

# SHORTWAVE BULLETIN

Issue no. 1822, April 26, 2015.

Deadline e-mail next issue: 0800 UTC, May 10, 2015.

Lite försenad blir SWB idag. Vi har hållit på sedan i onsdags med att tömma sovrum med ett antal garderober för en total renovering. Den gamla heltäckningsmattan åker ut och ommålning av tak och väggar behövs verkligen. Nytt golv skall också läggas. Golvläggningen blev precis klart sent på söndags em. Sen kommer den stora och intressanta frågan - hur mycket av allt som proppats in under årens lopp skall kastas. Som tur är så är min andel betydligt blygsammare än frugans. Tom en del av ungarernas gamla trasor kom fram ur gömmorna. Nu är det med möda en stel kropp och stela fingrar klarar att hantera datorn. Hoppas det inte blir för många stafvel. Snart är det konvent och jag hoppas få se många av er där. Det finns en del att diskutera om vår hobbys framtid. Bl a skrotar tex Norge snart sitt FM nät och vem följer efter?

Keep on ....

## QSL, kommentarer, mm.

**Christer Brunström:** Jag läste med stort intresse dina kommentarer om SWB:s framtid. Även om betoningen alltid har legat på tropikbanden så har SWB alltid speglat kortvåg rent generellt. Idag finns inte mycket kvar på tropikbanden och det är inte längre möjligt att DX:a på samma sätt som för 20 år sedan då det fortfarande dök upp ny stationer med jämna mellanrum.

Det händer dock fortfarande mycket på kortvåg och då speciellt för oss som är programlyssnare - vid vissa tider på dygnet finns det så mycket att man inte vet vad man ska välja. För de DX:are som endast vill logga nya stationer på tropikbanden är det betydligt mera problematiskt.

För mig fyller SWB en viktig funktion och speciellt om rapportering ärt allsidig.

**25/4:** I Tyskland är det just nu säsong för sparris och under en vistelse i Görnitz passade jag på att äta schnitzel, kokt potatis med smält smör och rikligt med nyskördad sparris vilket var en sann njutning! När jag kom hem hittades ett QSL-kort från **Rádio Nacional da Amazônia 11780 kHz**.

**Lennart Weirell:** Några QSL att rapportera: **R Underground – 6324 e-QSL**, **R Caroline Rainbow – 6326 e-QSL** och **Enterprise R – 6950 e-QSL**.

**Stig Adolfsson:** Endast ett tips denna gång och dessvärre en oidentifierad stn. Har hört den i såväl Vallentuna som på fritidsstället i södra Dalarna, bäst på det senare stället pga en väsentligt lägre störnivå.

**Robert Wilkner:** Greetings from Florida. Enjoying some rain after three weeks of drought. Tropical radio conditions have been rather poor with a few exceptions. /Best 73s, Bob

*(Hope this nice antenna ensures a great signal!  
Thanks for the picture. /TN*

2450	Apr24	0930	Unid 0930 to 0940 Harmonic in English no ID 23 and 24 April (MDR)
2485	Apr22	1100	VL8K Katherine NT 1100 to 1110 yl in English at threshold level (Wilkner)
3205	Apr16	1152	NBC Sandaun (presumed). Heard an open carrier (no audio), so assume reactivated after being off for over a year; gone by 1218. Daily I have checked here and this is the first time in a long time that I have heard anything. Worth keeping an eye on. April 17, heard 3205 with open carrier (no audio), at 1119; sudden audio at 1202, which would correspond to the start of the NBC National News audio feed from the Port Moresby studios, which provides better and stronger modulation than the local Sandaun audio; sounded like the usual news in English, but very weak; 1207*; am still calling this "presumed," as no positive ID, but very confident it's them. (Ron Howard, Asilomar State Beach, CA, USA)
3205	Apr20	1056	NBC Sandaun. Confirmed it's them, with the best audio so far since reactivation; in Pidgin; 1101 the usual PNG bird call before the NBC news. (Ron Howard, San Francisco at Ocean Beach, CA, USA)
3289,9	Apr23	2345	GBC Voice of Guyana - 0939 "the next 25 dollars..... in a month" 0947 preacher "Give your life to Jesus " 14 April; 0940 Preacher "the Lord Jesus Christ" etc to 1000, recheck fading out at 1045 on 17 April, noted with poor signal at 2345 to 2350 on 23 April. (Wilkner)
3290	Apr17	2228	Voz da Guiana, Georgetown, inglês, texto; QRM de sinal de ponto a ponto. Carlos Gonçalves
3310	Apr17	2221	R.Mosoj Chaski, Cochabamba, quíchua, texto; 24442, QRM adj. de estação de ponto a ponto. Carlos Gonçalves
3310	Apr17	0940	Radio Mosoj Chaski, Cochabamba, fairly strong signal (Wilkner)
3324,88	Apr14	1256	RRI Palangkaraya. Frequent local singing IDs; program of EZL pop songs, many in English; "How Deep is Your Love?" by Bee Gees; fading up nicely for my local 1335 UT sunrise. Audio with IDs and Bee Gees at <a href="https://app.box.com/s/zx2t7al2uj0wimfixu9jstxak4cbak88">https://app.box.com/s/zx2t7al2uj0wimfixu9jstxak4cbak88</a> (Ron Howard, Asilomar State Beach, CA, USA)
3364,98t	Apr23	2355	Radio Cultura, Araraquara, SP 2355 noted with weak signal seems to have drifted frequency to 3365. (Wilkner)
3365	Apr16	1403	NBC Milne Bay (presumed). Heard open carrier; by 1411 had some faint audio; very weak; probably NBC (Ron Howard, Asilomar State Beach, CA, USA)
3365,1	Apr17	2219	R.Cultura, Araraquara SP, noticiário A Voz do Brasil, c/ a 2.ª parte às 2225, como é hábito; 35332. Carlos Gonçalves

