

SHORTWAVE BULLETIN

Issue no. 1934, Oct 6, 2019.

Deadline e-mail next issue: 0800 UTC, Oct 20, 2019.

The DX community hasn't recovered yet after the tragic message that a long time DX-er and Latin American expert Henrik Klemetz is not With us any longer.

During the years Henrik has helped DX-ers all over the world with identification and later verifications from those weak and rare stations.

Condolences in DX-Media have been numerous.

For the first time this autumn we had night frost and immediately the leaves are falling down.

As you can see from the log there is still lots of activity on shortwave.

Unfortunately those stations formerly in the Tropical bands interesting me are more or less gone and it happens very seldom I listen on SW.

MW is so much more interesting, conds vary from day to day with stations from all continents coming in. Really amazing to check the recordings.

Keep on

QSL, comments, etc.

Christer Brunström; Voice of Turkey 15450 kHz large QSL-card depicting the Yavuz Sultan Selim Bridge in Istanbul. They also enclosed a frequency schedule for their broadcasts in foreign languages. **Radio Taiwan International, Tamsui 11990 kHz** QSL-card depicting the Minxiong Radio Museum.

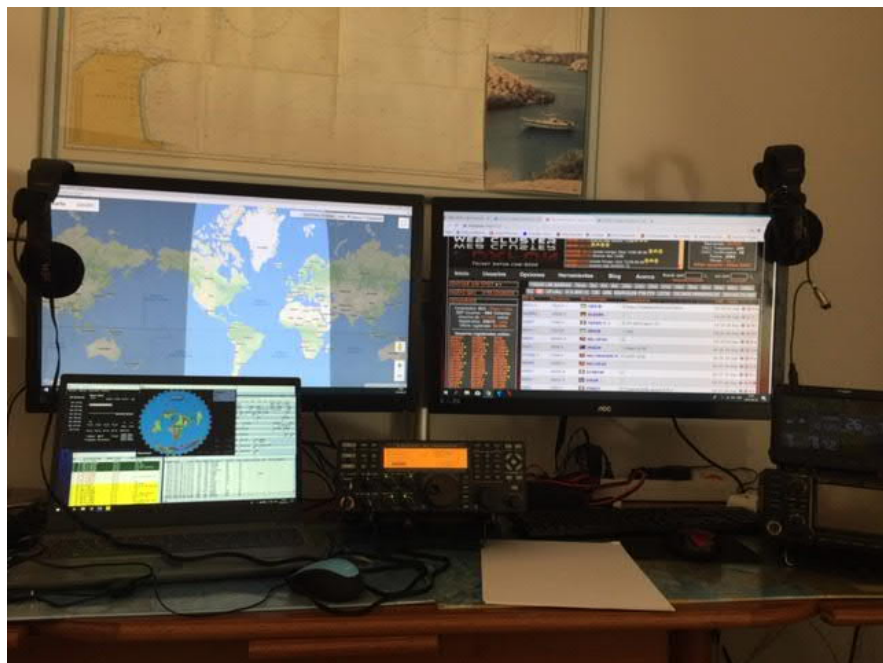

Lennart Weirell. Några QSL att rapportera: **R Casanova** - 6230 e-card, **R Deltracks** - 6390 e-mail, **R 319** - e-card

Lars Wallmark, Almunecar, Spain remote Burträsk. Allt tar sin tid att bygga upp en station på Costa Tropical, Spanien. När antenner, master mm satt upp så drog en rejäl storm fram och knäckte mast och antenner.

Men nu igång någorlunda och också på mellanvågen.

Men kör då remote från QTH i norra Sverige. Dessa bävvar har jag att tillgå: Hi-Z RX 4-SQ, belägen ~ 320m rakt norr, 300m mot Västkusten USA (330 grader), 550m mot Östkusten USA (300 grader), 550m mot Västkusten (280 grader) 280m mot Sydamerika (240/60 grader) ännu ej klar, 220m mot EU / Afrika (180 grader), 220m mot sydöstra (120/300 grader) 450m mot Australien (80 grader) och 750m mot Japan (45 grader). Den 25/9 testade jag den sistnämnda och jag lovar att utfallet var bra, japaner på de fq de håller till och mycket annat från Asien.

Mer varm i kläderna kommer det rapporter.

7140	Oct1	1743	Voice Of The Broad Masses, Selai Dairo. HoA songs. Occ. QRM de amateurs. (CGS)
7155.0	Sep27	1304	VOV, heard an interesting situation here at 1304. Clearly TWO stations mixing together; one stronger signal in Chinese (// 7220) and a much weaker underneath (// 7285); first time I have heard them both together. Thanks very much to Glenn, who last year pointed out: "7285 at 1300-1330 in French, 7220 at same time in Chinese: 7285 leapfrog over 7220 another 65 kHz below lands on 7155" (Ron Howard, Asilomar State Beach, CA, USA)
7180	Sep26	0407	Voice of Broad Masses, Asmara, Vernacular comments. Ham QRM. (Méndez)

7570	Sep25	1258	WRMI. Good signal; Supreme Master TV audio; about the relief efforts for the Bangladesh fire ("may Allah bless you"); reception killed by *1300, of very strong VOA (Thailand) (Ron Howard, Asilomar State Beach, CA, USA)
9100	Sep22	1200	Echo of Hope - VOH. Just after their English language lesson ended at 1200, there is a ten minute program called "Radio Yeogsa Geugjang" (Radio History Theater), produced by "EBS" (Korea); it's a historical drama presentation, going back to the time of the Goryeo/Koryo Dynasty (918-1392). When I first heard this program ID for the first time, thought that it was a new station ID, but not so. Thanks to the ongoing support from Amano-san (Japan), who provided me with the correct info. // 3985 // 4885 // 5995 // 6250 // 6350. Station news

KOREA NORTH. Oct 2, with the jamming of Shiokaze:

5980, fast, pulsating noise jamming long before Shiokaze started at *1300.

