

SHORTWAVE BULLETIN

Issue no. 1863, Nov 20, 2015.

Deadline e-mail next issue: 0800 UTC, Dec 4, 2016.

Hell all, This issue is a little late. All day busy with other commitments and home late. As usual a lot of items in the log. Unfortunately many of them are repeated from issue to issue.

The last days more activity from Asia on MW. A few JJ stations have been heard down here eraly in the afternoon.

As usual nowadays no entry from me in the SW log. I haven't used Peseus own software at all. All listening on MW is with Jaguar, the number one software.

As an attachment in last issue I had planned to include page 9-12 of the old Shortwave table. But better late than never so here you find it.

Now we are waiting for the new WRTH which soon will be distributed.

Keep on

=====

QSL, kommentarer, mm.

Giampiero Bernardini, Milan, Italy. Dear Thomas, here few tips made with the old Drake R7 and the "new" SDR Elad FDM-S2 here in Milan. I could hear again Radio Panamericana on 6105.34 kHz thank to a football game, live broadcast. It was nice.

Ullmar Qvick: Propagation has been erratic lately, more often down than up. Southern Africa and Oceania however have been less affected by the disturbances.

QSLs received since last time from **FEBC Bocoue**-9940 and 12095 e-cards and e-letters, **NHK via Vatican**-9710 card and sch, **CNR1 Lingshi**-17580 e-card and e-letter via CRI, **TWR Africa**, **Manzini**-9500 and 9940 e-cards and sch, v/s Lorraine Stavropoulos lstavrop@twr.org

That will be all for today - You can quote me from NORDX on future BBC WS expansion if you like..

Lennart Weirell: DX-Philately – Stamps of Radio Stations by Continents and Countries.

The 3rd edition of DX-Philately – Stamps of Radio Stations by Continents and Countries is now available. It is a Word-file and contains listing of about 400 DX and radio related stamps from 125 radio countries. NEW HISTORY MATERIAL AT < <http://www.ontheshortwaves.com> >

There was always something exciting about shortwave test transmissions. They were a special connection between station and listener where the station told the listener explicitly that it wanted to hear how its signal was doing. Under "DX History//Recordings" we have posted four of these tests from times past. They are:

(1) An early test broadcast from Africa Number One, Moyabi, Gabon, 500 kw., October 1, 1979, 21495 kHz., 1050 UTC. This includes the announcement of the drawing [01:25] where they were offering a Peugeot (won by someone from Ivory Coast).

(2) A multi-lingual ID for a Radio Japan test broadcast via Moyabi, July 8, 1983, 15405 kHz., 0515 UTC [English 01:19, 03:31].

(3) Adventist World Radio, Forli, Italy, with a special DX broadcast to North America using 2.5 kw. on 7240 kHz., September 28, 1997, 0338 UTC.

(4) And Radio Mediterranean, Valetta, Malta, 5960 kHz. January 15, 1983, 2206 UTC. To get the most from these recordings, boost the treble on your equalizer.

5980	Nov10	2328	Radio Chaski, Urubamba, comments. Very weak, barely audible. (Méndez)
5985.0	Nov14	-1223*	Myanmar Radio. Live sports coverage; preempted regular shows; possibly a TV audio feed as a minimum of commentary; loud sound of the crowd in the background; suddenly off. Was off the air for about 20 minutes and then back with regular programming. Had to listen to this in LSB, due to anomaly QRM from Radio Marti on new 5988.0 . This was also noted today by Dave Valko at 1157. Hope Marti is only here for one day! (Ron Howard, San Francisco, Calif., USA)
5986.03	Nov10	1228	New frequency of 5986.03v . First noted at 1228, Nov 10; by 1345 seemed exact 5986.00; in vernacular with indigenous music; ex: 5985.00; mostly fair. Audio feed testing via Youtube, from Japan, at http://goo.gl/yHo8Hb , of the new frequency of 5986.00. Currently he is testing with different SDR radios. New 5986.03v. My audio at http://goo.gl/zA3Bjp (Ron Howard, Calif., USA)
5988	Nov14	1157	R. Marti Found off-freq here w/current Pop song. 1159 W w/contact info in SP, then M anncr w/usual full ID anmnt, then promo/ID at 1200, and into pgm w/M and W host. Extremely strong of course and jammer on 5980 having no affect. 6030 was still on freq. Here's a link to a Youtube video just posted. https://youtu.be/45u5JWou500 (Dave Valko)

Hi Dave, Yes, and causing QRM for Myanmar on 5985.0. Had to listen to them in LSB. 1155-1223* UTC, Myanmar with live sports coverage; preempted regular shows; possibly a TV audio feed as a minimum of commentary; loud sound of the crowd in the background; suddenly off. Was off the air for about 20 minutes and then back with regular programming. Hope Marti only on 5988.00 for today. Ron Howard, San Francisco

