüber nachdenken ob man etwas falsch gemacht hat.

Jetzt höre ich eben nur mit der Mini-Whip und in zwei-drei Wochen wird wieder alles aufgebaut sein, hoffe ich. Außer dann kommt der Schnee....

Candip and Oromiya Comparisons. (Dave Valko)

We all know propagation is quite variable. Sometimes dramatically so. Today I went for a short micro-DXpedition and was reminded how changeable it can be. While I was at the remote site, coincidentally there was an R2 radio blackout with solar flares at 1825 and 1941 UTC. Europe wasn't affect too much, but Africa was. It afforded me an opportunity to make interesting comparison screenshots of R. Candip and R. Oromiya from the good conditions on 11 November to the blackout today. Below are the results. Quite a difference!! Especially Candip!! The Perseus was set up identically for each screenshot. The only difference from 11 November to 4 December was the 5 degrees in the BOG directions (75 degrees on the 11th and 80 today). Even the times were very close. Notice the sign offs of R. Candip.

Comparison of **5066,23 R. Candip**: top is 2014-12-04 (during R2 radio blackouts and a half hour after 2 solar flares), and bottom is 2014-11-11

Comparison of **6030 R.**
Oromiya: top is 2014-12-04
 (during R2 radio blackouts and a
 half hour after 2 solar flares),
 and bottom is 2014-11-11

Dave, thanks a lot for those pictures. /TN