3929,9	Apr16	2120	Não identif., música pop; 45433. Carlos Gonçalves
3945	Apr16	1401	R. Vanuatu (presumed). Nicely above threshold level audio; heard immediately after "RN2" Japan went off the air, playing the often heard song "You Are the Only One," which was again played at 1415; so was their normal long playing musical loop with no announcements of any kind. Guess we will have to wait for another tropical storm before they again have any actual announcements (Ron Howard, Asilomar State Beach, CA, USA)
4055	Apr24	0935	Radio Verdad 0945 male chorus with religious music 5-5-5- strength as local station 17 April, 0935 "banda metros ...onda corta. ID on 24 April (Wilkner)

4409,9			Unid Bolivia 2320 to 2330 carrier with poor audio 19 April (Wilkner)
4410-	Apr24	0058	since RSC is in so well on 6134.8 and Daqui in so well on 4915-, it's time to look for something more exotic. And I do detect a JBA carrier here, which matches Carlos Gonçalves latest report from Portugal of: ``4409.8 R. Eco, Reyes, 2325-2339, 19/4, castelhano, canções; 45332`` (Glenn Hauser, OK)

4747,6	Apr17	2247	R.Huanta 2000, Huanta, castelhano, texto, canções; 45343. Carlos Gonçalves
4750	Apr17	-1900*	Dunamis BC, Mukono, canções afric.; 25321. Um pouco melhor em 19/4, pelas 1820. Carlos Gonçalves

4750	ibl	1815	UNID. Här hörs fortfarande en oid stn med EE och tydligt religiöst program. Alltid mycket svag, knappt över brusnivån. Stängning varierar mellan A1820-1920. Enda alternativet är väl Dunamis, Uganda eller vad ? Frekvensen ligger något tiotal Hz under 4750 men jag kan inte mäta just nu. SA ( <i>Se ovan, är ganska säkert Dunamis. /TN</i> )
4750	Apr20	1235	Bangladesh Betar - HS, Monday, April 20. Usual SAARC (The South Asian Association for Regional Cooperation) news bulletin in English; poor, as was mixing with CNR1 (Ron Howard, San Francisco at Ocean Beach, CA, USA)
4755,54	Apr15	1200	PMA-The Cross Radio. Extended broadcast; heard before 1200 and as usual was off the air when checked shortly after 1200; so surprised to find they had turned the transmitter back on by 1228; on 24 hr.?: 1300 "It is midnight and this is the Cross Radio, 88.5 FM"; 1330 "The Cross Radio is a Ministry of Pacific Mission Fellowship. Find us on the web at radio dot pma pacific dot org"; still on at 1427 (Ron Howard, Asilomar State Beach, CA, USA)

4789,92v	Apr17	0900	RRI Fak Fak, 0900, blobmitter here with extremely distorted audio, first heard day prior as unID but noted again today with RRI news, very unpleasant copy and slowly drifting up towards nominal. Past re-activations of this have always been brief (only a day or two) with hugely distorted audio. Funny that this one cobbles the xmtr back to air about the same time Peru reappears. David Sharp NSW. Update: tried for this again at 0830 18/4 and had nothing. Not even Peru heard. (DS)
4790-	Apr15	1007	I happen to awaken so check for R. Visión. Sounds like sermon in echoey chamber, best heard yet vs CODAR but still insufficient, and carrier still wobbling badly: maybe about to self-destruct again? For more, see CRV website: <a href="http://www.cadenaradiovision.pe/">http://www.cadenaradiovision.pe/</a> under frecuencias choose Lambayeque to find 4790 plus two MW (Glenn Hauser, OK)
4800	Apr10	1350	CNR1 (Geermu). Surprised to find them beating "The Bonker" today, //6125, etc. (Dan Sheedy)