6090.00	Nov10	0430	ETH Voice of Amhara State, Geja Jewe Amharic talk , Horn of Africa music, QRM R Bandeirantes // 11925. (AP-DNK)
6090.05	Nov7	0731	Radio Bandeirantes, Sao Paulo, comments. // 11925. (Méndez)
6105.3	Nov12	0105	no signal, unlike 24 hours ago from R. Panamericana when there was a stupid ballgame. Their other programming obviously isn't worth broadcasting on SW (Glenn Hauser, OK)
6105.34	Nov11	0100	Radio Panamericana, Bolivia, football live, fair (Bernardini)
6105.34	Nov11	0111	S8 signal in Spanish, sounds like enthusiastic fútbol coverage, including a gooooooal at 0116, frequent breaks for ads. Why isn't there a Spanish word for such an important concept?? Some splatter from 6115 WWCN, so LSB tuning helps. Surely it's R. Panamericana, La Paz, in one of its rare reactivations for significant silly ballgames. I last logged it March 4 at 0153 on 6105.33, and Bob Wilkner reported this: `6105.3 Radio Panamericana, La Paz seems active occasionally when relaying Bolivian sports events. in the local evenings 2300+ (Robert Wilkner, Pómpano Beach, Florida, 746Pro, Drake R8, NRD 525, Sony 2010XA, circa March 26, cumbredx yg via DXLD)` ----- Can't be sure on this weak signal but maybe a tournament or championship involving Brasil and Argentina, as I soon find more game coverage, maybe same one, on 6134.8 RSC, R. Rebelde, and RNA, see BRAZIL and CUBA (Glenn Hauser, OK)
6110.00	Nov14	0400	R Fana, Addis Ababa Amharic conversation (AP-DNK)
6119.958	Nov11	0722	very poor signal with flutter, music, where I normally hear nothing. Presumed Super Rádio Deus é Amor, São Paulo, which may not run overnight, but would be on after 5 am local. Also may be very irregular. Brazilian DXers have been complaining about it lately producing spurs all over the 49m band, but far too weak here to hear any of those. Searching my archive on 6119. I have to go back 33 months to find a log closely matching this off-frequency to the low side: `6119.980 R. Globo/Super R. Deus é Amor, B, 22-02-14, 0654, Port. Speech by male about Brazil, ID Deus é Amor, 33222, São Paulo (Maurits van Driessche, Belgium, HCDX)` (Glenn Hauser, OK, DX LISTENING DIGEST)
6120	Nov4	2232	SRDA, São Paulo SP, propag. relig. e canções. (Carlos Gonçalves)
6120.0	Nov14	0333	poor signal in Farsi, i.e. AWR via AUSTRIA, this semi-hour only: and also a het on low side from SRDA. Per HFCC other competitors are CNR Urumqi in Uighur at 2330-0300, and TWR Swaziland at 0501-0700 in English (Glenn Hauser, OK)
6134.8	Nov11	0121	Spanish game coverage, could even be // 6105.34 Panamericana? Goooooals are yelled a few seconds apart, so likely same football game if not same coverage (Glenn Hauser, OK)
6134.8	Nov11	2337	Radio Santa Cruz, Santa Cruz de la Sierra, "Radio Santa Cruz saluda a sus oyentes, acompañenos en Radio Santa Cruz", "Por Radio Santa Cruz", "El desarrollo regional comunitario...". (Méndez)
6134.82	Nov11	0125	Radio Santa Cruz, Bolivia, talks, fair in USB to avoid Aparecida (Bernardini)
6145	Nov17	1300	New frequencies for Shiokaze/Sea Breeze via Yamata (Japan). New 6145 . Finally moved away from ex: 7410, where they had very strong QRM from CRI; now on 6145 they have light QRM from PBS Qinghai; Shiokaze schedule 1300-1400; noted closing info at 1356, in English; off at 1400*, at which time I heard RTI start up, along with CNR1 jamming, which completely blocked PBS Qinghai after 1400. (Ron Howard, Calif., USA)
6160	Nov7	2239	CKZN, São João da Terra Nova, inglês, discussão sobre a campanha eleitoral norte-americana. (Carlos Gonçalves)
6160	Nov11	0120	CKZN CBC, St John's, Canada, talks, fair (Bernardini)
6160	Nov6	0640	Radio Boa Vontade, Porto Alegre, religious comments. (Méndez)
6169.99	Nov11	1028	V.O. Korea OC at 1028, then IS/ID by M and W routine at 1030, and usual opening w/orch. at 1031. (Valko)
6180	Nov4	1027	R.Nacional da Amazônia, Parque do Rodeador DF, texto. (Carlos Gonçalves)
6180	Nov4	2302	Radio Nacional, Brazil, reports, good //11780 fair (Bernardini)
6180.03	Nov14	0410	R Nacional da Amazônia, Brasília, Portuguese ann, nice Brazilian songs, ID: "Rádio Nacional" (AP-DNK)
6185	Nov20	-0600*	Radio Educación, Ciudad de México, "Boleros" and others. (Méndez)