6070, jamming anomaly; from *1300 to 1306*, with the **programming of KCBS Pyongyang** (// 3320 // 6400); then leaving Shiokaze in the clear for about a minute; *1307, start of a slower, pulsating noise jamming (seemed slower rate than 5980). My audio, with one minute of faster jamming (5980) and one of the slower jamming (6070), at <http://bit.ly/2pi1hZv> .

BTW - Myanmar Radio (5985), on Oct 2 (Wednesday), had mostly unusable reception (1246-1256) of the usually well heard "Learning English with BBC, Burmese." This due to strong jamming of pre- Shiokaze on 5980 and also the fairly strong adjacent QRM from the new frequency for Echo of Hope - VOH on 5990 (Ron Howard, Asilomar State Beach, CA, USA)

PAPUA NEW GUINEA [both non-logs]. 3325, NBC Bougainville, 1039+, Oct 4. Clearly off the air today. A very unusual day, as NBC Madang (3260) was also silent, so no NBC stations at all. Due to this rather rare double silence, went online to find out what was happening. Found the following probable explanation for their absence: "PNG Power will be conducting major load shedding and disconnection exercises throughout the country this week." The Oct 2 info is at <http://bit.ly/2InA116> and specifically mentions "Buka" (Bougainville), as being affected, plus "conducting major disconnection exercise in our cities and towns throughout the country as of this week." VANUATU. Radio Vanuatu: New shortwave and mediumwave service through infrastructure upgrade
<https://swling.com/blog/2019/09/radio-vanuatu-new-shortwave-and-mediumwave-service-through-infrastructure-upgrade/>

(Richard Langley [WOR])

Hi Richard,

This morning (Sept 25) heard "RN2" (Japan) signing off at 1231*. Of course R. Vanuatu has not been heard on 3945 for a long time.

7260 would be impossible with Mongolia & China there blocking the frequency, so the only chance would seem to be 3945.

Let's hope it really happens!

Henrik Klemetz in memoriam

Dear all, I received a sad news that Henrik Klemetz had passed away.

It is really a great loss for the lovers of DXing Latin American stations. How many stations have been newly identified, thanks to his vast knowledge and his local connection?

When Radio Nuevo Mundo planned to publish LA DXing No.7, Henrik Klemetz was kind enough to contribute a 14-page article titled, "Having fun with your radio". Due to several reasons, however, LA DXing No.7 has not been realized.

Written in late 1990's when many small Latin American stations were still active, his article included a lot of interesting stories on QSL including "on air verie", received from Radio Centro de Ambato, Radio Cultural de Pital, Radio Catolica Nacional de Colombia, La Voz de Colina, Estacion Yurimaguas and Radio Paucartambo.

It is high time to share this invaluable article for a memory of Henrik Klemetz.

Program Antena DX från Panama om HK

Veckan före innan Henrik gick bort fick jag en förfrågan på mail från Victor Gutierrez om jag hade inspelningar som Henrik medverkar i för han samlade material och tänkte göra ett specialprogram om Henrik. Victor hade Henrik kontakt med, och att jag blev inblandad har samband med den här Panama stationen La Exitosa jag hittade på 1270 i våras som vi försökte reda ut och hade då en kort kontakt med Victor.

Jag fick hjälp av Fredrik Dourén som hade en del filer och jag hade ett par program sparade där Henrik var med och jag laddade upp de filerna vi hade åt honom, bilderna kommer från annat håll.

Idag fick jag en länk till programmet på

DX nostalgia

They don't make 'em like this any more.... In my opinion this is one of the most beautiful QSL cards ever made and it must have been a real motivation for aspiring young DX-ers way back then. Radio Caracas made a lot of listeners happy by delivering this card to their mailboxes in the 1950s. Today many are happy with just a short email reply or a "thumbs up" on Facebook. What was it Bob Dylan said: The times they are a changin'.... This card comes from the collection of Jan-Erik Räf JER.

Another Venezuelan QSL card which JER received already in 1951. Radiodifusora Venezuela was a regular guest every night on 4890 kHz for decades. Nowadays there is almost nothing to be heard on MW or SW from this troubled country.

Once upon a time there was no Google translate. This made it quite difficult to write letters in foreign languages. But this enthusiast at Radio Difusora de Jataí in Brazil did as best as he could and I am sure that Lars-Olof Hansson LOH appreciated his efforts in verifying Lars-Olof's reception report.

Jataí, august 16 th 1988.

Mr. Lars-Olof Hansson

We stayd helping with your litter, and confirmed the your report.

We await forever command newness. Ours broadcasting station be have 48 (fourt-eight) official and has two ripples: AM (ripple average) and (ripple tropical).

Lars-Olof Hansson also received this QSL card from Christian station ELWA in Liberia in 1961.

And finally a QSL card from a station which we have all listened to over the years. If you were wondering what their QSL looked like in 1952, here is the answer. Received by Tore Larsson TL.

Ronny, thanks a lot for this interesting information! /TN