4869,9	Apr22	1100	(tent) RRI Wamena, Propinsi Papua 1100 to 1120 some audio looking for parallel found 4749.94 carrier only (Wilkner)
4869,93	Apr23	1050	RRI Wamena, 1050-1110, usually this is nothing more than a carrier, but much better this morning w/ Indo mx and cmntry both audible at times despite some QRN, had a very weak signal on 9680, until 1100 s/on of R Taiwan Intl, which may have been // 4870 but cannot say w/ certainty (XM)
4875,09	Apr15	0025	R Dif. Roraima, Boa Vista, RR Portuguese ann, Brazilian songs 35232 AP-DNK

4876	Apr15	1012	talk in assertive Brazuguese, music, probably their version of the super-hype-voice-actors we hear from Mexico; very poor signal, but presumably Rdif Roraima, Boa Vista. Barely awake, did not nail the frequency vs 4875, but no het, and nothing on 4885 from either ZY at this late hour. Note: 4876 is not Acreana as per recent Pavanello log: that`s one of the 4885 stations (Glenn Hauser, OK)
4884,97	Apr17	0851	R. Cultura, threshold signal and presumed with lengthy talk by a man. David Sharp, NSW
4910	Apr18	2208	VL8T, Tennant Creek, inglês, canções, texto; 25321; sinal melhor em 19/4, pelas 2150. Carlos Gonçalves

4915-	Apr24	0101	slightly on the low side compared to WWV, best 60m S American signal is here (nothing from Pará 4885, off again?) with rock music past 0100; 0101 quick announcement starting with beeps, copied only this in Brazuguese, ``1,230``, and back to vocal romantic music. 1230 is enough to match it to 10 kW R. Daqui, Goiânia, ZYF691, whose AM side per WRTH 2015 is indeed 1230, ZYH756 --- rather than the other 4915 Brazilian, 25 kW R. Difusora Macapá, unless it also happens to be on MW 1230. But not among the many ZYs listed there; finding where it really is on MW is out of the question among pages and pages of stations, and the WRTH-listed website, <a href="http://difusora.ap.gov.br">http://difusora.ap.gov.br</a> does not connect. Guess what, it requires a www. and RDM is on 630 AM, with no mention of SW/TW. More about the latter which I did *not* log this time: <a href="http://www.difusora.ap.gov.br/?pagina=117">http://www.difusora.ap.gov.br/?pagina=117</a> lengthy history of the station, mentioning that from 1957 to 1964 it was only on onda tropical, but never states the frequency! (Glenn Hauser, OK)
4915	Apr17	2259	R.Daqui, Goiânia GO, A Voz do Brasil, após o que emitiram a ID complementada c/ a lista das freqs. e anúncios de programação; 45433. Carlos Gonçalves

4950	Apr14	-1400*	AIR Radio Kashmir, Srinagar (presumed). A rare day with actual audio; Srinagar sunset 1331 UT and my local sunrise at 1335 UT, for greyline reception which resulted in the strongest audio heard so far; 1357 tone to begin ad, with ending tone at 1400; no audio after 1400, just open carrier. Confirms to Jose Jacob's website ( <a href="http://www.qsl.net/vu2jos/">http://www.qsl.net/vu2jos/</a> ): "On at around 1330- 1400 only" (Ron Howard, Asilomar State Beach, CA, USA)

