Redaktör: Gert Nilsson, Rodervägen 30, 890 33 Bonässund tfn 0660/58083

De senaste nätterna har gett en hel del bra konditioner, trots en störning som slog ut allt här i norr natten mellan den 7 och 8. Nere hos CB i söder gav störningen som resultat att KNLS på 11820 gick helt störningsfritt på ett i övrigt nästan tomt band. Nu över till breven:

Per Ingebretsens förra brev tog 5 dagar på sig från Oslo. QSL har kommit från Radio San Miguel -3310 enkelt tryckt kort.

Fredrik Dourén har fått Radio Madre de Dios-4950 brev, R Los Andes-5030 med brev och kort efter f/up, Radio Tarma-4775 brev, vykort, Radio Ribeirao Preto 3205 kort, DYBS Aden-6005 kort och Mauritius BC-4855 kort (2:a QSL:et på en rapport.) När hittar de mina rapporter undrar undertecknad?

Per-Olov Johansson tillhör de som fått Radio Tarma-4755 med sedvanlig uppsättning och Radiodifusora Jesus del Gran Poder-5050 med kort och vimpel efter f/up.

Hermdd Pedersen skriver massvis med rapporter och har äntligen fått ett QSL: Radio Educacao Rural -4755 brev där v/s gerente Bel. Ailton Guerra berättar om ny 10 kW sändare för KV.

John Ekwall har inga QSL att meddela. JOE vill ha synpunkter om TBS vara eller icke vara för SWB-members. Meddela vad ni tycker till JOE. John tillhör nog det fåtal som rör ut med antennerna. 420 meter totalt skall hårdtestas.....

Lars Bygdén säger följande: HK Henrik Klemetz back in town d.v.s. Umeå och ställer gärna upp och lyssnar till OID LA. Band kan sändas till LAB f v b .

Gert Nilsson har inga QSL att meddela men väl följande: Har löfte av Harm Broers firma LEPUS Ekholm i Malmö att i 10 dagar prova ESKA RX12PL kopplad till MF-en på R-390A. Denna mottagare skall ge ypperlig LSB/USB samt Phase-locked ECSS mottagning av AM. Rapport kommer.

RADIOVÄDRET UTGÅR, några uppgifter från Norrköping har jag tyvärr inte fått.

Still rather bad conditions. Brazil, my favourite country, seems especially bad this summer.

BD wants a news summary, because of all the new stations to check lately. I tried to get it ready for this SWI, but I want it complete, with all the new stations, so it'll have to wait until SWI nr 13.

Now its time for the info:

TIMES IN UTC

Lets begin with part II of Juan Carlos Codina's REPORT FROM PERU:

- 3916.6-3917.6v R Nuevo Cajamarca, Ciudad de Nuevo Cajamarca, Cajamarca. Slogan "Una voz que proyecta peruanidad". Sometimes ID as "Erre Ene Ce(RNC), nacio para servir a Vd.". Announcing 3910 kHz, sch appr. 1115-0100
- 4271 Rdifusoras Guantana, Ecuador, reported last time, sch 1120-?,?-0330v
- 4361.3 R Frecuencia Juvenil, Cajabamba, Cajamarca. Slogan "La radio nueva de Cajabamba". Address: "Jiron Grau 563, frente a la Alameda Florida en la ciudad de Cajabamba". Heard 0000-0400 cd.
- 4440.6 R Atlantida, Chimborazo, Ecuador-harmonic of 1480.2x3. Seems to have changed normal frequency of 1470. ID: "Canal catorce ochenta, 1480 kHz, la nueva frecuencia de su radio amiga, R Atlantida". (ed. x4410.5)
- 4460.1 R Gran Pajaten, earlier reported, not noted since several weeks ago.
- 4550 R Paititi, Guayaramerin, Bolivia now anchored here, first noted June 28 at 2300 with good level, but with QRM from RTTY until 0200.
- 4568.8 UNID, Brazil, announcing 4600 kHz. Believe they mentioned Acre. Heard 2200-0200 June 24 and 1000-1400 fadeout.
- 4584.9 R Litoral, Cochabamba, Bolivia, booming in here June 27 at about 2200-0300. ID "...corazon de Sudamerica, Cochabamba, estrella y simbolo de la libertad continental, R Litoral, voz que reclama, justicia y pregona libertad. Onda corta 5025 kc, 1510 kc onda media, y frecuencia modulada 91 mc". Not a harmonic, very strong, good modulation, not on 5025.
- 4754.9 R Huanta 2000 (ed.-wellknown station)
- 4830.8 R Huanta, sometimes with Quechua, sometimes ID as "La nueva R Huanta". Not to be confused with R Huanta 2000 on 4754.9
- 4898.1 R San Juan de Caraz, Caraz, Ancash. Slogan "San Juan, la radio". Sch 1230-0200
- 4926.8 R Cobriza 2000, Pacaiscaja, San Pedro de Cachis, Huancavelica. 1100-0345
- 4965.8 La Voz de Cutervo, Cutervo, Cajamarca. Appr. sch 1120-0200
- 5224.2 La Voz del Cauca, Puerto Leguizamo, Putumayo, Colombia. As of June 28 here instead of 5592.4, which had been missing for a week. Still announcing 5500 kHz. Sch 2300-0200
- 5324.1 R Nueva Acobamba x5324.7
- 5560.5 R Pucara, Jaen, Cajamarca. Has come back here after more than 5 months. ID as "R Pucara, la estacion radial mas joven, la radio que mas quiere a Pucara". Announcing 5560 kHz. Cd with anthem 0205.
- 5592.4 LV del Cauca, Colombia heard here June 17, not noted daily. Slogan "Una emisora para el Putumayo y Colombia". Check 5224.2 above!
- 5656.9 R Bambamarca noted now only on its morning transmissions, going to about 2000, or sometimes 2100.
- 5750.6 R Angeles, unknown location, Colombia or Ecuador. Very poor at 0200 to 0210cd announcing opening at 2300. Maybe harmonic, not sure. Not sure of name either. Heard daily, but in most cases, not possible to ID.
- 6014.7 Emisoras Paraguay, Paraguay heard from 2230 to 0000, June 20. ID "Emisoras Paraguay, y su red tricolor".
- 6242.4 R Municipal, Calca, Cuzco. First announced that they should be on the air for just two weeks, reading letters from listeners that heard test transmissions 2330-0200, more or less. But now continuous with sch 1100-0200. Announces 6242 kHz. Slogan "La voz de la capital del valle sagrado de los incas".

