

SHORT WAVE BULLETIN

Nr 891
840321
nxt nr
840403

Nästa redaktör: Roger Thörnberg, Vasagatan 7A, 216 11 MALMÖ.

Då var det dags för mitt sista nummer av SWB för den här gången. Kondsen har under de senaste veckorna inte varit alltför över sig, så därför behåller vi 2-veckorsutgivning ytterligare en gång. Dock finns det lite intressant i loggen, så det bör bli en intressant helg.

Note to our foreign members! New editor next time, and from 3:rd April SWB will come weekly!

En liten hamstringspåminnelse till de svenske: I samband med portohöjningen den 1 april kommer även Ljudbrevet att höjas. Det nya priset blir 12 kronor, så det lönar sig verkligen att hamstra. PASS PÅ!

SUNE MARTINSSON har haft lite annat än DX-ing att tänka på den senaste tiden, och meddelar en pojke på 3.940 gram som svar på en tidigare avsänd försändelse. Naturligtvis ställer hela SWB-gänget sig upp som en man och deltar i hyllningskören. Samtidigt ställs frågan: Kommer han att följa pappa i fotspåren och en gång träda in i den illustra SWB-skaran? Dessutom har Sune fått R Moundou-5286 handskrivet brev från Dir. Dorong Guéla Kétechoua. Övriga anmälda QSL kommer nästa gång!

SHORT WAVE INFO

Nr 21
Suppl. SWB
840316
nxt nr
840413

Ed: Stefan Bursell, Finspångsvägen 181, S-602 10 Norrköping, Sweden tel. 011/112172

Time again for some info. March 10th proved very good LA-reception, as you can see in SWB.

Together with this SWI you'll find a station list put together from various sources, mostly JCC. Perhaps this will be useful during spring. Times mentioned are not all schedules, they're only there as a guide for when to try.

Now this numbers info:

ALL TIMES IN UTC

REPORT FROM PERU PART IV by JCC

- 3897.8 R Nuevo Cajamarca now heard with far better strenght 20dB over 9. Ard Dec 25.
4615.1 R Lluvita or Lluvica (tent), Peru first heard Dec 28. Frequency varies to 4620. Distorted sound, commercials, announcements and huayno music. Time is 0050. Heard again 31st around 0130. Same distorted sound, no carrier detectable.
4935.1 R Abancay, Peru is reactivated via GH/RCI
4990 UNID Peruvian with powerful transmitter testing 2250 & midnight until 0200 GH/RCI
5120.4 R "RM", Nasca, Peru heard 2200-0100 & 1030 until past 1300. Another ID sounded like R "Poros?" GH/RCI
5145.9 R Galaxia, Guayaramerin reactivated (x5511) first heard Feb 1 at 0128. Announced 5145. Closed at 0230. Feb 4 heard as early as 2245. RIB
5339.9 R Continental, Andabamba, Santa Cruz, Cajamarca, Peru. Cd announcement heard 2200, back again 2300. This is the same station as LV Nororiente, same people at the mic, they even use the same music for the announcements. I think this is a mobile transmitter, and this entrepreneur-announcer-technician is traveling for the provinces, or he changes his address.
5519.2 R Nanduti (tent), Bambamarca, Peru heard Jan 1 at 2120 on 5578, now here since Jan 4. Distorted sound, but readable. Music from the North, or Ecuador. Pasillos-like, mostly nonstop. Cd 2240 without anthem, announcing back at 1900 next day.
5870v R Bolivar, Cajabamba, Peru heard Dec 31 at 2300, varying all over 52 m-band.
all over 52m Earlier heard on 5845-48. Very strong signal, distorted, but at least readable.
5900 Cd with anthem at 2306.
R Yungay, Ancash, Peru heard on this frequency 2000 until around 2300. Also heard on 2950.1 until 0220 GH/RCI
6284.9 UNID, Brazil heard with good signal Dec 24 at 0215, announcing that they are in a special program for Natal. One ID heard "Radiodifusora Rural??"
6814.6 R Nuevo Eden, Celendin, Peru heard testing this Christmas. When normal operation begins, they will have the following schedule: 1100-2300. This is the 3rd stn so far in this city.
6205v R Emisoras Totoral heard 2301 until 0130. Variable to 6232, drifting 100Hz every 2 minutes. Station located in Bolivia. GH/RCI & RIB
7310.2v R Selva, Moyobamba reactivated. v-7310.8 TIPS NOT MARKED OTHERWISE: RNM

COLOMBIA

JCC now confirms Stoller report on R Lux (Luz) on 3705.5

As you can see this station not a peruvian! as earlier reported.

GH/RCI

ECUADOR

6520v-6553 Radio RJ1 finally established location is Guachanama.

A reply from Sr Augusto Bravo Cordova reached Ralph. Stn format is sanjuanitos, pasillos & pasacalles, making R RJ1 very popular.

No info about trmtr, nor his title, leading Ralph to believe this is more bootleg than legal.

RWP/FT

HAITI

4930 4VEH schedule is: 1000-0245 Sat & Sun (local days) and 1000-0300 weekdays. Freqs are only 840, 1030 and 4930. No plans for EE. They use SS to Cuba 2000-2300. FF & Creole prgrms targeted to Haitians in Miami.

DXA via OA

NICARAGUA

R Sandino noted on 6199.8 000-1100. Dont mix this stn with LV de Sandino, and watch out for LV de Huamanga, Peru.

GH/RCI

PERU

9539.5 R Cultura, Puno, probably the old one on 4971 again heard in Sweden! Last time was in Nov 83. Try around 2300. Why cant anyone else hear this station? Seems only active night Fri-Sat. All loggings made those nights!

73 / SB