7200	Apr14	1203	CNR1 jamming // 6125; mixing with UNID station (not Myanmar) which seemed to also be in Chinese. The UNID was not SOH, based upon signal strength and program format. Thanks to Ralph Perry's alert while I was away on vacation. Not listed yet with Aoki. Probably both stations off at 1300 (Ron Howard, Asilomar State Beach, CA, USA) <i>Thanks to Mauno Ritola for this info: "It's for RTI in Chinese 1000-1300 per thei r A15 schedule." Ron Howard</i>
7200	Apr14	1645	Unid East African on 7200. Very nice to see Eritrea back on HF. Surely this will evoke Ethiopian counter broadcasts and good music for for all. Brandon Jordan via DXLD ----- I just listened to a Signal on 7200 with HOA music and talk (1645-1720 April 14), pos- sibly in Tigrigna. No match of a Clandestine or Target station in Eibi. Who else might it be? Reactivated Eritrean was on 7175, not //. No match also with VoTR on 5950. Sudan used 7200 recently, but is now as scheduled on 9505. So another reactivated transmitter from ERI? Or ETH? No chance after 1720, as Iran of course dominating. 73, thorsten Hallmann via DXLD ----- Yes, this sounded very much like the version of the anthem they use on the Eritrean national radio (the one found on <a href="http://intervalsignals.net">intervalsignals.net</a> recorded from Radio Bana ist quite a bit different). I noted the transmitter on 7175 was already off just after 1800 - in contrast to 1830 recently. This seemed to be the pattern also in the past when they had both channels on SW: 7175 off at 1800, the other one [7100, 7205] at 1830 or later, except for a short while in-between when they had both channels until 2000-- . 73, thorsten Hallmann via DXLD ----- At 1830 closing with Eritrean National Anthem. 73, Jari Savolainen via DXLD

7324,96	Apr21	0900	Wantok Radio Light. Nice reception and fairly readable. Thanks to input from Bruce Churchill that April 22 had even better reception! My highlights: 0900 - "Good night Papua New Guinea"; NBC National News in English with item about national day of mourning in Ethiopia. 0912 - "Wantok Radio Light would like to thank the Natio- nal Broadcasting Corporation for allowing us to relay . . ."; ad for savings accounts at a bank ("Are you retiring soon?"); PSA ("Speeding kills . . . never forget road safety"). 0918 - In Pidgin; ID, time check and list of frequencies; religious songs in English. 0930 - "Ninety-Nine is happy to bring you Focus on the Family. Ninety-Nine is a company that . . ."; into the Focus on the Family show with interview with Lori about her programs to save horses and working with abused children. 0956 - Another promo for the company "Ninety-Nine." (Ron Howard, San Francisco at Ocean Beach, CA, USA)
7325	Apr21	0740	Wantok Radio Light with Fair to Good signal lvl from 0740 tune on both 4/21 and 4/22 - peaking 0800 to 0900, with 4/22 being the better reception (almost armchair lvl!). On 4/22 signal was as good as I have hrd in this time slot. Overcome by CRI carrier at 0957. Hrd both from Perseus site near Edmonton (VE6JY) and home QTH (latter was severely QRM'd by splatter from Brother Stair on 7315 but otherwise signal lvl similar to VE6JY site). Syndicated pgm at 0745. Brief drum IS and NBC news at 0800. News at 0800 was in three languages - EE at 0900, and two vernaculars at 0805 and 0810 by three differ ent male ancrs. Station ID's "Wantok Radio Light" at 0816 and 0816.5 by man fol by praise vocal. Time hack of "20 minutes past 6" by man at 0820. Anmt about FM 93.9 at 0821 fol by another praise male vocal. Bluegrass vocal at 0830 fol by short inst music. "Fresh Cut"

syndicated pgm from First Assembly of God at 0834. Programming was the usual mixture of praise music and syndicated programming. Much better in this time slot as twilight gray line passes PNG than at the brief 1400-1430 window where signal lvl here in Southern California is marginal at best. Bruce Churchill via DXPlorer

## Station news

**AUSTRALIA:** Hi folks, I recently received official word from Craig Allen that he has sold his Sydney SW licences & SW equipment to Peter Tate, Qld, (looks like licence transfer happened late last year?) who has held a number of narrowcast radio licences for a long period of time (mainly x-band).

So that's the end of Ozyradio on SW (maybe Vintage FM as well on SW). It's not presently known what Peter intends to do with his new HF licences. Peter has had an unused SW licence on 2368.5kHz in Qld since the year 2002.

To those few issued with specially designed (3 designs) Ozyradio e-QSLs, enjoy them - they're rare.

Ozyradio's radio first broadcasts on SW began officially from Schofields, (north western Sydney) on 3210 & 5050kHz from a block of land filled with tall eucalyptus trees. 3210 used an inverted V dipole, a telegraph pole supported the apex & 5050 was a NVIS arrangement consisting of a horizontal dipole & a reflector wire running along the ground underneath. The Eucalypt trees supported the antennas & these were tensioned at the ends with large plastic chemical containers filled with water. The txers were housed in small metal clad building resembling something akin to a shipping container. The site was secured with security mesh fencing & fiercely guarded by a couple of goats and bees ;-)

I recall that one of the txers was the ex ARDS SW txer from Humpty Doo, NT.  
(Ian Baxter via DXLD)

*I managed to catch them on 5050 a few years ago and got them verified.seems to be a rare verification now. /TN)*

Señores:

Para su información y consideración, adjunto el Chasqui DX PFA Abril 2015

Lamentablemente este mes no ha sido bueno para mi DX, mucho ruido y dificultad, no han entrado como en otras oportunidades las estaciones de Brasil. Bueno otro mes era mejor.