- 6279.6 R Guayabamba earlier reported, not noted since several weeks ago.
 6523 Radio RJ now seems stabilized around here, and now going until 0300.
 6568.3 R Esmeralda, Huanta, Ayacucho. Stronger than the fundamental 3284.2. On this frequency since about June 10, very stable freq., no longer on 3799.9
 Sch 1030-1900, 2230-0218, cd with anthem. Heard only on harmonic for several weeks, but for the last two days strong on fundamental, and weak on harmonic
 Harmonic now 6568.6. Seems to be a problem in transmitter during first weeks.
 6905v Juan Carlos still talks about Santa Cruz, Ecuador, so I must repeat that I myself has heard them closing with the Peruvian national anthem.
 9129.5 R Horizontes, Cobija, Pando, Bolivia. Some days very clear at about 1700-2030. No commercials, only commentaries. Heavy QRM from a jammer in the evenings. Until 1700 sports programs, then Baptist show, 1730 music. It is interesting to note that this stn is received on the same freq used by some PTP stn in Cobija. Thus its possible it appears on this freq due to some coupling in the transmitter site. Full ID "1150 kc, R Horizontes de Campi, Montada, Cobija, Pando, Bolivia, la primera en el departamento de Pando, R Horizontes, Calle Pino Racua, frente a la iglesia Nuestra Señora del Pilar."
 Schedule 1200-2200, but sometimes stays off the air for 7 or 8 days.
 9458.4-.8 Restacion Frontera, Pando, Bolivia-harmonic 2x4729.2, where not heard. Has a lot of news, leftist commentaries about the internal situation, and the most intriguing thing, a lot of Paraguayan music. Announcing 4760 kHz, and the imminent opening of a MW outlet. Sch 1300-1930, not in the evenings.

BIG THANKS to Juan Carlos Codina & RIB August issue via JT

BOLIVIA This from a QSL: 5076 R Ichilo, CP 214, nominally 5070 kHz, is run by a group of chaps aged 17-21, as a project of the Salesian Fathers (Missionaries of Don Bosco) to educate and inform residents in one of Bolivias newly colonizing areas, "Yapacani". Runs 180W on SW, and has only been active on SW for this year, although MW ops date from 81-08 on 1510 kHz. Location: Villa Busch, Yapacani, Prov Ichilo, Dpto Santa Cruz. Address: Casilla 463, Sta Cruz de la Sierra (city) RWP

Due to the high cost of electricity, many stns are reducing schedules, and some are reducing power.

"RFA" via IA-DX/FRENDX-LN via BD

CUBA Several reporters believe that R Moscow & R Mayak is relayed by Cuba on 4765. Heard around 0100 to 0300.

Bolland, Wilkner, Sparks/PT

DOM REP R Earth via R Clarin is retimed to 0200-0300

SB

ECUADOR R Nacional Espejo heard on 5039.2 1025-1130 June 13. ID "...R Nacional... Ecuador...", "...R Nacional El Puyo...", "...onda media. 5040 kc onda tropical... R Nacional Espejo"

Aoi/RNM

FRENCH GUIANA FR3 designation dropped. Recent QSL shows RFO Guyane. (Donald Hosmer) Apparently RFO derived from "Societe Nationale de Radio et Television Francaise d'Outre-Mer". Also says following: 3385 4 kW night, 6170 4 kW day, 4972 1 kW, 5055 10 kW at 245°. Site is Matoury.

GH/FRENDX-LN via BD

GUATEMALA German news agency DPA reported Summertime introduced from 21/5. That means GMT-5. Normal time again 2/9, that is GMT-6. Stns now signs off/on an hour earlier now.

GH / FRENDX via BD

PARAGUAY New on 6150 kHz with 10 kW is R.FF.AA (Fuerzas Armadas), Asuncion. Prefix is ZPA45 and Gte (THE says qth, I suspect the first) is: Gomez Brizuela y Ayolas.

WRTH-LANL/THE

PERU The stn on 4965.8 is LV de Cutervo says Inoue now. Heard often in June. Prefix OAX4C (or Z). R Vision still on 5360. Still UNID on 5063.8. Aoi has heard ID as "Radio..... Los Andes, Peru".

RNM

UNID noted on 6199.2 since 4/6, heard quite often since. Possible ID as "R Los Andes". Possibly the one in Pampas x5300 kHz.

UKDXA

VENEZUELA R San Cristobal says following: 1060 10kW, 9570 1kW, sch 1000-0400

WRTH-LANL/THE

INDONESIA R Metro Jaya heard on 4881 until cd 1100, first noted June 19th, cd that day 1205. Before that UNID noted on 5058 until 1110 June 16th, possibly same as 4881. Maybe the Y from 5044.

Oka/RNM
