Issue no. 1974, April 18, 2021

Deadline e-mail next issue: 0800 UTC, May 2, 2021

In this issue we can present Anker Petersen's annual report "Trends in tropical bands broadcasting 2021".

Very interesting reading, especially for me and all others who have spent most of the time there.

In 1973 1106 stations and today 2021 only 74 remaining! So for me shortwave is no more of any interest.

This week we learnt that BBC plans to shut down many AM frequencies in the coming weeks! Also on MW a lot of stations have disappeared and within a few years the band will sound very different.

We can already see the problems with the frequency lists where it is difficult to get exact information when the stations have switched to FM.

So let us enjoy listening as long as we can, no matter if it is SW or MW.

Keep on

QSL, comments, etc.

Manuel Méndez. 6020, Radio Delta International, Elburg, received eQSL in one hour. Sunday 11th April transmission at 0615, heard in Reinante, Lugo, north west of Spain. Reception report sent to: info@radiodelta.am Another email address: radiodelta.am Another emailto: radiodelta.am Another emailto:

Robert Wilkner. The Mosquito Coast, April 13, 2021. A series of problems delayed this issue. "Happy to have log from Russell Scotka, an original 1980s member with, Larry W, Steve Reinstein, David Potter, William J Parks, Dan Sheedy, John Santosuosso, David Sharp, and others in the then, <u>D X South Florida</u>."

Christer Brunström: Radio Andorre (memorial broadcast via Moosbrunn, Austria) 6180 kHz. eQSL.

In the 1970s I was a frequent listener to Radio Andorre while spending my summers in the south of France.

3995	Apr8	2110	HCJB, Weenermoor German religious "Bibel lese", hymns (AP-DNK)
4010	Apr3	0005	Kyrgyz Radio, Kyrgyztan, Bishkek; broadcast opening: signal, music, short female voice an-
	•		nouncements, music. Very weak, deteriorating over listening (LOB).
4010.2	Apr10	-1800*	Kirgyz Radio, Bishkek, songs, comments. Extremely weak. (Méndez).
4450	Apr5	2130	Voice Of The People (cland.), Goyang. Kor to KRE, tks. QRM de CODAR + jammer. (CG)
4750	Apr8	2115	Voice of China, Hailar Chinese talk, songs // 4800, 6000, 6080 and 6125 (AP-DNK)
4749.95	Apr12	1200	VOI, via Cimanggis/Jakarta, 1200-1218. Unusual reception; clearly able to hear VOI (Japa-
			nese) mixing with CNR1 (Chinese); this was possible as Bangladesh had not started yet.
			3325, via Palangkaraya, was heard with a strong carrier, but no trace of any audio today.
			April 14, again had positive VOI reception 1311-1314, with distinctive national song
			"Bagimu Negeri," after the news in English; mixing with China and Bangladesh's test tone
			(BB IS started at 1314 and time pips at 1315); today heard very decent carrier on 3325, but no
			trace of any audio. (Ron Howard, Asilomar State Beach, CA, USA)
4752.15	Apr13	0030	Tnx to this tip on the WOR iog at 0017 on April 13 from Lúcio Otávio Bobrówiec, Brasil:
			"Spanish talks on 4752 kHz seems a LA station. 4764, Huanta 2000 silent for some 3 weeks.
			Congratulations Glen! 73 Lucio, Brasil``
			Got it immediately at 0030 via Bonaire SDR on 4752.15 - Spanish with reverb, live remote?
			Promoting a ``Casa de Campesinos``, ``aquí en Perú`` with phone 940-99-77-28. Brief
			song, then mentions Huamanga, another phone 996+. 0035 suddenly off leaving CODAR.
			Not on4764 either. Looks like R. Huanta 2000. Website is: https://radiohuanta2000.com/ not
			as in WRTH with fm after 2000. Audio en Vivo does not work. On page are other phones
			starting with 933, 960. Tuned around but not found on 4747 or elsewhere - just 4775 Tarma,
			and horrible spurs from 4765 Cuba about 4783 and 4747 (Glenn Hauser, OK, WOR)
4752.468	Apr15	0024	R. Huanta 2000 presumed, again tonight within 4 Hz of where it was SDR SAM-measured
V	F		last night, via TWR KiwiSDR, Boa Vista, Brasil, S8-S9 but VP unreadable, so with BFO I
			just listen for the carrier to drop, which it does at 0028* (Glenn Hauser, OK, WOR)
4765	Apr10	0139	Radio Progreso, La Habana, comments. (Méndez).
4775	Apr4	0142	Radio Tarma, Tarma, Peruvian songs. (Méndez)
4775.1	Apr15	2205	R.Tarma, Tarma. Cast, tks. 35342 (CGS)
4775.1	Mar23	0020	Radio, Tarma, marginal signal, thanks to tip from Russel Scotka. (Wilkner)
4775.03	Apr9	0000	Radio Tarma, Peru, SS, songs weak // streaming (Bernardini)

                  0110
                           Radio Madre de Dios Pueblo, Peru. Just a brief peak of audio thru the noise I could identify
                           an om speaking in SS w/ some notes of Latin style music. Signal was barely registering an
                           S3. There appeared to be another signal on 4950.02 but it was not producing any audio. This
                           is definitely a tentative log. The only thing I am sure of is the language, Spanish, and the fact
                           that I did here some Latin music. (Stephen C Wood)
                           Stephen, You mean April 6, UT? Don't forget that Angola is perpetually off-frequency altho
                           some keep rounding it off to 4950. Like 4949.7, but can't find a more accurate reading. Never
                           mind if you are absolutely positive it was Spanish, not Portuguese. (73, Glenn Hauser)

Station news

ALASKA HAARP News.

National Science Foundation funds creation of research observatory at Gakona, Alaska.

April 6, 2021. A five-year, \$9.3 million National Science Foundation grant will allow the University of Alaska Fair-banks Geophysical Institute to establish a new research observatory dedicated to exploring Earth's upper atmosphere and geospace environment.

The Subauroral Geophysical Observatory for Space Physics and Radio Science will be housed at the High-frequency Active Auroral Research Program site in Gakona, Alaska.

(WORLDWIDE DX CLUB Top News #1462 April 13, 2021)

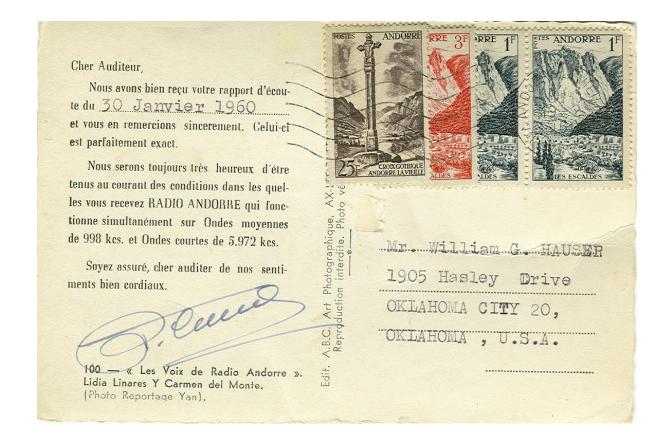

ANDORRA [non]. **6180 kHz**, April 12 at *1700, Moosbrunn on abruptly with anthem? by band, ID as R. Andorra in Spanish, rock music, French-speaking DJ. This is the much-publicized 40th anniversary salute to a long-gone SW station, arranged by Christian Milling of Germany's shortwaveservice, who informs the WOR iog:

"Special program announcement: As some of you know, the legendary Radio Andorra was taken off the air these days 40 years ago in 1981 by the government. Some programs that were prepared couldn't be aired, most of the material is lost. Luckily, the playlist of the last planned hit-parade from April, 12th 1981 survived, thus it was never broadcasted. 40 years later this will finally be done. Next Monday, April, 12th 2021 at 17 UTC, exact 40 years later we will complete history. The show will be hosted by a DJ that started his career in Radio Andorra end of the 1970s. The program will be in French and broadcasted via Moosbrunn on a steerable LogPer Antenna directed at 270° towards the centre of France. All French-speaking countries in Europe should be covered in good quality."

VG S9+40 signal at UTwente, and assumed zero signal direct at midday here. This is to last 3 or maybe 4 hours today. 1741-1751 pause for interview about the DJ and his subsequent career. Could not catch his name, which was mentioned only once in advance discussion I have not yet relocated.

There really should be some Catalan if not Spanish, English. Here's some Catalan with the playlist of 50+songs, found by roger: https://www.bondia.ad/cultura/lultim-hit-parade-de-radio-andorra

My 1960 QSL card for R. Andorra, 5972, can be viewed, #14 & 15 at http://www.worldofradio.com/QSL.html (Glenn Hauser, HBD 76, OK, WOR)

ANDORRA [non]. 6180, R. Andorra tribute special via AUSTRIA, continued from previous report starting at *1700 April 12:

Mostly unfamiliar pop songs in French, obviously from the 70s/80s. Tho playlist includes half a dozen in English by big names, which I never catch except for one I don't recognize either, checking in occasionally from 1730 to 2030. Also some long segments interviewing DJ. Apparently a count-up rather than count-down, spoiler alert! Plays leading songs in the Top 50 at first, and by 2000 UT working down into the 40s, heading toward finale by 2045. At 2037, just in case, I check it direct to here, but still too early, no signal (Glenn Hauser, OK, WOR)

CUBA. Radio Habana Cuba on 6000 kHz (Communist Party Congress and Station 60th Anniversary) Recorded 6000 kHz today (17 April) starting around 01:50 UTC. Good signal into NB but a little hummy and inconsistent modulation. Continuous repeat hourly broadcasts until sign-off at about 06:02 UTC. Special programming on the occasion of the Cuban Communist Party Congress during which Raúl Castro has announced he is stepping down as first secretary. It was also mentioned during the program that today was the 60th anniversary of the existence of Radio Habana, which started broadcasting on 16 April 1961 and was mentioned in a speech by Fidel Castro on 17 April 1961. The station was officially launched on 1 May 1961. The transmitter came back on today at about 11:00 UTC in Spanish

Solar Maximum might arrive sooner than expected. Recent sunspot counts suggest that new Solar Cycle 25 is over-performing compared to official forecasts, and could peak in 2024 instead of 2025.

(Mike Terry in WOR groups.io (2021-04-17)

The media corporation Radio Free Europe / Radio Liberty (RFE / RL, recognized as a foreign agent on the territory of the Russian Federation) within 60 days must pay in the amount of 5.5 million rubles in fines for the lack of marking "foreign agent" on its resources.

The Tverskoy District Court of Moscow ruled to dismiss the newspaper's complaint. The judgment of the magistrate on fines remained in force.

Roskomnadzor Telegram-channel clarifies: "According to the law" On Mass Media "(Art. 25.1), materials from foreign media performing the functions of a foreign agent must be distributed on the territory of Russia with the appropriate labeling. This provision is intended to inform the Russian reader that the materials distributed by these media pursue the interests of other states."

And we remind you that you can check the status of an organization or media for "foreign agency" using a bot in Telegram from the team of the Between the Lines publication from Nizhny Tagil.

Re: [nordx] Radiomuseum rond välkomna!

Låt oss ta denna Motala video från början ... https://www.youtube.com/watch?v=XTpUgDb5TIw https://www.youtube.com/watch?v=IXTop9G9uWU&t=

Helt hisnande att Motala radiostation snart med sina 100 år väcker upp ännu år 2021 debatt, storslaget! Tack till debattörerna. Annars har jag skickat den färska videon om Motala som ett bra exempel till Lahtis radiomuseum Mastola med fotnot om sakkunniges förord ifall dom kommer att planera nya videomaterial för youtube.

Radio Kurier liksom Radiomaailma publicerade mina memoar artiklar om bombningar av Lahtis LV station år 1940 och därflytande bortfall av sändningar under 10 dagar från etern. Då kom Motala till undsättning genom att leverera snabbt 8 liknande radiorör till Lahtis och Lahtis radio klarade sig! Det är en förbluffande historia! Vi Lahtisbor tackar er ännu en gång för den osjälviska viljan att hjälpa oss i en stor nöd. Episoden skulle förtjäna enl min uppfattning ett minnesmärke någonstans där på radiobacke!

(Kari Kallio via NORDX)

Jag sitter och läser gamla artiklar om Motala långvåg ikväll.

Vid Motala / Orlunda var antennströmmen till centrummasten 180 grader fasförskjuten gentemot ringmasterna. Sen störtade centrummasten under ett åskoväder i juli 1970. Blixten slog ned i masten, satte fyr på en av de oljefyllda stagisolatorerna vilket fick staglinan av gå av och masten störtade. Man kan fortfarande se kretor i betongmuren som omgärdade centrummasten. Där masten slog i backen växer det ingenting. Isolatorerna ska inte ha innehållit PCB-haltig olja.

Av vilka orsaker valde man att förskjuta antennströmmen och hur gick det rent praktisk till?

Här är en hemkörd film från mitt besök i Orlunda i augusti 2013. Tyvärr finns inte Ragnar Gustafsson med oss längre. Ragnar gick bort 2017.

https://www.youtube.com/watch?v=JSLa48GWLco

(sm6vpu, c. stödberg via NORDX)

[HCDX] Colleton County pastor Ralph Stair dies

USA Brother Stair silent key. https://www.live5news.com/2021/04/04/colleton-county-pastor-ralph-stair-dies/ (Dan Robinson-CA-USA, wor April 4)

7730 kHz, April 5 at 0100 UT, right after World of Radio on WRMI, Overcomer Ministry announces death of Brother Stair on April 3.

It's also on TOM website, and we have stories from Charleston TV stations, forwarded by several DXers:

Ralph Stair, Colleton County preacher accused of sex crimes, passes away by Matt Dillane Sunday, April 4th 2021

 $\underline{https:} \ \ \underline{https:} \ \underline{https:} \ \underline{https:} \ \ \underline{ht$

How would you like your obit to be about your sex crimes? Or merely connected to some unknown county rather than worldwide impact as the Last Day Prophet of God? I'm sure we've not heard the last of BS most of his 24/7hrs/d stuff was already playbacks, sometimes decades old.

As long as deluded psychophants keep the \$\$\$ flowing, he may live forever like PPP, DGS and other broadcast gospel huxters. Stations subsisting on that cash may be nervous and in for cutbacks - WRMI, WWCR, WBCQ. TOM homepage lost its signature image of a boneyard years ago.

(Glenn Hauser-OK-USA, hcdx and wor April 4 - 5)

He was an older man, so it was inevitable. The question is how long will his reruns continue on WRMI and elsewhere, and what happens when that money runs out to those stations (especially WRMI and WBCQ)? (Walt Salmaniw-BC-CAN wor April 5)

RAMADAN. Here is an additional information from our news editor Walter Eibl, DXM:

In 2021 Ramadan starts in the evening of April 12 and will end on May 11 2021 in the evening. The traditional muslim event depends on the moon calendar, therefore the date will differ each year.

During Ramadan most shortwave services in islamic countries will broadcast with extended schedules having some rare catches of those stations. Best wishes and good DX until May,

(Michael Bethge WWDXC, April 12) (via BC-DX)

Actually on shortwave those special transmissions are very rare, any others than Iran?

But on mediumwave there are some interesting cases like Radio Thailand 891 kHz is running islamic programming overnight and National Radio of Kampuchea started already at 2000 yesterday. I wonder if this is something new? (Mauno Ritola via WOR)

Moslems in Cambodia? About 2% of the population. Also found this: https://www.aljazeera.com/news/2015/11/19/the-question-of-genocide-and-cambodias-muslims

(Glenn Hauser via WOR)

And only 5 % in Thailand. (Mauno Ritola via WOR)

But extremely concentrated on the border of Thailand - to the Malaysia Muslim country, between Phuket and Penang, living.

(Wolfgang Büschel via WOR)

Review - Tecsun PL-330 with Craig Seager and Phil Ireland

The travel portable segment is quite competitive, with several models vying for supremacy from the likes of Sangean, Eton, XHData and Tecsun. Back in the 70's, 80'sa nd 90's, Dxers (and casual listeners) would have relished the opportunity to carry around sets with the compact form factor of today's offerings, which often boast DSP technology and multiple bandwidths. Whilst it has to be said that there is sometimes variability in the performance in different examples of modern Chinese manufactured radios, there is absolutely no doubt that many are well kitted out, and provide a complete solution to those of us who desire a lightweight addition to check-in luggage when travelling domestically, or overseas (as we will once again, post-Covid).

Enter stage left the Tecsun PL-330, a PLL DSP multiband receiver with SSB and synchronous detection, at moderate cost. Myself and

Phil Ireland put one of these through its paces recently, courtesy of member Gary Cratt, proprietor of the local importer, Tecsun Radio Australia. Our impressions follow. Let's start with the positives:

- ➤ Sensitive on most bands except LW (see CON) ➤ Good selectivity via the various DSP bandwidths available
- ➤ Numerous functions available for the user (timers, alarms, memories etc;)
- > FM stereo only available through the headphones so no degradation of FM sensitivity via internal speaker as FM is mono only.
- > ETM feature makes storing available stations easy and allowing easy access to stored stations.
- ➤ Charging of internal battery via USB input ➤SSB available (selectable) ➤SYNCH detector available which works despite some degradation of audio ➤Display bright and easy to read.

Some Cons:

- ➤ Reasonably flimsy case, most flimsy of the radios compared and the volume control and rotary tuning control feels flimsy ➤ Poor sensitivity on LW, common to many small portable receivers ➤ Some audio degradation when in SYNCH and SSB however a VAST improvement to the poorly implemented SYNCH on the PL-880 ➤ Audio through the internal speaker is somewhat tinny but still quite listenable.
- > Signal strength display, typical of recent Tecsun models, may not meet with approval of everyone.
- > Fairly short telescopic antenna for SW
- ➤ SSB needs to be calibrated (as does SYNCH) as there is a large discrepancy in frequency when on LSB. USB is ok. May be particular to the example reviewed ➤ No back stand but the radio does sit upright well.
- > A noticeable amount of soft muting apparent which unfortunately cannot be turned

Some Features:

Synchronous detection & SSB Alarm by radio

SSB (USB / LSB) fine tuning steps at 10 Hz

Snooze function –5 minutes

ETM+(Createtime-specific memories for LW/MW/SW)

Sleep timer from 1 -120 minutes

Antenna socket (3.5mm) for FM / SW LCD backlight (always-on or auto-off)

FM stereo / mono selection

AM bandwidth settings: LW/MW: 2.5, 3.5, and 9.0 kHz; SW: 2.5, 3.5, 5.0 kHz; SSB: 0.5, 1.2, 2.2, 3.0 and 4.0 kHz Frequency Range: FM: 64–108 MHz; MW: 520–1710 kHz; WW: 1711 kHz to 29999 kHz

Tuning is via direct keypad entry, auto scan, manual dial tuning or recall from some 850 memory positions. In keeping with other Tecsun models, there is a USB charging system for the in built lithium (Li-ion) battery

In summary, the PL-330 packs in a lot of features into a small space, and many will find that it does enough for their needs, and won't spend the extra for the larger PL-880 or PL-990 (see review last ADXN). There is a lot to like in this set, and it is a worthy upgrade to the earlier PL-310. The ARDXC thanks Tecsun Radio Australia (https://www.tecsunradios.com.au) for the opportunity to put this release under the microscope.

SPECIFICATIONS

Sensitivity:	Selectivity:	IF Frequency (DSP):
FM (S / N = 30dB) < 3uV	FM > 60dB	AM: 45 kHz
MW (S / N = 26dB) <	MW / LW > 60dB	FM: 128 kHz
1mV/m	SW > 60dB	FM Stereo Crosstalk: 35dB
LW (S / N = 26dB) <		Output Power: Approx. 200mW
10 mV/m	SYNC lock range: +/-1	Unit size 139 x 85 x 26 mm (W x H x D)
SW $(S / N = 26dB) < 20uV$	kHz

Trends in tropical bands broadcasting 2021by Anker Petersen

Since the Danish Short Wave Club International published the first annual Tropical Bands Survey in 1973, I have registered which stations are active, based upon loggings from our members and other DX-ers around the world. Here is an updated status where Clandestine and Pirate stations are not included.

Active domestic	transmitters	on 2200 -	5800 kHz
-----------------	--------------	-----------	----------

Region	1973	1985	1997	2009	2021
Central Africa	102	76	40	18	3
Southern Africa	57	39	33	20	5
Middle East	9	4	1	0	0
Indian Subcontinent	62	45	45	29	5
South East Asia	40	29	21	4	1
Indonesia	171	105	65	13	2
China, Taiwan, Mongolia	119	110	75	32	17
CIS (former USSR)	61	59	47	7	4
Far East	38	28	28	9	6
Papua New Guinea	17	20	20	15	2
Australia and other Pacific	10	4	13	8	6
Central America, Mexico	21	23	24	5	1
Caribbean	29	3	3	2	3
Northwestern South America	98	41	19	3	1
Ecuador	47	33	22	5	0
Peru	78	69	78	28	7
Bolivia	35	42	25	14	1
Brazil	107	87	67	35	10
Southern South America	5	2	1	0	1
Total	1106	819	627	247	74

During the past year the previous trend, that Tropical stations slowly disappear, continued throughout the world with a loss of about 10 stations. Several All India Radio stations have closed down. A year ago the Total was 84. The reason is, that other media get higher priority, than keeping elderly Shortwave transmitters alive.

Here are some of the stations on the Tropical Bands, which have closed down during year 2020:

- kHz kW Station Country Last log
- 2850 50 KCBS, Pyongyang Korea, North APR20
- 3265 50 WBCQ, Monticello, Maine U.S.A. MAY20
- 3365 1 R Cultura, Araraquare, SP Brazil MAR20
- 4800 50 AIR, Hyderabad India OCT20
- 4810 50 AIR, Bhopal India OCT20
- 4910 50 AIR, Jaipur India OCT20
- 4920 50 AIR, Chennai India OCT20
- 5010 50 AIR, Thiruvananthapuram India OCT20
- 5045 0,1 Unique R, Gunnedah, NSW Australia APR20
- 5050 4,5 AIR, Aizawal India JAN20
- 5130 50 WBCQ, Monticello, Maine U.S.A. SEP20

Below you will find a typical page from DSWCI Tropical Bands Survey in 1974, covering 3204-3235 kHz. At that time there were many more stations on these bands!

Α	3204	10	Ibadan, Nigeria 0430-0730 1425-2305

Vintage QSL card Radio Somalia, 1965 1957

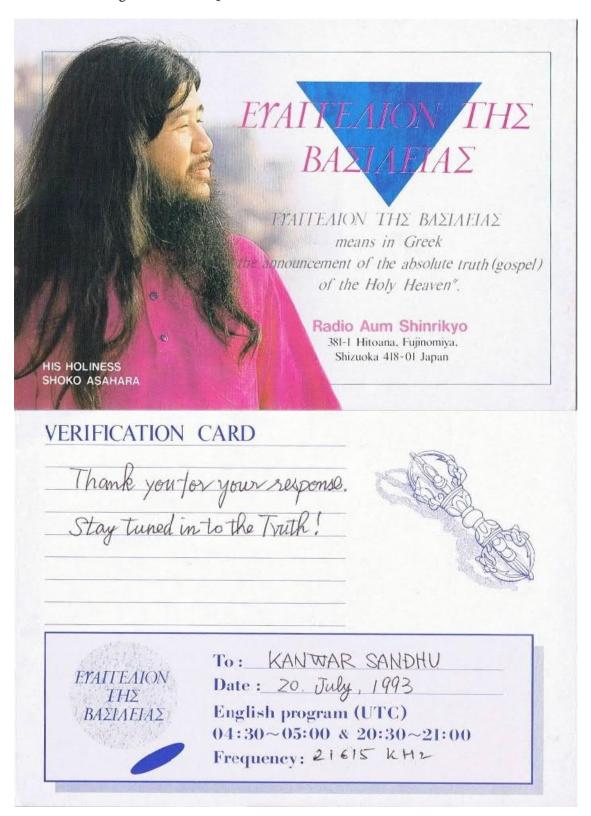

DX nostalgia by RFK

Welcome to yet another column filled with DX nostalgia. Well, isn't most of our QSLs nostalgia today, as the DX hobby itself? In these days of web radio and apps, with perfect reception (as long as the connection works....) it would seem listening to foreign stations has become quite easy. The problem may rather be finding what we want. Also, this is a different form of listening. Still, don't we all remember the excitement we experienced when we succeeded to hear that elusive station which we had been hunting for years? The joy of hearing exciting uptempo music presented by fast speaking "locutors" from Latin America in the early mornings on the tropical bands. Most of these stations have vanished and will not return. On the web we have countless stations to enjoy, many of them being one man band operations. The number of stations is simply incalculable. No need for erecting effective antennae and having sensitive radio receivers. Just a smart phone will do. But is it really the same? Is it just as fun? The new generation may find it difficult to understand why we did what we did all those years ago, including the new generation of broadcasting staff who have never heard of something called QSLs and don't understand the purpose of it....

Which brings us to the subject of DX nostalgia. Our friend Kanwar Sandhu has submitted quite a few QSLs from his collection. Let's start with a country which was the last nation of the world to ban television: Bhutan. The first radio station of Bhutan, Radio NYAB, was established by the National Youth Association of Bhutan in 1973 and it was taken over by the government in 1979. It has been a common guest in the 49 metre band when it starts the day's transmissions after midnight UTC.

Another QSL from Kanwar. Radio Aum Shinrikyo was the voice of the Japanese doomsday cult Aum Shinrikyo. Its leader Shoko Asahara was sentenced to death on account of masterminding the sarin-gas attack on the Tokyo subway in 1994 and he was executed by hanging in 2016. He wrote several books and they were often sent to listeners together with the QSLs.

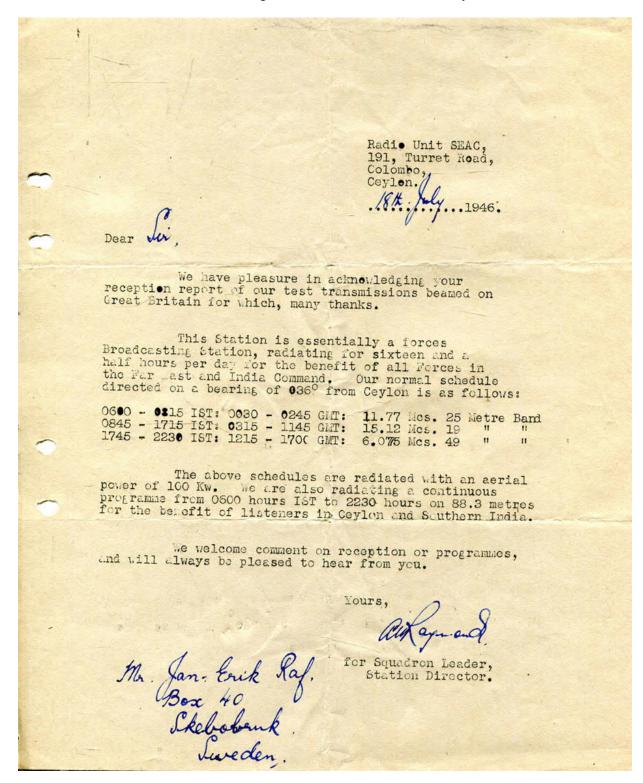

Many Scandinavian DX clubs carried special programmes over OTC in the then Belgian Congo and here is a QSL card from Norbergs Kortvågsklubb (Norbergs Shortwave Club) for a programme on January 10, 1951. The card was received by Ullmar Quick UQ and scanned by John Ekwall JOE.

Below a QSL card from Christian station ELWA in Liberia. It commenced broadcasting in 1951 and the call letters stands for "Eternal Love Winning Africa". From the collection of Lars Rydén LR.

At last a real oldie from the collection of Jan-Erik Räf JER: Radio Unit SEAC from 1946. Radio SEAC was operated by the Allied South East Asia Command that took over the operations of Colombo Radio. Radio programmes were broadcast across Asia to the allied forces and to the people of India and South Asia. After the war the station was handed back to the government and became Radio Ceylon.

Your contributions are always welcome – just mail me at info @ rock.x.se.