La recepción la he efectuado del 31/03 al 19/04 en compañía de mi sabueso Icom IC R72 acompañado del Mizuho KX-3, MFJ-1025 con antena auxiliar, una antena de hilo largo de 12 metros y una antena loop.

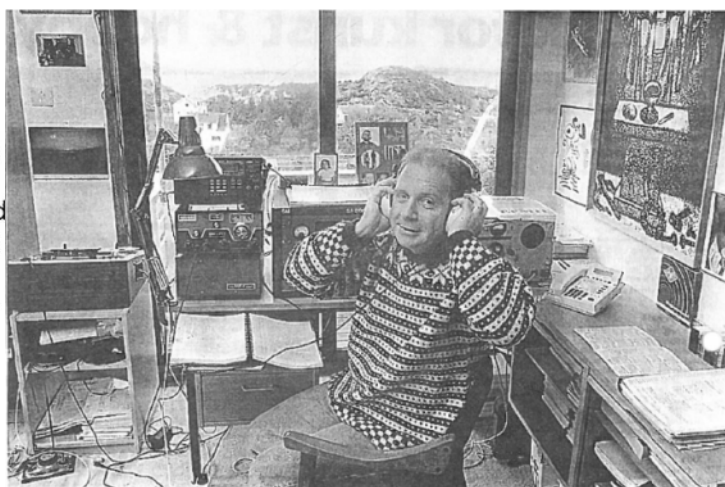

Esperando sea de su agrado.

Saludos, Pedro

## Radioaktiv kapellan

Ännu mer om Svenn Martinsen .....

Som så mange andre ungdomar på 60-talet, tjuvlytta Svenn Martinsen på Radio Luxembourg for å få med seg dei nyaste popmelodiane. Sidan har kapellane i Fjell berre høyrte meir og meir på radio, og har surfa på lydølga frå små og store stasjonar over heile verda.

## LADXG - DX Foredragene fra Letohallen !

**LA2XPA, Rolf Torvik** holdt en fengende presentasjon rundt hans imponerende remote-oppsett og hans DX-øy Kalvøya på Smøla.

Rolfs foredrag dekket et bredt spekter av gode løsninger som er til inspirasjon for mange, om det nå er hans antenneoppsett for 160m, 80m, beverages, SDR teknologi, intranettet med 5GHz samband, video-overvåking osv.

Her er det så mye matnyttig informasjon slik at 60 minutters foredragstid egentlig var for kort. Her ønsker vi, og ser frem til ytterligere fordypning ved neste årsmøte !

Rolf har tatt i bruk hele øya - bildet nedenfor viser layout for hans mange beverage antenner.

Här kan du läsa hela Rolf Torviks presentation :

### Eton Satellit: En meget, meget interessant ny mottaker.

**En meget, meget interessant ny mottaker.** Skal ifølge omtaler ha en meget følsom og god RDS-funksjon, og dekker OIRT-båndet i tillegg til vårt normale FM-bånd. Har fått meget gode omtaler, som sier at dette er en top of the notch portabel mottaker for SW/MW og FM. Radioen er designet rundt det berømte Si4735 DSP-chipen, noe som gir meget god følsomhet og selektivitet. Omtaler, blandt annet på eham.net, forteller at Eton Satellit er veldig god på SW/MW og mer eller mindre fantastisk på FM-båndet. God følsomhet og DSP-filtrene samt RDS gjør at jeg har bestilt meg en slik, og jeg gleder meg til sommerens portable "FM-forlystelser" litt lenger sør i landet. Omtale finner dere her:

### Maybe no news at all

**I got a very nicely stamped envelope**, with lots of pleasant material inside, from Adrian M Peterson (who wrote: "Dear Bjorn, Keep going! I am 84. Greetings from Adrian") on Adventist World Radio yesterday. There were several specially stamped cards from the last days of transmissions from AWR in Kigali, Rwanda.

The letter included the results of the AWR "Focus on Asia" 2014 Annual DX Contest. Maybe this is no news at all, but I want to tell you that hour very good and honoured friend Ullmar Qvick was awarded "The World Winner for 2014" in the contest which was dealt with "Rare, Unusual, Unique QSLs".

Ullmar presented his entry in a neat and colorful style with some very interesting QSI stories.

This is meant as a big "hurray" and congratulations to Ullmar for his award!

Well done!
