# SHORT WAVE INFO

Nr 23  
Suppl. SWB  
840429  
nxt nr  
840511

Ed: Stefan Bursell, Finspångsvägen 181, S-602 10 Norrköping tel. 011/112172

Last night very good conditions for Peru, R Acobamba heard with QSA 4, amongst several others. It was also the first night with my new antenna, 100m long. If all goes well, another 200m appr. will be added in the next two days. Now over to the info:

REPORT FROM PERU part XI (until Apr. 16)

All times in UTC

- 3906.3 R Nuevo Cajamarca, San Martin, Peru now here, as noted Apr 7 at 2330, moving upwards. At the same time R Huamachuco noted on 3944 kHz.
- 4692-4710 The stn earlier reported as "LV de Guaitas" tentatively, is really "La Voz de Bolivar". Not heard since early December, but rechecking an old tape gave a very clear ID as "LV de Bolivar". Sorry for the mistake!
- 4916.3 R Continente, Mariscal Caceres, Huancavelica, Peru first noted March 4. RWP later told me that this stn perhaps is not located in Huancavelica, but in San Martin. Well, to be frankly, I only heard Mariscal Caceres as QTH, but without department mentioned. And, in my map, only appear one location with this name in Huancavelica department. However, for its low level here in Lima, I suspect for some time now, that this stn cant be located in nearby Huancavelica.
- 5165.1 R Yungay, Yungay, Ancash, Peru first heard April 15 at 1645. This is its 5th change in frequency already! Announcing 5160 kHz.
- 5264 R...., Bagua, Peru first noted April 14. Complete heard ID "...En el aire por primera vez, en las orillas del Rio Utcubamba, Prov de Bagua, Dpto de Amazonas, Rep. Peruana. Una emisora en la frecuencia 5260 kc, OC, banda de 60m, en calidad de prueba, para todo el nororiente peruano, muy pronto saldremos al aire, al servicio de la colectividad y al gusto de cada uno de ustedes..." Heard until 0300, following day noted 1630 until 2200.
- 5531.7 R San Francisco, Bambamarca, Cajamarca, Peru. Heard here this stn previously identified tent. as Nanduti. Today April 15 heard a clear ID as "R San Francisco, la nueva radio! Varying down to around 5520, times 2145 to 2220cd.
- 5802.4 R Acunta, Chota, Cajamarca, Peru reactivated, announcing 1400-0000, but conflicting with that going until 0200, today, Sunday. Very good signal, nearly 10 dB over 9 here, and very well modulated. I suppose it now will be reported elsewhere. Cd 0000 seems to be only weekdays, Sundays extended schedule, so try then.
- 5955.2 R Huancayo, Huancayo, Peru is now 24H on shortwave.
- 6548.4 R RJ-1, La Voz de la Juventud, Ecuador. Heard as usual here April 14 at 0100
- 6814.6 R Nuevo Eden, Celendin, Cajamarca, Peru reactivated, first heard April 2 0130. Not heard since early January. Announces that soon will be operating regularly.

JCC

BRASIL From ARMs "Brazilian MW, SW&FM Stations List, now available every year in April the following is selected:

2310 1 R.., Boca do Acre, AC projected	4975 5 R.., Labrea, AM projected
2310 1 R.., Humaita', AM	" 9735-7.5 R Clube Paranaense soon
2350 1 R Difusora, Cruzeiro do Sul, AC deleted!	active again.

Via OA

COSTA RICA 4825 R Columbia has a DX-program 0300-0330 and 1200-1230, no day given, for Europe and America. Produced by some local radioamateurs, including techn. Dir. Edgar Solano, who also verifies correct reports.

DXCLUSIVE via JOE

PERU 6035 R Landa, Arequipa said this "In this March we are going to start SW-transmission with 1 kW". Slogan "R Landa, la decana del Sur del Peru". Operating time 0945-0400
