- Årets sista bulle från Växjö. Observera att nxt nr blir den sista 1-vecko-bulletinen för säsongen, där-
efter 2-veckors mellanrum. Kondsen fortsätter att vara så där "halvbra" och höstens ankomst börjar märkas
på banden. Asien-dx:arna väntas snart fram ur sina sommar-iden! Lite färre QSL har inrapporterats denna gång:

CHRISTER BRUNSTRÖM ringer till jobbet och anmäler bara Radio Tachira -4830 kort, samt en "oid" brasse.

PER-OLOV JOHANSSON meddelar KNLS Anchor Point AK -11820 med brev,cov.map, m.m.

FREDRIK DOUREN också KNLS -11820 med ovanstående; Faro del Caribe -5055 stenc, vimpel & turistinfo.

HERMOD PEDERSEN skriver på kort R Andahuaylas -4040 brev, vyk (v/s i 853); R Tarmas -4775 brev (same v/s);
R Tachira -4830 kort med v/s som i 876. Tipsar oss om telefonsvararen hos WWV-Boulder, tfn 0091-303-497-3235
Siffrorna rabblas upp på 30 sekunder! / Kan väl inte kosta så mycket då under "billig" tid... /

BENGT DALHAMMAR utan QSL, men förklarar sin inaktivitet som berott på en krånglande R7, nu frisk igen!
Symptomen var felande frekvensdisplay (bortfallna siffror eller "vandrande" frekvens) och diagnosen t.v.
fastställd till gammal vanlig "hederlig" glappis glappkontakt. / Känns igen från allt och annat också! /

GERT NILSSON ringer i grevens tid och meddelar resultat av test: ESKA RX12PL ihop med sin Collins R390.
Resultatet lyder: Ej imponerande. Varför och för vidare info, kontakta GN. SA testar som vanligt för "EV".

For this number I've been asked to cover Asia, since autumn is closing up, and time to check these stations again.

I'll try my best. Asia isn't at all my DX-area. But first this: TIMES IN UTC

REPORT FROM PERU PART III by Juan Carlos Codina via RIB

2923.6H R La Oroya is 2nd harmonic of 1461.8 (unfortunately!)

3180.6H Colombia, R Metropolitana, Envigado (x La Voz de la Musica), 2x1590.3

3182.5 R Universal de San Marcos, San Marcos, Cajamarca first noted July 9 at 0100. Sch 1300-0500 more or less.

3260.7 Ecuador, RDif LV del Rio Carrizal schedule 2330-0320

3289.9 R Tayabamba first noted July 5, sch 1100-0316. Tayabamba is in La Libertad.

3394.3 R Ondas del Huallaga first noted here July 3 at 2045. No trace of Zaracay until 2336. (x 3329.9)

3552.9 R La Convencion, La Convencion, Quillabamba, Cuzco reactivated, first noted July 24 at 2330, closing at 0330.

3670-3945 R Huamachuco now varying daily over this range, +-5 kHz every 10 mins.

3900 R Pochochitos, or something like that, first noted July 24. Good programming, mostly educational & journalistic. Before cd 0530, 30 min of musica criolla. Weekdays closing at 0500 with NA. More news to come.

3910.6-3912.6 R Nuevo Cajamarca now here. Correction: The city of Nuevo Cajamarca is in the province of Rioja, Depto San Martin.

4385.5H R La Oroya also noted here. 3x1461.8

4498.8 R Esmeralda de Huanta first noted July 2 in //3285. Also announces 1590.

4501.8 R Esmeralda de Huanta July 26 and following days, replacing 5194.4

4568.7 Brazil, R Educadora Sudamericana tentatively IDed. Noted mornings and evenings closing at 2250. Evening sch irregular.

4854.3 R Pampas announces July 12 that in near future will move to 4875 kHz.

4919.9 Honduras, R Progreso, El Progreso, Yoro, first noted July 11, opening 0000, heavy QRM from 4920.4 R Quito. Cd at 0200. Ann. 1110 and 4920 kHz.

5005.3 R Jaen noted here. Not so big news, but not so common. Sch 1100-0300

5035.2 R Ayaviri is on this frequency, almost always heavy QRM from Imagen 5035.

5050.6 R Municipal de Cangallo, Villa (?) Fajardo, Ayacucho, 2230-0145, fair signal, easily heard, but very few IDs.

5183.3 Bolivia, R Paititi, Guayaramerin. Two weeks ago I heard UNID here with very good modulation & strength. Today July 26, it reappears and positively IDed as this. Heard 2230, until 0130. Note also that this and 4550 are equidistant from 4865 (315 kHz removed), so must be problem with transmitter.

5194.3 R Esmeralda de Huanta noted here July 5, claiming to be on 4350 kHz, but not heard on other frequencies, not even 3284. Full sch is:

1030-0300 on 5194.4 continuously. 3285 OAX50 is off 1415-2100.

From July 26 1590 kHz will also be on the air, call sign OBX5C.

5252.8 R Esmeralda de Huanta noted here July 4 announcing 4350 "banda de 60 metros" plus 3285. Seems to have several crystals, so always try the other frequencies: 3284.3 4498.8 4501.8 5194.4 and 6568.4

5324.9 R Nueva Acobamba now has new transmitter, first noted July 12. "...con la nueva potencia tan esperada, para todo el centro del pais.."

I think this is a change from 100W to 1kW. Now drops "Nueva", and IDs as R Acobamba.

