På grund av arbetet (värd vid större middag) kommer HM att skriva SWB 901 nästan helt klar på måndag kväll. Det går bra att ringa in tips då. Det mest intressanta från tisdagsbrevnen skall HM dock försöka få med. Vi gör denna omdisponering så att alla skall hinna få SWB före helgen.

Först en hälsning från RÅ som skickar ett vykort från Balcarce i Argentina. Så över till QSLen:

STEFAN BJÖRN meddelar R. Plateau-5965, stc; R. Milano Int-7295, k, b och R. Clube de Marília-3235, k, b efter f.u. (correct address is C.P. 326, 17500 Marília, SP).

HASSE MATTISSON, näste red, har fått CID, Em Ignacio A.-5106, k.

CHRISTER BRUNSTRÖM och OLLE ALM kortm.m. från KFBS-15115 (se nedan!)

KURT NORLIN glädjer sig åt ABC/Wanneroo-9610, k; R. Victoria-7295, k; R. Nal de Guinea E, Bata-4925, b samt V of the People of Kampuchea, b.

CARL GUSTAV KÖHLER avslutar med ännu ett icke-QSL: R. Nal Guinea E-5005, brev från José Mbã Obama Bendomo, Apto 749, Bata Litoral.

Så två programschema ifrån OA (tnx!). Valid May 6th - Sept 1st, UTC.

Last week has been very bad for LA-conditions, nothing new to report. The latest SWB hasnt arrived yet to me, but I guess it will be here tomorrow, Monday. Some members got it on Friday I'm told. I guess it is NI's work keeping him busy that caused the delay? Or a lazy postal service?

Message to FT: I guess you misunderstood the meaning of exchange bulletin as I'm reading this in latest Fine Tuning: 4927.6 R Central, Bella Vista, 840411, 0400, New stn according to Swedish DXers....., Finn Krone via NU (Numero Uno) !!

Exchange means use of each others material, so why dont you use this goodie direct from the source, that is SWB?? So far I havent yet seen any material from SWB, used in FT! (Rumours say there is two versions of FT, one USA, and one international) Please explain this, Dan Ferguson! Now over to the info: All times in UTC

REPORT FROM PERU part XII (Apr 19-May 1)

+ :Updating info via GH/RCI (JCCs latest report hasnt reached us yet)

GH/RCI

CLANDESTINE 9610 R Liberte, anti-Baby Doc, finally a QSL received with some background on this intriguing outlet. RWP had sent reception reports to a number of organisations in the hope that one might be able to forward my report to the RDNP, and the Haitian Refugee Center in Miami was able to do just that. Friendly letter from M. Jean Lescouflair, Coordonateur - Branche de Floride, the Rassemblement des Democratres Nationaux-Progressistes d'Haiti. (RDNP) RDNP has 26 branches the world over, in Europe, Africa, USA, Canada, and LA. They want democracy and the same justice for all. They want to stop the flow of refugees to Florida by organizing the Haitian country, creating jobs and making Haitians proud again of the first Black Republic of the Americas. QSL seekers may take a direct route now, since the letterhead indicates the following addresses: P.O. Box 380171, Miami, Florida 33138, and venezolan headquarters: Apartado Postal N. 18060, El Silencio, Caracas, 1012A, Venezuela. They only transmit on the one SW channel, no MW planned.

RWP

PERU HGV tells me a new address to 4990 R Ancash, he's seen it for a month! I rechecked all our bulletins to see if I missed it, and the answer is, it hasn't been in any one of them! Anyway it is: Apartado 210, Huaraz, Depto Ancash, Peru. Try this one instead of earlier reported: Esquina Raymondi y Cajamarca, Huaraz, Ancash, Peru. (SWI 22)

HGV

6900n R Cotorumi runs 100W into a 15 m high antenna that is 22 m long. Schedule is 2300-0500, which is when they can get electricity! V/s says that his xmtr is "sumamente pequeno que Vds. no puede imaginarse..". Address as JCC: Avenida Aviacion 449, Santa Cruz, Dpto. Cajamarca, Peru.

RWP

INDONESIA 3000 R Khusus Pemerintah Daerah Tkt. Satu Jawa Timur, Surabaya. QSL indicates station now running 1 kW (!) into halfwave open dipole.

RWP

ITALY R Europa Internazionale has wrong address in WRTH. Correct one is:
" " " " , Via Privata Terzulli 10, I-25100 Brescia, Italy.

HGV

USA It seems SW from this country is having a new progress period:
SW application accepted for filing at the FCC is:
\$ Lambda Broadcasting Corporation, Hawaii
\$ Criswell Bible Institute, Dallas, Texas
\$ Comercial stn at Opelika, Alabama. A project of Dickson Norman, longtime radioentrepreneur, and J.H. Orr, founder of Ampex. They will have a contest to name the station. Will experiment with talkshows, AM-stereo and call-ins.
\$ Within a few months two more stations will be on the air. Nearest to completion is the Assemblies of Yahweh station in Bethel, PA. To use a modified logperiodic toward Europe/Middle East. Call sign WMLK, from Hebrew Malik, meaning messenger. Reg. sch 1700-1900 15110, 2200-2400 15260.
KCBI, Criswell Bible Institute, Dallas, TX is next with 50 kW with antennas for South America/Europe. SW is for extension of existing FM station. Will play worshipful mx, and Bible teaching. S84 tent sch is 17705 1800-2000 Eu, 17705 2200-2400 SAM in English & Spanish. Now rebuilding xmtr, servicing antennas. Testing should be complete for airdate at end of summer.
Address is Box 1809, Dallas TX 75221
\$ FCC is considering or granting four more:
Harry Norman in Alabama has plans, and most of the financing, to complete a proposal for a 100 kW stn. Will carry world class sporting events, world series, intl talk, noncontroversial topics. Addr 705 2nd Ave, Opelike AL 36801
\$ Hugh Von Eaton has his eye on a 100 kW xmtr. FCC has granted CP nr Homewood, LA. Stn will air religion, PSAs and music. Grantee has been pastor for 35 years. Construction to start shortly. Broadcast to Eu/Saf with 3 antennas in 3 directions. Needs more money, going slowly.
\$ 100 kW stn in High Adventures, California, is planned. Already operates Voice/King of Hope/Lebanon
\$ R USA in California, xmtr near Napa, 100 kW to Caribb, CAM, SAM. Call prob. KUSA
