Lets hope it will stay like this. Now over to the info:

ALL TIMES IN UTC

BRASIL First some corrections to SWI nr 19, where I unfortunately made two mistakes!  
This due to stoptime running out, and long distance between columns in the original:  
3385 The one heard 840106 was R Educacao Rural, Tefe, not Juazeiro!  
3385 R Juazeiro now is inactive.  
4925 R Dif Taubate, never heard should of course be daily!  
The one never heard was 4935 R Capixaba (Common in Sweden until 82)  
My sincere apologies to Antonio Ribeiro da Motta for the inconvenience caused!  
9735 R Clube Paranaense is reactivating this CRG officially from 840509 with 7.5 kW. Broadcast time 0800-0300. Accurate report about receiving quality could be sent to:
