nxt nr
830517

Next editor: Nils Ingelström, Minnebergsv. 9, 16134 BROMMA
Tfn: 08 / 80 03 82 (hem), 744 28 00 (arb)

Vi börjar med en dementi från LES angående 4095 kHz. Den var oid. Jag missuppfattade LES i telefonen pga en hel del lokala QRM (hund, ungar etc). OA har emellertid löst gåtan, se loggen.

Denna gång har vi en ny medlem att presentera: Fredrik Dourén, Törnbergsgatan 28, 781 33 Borlänge, signatur FD. Fredrik började dx-a 1975 och har hittills hunnit skrapa ihop 380 stationer i 134 länder. LA är favoritområde. Mottagarna är SPR-4, R4-A och HQ-145. Antenn vid dx-QTH ca 2 mil söder om Borlänge är 600 meter i västlig riktning. Fredrik har även amatörcertifikat (A) med signal SM4MWD. Välkommen i klubben säger red, SM5BKG.

Så går vi över till QSLen: JOHN EKWALL får inleda med R TV Hongkong på 3943 med kort.

KENNETH OLOFSSON meddelar till Inga per telefon: La Voz de Carabobo -4780, b, k (denna är väl relativt svårflirtad, jag har aldrig haft tur att få QSL), Afrique No 1-11940, k samt FIBS-2370, k, px-info.

Next is RALPH W. PERRY who as usual receives nice QSL's: R. Macarena -5973.5, letter from Sr. Enrique Zambrano Nieto (heard 30/3!). QTH is Calle 38, No 32-41, piso 7^o, Ap. Aereo 2484 in Villavicencio. A QSL from Peking for a rpt to PBS Wuhan (Hubei)-3940 is next and finally Radio Emisora Reyes-4420, Beni, friendly letter from Sr. José Antonia Gomez Gusman, dir. The station was founded 1982-10-24.

ILKKA KUJALA har fått: Ganzu PBS-4865, fo och px-schema på kinesiska (direkt-QSL), R. Bafoussam-4000, stencil v/s: Messi Boniface, addr: P.O.Box 970, Bafoussam, Schulungssender-5036,k, R Bandeirantes-11925, k och slutligen land 100 Zimbabwe BC Gweru-3396, jättekort.

JAN TUNER, som inte blev SM1 på den musikaliska tandborsten - tyvärr, är nu i Tyskland (DLF, Munic-mässa) har fått Afrique No 1-4810, k.

SÄLJES: Rhode Schwarz FM-mottagare, 200 och 40 kHz bandbredd. Topp-rx för FM-dx. Räknare och förstärkare ingår, plus en FM-antenn. Frekvensområde är 30 - 300 MHz. Pris 3500:- säger JT i Grängesberg.

=====

Red:Stefan Bursell,Finspångsvägen 181,602 10 NORRKÖPING tel 011-11 21 72

This time only one side,due to lack of time from my side.If going to ARC/SWB-s annual spring-convent this weekend.Besides it seems to be rather quiet on the info-front for the moment.

Now over to this numbers info-column:

TIMES IN UTC

- ALASKA KNLS,New Life Station,expected on in May for tests,with mid-July being the tentative full on-air date.Transmissions will cover Japan,China and Central USSR.The main antenna beam is 300 degrees on those areas. Secondary antenna on 0 degrees.Frequencies: 9670 0600-1100 6170 1100-2000.Address is Box 473,Anchor Point,AK 99556.
- ARGENTINA R Provincia de Misiones ceased broadcasting on 6160 in August 1982.
- BOLIVIA 4536 Rdif Puerto Suarez (harmonic) again heard -0000,announcing 1030-, by Tony Jones in Paraguay.
4806 R Frontera,Yacuiba - no trace whatsoever says TJ.
5030 R Cuarto Centenario,Tupiza has moved to this frequency,TJ now confirms this.Stn heard by GD some months ago.
4945/6025 R Illimani now starts at 0900.Perhaps we can log it next winter at this time,in Sweden.
R Cobiya also calls itself "R Horizontes".Frequency is 4856 kHz.
Stn via BE
- BRAZIL Some corrections to WRTH:4955 R Cultura de Campos left out,address published under Marajoara number(391).R Marajoaras address is: Avenida André Sert 134,Ibiporá 86200,PA.
6165 should be R Cult de Sao Paulo,their address listed under Guarani.
6080 now heard using both R Cultura de Porto Alegre and R Caicara ID on the same day.
- EL SALVADOR R El Salvador is installing new 25 kW transmitters,and new antennas. Therefore presently not active on shortwave.
- PAPUA NEW GUINEA All PNG stations now s/off 1400 ex 1300,since at least 10/3.
- PERU 4520 R Via reported is Colombian harmonic.
5060 R Amazonas reported here since 2/3.(It must have been tests on local daytime only,as I heard them close as usual on 4815,until 4/3.I first noted them on 5060 in late evening same day/SB)
5360 R Vision,Juanjui uses 1500 W.Verie-signer is Carlos Campos Rivera. Address is: Huallaga 559,Juanjui,dept San Martin.
- SOUTH AFRICA SABC All Night Service now called R Orion.

ALL TIPS NOT MARKED
OTHERWISE: DXA via OA

MY BEST ANTENNA

For those with limited space for antennas,perhaps this is valuable to try. My best result I get on a single wire,pointed in the direction I want to listen. It is about 40 m long,and grounded with appr.550 ohm in the outer end. The grounding makes a very big difference in receive-pattern,despite all technical laws.On frequencies with a LA-stn and an Asian,I've noticed that it is easier to suppress the Asian stn with the grounded antenna,then with the ungrounded. Perhaps the grounding makes the high-impedance lw more suitable for the usual 50 ohms receiver impedance nowadays.
This antenna is also my best antenna for LA on MW !