6327.1	Nov6	1519	R.Joey_HOL, música pop'. ID via imprensa DX. (Carlos Gonçalves)
7120	Nov8	-1400*	R. Hargeisa. HOA music/singing; off after National Anthem (marching band); poor. My audio of NA at http://goo.gl/t6pkgS . My local sunrise was at 1439 UT and Hargeisa sunset was also at 1439 UT (5:39 PM local time in Hargeisa) (Ron Howard, Calif., USA)
7120	Nov7	1822	R.Hargueisa, Hargueisa, texto, entrevistas. (Carlos Gonçalves)
7146.55	Nov8	1407	VOBME (presumed). Stronger than 7175; with HOA music/singing; not // 7175. My audio of HOA music/singing at http://goo.gl/RWsoht . Back to former frequency of 7175.0 , VOBME (presumed), ex: 7185, on Nov 8 from 1407 to 1429; almost fair; mostly HOA music/singing and on air phone call. 7185 silent. My audio of phone conversation at http://goo.gl/7EvK9G . Neither frequency jammed. Recently noted both 7146.55 & ex: 7185 were hit with strong white noise digital jamming (DRM noise?), consistently at 1501, as if on a timer (Ron Howard, Calif., USA)
7146.55			VOBME 1 (presumed), 1411, Nov 17. HOA music/singing; not // new 7180; both almost fair. New frequency of 7180.0 , VOBME 2 (presumed), ex: 7175/7185; Nov 17, at 1411; mostly HOA music/singing; not // 7146.55; both almost fair reception (Ron Howard, Calif., USA)

Station news

AUSTRALIA. Unique Radio. Hi Guys, Shortwave (**3210KHz**) from Halls Creek NSW broadcasts have been suspended from November 13 2016 due to a QTH relocation soon to be advised.

The new QTH / transmission point might be from a site either north or south west of the current transmission site. This will depend from where the owner ends up, location wise! Will advise when Unique Radio is back up and running. (73, Tim Gaynor, Owner / manager Unique Radio, Halls Creek, NSW, Australia via DXLD)

TAIWAN. Stream of Praise Music. Igår fick jag in en kinesisk station precis innan den stängde 2130z på **7530 kHz**. Detta stämde med Stream of Praise Music Ministries som har sitt HQ i Kalifornien och en filial (samt sändaren?) på Taiwan. Jag har googlat, hört deras musik via YouTube (smakprov nedan) och tittat på Facebooksidan.

Rent religiösa sändare störs uppenbarligen inte av de kinesiska myndigheterna (jämför FEBC och Radio Veritas) och mottagningen var riktigt bra. QSL tycks inte förekomma, men jag ska göra ett tappert försök genom att uppvisa ett (genuint) intresse.

Neue HSDR-beta 2.75 beta1 2016-11-01 + Diverses

Nach genau 3 Jahren Pause wurde eine neue HSDR-beta Version veröffentlicht. Es ist schön zu sehen, dass der Programmierer erneut aktiv ist. Die neue Version hatte ich einfach über die alte d'rüberinstalliert. Alle alten Einstellungen und die Zusammenarbeit mit dem csvUserlistbrowser blieben erhalten.

Die entsprechende Information erhielt ich via DIGIDX #35:

http://www.rhci-online.net/radiogram/VoA_Radiogram_2016-11-05.htm#HSDR

Im Gegensatz zu den neuen Aktivitäten bei HSDR äußerte sich der Programmierer von STUDIO1 bezüglich der Anfrage: [studio1] Re: Any update for Studio1 ?? wie folgt:

".....Hello Francesco, as previously said in post #3200, Studio 1 development is no more my day job; so at the moment I can't predict when a new release will be issued. Now I have a day job that takes most of my time and there is nothing I can do about it. I'm still trying to reorganize my life so things could change as I find more time for other things like software development. 73 Sandro....."

STUDIO1 ist weiterhin schwach aufgestellt an den Positionen: Aufnahme-Zeitplaner + Import aktueller Listen.

Bei der ersten Problemstelle kann man sich sehr gut mit HSDR behelfen - perfekte Kompatibilität.