5450.3H R Cajabamba, Cajabamba, Cajamarca earlier UNID, now positively IDed.

5th harmonic of 1090, but good level, similar to another SW station.

5657 R Acunta, Mariscal Morales, Chota, Cajamarca announcing that they are in test transmissions 2000-0400. Note that on 5656.9 during May and part of June, R Bambamarca, Hualgayoc operated here. I suppose the transmitter changed hands, both places are very near.

5750.6 UNID. The stn noted here is not R Angeles, but Em Nuevo Horizonte. After nearly a month I've heard the ID clearly several times, but not frequency and location. Because of low power I think this is a harmonic.

5816 La Voz del Altiplano back after months inactive. Noted 2336 until cd 0300.

5970.1 R El Sol, Lima reactivated! First noted July 24 Sunday with sport at 1830, closing 0500. Weekdays opening evenings 2350 to about 0345. Mornings 1300-

- 6111.3 R Yungay, Yungay, Ancash. First noted July 28 at 1930, with heavy splatter from R Panamericana, but luckily enough R Union inactive at this moment. Heard from fade in 1500 until fade out 2200. Poor modulation, weak signal.
- 6137.4 R Colonial, Nuevo Cajamarca, San Martin heard first day on the air, July 29, with test transmissions. Announcing 1510 and 6130 in the following days. Sch 1200-0040
- 6199.3 R La Voz de Huamanga, Ayacucho, 1100-0300, quite strong, but splatter from R Cuzco on 6194.7. Sunday evenings with "Ecos del Deporte".
- 6524 Radio R.J. and R La Voz de la Juventud are confirmed July 9 as the same station. Some days IDs as "RJ-1". Noted 0000-0220. Good style, like a big Colombian, with recorded IDs, lots of ads. Many mentions of the city Catacocha near Loja, so it must be located near there. (Ecuador)
- 6568.4 R Esmeralda de Huanta back using this freq as fundamental, without a trace of 3285. Stn has been raided several times by the "Sinchis" (repressive special police force), because of its political commentaries. Several journalists imprisoned, Sinchis even tried to destroy the antennas.
- 6674.6 Bolivia, R Pedro Domingo Murillo IDs as follows "CP198, R Pedro Domingo Murillo, sociedad de responsabilidad limitada, Quime, La Paz, Bolivia". First noted July 9 1600-2100, as usual closing 1800. Really very low power.
- 6793.7 R Moderna, Moyobamba (don't confuse with Celendin), San Martin noted 1800 July 31. Slogan "Desde el corazon de la selva, en el departamento de San Martin, transmite R Moderna". Opening at 1255, some days going until 2300, but no evening transmission.
- 6856-6909 R Cuatunumi now positively with the complete ID: They broadcast from Santa Cruz, Cajamarca. Address is: Avenida Brasil 449, Santa Cruz, Depto de Cajamarca. Noted July 26 0100-0500, cd with NA.

Puh! , it seems I was a bit early with my out-of-band list.

GH/RCI

DOM REPUBLIC

R Santiago noted on new 6120, first 30/6, but no ID until recently. S-on varies after 0930, but not to be confused with El Mundo!, which I hear signing off(?) at 1000, or Nicaragua on 6120.7 signing on around 1100. Geoff Cosier, LA-DX Down Under

RNM

ECUADOR

Juan Carlos Codina also says that 4900 IDs as R Libertador.
Exact frequency is 4900.5

GH/RCI

MEXICO

La Voz de America Latina heard on 14896v 0116-0133. Noted very often with bad modulation, but excellent level. Apparently 15160 transmitter with serious problems.

FT

PARAGUAY

R Chaco Boreal noted 0126-0157 on LSB via PTP-transmitter ZFG4 in Asuncion.

FT

PERU

La Voz de Oxapampa noted in Finland on 3262 kHz until 0312 20/8
(Watch out for LV Rio Carrizal, ECU on 3260.7, cd 0320)

DXC via JC

R Cutervo, Cutervo, Cajamarca heard on 3389.9, testing between 0000-0506. Not to be confused with LV de Cutervo 4965.8
This from Juan Carlos Codina.

GH/RCI

Apparently new station R Nuevo Continente heard by your editor on 5190.6 September 1st between 0400-0504
They had a program called "Fiesta Continental", containing all kinds of music from serenata to local pop.
Some ID goes as follows: "En el aire, nuestra doble frecuencias, ... en amplitud modulada ... cientocuarenta kHz, en onda corta banda de 60 m, 5060 kHz, esta es Nuevo Continente desde Cajamarca, Peru" "esta es R Nuevo Continente, peruana voz en los... de America"
Cd without national anthem.

SB

URUGUAY

R Carve will introduce new 50 kW SW-transmitter this autumn.
SODRE will introduce 2 new 200 kW SW-transmitters this autumn.

Jurki Nokkonen/BBC FINNISH SCE

UNID

Interesting developments on 3646 kHz. Huge open carrier for nearly a year. July 16 Dave Crawford told that something was cooking there. At 0100 clear taped ID for automated FM rocker WFYN, Key West. Bob Wilkner phoned Ft Lauderdale FCC who denied there was any stn on 3646! What could it be then? US Govt/military, FCC-sanctioned? Test for R Marti from Key West or nearby? Another of Fidel's fun & games from Habana? Later carried Mayak//4765 !