Die zweite Schwachstelle bügelt Dank perfekter Zusammenarbeit der csv-Userlistbrowser aus, quasi als third-party-vendor.

Sender & Frequenzen 2017

Liebe A-DXer,

Übernächste Woche erscheint die neue über 600 Seiten umfangreiche "Bibel" für Freunde des Fernempfangs - das Jahrbuch Sender&Frequenzen 2017.

Der ADDX Verlag bietet wie hier in der Liste bereits erwähnt dieses Jahr erstmals eine direkte Bestellmöglichkeit und einen sofortigen Versand am Erscheinungstag per Briefpost. So bekommt man das Jahrbuch am schnellsten Weg und unterstützt die Macher direkt - eine klare Empfehlung von mir!

<http://www.addx-verlag.de/bestellung.php>

> was spricht eigentlich gegen (oder auch für) das WRTH als "Bibel"?

Dafür spricht der enorme Informationsgehalt des WRTH, da hier Mitarbeiter in aller Welt zuarbeiten. Dadurch kann man Lokalsender oder Programme aus Peru, Nicaragua oder Japan sicher besser finden. Aber das WRTH ist mehr ein sehr gutes Lexikon denn eine „Betriebsanleitung“ und hat inzwischen auch einen stolzen Preis.

Um ein solches echtes Jahrbuch wie Sender&Frequenzen beneiden uns sicher viele Hörer weltweit. Wo findet man sonst nach Ländern sortiert aktuelle und nachvollziehbare Empfangstipps und Hinweise zur tatsächlichen Empfangbarkeit auf Kurz- und Mittelwelle und Internetradio und nicht nur Frequenzlisten, dazu noch Adressen und einen umfangreichen Leseteil. So ist für mich Sender&Frequenzen ein Jahrbuch welches für Kurzwellenhörer und DXer ebenso

hilfreich ist wie für den Funkamateure der vielleicht nur einmal im Monat einen Rundfunksender empfängt und nicht das Wissen unserer Liste hat - das ja auch wieder ins Buch einbezogen wird.

Das WRTH und auch der sehr empfehlenswerte Klingenfuss Shortwave Guide bieten wirklich gute Informationen, aber als „Betriebsanleitung“ neben dem Radio ist eine aktuelle Sender&Frequenzen Ausgabe für mich auch 2017 die erste Wahl. Natürlich kann man „im Internet“ auch vieles finden oder hier in unserer Liste oder dem dx-unlimited Forum seine Informationen beziehen, aber kompakter und praktischer als in Sender&Frequenzen wird man vieles nicht finden.

PS: Ich kenne Mitarbeiter und auch den Inhalt des aktuellen Buches, bin aber sonst in keiner Weise daran beteiligt, mir liegt nur daran dass es S&F auch in Zukunft noch geben wird, darum unterstütze ich dieses Jahrbuch im Rahmen meiner Liste.

DSWCI AGM

Kalundborg, Denmark --- 2016 marks the 60th Anniversary of the Danish Shortwave Club International (DSWCI), but as well as celebrating this anniversary, it is also tinged with great sadness in the DXing world, as the DSWCI at its 2015 Annual General Meeting took the decision to close at the end of 2016.

Jonathan Marks has an album on Flickr with many photos of the meeting and Kalundborg:

[NORDX] Stor utökning av BBC World Service

Ganska oväntat kommer nyheten - förmedlad av World Radio Handbooks Facebooksida - att BBC fått ett stort anslag för att utöka World Service med 11 nya språk, väst- och östafrikanska samt indiska - och att sändningarna till Ryssland och på engelska kommer att få mer sändningstid.

Detta gäller säkerligen både radio- och webbsändningar.

Det ska bli intressant att se en eventuell reaktion från Ryssland och USA. Voice of Russia har ju upphört och ersatts av en ren propagandawebplats, Sputnik News. VOA är bara en skugga av sitt forna jag.

CRI dominerar kortvågen.

Det brittiska utspelet är också intressant då det visar ambitioner helt utanför den tidigare EU-nivån.

Northern Star Media Services AS: own Facebook page

Dear radio friend,

This is to inform you that the Northern Star Media Services AS email service with irregular updates of our project will now be discontinued and permanently replaced by our Facebook page: <https://www.facebook.com/radionorthernstar>
After a trial period this seems to be running well. We have also given our regular website with the radio station player a new look: www.northernstar.cc

An adjustment for iPhone/iPad is underway.

We recommend you «like» our Facebook page if you are interested in further updates of our project.

(The Facebook page is also integrated in our new website.)

For your information, I have enclosed our draft for the 2017 World Radio TV Handbook also listing information on our «cousin» station LKB LLE Bergen Broadcasting.
